- Was Griffin with The John Birch Society?
- Is the U.S. a corporation? If yes, so what?
- Why vote when vote machines are rigged?
- How important is the right-of-petition?

## CONTENTS

### ACADEMY

Freedom Academy course categories and sampling of source materials

#### IDEOLOGY

- ***The Chasm:*** If we wish to defend liberty, we must know who the enemy is and where the battle lines are drawn. Source document for *The Creed of Freedom*.
- ***The Law:*** The fallacies of collectivism were identified over a hundred years ago in the French parliament.
- ***Freedom in One Lesson:*** Authority cannot exceed its source; an amazingly simple and self-evident principle that challenges collectivism at every level.

#### ECONOMICS

- ***Economics in One Lesson:*** To determine the merits of any action, consider the long-term impact on everyone rather than the short-term impact on those who benefit.
- ***The Mainstream of Human Progress:*** Bursts of productivity and intellectual output have occurred only within societies with minimal government interference.

#### MONEY

- ***The Creature from Jekyll Island:*** When fiat money becomes the only choice, the results are loss of freedom and legalized plunder of the common man.

#### STRATEGY

- ***And Not A Shot Was Fired:*** In 1989 Czechoslovakia was conquered through the ballot box and parliamentary action. The same tactics are still used around the world.
- ***The Starfish and the Spider:*** Leaderless organizations, such as Wikipedia and YouTube, have many advantages in the liberty movement.
