

1 STORY; 32,000 SQ FT.

64 MEMORY CARE SUITES

OPENING 4TH QUARTER 2016

PROJECT

- ◆ Artis Senior Living of Green Township is conveniently located on a 7.5-acre parcel on Bridgetown Road in Green Township. The new community is eight miles west of downtown Cincinnati.
- ◆ The project will break ground in the fourth quarter of 2015, with completion anticipated for the fourth quarter of 2016. LK Architecture of Wichita, Kansas is the architect, and the general contractor HGC Construction Company of Cincinnati, Ohio. This is HGC Construction Company's second project with Artis, as they also constructed the Mason, Ohio community currently in operation.
- ◆ The Artis Senior Living of Green Township project will create more than 30 permanent health care positions.

INTERIOR

- ◆ The design was refined through 20 years of operational experience catering to individuals affected by memory loss.
- ◆ Several of the interior features include smaller-scale spaces, residential finishes, and the use of themes for way finding and location recognition.
- ◆ The community is designed to enhance residents' cognition and the quality of life by creating a welcoming environment that feels like home.
- ◆ The residence is comprised of four "neighborhoods," with unique identities and visual décor to ease resident anxiety through familiar surroundings, and a "Town Center".
- ◆ Neighborhood spaces serve as an intimate, nurturing place to service residents, as well as provide therapeutic activities. Each neighborhood includes a living room den, a residential kitchen, and a dining room where meals are served.
- ◆ A Town Center connects to the four neighborhoods and features a health center, community center, studio, and beauty salon/barber shop. The Town Center provides opportunities for larger gatherings and activities such as exercise, religious services, entertainment, and access to outdoor courtyards.

EXTERIOR

- ◆ The building's one-story exterior features cultured stone and covered porches on all sides.
- ◆ Secure outdoor courtyards with resident-safe landscaping, walking paths, and seating areas allow residents to freely enjoy the outdoors.
