## CHANDRAGUPTA Living Rules Book

**(10.13) Pass-Through Attacks.** After completing its Shock combat, if the Elephant unit has not Rampaged (10.14) and the defending unit(s) are still in place, the attacking Elephant is placed in one of the defenders' vacant Rear hexes, maintaining its attack facing. Thus, an Elephant in 3022 (Pataliputra map) attacking into 2921 would end up in either 2821 or 2822. If there are units occupying both/all rear hexes, the elephant unit immediately shock attacks the unit(s) in *one* of those hexes (friendly units can be attacked). If the Elephant unit fails to "dislodge" this second-row unit, it would be placed behind the "second-row" unit instead. Essentially, the Elephant unit keeps on attacking each occupied row until it passes through to an unoccupied rear hex or routs and in this situation immediately eliminated.

**(10.26) Pass-Through Attacks.** After completing their Shock combat (but see 10.24), if the defending unit(s) are still in place, the attacking chariot unit is placed in one of the defender's vacant Rear hexes, maintaining its attack facing. If units occupy both/all rear hexes, the Chariot must immediately shock attack the unit(s) in *one* of those hexes (friendly units can be attacked). If the Chariot unit fails to "dislodge" this second-row unit, it would be placed behind the "second-row" unit instead. Essentially, the Chariot unit keeps on attacking each occupied row until it passes through to an unoccupied rear hex or routs and is thus eliminated.

**Add: (11.35)** Rallied units may *not* receive or use orders until the next Game Turn; however, they may be refaced at no cost in MPs or cohesion hits when rallied. Rallied Foot missile units are "Missile No".
