### Polka Palooza Party

What an incredible night of festive polka music, delicious food and great dancing in January at Majestic Rim compliments of Dueker Ranch Equine Therapy Center. Mrs. Barefoot Becky and the Ivanhoe Dutchmen played a variety of polka and waltz hits that brought back fond memories that tickled our toes. This was a night that we all talked about for days thereafter as we reignited the memories of hometown community barn dances. Residents, family, staff and friends sang along with the band of the popular hits we grew up with.

### Irish Blessing

May the road rise to meet you.
May the wind be always at your back.
May the sun shine warm upon your face.
And rains fall soft upon your fields.
And until we meet again, 
May God hold you in the hollow of His hand.

St. Patrick’s day is on Friday, March 17th, so mark your calendars to eat green Jello, dance the jig, wear green, look for a shamrock and drink a beer. Okay, you don’t have to do all (or any) of the American traditions just mentioned but Shepherd’s Pie or Corned Beef and Cabbage is a common favorite at our house.

Nonetheless, be sure to enjoy the parades, wear your favorite leprechaun shirt and look for the parades, wear your favorite leprechaun shirt and look for the parades, wear your favorite leprechaun shirt and look for the parades, wear your favorite leprechaun shirt and look for the parades.

### Reminisce “Our Moments”

Alexander Graham Bell patents the Telephone in March 1876

As we learned in elementary school, Alexander Graham Bell was the first to be awarded the patent for the telephone at the young age of 29. The candle stick telephone model came much later in 1910, as shown here. We have all depended on the telephone from its invention to today. However, we have experienced modifications to every aspect of the phone as technology broadens and develops over the years. Bell was the first to use the greeting of “Aloha” until Thomas Edison suggested the word “hello” which is used around the world. Another fun fact is that Mark Twain was one of the first to have a phone in his home and the first phone book was published in 1878 which contained 20 pages and included instructions and proper etiquette. We now find ourselves in a world of cell phones, text messages, automated phone systems, various apps and Skype.
