

## CONGRATULATIONS ON YOUR NEW DOG!

The Doctors and Staff at Flying Cloud Animal Hospital have prepared the following checklist to help keep track of your puppy's health requirements for the first few months. Please bring the list along when you bring your puppy in for visits.

### 8 Weeks Old

- #1 Canine Distemper Vaccine – Series of 3 Boosters  
(Distemper, Hepatitis, Parainfluenza, Parvovirus and Coronavirus)
- Fecal Examination (Intestinal parasite check, must be fresh sample)
- First dose of heartworm preventative and flea/tick preventative

### 12 Weeks Old

- #2 Canine Distemper Vaccine Booster
- #1 Bordetella Injectable or Intranasal Vaccine ("Kennel Cough" Vaccine)
- #1 Lyme Vaccine
- #1 Leptospirosis Vaccine
- Fecal Examination (if not already completed)
- Monthly heartworm & flea/tick preventative

### 16 Weeks Old

- #3 Canine Distemper Vaccine Booster
- #2 Bordetella Vaccine Booster (Injectable)
- #2 Lyme Vaccine Booster
- #2 Leptospirosis Vaccine Booster
- Initial Rabies Vaccine
- Fecal Examination (if not already completed)
- Monthly heartworm & flea/tick preventative

### 5-6 Months Old

- Heartworm/Tick Disease Panel
- Monthly heartworm & flea/tick preventative

**\* Spay or neuter surgery can be performed at this age**

### 1 Year from LAST set of Vaccines

- Canine Distemper Vaccine
- Bordetella Vaccine
- Rabies Vaccine
- Lyme Vaccine
- Leptospirosis Vaccine
- Heartworm/Tick Disease Panel
- Fecal Examination
- Continued monthly heartworm and flea/tick preventative

Please call ahead to schedule appointments for exams, vaccines and surgical procedures.

Once again, CONGRATULATIONS on your new addition!
