

GET IT DONE:

Clean Water for Michigan

CLEANING UP OUR DRINKING WATER

- Create the new Department of Great Lakes and Freshwater to protect Michigan's water
- Speed up lead pipe replacement
- Appoint a Water Ombudsman to investigate drinking water complaints
- Upgrade drains and sewers
- Clean up PFAS contamination
- Protect Michiganders from water shutoffs

GROWING OUR BLUE ECONOMY

- Building a New Soo Lock
- Establishing a Statewide Recycling Program
- Stopping Canadian Trash
- Preventing Invasive Species
- Preserving Fish Stocking
- Creating the Center for Freshwater Innovation
- Autonomous Boating

IMPROVING OUTDOOR QUALITY OF LIFE

- Protecting the Great Lakes from an Oil Spill
- Initiate necessary steps to remove dangerous oil pipelines like Line 5 from the Great Lakes
- Improving Water Education and Job Training
- Fighting Environmental Injustice
- Designing a Water-Focused Placemaking Plan for Michigan

WATER CONSERVATION

- Establishing the Office of Climate Change
- Controlling Water Withdrawals
- Setting and Meeting Superior Standards
- Removing Dams
