

## **COMPREHENSIVE care PLUS offers additional services to ensure your pet stays healthy**

Older cats and cats with special needs require proactive health management. The Comprehensive Plus plan provides a full range of preventive services to ensure that your cat lives a comfortable and healthy life.

“The plan offers these additional tests and are helpful for cats that may have other conditions such as heart disease, certain types of cancer, hypertension (high blood pressure) or are at risk for developing glaucoma (increased eye pressure). For example, cats with kidney disease often concurrently suffer from hypertension. The blood pressure check allows us to determine if it needs to be treated or monitored.”

Jaclyn Luckstone, DVM
