

New Community Opening Outside of San Diego

Douglas Wilson Companies, Milestone Retirement Communities and Sundt Construction are collaborating on new senior housing in Chula Vista, California, which is just outside of San Diego.

The 111-unit community is slated to open with assisted living and memory care services and on-site perks like a dining room and bistro, movie theater, fitness room, an arts and crafts center, barber/beauty salon, activity space and courtyards, according to a press release.

Construction will begin this month and is expected to last until the summer of 2018.
