### Resident of the Month: Bunny Stuglis

Bunny Stuglis

Bunny was born and lived in Nashua her whole life. She had one brother and graduated from Nashua High School. She owned a laundry for fourteen years and she worked at Saint Joseph Hospital for twenty five years.

Bunny is proud to say that she is our oldest resident. She enjoys working on puzzles and she is a big fan of the Red Sox. We love having Bunny as part of the Bentley Commons family.

### August Namesakes

The eighth month was named for Emperor Augustus, who founded the Roman Empire in 27 B.C., but he wasn't the only famous Augustan.

- Auguste Rodin was a 19th-century French sculptor known for lifelike works such as "The Thinker" and "The Kiss."
- In 1858, German astronomer and mathematician August Möbius discovered a one-sided, three-dimensional puzzle that would become known as the Möbius strip.
- Author, playwright and patron of the arts Lady Augusta Gregory was an influential member of the late-1800s Irish literary movement.

## Elevators

Bert Newell

The elevator door opened and Pauly wanted to get in  
She wanted to ride with her friend Kay Linehan  
The elevator door was about to go down  
Pauly pushed in and several people --- a frown  
Pauly said "I can't push in anymore"  
My rear end is caught in the door"  
Kay was laughing so much she had to pee  
All this was hilarious to see  
When they reached the bottom floor  
Both said "I'm not riding the elevator anymore"  
As Ever,  
Bert
