FAQ

Q: 6.1 Pass says the Time Marker can be moved by Passing and 16.2 says that only a Pass on a Free Activation can move Time Marker, which is it?

A: Only a Free Activation, 6.1 should be more specific.

Q: What happens if a Treachery Seizure marker is played against an Artillery piece?

A: The Artillery unit is Eliminated as the rumor of Treachery strikes fear into the hearts of the Artillerists and they run.

Q: Must a Leader Advance or Retreat with a unit it is stacked with?

A: Yes, the Advance and Retreat rules should specify this.

Q: On the Player Aid card the Shock DRM states, "+2 ALL attacking units are attacking through defender's flank" In the rules description (12.3 Angle of attack) it states, "If ANY attacking units are attacking through a defender's flank, there is a +2 DRM" So, is it ANY or ALL?

A: In effect it is ALL, because if a defender is attacked through more than one side the +4 DRM kicks in. The +4 DRM is any two sides. Front and rear, front and any flank, flank and rear, or left and right flank.

Q: At St. Albans, are units that Retreat or Advance across the Ditch also Disordered?

A: Yes, the Ditch rule should specify that crossing the Ditch for any reason Disorders a foot unit, unless the unit crosses at a Bridge.

Q: (1st St. Albans) Are the Lancastrian Dismounted Men-at-Arms permanently Out of Command, since their Battle Leader is the King and he is not a normal leader?

A: No, Buckingham is the Battle Leader for that unit, as denoted in the setup diagram by the green (Buckingham's) color of the unit. This should have been clearer.

Q: (Blore Heath) When it says a unit can enter the trench from either end, I understand it refers to only from hexes 5719/5709 right? Does that mean it is considered impassable to move/retreat otherwise?

A: If a unit enters the trench from 5719/5709 or moves along the trench while in a trench hex, the cost is 1, otherwise the cost is 2.

Q: (Blore Heath) I suppose the -1 wagon fire DRM only applies vs units inside the laager, right?

A: Unless otherwise stated, all TEC DRMs are applied only to the target of a Shock/Charge/Missile Fire. This is spelled out clearly in the Shock/Charge modifiers, but left to you to infer in the Missile Fire section.

Q: (Tewkesbury) Does the Manor block LOS?

A: Yes, it should be added to the list of terrain that blocks LOS.

Q: Why is there a note in the Bosworth scenario referring to moving artillery through Marsh on a road when there is no road on the map that goes through the Marsh?

A: At one time the Bog on the map was Marsh and this comment made sense, ignore it.
