Mission Rock Residential Selects Reval for Cash Management
Multi-family Housing Leader Leverages Reval's Treasury Management System to
Automate Cash Operations

New York – June 16, 2016 – Denver-based Mission Rock Residential, LLC, a leader in multi-family housing, has selected Reval CORE, Reval's treasury management system for mid-market companies, configured from the [Reval Cloud Platform](#). Mission Rock will use Reval to standardize its [cash management](#), payments and liquidity planning operations.

"As Mission Rock continues to grow, we need to be able to evolve our treasury operations to support the business," says Savannah Wheeler, Director of Finance at Mission Rock. "We wanted to find both a robust treasury management system that could address our needs now, and a strong partner that could address future needs as our company continues to grow. Through our conversations with other [customers](#) and early work on the [implementation](#), we feel confident that we have hit the mark on both fronts."

Mission Rock will be transitioning its operations off spreadsheets to automate the management of cash, liquidity planning and payments. Reval will be leveraged to increase automation across all of these functions and to introduce process workflow and controls, configured to the specific needs of the Mission Rock team.

"Mission Rock had a clear vision for what they wanted to achieve with this project," says John Mitchell, Executive Vice President, Global Sales at Reval. "Through a collaborative engagement, we partnered to define how their goals would be achieved. We are excited to add them to our growing community of users."

About Mission Rock Residential

Mission Rock was formed in August 2012 after months of strategic planning and a collaborative effort from key executives. The team, comprised of professionals with many decades of experience from some of the top property management companies in the nation, assembled the "best practices" from their experiences to produce a transition plan that is detailed and comprehensive. Currently managing over 20,000 units in its portfolio, Mission Rock provides the market knowledge, senior management experience, performance, core competencies, and reporting capabilities to make a property successful. About Reval

Reval is the leading, global provider of a scalable cloud platform for Treasury and Risk Management (TRM). Our cloud-based offerings enable enterprises to better manage cash, liquidity and financial risk, and to account for and report on complex financial instruments and hedging activities. The scope and timeliness of the data and analytics we provide allow chief financial officers, treasurers and finance managers to operate more confidently in an increasingly complex and volatile global business environment. With offerings built on the Reval Cloud Platform companies can optimize treasury and risk management activities across the enterprise for greater operational efficiency, security, control and compliance. Founded in 1999, Reval is headquartered in New York with regional centers across North America, EMEA and Asia Pacific.
