

Entertainment Management Student Trips

The Entertainment Management program has made such a difference for so many of us.

From the very beginning, we've had incredible opportunities to partner with industry professionals.

We gain valuable experiences and make important connections every year by volunteering.

We travel every year to tour venues, learn from professionals, and volunteer at major events.

And every year we students pay most of the costs for these volunteer opportunities, but sometimes we just don't have enough.

Would you be willing to help cover some of the costs so everyone has a chance to go?

We make this promise, we will always have skin in the game.

We'll pay a portion of the costs of these trips as an investment in our own future, but you can help us defray some of these costs by making an investment in our future as well.

Our commitment to you: we will serve first on every trip. Every trip is fun, but we are there to serve.

We have a no drinking policy. This keeps us focused so we can offer our best at all times and represent our University and the profession with class.

Will you help cover some of our travel costs? Any amount will help.

Thank you for helping us follow our dreams.

We are Missouri State University Entertainment Management.
