Newsorthy

Do you have a newsworthy story or info you would like to share with the Ivystone family? Let us know all about your new grandchild, accomplishments, special events, trips, or anything you would like us to know.

I will start by saying my 2nd oldest grandson, Isaiah, who is a student at Delaware State, just took his first flight from Philly to Colorado. He was nervous as can be expected but I told him to get a window sit and look at the amazing things on his flight. He texted me when he landed and said "G-I got the window seat and it was soooo amazing seeing all the clouds ;)". I remember my first flight a red eye out of Philly to Vegas then onto San Diego like Isaiah I will NEVER forget that experience. What do you have to share?
