

Gold Standard Medicine with a Caring Touch

Northpointe Animal Hospital is a cutting edge practice providing the latest in complementary medicine.

We provide a broad spectrum of diagnostic procedures through in-house testing and the use of external laboratories. We also work closely with local practices when special diagnostic procedures are required.

At Northpointe Animal Hospital we strive to offer not only sound advice, but also optimal veterinary care, thus allowing you the enjoyment of your companion for a maximum number of years. Our job is not only to treat your pet when he or she isn't feeling well, but also to help you learn how to keep your best friend happy and healthy.

The Northpointe Family

Our doctors and staff are committed to delivering excellence in veterinary medicine and surgery with a caring and compassionate attitude. We understand that your pet is a part of your family, a best friend and companion. We want to help you care for this special member of your family by providing the quality health care they deserve.

Dr. Benjamin McLaughlin is a 2011 graduate of the Oklahoma State University College of Veterinary Medicine. As a youth, he developed a passion for medicine after helping translate for American doctors who were providing medical services for low income areas in Mexico. Dr. McLaughlin loves the challenge of veterinary medicine and enjoys helping people keep their pets healthy.

Our family also consists of a group of caring veterinary technicians, assistants and client service specialists with over 50 years of shared experience!

All staff members participate in continuing education to stay up to date on the latest medical advancements available to our patients.
