Vaccination Schedule

Compliance to the schedule below is an important component of this program. Therefore, the following scheduled indicates when your puppy should be vaccinated to help your puppy fight off diseases that it may be exposed to. The cost of treating viral diseases far exceeds the cost of keeping up with the vaccinations, so we encourage you to follow the schedule below.

8-10 weeks: DA2P-P vaccination and fecal

12-14 weeks: DA2P-P and Bordetella vaccinations

16-18 weeks: DA2P-P and Bordetella vaccinations

18-20 weeks: DA2P-P and Rabies vaccinations, and fecal (last vaccinations can be given when your puppy is spayed or neutered.)

I am the owner (and 18 years or older) for the above pet, or am acting as an agent for the owner, and accept full financial responsibility. The nature of the procedures has been explained to me and no guarantee has been made as to the results. I fully understand that there may be risk involved in these procedures and that Sahuaro Vista Veterinary Clinic operated by Sahuaro Vista Animal Services, Inc. And/ or the veterinarian on duty cannot be held responsible for the loss of my pet. This program does not include any other services or medications other than the vaccinations or services indicated above. All vaccinations and fecals must be scheduled between 8 weeks and 20 weeks of age. I understand that compliance is an important component of this program. This program must be paid in full at the time of the first vaccine visit to receive discount. No refunds will be given.
