

BUCHA BREW

Hi <<First Name>>,

We are excited to announce that [Bucha Brew](#), a Canadian Kombucha company, is now live on the FrontFundr platform.

Bucha Brew is a fast growing company in an exciting consumer market - functional food and drink. Join Bucha Brew's growing culture through their first ever equity crowdfunding campaign.

Bucha Brew is an ambitious brand with a mission to increase the selection of healthy choices across our communities by providing simple tools (like kombucha) to help people improve their health, their well-being and above all, fuel their own ambition.

With their FrontFundr campaign along with your help and support, Bucha Brew is looking to raise money to grow the company in a major way. They are planning to increase production, expand across Canada and enter new markets to reach more people and better more lives.

Growing the kombucha culture

The global popularity of kombucha continues to rise tremendously, largely due to its health benefits that centre around gut balance, digestion and immunity. Bucha Brew is a high quality, certified organic, craft kombucha that is low in sugar, low in calories, high in antioxidants and packed with naturally occurring live cultures. They are currently making

upgrades in the facility, as well as more employees in sales and marketing. See their statistics [here](#).

Since 2015, Bucha Brew's passion has been to get people excited about kombucha.

"I know how it makes me feel and I want everyone to feel the same. I am so happy to have the chance to offer a delicious and healthy choice to all, allowing everyone to take charge of their wellness, no matter what gender, age, ethnicity or lifestyle."

- Kara Sam, Founder

Investing in Bucha Brew

Bucha Brew is a women-run business filled with ambition. They are committed to their vision, mission and values:

- Environmentally conscious and sustainable
- Authentic and transparent
- Engaging and social

They are a fast growing company building an amazing community of people who advocate for creative innovation, sustainability and collaboration. They want to design creative ways for you to participate in the change they want to make by having you as part of their community, their culture. Stay tuned for more updates from Bucha Brew.

Bucha Brew is looking to raise \$1,000,000. There are various types of contributions that everyone can make, starting from a minimum investment of \$250, which will get you common shares along with other perks (kombucha and Bucha Brew swag) in return.

Full details of the offering can be found on the FrontFundr platform.

Learn More

For informational purposes only. Investing in crowdfunding and exempt market offerings has significant risk. Investors may not be able to resell quickly or at all. An exempt market security holder may also receive limited ongoing issuer information. Only invest if you can withstand the loss of your entire investment. FrontFundr conducts a suitability assessment on all investments made through the platform.
