TELEVISION QUICK START GUIDE 2

TURNING ON YOUR SET TOP BOX

To begin, press the green Watch TV button at the top of your remote to turn on your set top box and TV.

GETTING TO THE CHANNEL GUIDE

To access your channel guide, press the Guide button found on your remote.

NAVIGATING IN THE CHANNEL GUIDE

Use the up and down arrows found on the center of your remote to move around the guide. Once you have your preferred program highlighted, press the Ok button once to view the programming and press the Ok button again to exit the Guide. You may also use the Channel up and down buttons to browse the Guide by page.

GETTING STARTED WITH YOUR DVR

Play, Pause, Rewind: While watching a program, you can use your Playback Control Buttons found near the top of your remote to rewind, fast forward, and pause your video programming.

Whole Home DVR: With GoSEMO Fiber's Whole-Home DVR service, you can watch your recorded shows on any other set top box, all from one HD-DVR set top box. So let's say your HD-DVR box is in your living room, but you want to finish watching it in your bedroom. No problem. Just stop the movie, and when you're ready to resume your recording in your bedroom, just go to your DVR playlist, select the movie, and resume.

To access your DVR recordings list, you can press the Red Quick Access button on your remote or press Menu and select the DVR option. All recordings will be listed under the Recordings section.

Set a quick recording by pressing the Record button on your remote control, this will begin recording the currently viewed program immediately.

You can also schedule a recording before the program begins by finding your preferred show in the program guide, highlight it with your Navigation Keys, and press Ok. This will open the menu for this program. Use your Navigation Keys to select either Record Program or Record Series.

NO PICTURE?

- ▶ Make sure your set top box is turned on and is getting power.
- ▶ Make sure the cables are secure in the back of the set top box and the television.
- ▶ Press VIDEO INPUT button to cycle through each input option until the picture returns.
Typically, most subscribers with a HD television will find video on HDMI1.

CAN'T SEE ALL YOUR CHANNELS?

- ▶ It sounds like you have filtered your guide. Press the Right Arrow button on your remote. Make sure that you have not selected a Live TV Filter and you don't have a Favorites list selected. If you have done this, you also need to check the Parental Controls to make sure that you have not removed the channel from your guide.

REMOTE NOT CONTROLLING YOUR SET TOP BOX?

- ▶ If you are pressing buttons on your remote, but it will not allow you to control your set top box, your remote could be on the incorrect mode. Before you press your next command button, press the STB button located towards the top of your GoSEMO remote.

REMOTE NOT CONTROLLING YOUR TV?

- ▶ If your volume and power buttons are not controlling your TV, you may need to program your remote. You can find instruction for programming your remote to your TV on the back side of the remote or online by visiting www.urcsupport.com and selecting your remote style 2025B2-BB Eclipse.

DID YOU KNOW? An easy solution for most problems is to reset your Set Top Box.

- ▶ All Set Top Boxes can be reset by simply unplugging the power cord on the back of the box, make sure the light on the front goes off and plug the cord back in.
For any additional questions, please contact our 24/7 Technical Support at 1-877-430-5418
