

BENEFITS

- ✓ Provides noticeable analgesic results to the skin within minutes
- ✓ Reduces pain and redness associated with sunburn and skin irritations
- ✓ Reverses cellular damage due to over-exposure due to other dermal irritant
- ✓ Increases cellular energy and reduces inflammation
- ✓ Can be applied directly to skin, hair and scalp
- ✓ Penetrates deeply to benefit your body's response to subdermal issues as well

REPAIR & RENEW YOUR SKIN

UltraMito Rejuvenate is profoundly effective because it has been formulated to enhance your skin's natural ability to heal itself, containing all natural ingredients known for their pain and irritation reducing effects.

UltraMito Rejuvenate has many uses for issues with skin, scalp and hair. By careful balancing, a powerful synergy is achieved. This yields noticeable results you can feel within minutes!

UltraMito Rejuvenate, with its proprietary XDS-s282™ technology, does not stop at the skin. It also penetrates to bring relief from pain and numbness and to restore function to neck, shoulders, back, elbows, hips, knees and feet.

XDS-s282™ technology is designed to deliver a healing boost directly to the site where the nutrients are needed most. UltraMito Rejuvenate uses the same principals of nutraceutical formulation as our other UltraMito products.

A most versatile product, use it from face to feet.

Foxx Legacy, LLC.

HOW IT WORKS

The UltraMito Rejuvenate formula uses all-natural ingredients that have been shown to provide an immediate benefit to the skin. The ingredients were carefully chosen for their effects on the body's cells. Though these substances are beneficial, their bioavailability can be low when taken orally. UltraMito Rejuvenate utilizes XDS™ a revolutionary delivery

system designed to allow these powerful nutrients to penetrate the skin where they can become extremely effective.

Our formula's nutrients act to protect the cell from free radical damage, repair membranes and improve energy metabolism by effectively managing free radicals, the cell can focus on making repairs, rather than fighting ongoing damage. By restoring function to cell membranes, all cellular functions benefit from increased efficiency and optimization of nutrient transport, cellular defense, and signaling mechanisms. By optimizing mitochondrial energy production, the cell can now begin to perform long-term restorative maintenance that would have been impossible without the protection and enhancement provided by the UltraMito Rejuvenate formula. UltraMito Rejuvenate can be used in conjunction with UltraMito Mind and Perform. The result is a restoration of function in all body systems that have begun to show effects of aging. This is the key to the comprehensive, holistic restoration of function delivered by UltraMito.

XDS-t035™ Proprietary Blend! UltraMito Rejuvenate consists of a proprietary blend of natural ingredients known for their pain and irritation reducing effects. By careful balancing, a powerful synergy is achieved, yielding noticeable results you can feel within minutes! **Aloe Barbadosis Leaf Juice & Aloe Arborescens Leaf Juice:** Studies have shown that these two different types of aloe to have beneficial effects on skin healing and cell proliferation.¹ **Emu Oil:** Emu oil is a useful agent that significantly improves itching, erythema and scales associated with seborrheic, a red itchy rash on the scalp that has flaky scales.² **Carbomer:** Studied for its beneficial effects on acne.³

Triethanolamine: Triethanolamine (TEA), Diethanolamine (DEA) is clear, colorless, thick liquids with ammonia-like odors. In cosmetics and personal care products, Triethanolamine may be used in some makeup products such as eyeliner, mascara, eye shadow, blush, make-up bases and foundations, as well as in fragrances, hair care products, hair dyes, wave sets, shaving products, sunscreens, and skin care and skin cleansing products. The UltraMito blend of these ingredients helps to create the consistency needed for the unique viscosity and texture of the Rejuvenate gel.⁴ **Calophyllum Tacamahaca: (Tamanu) Seed Oil:** used as an anti-inflammatory.⁵ **Lavandula Angustifolia Oil: (Lavender Oil)** Produces calming, soothing, and sedative effects when its scent is inhaled.⁶ **Melaleuca Alternifolia Leaf oil: (Tea Tree)** Antibacterial, Antimicrobial action of tea tree oil on five common bacteria.⁷
