

A basic plan to cover your pet's **ESSENTIAL CARE**

Every dog deserves to live a long and healthy life. Consistent preventive care is an important step in managing your dog's health and the Essential Plan covers all the basics to help your dog stay happy and healthy.

'The Essential Adult Plan is ideal of the young physically healthy dog. Along with supporting the findings of the physical exam, the basic lab work provides a baseline for future comparison. The Essential Puppy Plan is also ideal in that it assures that the pup is going to receive all the basic vaccinations, diagnostic work and ancillary treatments needed to get through the growth phase from puppyhood to adulthood.'

Jan Rossiter, DVM
