

NO RETREAT! 4 «The Italian Front 1943-45 »

(Living Rules Errata shown in **bold red** type)

[12.1] Tracing Supply, Page 14:

**A unit is in Supply if it can trace a valid Supply Line
of any length from the unit tracing supply to a friendly Supply Source (12.2).**

Given the time and ground scale of the game, plus the quite extensive Italian road and rail network, finding supply routes were not a main problem in this campaign. This change also stops player for using gimmicky “Suicide” moves/invasions to isolate big portions of the front line.

[13.6.6] Unsupported Landings, Page 17:

**Each unit (not Landings marker) moving to a LZ hex
During an Invasion—or to a Beachhead or Landings marker
during the Reserve Phase with No Air Cover (2.15)—
must draw two cards and check the Unsupported LandingTable**

Commando units are not immune anymore and must roll on the Landing Table like other units.
