

Firestone UltraBlend™ Roofing System

Two Proven Roofing Materials, One Comprehensive Building Solution

Firestone UltraBlend Roofing System is the industry's only hybrid system to combine the strengths of EPDM and TPO for the ultimate roofing solution, enhancing your building's performance.

As a single source roofing system provider, Firestone Building Products is uniquely positioned to provide the expertise and products to create a roofing system solution perfectly adapted to the particular needs of your building's roof. By combining RubberGard EcoWhite EPDM and UltraPly TPO in a single project, the building owner will enjoy the benefits of both, and the contractors will experience significant savings in time and labor.

Firestone UltraBlend Roofing Systems

Features

- Fast installation of the UltraPly™ TPO membrane with heat-welded seams
- Choice of fully adhered or mechanically attached UltraPly TPO membrane
- Use of either non-reflective black EPDM or highly reflective white EPDM on parapet walls
- Option to use various combinations of accessories and flashings from both product lines
- Excellent flexibility and adhesion in cold weather where needed most—walls and details

Benefits

- Low installation costs associated with mechanically attached UltraPly TPO membrane
- Reduced labor costs through the use of EcoWhite™ EPDM or UltraPly TPO QuickSeam™ accessories
- Firestone Red Shield™ warranties—the industry's gold standard
- Professionally installed by certified Licensed Firestone Master Contractors
