

I am so grateful that my mother now has a new home at Artis Senior Living of Evesham! Artis has everything I was looking for and everything my mother needs to remain to live her life to the best that she can while living with dementia. The administration, the nurses and the staff are always there immediately for any needs or concerns that I may have. Artis is beautifully furnished, CLEAN, which is very important to me and to most people and it feels like a little "home away from home" for my mother. I'm amazed at the activities the staff is able to accomplish with the residents and the patience and compassion with which it takes to do so. My children and I feel extremely blessed that we have found Artis Senior Living of Evesham for my mother.

Stellar! The caring and compassion of the staff at Artis is outstanding. Artis was recommended to us by the New Jersey Institute for Successful Aging. We looked at other options, but we are so glad we chose Artis. Every employee from executive management, to caregiver, to activities director, to environmental services, to culinary arts, to nursing knows every resident by name and caters to each of their idiosyncrasies. There is not a memory care "unit" at Artis; *all* of Artis is memory care. The philosophy of the layout mimicking a home environment is effective in getting the residents involved throughout the community. When the end came for Mom, Artis made us feel welcome and comfortable with their hospitality during her final days. Artis worked closely with us and with hospice to ensure Mom's death occurred peacefully and comfortably. We highly recommend Artis. Artis Senior Living is peerless and unparalleled.

**Dad was in the hospital and we needed to find a place for him quickly because he could no longer live at home. Artis Senior Living was there to help! Not only did they assist us in getting dad in within a 3 day period, but they were ready when we got there! They welcomed him with open arms. Dad loves it there. He tells me every day that 'everyone is so nice' and 'they can't do enough for me.' Thank you Artis! You made this difficult transition less painful... Bonnie J.**
