*Please be advised that if your pet is found to need immunizations, he/she will be vaccinated and your account charged accordingly. For the health and safety of all animals at our facility, we require Rabies, Distemper with Parvo, and Bordetella vaccinations to be up to date, including a negative heartworm and fecal test. If vaccinations are given at TNAH, we must examine the pet first, which involves an exam charge. Also, Hospital policy requires that all pets be given a Capstar (for fleas) upon arrival; the charge is based on your pet's weight. If your pet is found to have fleas and/or ticks he/she will be treated with a topical and your account charged accordingly.*
