Upon arrival, your pet will be visually inspected for signs of fleas, ticks, tapeworms, and other external and internal parasites. If any are found by our Boarding Technicians, the Veterinarian will be alerted and an appropriate treatment will be administered at your cost.

If any illness occurs prior to the arrival date or after the departure date, you will be responsible for any associated charges should you consent to treatment. Please be advised that in Texas, any diagnostic tests, prescribing of medication, or treatment requires a valid and current Veterinarian-Client-Patient Relationship in the form of an examination.
