

BUSH ANIMAL HOSPITAL EMPLOYEE OF THE MONTH

April 2013

This certificate is awarded to

JERRY BOGGS D.V.M.

Dr. Boggs joined Bush Animal Hospital in 1975 and became owner and director in 1979. Since then, both clients and co-workers have come to a consensus, they love him. Dr. Boggs has always believed in keeping himself and Bush on the cutting edge of veterinary medicine. Jerry spends countless late nights and early morning at the hospital caring for his patients and staying in close contact with their owners.

When not at the hospital, Jerry can be found hiking in the high Cascades, or maybe strolling along one of Oregon's many scenic beaches with his family and loyal companion Nemo. Dr. Boggs also spends a lot of his free time working with the community's stray dog and cat population.
