Use of cookies

What are cookies?
Like many websites, our website may use ‘cookies’ from time to time.
Cookies are small files saved to the user’s computer’s hard drive that track, save and store information about the user’s interactions and usage of the website. This allows the website, through its server, to provide the users with a tailored experience within this website.

**What do we use cookies for?**

We may use cookies to remember personal settings you have chosen at our website. In no other context do we use cookies to collect information that identifies you personally. Most of the cookies we set are automatically deleted from your computer when you leave our website or shortly afterwards.

We use anonymous session cookies (short-term cookies that disappear when you close your browser) to help you navigate the website and make the most of the features. If you log into the website, as a registered user, your session cookie will also contain your user ID so that we can check which services you are allowed to access.

This website uses tracking software to monitor its visitors to better understand how they use it. This software is provided by Hubspot which uses cookies to track visitor usage. The software will save a cookie to your computer’s hard drive in order to track and monitor your engagement and usage of the website.

The default settings of browsers like Internet Explorer generally allow cookies, but users can easily erase cookies from their hard-drive, block all cookies, or receive a warning before a cookie is stored. If you disable or refuse cookies, please note that some parts of this website may become inaccessible or not function properly.

Therefore, should users wish to deny the use and saving of cookies from this website onto their computer’s hard drive, they should take necessary steps within their web browser’s security settings to block all cookies from this website and its external serving vendors.

**Personal information**

Personal data is data that relates to an identified or identifiable natural person, this means a human being. Anonymous data, where you cannot find out who the data relates to, is not personal data.

We may collect anonymised details about your use of the websites for the purposes of aggregate statistics or reporting purposes. Aggregated data (anonymised usage details combined from a number of people’s data) may come from your personal data but if it
does not directly or indirectly reveal your identity, it is not considered personal data. For example, we may combine and analyse your use of the website to work out the number of users accessing a specific website feature.

We do not collect any Special Categories of Personal Data about you (this includes details about your race or ethnicity, religious or philosophical beliefs, sex life, sexual orientation, political opinions, trade union membership, information about your health and genetic and biometric data). Nor do we collect any information about criminal convictions and offences.

**For how long do we keep your personal data?**

GSA will not retain your personal data for longer than necessary. We will hold onto the information you provide either while your account is in existence, or as needed to be able to provide our services to you, or for as long as is necessary to provide support-related reporting and analysis only.

If legally required or if it is reasonably necessary to meet regulatory requirements, resolve disputes, prevent fraud and abuse, or enforce our Terms and Conditions, we may also retain some of your information for a limited period of time as required, even after you have closed your account or it is no longer needed to provide the Services to you.

To determine the appropriate retention period for personal data, we consider the amount, nature, and sensitivity of the personal data, the potential risk of harm from unauthorised use or disclosure of your personal data, the purposes for which we process your personal data and whether we can achieve those purposes through other means, and the applicable legal requirements.

**If you do not provide personal data**

Where we need to collect personal data by law, or under the terms of the contract between us and you do not provide that data when requested, we may not be able to perform the contract we have or are trying to enter into with you (for example, to provide you with goods or services). *GSA will never sell any of your personally identifiable information.*

**Choosing how we use your personal data**

We understand that you trust us with your personal information and we are committed to ensuring you can manage the privacy and security of your personal information yourself. Therefore, we will only use your personal data when the law allows us to. Most commonly, we will use your personal data in the following circumstances:

(a) Where we need to perform the contract we are about to enter into or have entered into with you.
(b) Where it is necessary for our legitimate interests (or those of a third party) and your interests and fundamental rights do not override those interests.
(c) Where we need to comply with a legal or regulatory obligation.
We have set out below, in a table format, a description of all the ways we plan to use your personal data, and which of the legal bases we rely on to do so. We have also identified what our legitimate interests are where appropriate.

Note that we may process your personal data using more than one lawful ground depending on the specific purpose for which we are using your data. Please Contact us if you need details about the specific legal ground we are relying on to process your personal data where more than one ground has been set out in the table below.

**Change of purpose:** We will only use your personal data for the purposes for which we collected it, unless we reasonably consider that we need to use it for another reason and that reason is compatible with the original purpose. If we need to use your personal data
for an unrelated purpose, we will notify you and we will explain the legal basis which allows us to do so.

Please note that we may process your personal data without your knowledge or consent, in compliance with the above rules, where this is required or permitted by law.

Disclosures Of Your Personal Data

We do not disclose your personal data without your permission, unless the disclosure is:

(a) In accordance with this Privacy Policy or any agreement you enter into with us;
(b) To our related companies;
(c) To third parties to whom we may choose to sell, transfer, or merge parts of our business or our assets; or
(d) Required or authorised by law.
(e) We may disclose, or provide access to, your personal information to third parties in connection with the purposes described in the table above.

We require all third parties to respect the security of your personal information and to treat it in accordance with the law. We do not allow our third-party service providers to use your personal information for their own purposes and only permit them to process your personal information for specified purposes and in accordance with our instructions.

International Transfers

We share your personal data within the GSA Group. This will involve transferring your data outside the European Economic Area (EEA).

Some of our external third parties are also based outside the EEA so their processing of your personal data will involve a transfer of data outside the EEA.

Whenever we transfer your personal data out of the EEA, we ensure a similar degree of protection is afforded to it by ensuring at least one of the following safeguards is implemented:

(a) We may transfer your personal data to countries that have been deemed to provide an adequate level of protection for personal data by the European Commission.
(b) Where we use certain service providers or transfer your personal data to members of the GSA Group located outside the EEA, we may use specific contracts approved by the European Commission which give personal data the same protection it has in Europe. For further details, see European Commission: Model contracts for the transfer of personal data to third countries.
(c) Where we use providers based in the US, we may transfer data to them if they are part of the Privacy Shield which requires them to provide similar protection to personal data shared between the Europe and the US.

Please Contact us if you want further information about the specific mechanisms we use when transferring your personal data outside of the EEA.
Your Legal Rights

Under certain circumstances, you have rights under information protection laws in relation to your personal information. You have the right to:

**Request access** to your personal information (commonly known as a “data subject access request”). This enables you to receive a copy of the personal information we hold about you and to check that we are lawfully processing it.

**Request correction** of the personal information that we hold about you. This enables you to have any incomplete or inaccurate information we hold about you corrected, though we may need to verify the accuracy of the new information you provide to us.

**Request erasure** of your personal information. This enables you to ask us to delete or remove personal information where there is no good reason for us continuing to process it. You also have the right to ask us to delete or remove your personal information where you have successfully exercised your right to object to processing (see below), where we may have processed your information unlawfully or where we are required to erase your personal information to comply with local law. Note, however, that we may not always be able to comply with your request of erasure for specific legal reasons which will be notified to you, if applicable, at the time of your request.

**Object to processing** of your personal information where we are relying on a legitimate interest (or those of a third party) and there is something about your particular situation which makes you want to object to processing on this ground as you feel it impacts on your fundamental rights and freedoms. You also have the right to object where we are processing your personal information for direct marketing purposes. In some cases, we may demonstrate that we have compelling legitimate grounds to process your information which override your rights and freedoms.

**Request restriction of processing** of your personal information. This enables you to ask us to suspend the processing of your personal information in the following scenarios: (a) if you want us to establish the information’s accuracy; (b) where our use of the information is unlawful but you do not want us to erase it; (c) where you need us to hold the information even if we no longer require it as you need it to establish, exercise or defend legal claims; or (d) you have objected to our use of your information but we need to verify whether we have overriding legitimate grounds to use it.

**Request the transfer** of your personal information to you or to a third party. We will provide to you, or a third party you have chosen, your personal information in a structured, commonly used, machine-readable format. Note that this right only applies to automated information which you initially provided consent for us to use or where we used the information to perform a contract with you.

**Withdraw consent at any time** where we are relying on consent to process your personal information. However, this will not affect the lawfulness of any processing carried out before you withdraw your consent. If you withdraw your consent, we may not be able to provide certain products or services to you. We will advise you if this is the case at the time you withdraw your consent.
If you wish to exercise any of the rights set out above, please Contact us.

With respect to the information relating to you that ends up in our possession, and recognising that it is your choice to provide us with your personally identifiable information, we commit to giving you the ability to do all of the following:

- You can verify the details you have submitted to us by contacting our Legal and Compliance Team. Our security procedures mean that we may request proof of identity before we reveal information. This is a security measure to ensure that personal data is not disclosed to any person who has no right to receive it. We may also contact you to ask you for further information in relation to your request to speed up our response.

- You can also contact us by the same method to change, correct, or delete your personal information held by us at any time.

- You can always feel free to update us on your details at any point by sending an email to the above email address.

- You can request a readable copy of the personal data we hold on you at any time. To do this, please contact us via the above email address.

**No Fee Usually Required**

You will not have to pay a fee to access your personal data (or to exercise any of the other rights). However, we may charge a reasonable fee if your request is clearly unfounded, repetitive or excessive. Alternatively, we may refuse to comply with your request in these circumstances.

**Time Limit To Respond**

We try to respond to all legitimate requests within one month. Occasionally it may take us longer than a month if your request is particularly complex or you have made a number of requests. In this case, we will notify you and keep you updated.

**Marketing**

Marketing communications from us: We may use your personal data to try to understand what you may want or need, or what may be of interest to you. You will receive marketing communications from us if you have requested information from us or purchased goods or services from us and you have not opted out of receiving that marketing.

Third-party marketing: We will get your express opt-in consent before we share your personal data with any other company for marketing purposes.
Opting out: You can unsubscribe from receiving marketing emails from us by clicking the “unsubscribe” link at the bottom of any of our emails. Once you do this, you will no longer receive any emails from us. Where you opt out of receiving these marketing messages, this will not delete any personal data provided to us as a result of a purchase or other transaction. Please note, we are constantly reviewing how we process and protect data. Therefore, changes to our policy may occur at any time. We will endeavour to publicise any changes as soon as possible.

GREEN STREET ADVISORS (UK) LIMITED
CONFLICTS OF INTEREST POLICY AND INVENTORY
(“GSA” or the “Firm”)

Latest Review December 2018

Identification of Conflicts

The Board of the Firm, in conjunction with the Head of Compliance, take responsibility for implementing systems and controls designed to prevent conflicts of interest in the business of the Firm. These are outlined in the Conflicts Inventory (as appended below in Annex A), which are updated as and when a new conflict is identified and reviewed overall on a periodic basis.

Firm is part of a group of companies under common control and ownership, including its regulated US affiliate, Green Street Trading, LLC with and, as such, the above noted controls and inventory shall also take into account any circumstances, of which the Firm is or should be aware, which may give rise to a conflict of interest arising as a result of the structure and business activities of other members of the group. We have attached a corporate organogram in Annex F which describes the group structure.

What conflicts of interest could arise?

The nature of the financial services market is such that conflicts of interest can sometimes develop. Generally, a conflict of interest arises where the interests of the financial services company and its associates are different from its client or clients. For example, where Green Street discharges its duty to one client it might create a conflict with another client.

Conflict Prevention

Where a potential conflict is identified, the Firm will seek to organise its business activities in a manner that prevents the crystallisation of the conflict. This will include the appropriate segregation of functions and business lines such that a level of independence may be achieved. To the extent appropriate to the size and scale of the business, this may involve, inter alia:

- Information barriers to prevent or control the exchange of information between employees engaged in activities involving a risk of conflict of interest where the exchange of that information may harm the interests of one or more clients.
- Functional independence and separate supervision of relevant employees whose main functions involve carrying out activities or providing services for clients whose interests may conflict, or otherwise represent interests that may conflict.
- A review of remuneration arrangements in the Firm where these might give rise to conflicts of interest in relation to the activities or services provided by the relevant employees.
• Reassignment of employees to prevent or control the simultaneous or sequential involvement of relevant employees in separate services or activities where such involvement may impair the proper management of conflicts of interest.

• Policies and procedures covering Inducements, PA dealing and external interests.

However, it is accepted that, despite the implementation of all appropriate controls to prevent the occurrence, the complete avoidance of all conflicts may not be feasible in a commercial environment.

**Conflict Management**

Where conflicts are unavoidable, the Firm will take appropriate measures to mitigate and manage such conflicts in a manner that seeks to ensure that the Firm and its Personnel are not advantaged and that no client is adversely effected. The clients’ best interests remain paramount.

**Conflicts Disclosure**

Where the Firm is not reasonably confident that it is able to manage a particular conflict to adequately protect the interest of a client, the fact of /or sources of conflicts of interest will be clearly disclosed to the client before the Firm undertakes any business. In particular, the disclosure will detail:

- A specific description of the conflicts of interest;
- An explanation of the risks to the Client that arise;
- That the organisational and administrative arrangements established by the Firm to prevent or manage that conflict are not sufficient to ensure, with reasonable confidence, that the risks of damage to the interests of the Client will be prevented; and
- Sufficient detail to enable that Client to take an informed decision with respect to the service in the context of which the conflict of interest arises.

This disclosure will only be made as a matter of last resort. Further, the fact of the disclosure is not considered to be a mitigant. All the controls detailed in this policy will continue to be applied, in respect of that conflict. An outline disclosure is available in Annex B.

**Conflict Monitoring**

The Firm has implemented a number of procedures and controls to detect conflict situations as they arise and the Head of Compliance shall ensure that the Conflicts Inventory is updated accordingly. Once conflicts have been identified, further procedures and controls monitor the effectiveness of the management arrangements of such conflicts.

In addition, the Firm’s Compliance Monitoring Programme incorporates a certain number of specific tests which are aimed at reviewing the Firm’s performance in the management of conflicts that it has identified.
Conflicts Reporting and Management Information

The Board of the Firm, in conjunction with the Head of Compliance shall review on a regular basis the Conflicts Inventory, register of Appointments and the results of any Conflicts monitoring where exceptions have been raised. Where deficiencies are reported, Head of Compliance will ensure that appropriate steps are taken to address the identified deficiencies. The Head of Compliance and relevant business head will be empowered to oversee the resolution and remediation of the conflict.

The Conflicts of Interest Policy shall also be reviewed and ratified on at least an annual basis.

Personnel External Interests

Each person to whom this policy applies must declare all external interests, including members of the Board. The Firm will require confirmation of external interests prior to any proposed new appointment or at least annually. Such interests include, inter alia:

- Directorships (paid or unpaid)
- Partnership interests
- Proprietary interests
- Consultancy arrangements
- Charitable trusteeships

It is the Firm’s policy to review the number and nature of directorships held by all members of staff. This is to ensure that any such outside interests do not conflict with the activities of the Firm and the interests of its clients (with regards to the services provided by the Firm).

External interest declarations will be recorded by the Head of Compliance on the appointments and outside business interests form for each employee (Annex C) and register (Annex D).

Personnel must ensure that they notify, and where applicable, obtain permission from the Compliance Officer prior to entering into an arrangement or agreement that could potentially conflict with the Firm’s duties to its clients (Annex E).

Education and Awareness

All Personnel must comply with the operating controls and procedures established in their business unit and by the Firm overall. If Personnel are unsure whether a conflict exists, or require guidance on the mitigating controls, they shall consult with the Head of Compliance in the first instance. The ‘Conflicts Disclosure Form (Internal)’ shall be used to detail the potential conflict, as set out in Annex E.

All Personnel receive a copy of the Firm’s Compliance Manual which contains the Firm’s conflicts arrangements. In addition, all Personnel are required to give an undertaking of adherence to the Firm’s Compliance Procedures, including Personal Account Dealing and receipt of Gifts and Inducements.
All Personnel also receive both formal and informal training in respect of conflicts of interest generally and on specific or potential conflicts to the Firm.

**Key Conflicts Relevant to Greenstreet’s Business**

1. **Research / Consulting & Advisory Services**

   (a) The client's account manager must, as part of the client take-on process, conduct a review of the client's investment objectives in order to identify any potential conflicts with the interests of Green Street or any member of the Green Street group. Any potential conflicts must be notified to the Compliance Officer, Natascha Collinson, who will determine whether there is an actual conflict, and whether (and in what circumstances) it is appropriate to continue to act for the client.

   (b) Given other controls in place it is not necessary for each research report to be submitted to the Compliance Officer prior to dissemination for confirmation no conflicts of interest exist. It is, however, incumbent on all members of staff to make the Compliance Officer aware of any potential conflicts they become aware of. In the event that any such interest is present, this should be fully and prominently disclosed to all clients who receive the research report. It is envisaged that such event may occur in light of the recently added consultancy work product and therefore robust new procedures have been drawn up for this. This includes consideration to be given to making affiliate disclosures where appropriate.

   (c) All members of staff involved in the production or dissemination of research reports are prohibited from accepting any benefits (including without limitation any gifts, fees, training or other financial or non-financial benefit) from the subject of any research report, or any entity or individual connected with the subject of a research report without first notifying the Compliance Officer. The Compliance Officer must ensure that no research report is issued where a member of staff involved in its production has received such a benefit unless he is satisfied that no actual conflict of interest has or is likely to arise as a consequence of the receipt of such benefit. The Compliance Officer must also ensure that the involvement of the member of staff in the production of the research report is appropriately monitored.

   (d) All research reports must be prepared in accordance with the requirements set out in the Green Street Compliance Manual.

   (a) All consultancy reports are prepared in accordance with the requirements set out in our strict Consultancy Procedures.
**Affiliate Disclosures**

Green Street does not directly engage in investment banking, underwriting or advisory work with any of the companies in our coverage universe. However, the following are potential conflicts regarding our affiliates that should be considered.

1. Green Street is affiliated with Eastdil Secured, a real estate brokerage and investment bank that sometimes engages in investment banking work with companies in Green Street’s coverage universe. Green Street does not control, have ownership in, or make any business or investment decisions for, Eastdil Secured.

2. Green Street has an advisory practice servicing investors seeking to acquire interests in publicly-traded companies. Green Street may provide such valuation services to prospective acquirers of companies which are the subject(s) of Green Street’s research reports. Green Street may receive fees that are contingent upon the successful completion of a transaction or other fees for its work on behalf of prospective acquirers. As stated elsewhere, this could occur in the future in light of the recently added consultancy work product.

An affiliate of Green Street is the investment manager of an equity securities portfolio on behalf of a single client. The portfolio contains securities of issuers covered by Green Street’s research department. The affiliate is located in a separate office, employs an investment strategy based on Green Street’s published research, and does not trade with Green Street’s Dallas trading desk.

**Other Related Policies**

Green Street also has specific policies and procedures on the following issues which are related to the management of conflicts. All staff are required to comply with these policies and procedures.

(b) **Personal Account Dealing**

The Green Street Compliance Manual sets out the firm’s restrictions against personal account dealing.

(c) **Independence Policy**

The Green Street Compliance Manual sets out the firm’s independence policy at Appendix 9 therein.

(d) **Gifts, Benefits and Inducements Policy**

The Green Street Policies and Procedures Manual sets out the firm’s restrictions on receiving or giving gifts, benefits or inducements in accordance with the Bribery Act 2010.

(e) **Group Level Procedures**

The Green Street group maintains conflict policies that apply to all members of the Green Street group. In addition to the procedures
set out above, employees of Green Street should also have regard to the following:

(i) Employees of the Green Street group are prohibited from conducting any securities transactions in real estate securities without the prior knowledge of Green Street.

(ii) Employees must additionally disclose:

1. If the research analyst or a member of the research analyst's household has a financial interest in the securities of the subject company, and the nature of the financial interest (including, without limitation, whether it consists of any employment, contract, option, right, warrant, future, or long or short position);

2. If, as of the end of the month immediately preceding the date of publication of the research report or the public appearance (or the end of the second most recent month if the publication date is less than 10 calendar days after the end of the most recent month), the firm or its affiliates beneficially own 1% or more of any class of common equity securities of the subject company. Computation of beneficial ownership of securities must be based upon the same standards used to compute ownership for purposes of the reporting requirements under Section 13(d) of the Securities Exchange Act of 1934; and

3. Any other actual, material conflict of interest of the research analyst or member of which the research analyst knows or has reason to know at the time of publication of the research report or at the time of the public appearance.

(iii) Green Street employees must report all gifts received from a client to the Compliance Officer. A record will be maintained of all gifts received containing the name of the employee, client, date and approximate value.

Conflicts of Interest Policy
Disclosure Statement (Client)

[The Firm] {“[TF]”} Conflicts of Interest Disclosure

Identifying and Managing conflicts of Interest summary
In accordance with its obligations to you, [TF] seeks to ensure that its clients are properly notified where there is or could be conflicts of interest.

How are conflicts managed?
[TF] has prepared a Conflicts of Interest Policy, which identifies the types of conflicts it faces and the controls it operates in order to mitigate those conflicts. The policy is reviewed regularly to ensure the record of conflicts is up to date and relevant and the appropriate mitigating controls are in place. The review is reported to the Management Body of the Firm.

[TF] has implemented procedures and controls and segregations of duties appropriate for its business profile. Staff are segregated operationally, such that they report to functional managers and each have distinct password protected IT access.

[TF] also has specific policies and procedures on when and how employees are permitted to undertake personal account transactions, restrictions on the offering and receipt of gifts to or from clients and other businesses counterparties. We also monitor staff external interests and appointments to ensure they do not conflict with their duties to the Firm and its clients.

Finally, we also monitor the way in which staff are remunerated in order to ensure that remuneration structures do not conflict between staff and [TF]'s clients' best interests.

What conflicts of interest has arisen?
The nature of the financial services market is such that conflicts of interest can sometimes develop. It is the case that, organisational controls at the Firm (summarised above) are not in this specific matter sufficient to ensure, with reasonable confidence, that the related risks are mitigated.

Generally, a conflict of interest arises where the interests of the financial services company and its associates are different from its client or clients. For example, where [TF] discharges its duty to one client it might create a conflict with another client.

Next steps
The Firm will continue to monitor and review the matter closely, applying its systems and controls to ensure this conflict of interest and any attendant risks are mitigated to the fullest possible extent. If you should require any further information please contact compliance@greenst.eu.com.

2019 Update

The Capital Requirements Directive III* (‘CRD III’) of the European Union establishes a revised regulatory capital framework across Europe governing the amount and nature of capital credit institutions and investment firms must maintain. In the United Kingdom, CRD III has been implemented by the Financial Conduct Authority (‘FCA’) in its regulations through the General Prudential Sourcebook (‘GENPRU’) and the Prudential Sourcebook for Banks, Building Societies and Investment Firms (‘BIPRU’).

The FCA framework for CRD III consists of three ‘Pillars’:

- Pillar 1 sets out the minimum capital amount that meets a firm’s credit, market and operational risk;
- Pillar 2 requires a firm to assess whether its capital reserves, processes, strategies and systems are adequate to meet Pillar 1 requirements and further determine whether it should apply additional capital, processes, strategies or systems to cover any other risks that it may be exposed to. This is subject to annual review by the FCA; and
- Pillar 3 requires disclosure of specified information about the underlying risk management controls and capital position to encourage market discipline.

The rules in BIPRU 11 set out the provision for Pillar 3 disclosure. This document is designed to meet our Pillar 3 obligations as a BIPRU €50,000 limited license firm. This is done in accordance with our formal Disclosure Policy, which sets out our processes for assessing the appropriateness of our disclosures.

The Pillar 3 disclosure document has been prepared by GSAUK in accordance with the requirements of BIPRU 11 and its relevant disclosure details are verified annually by the Principals. Figures given are based on the audited accounts for the financial year ended 31/12/2018 and the Internal Capital Adequacy Assessment Process approved in April 2019.

We are permitted to omit required disclosures if we believe that the information is immaterial such that omission would be likely to change or influence the decision of a reader relying on that information.

In addition, we may omit required disclosures where we believe that the information is regarded as proprietary or confidential. In our view, proprietary information is that which, if it were shared, would undermine our competitive position. Information is considered to be confidential where there are obligations binding us to confidentiality with our customers, suppliers and counterparties.

We have made no omissions on the grounds that information is immaterial, proprietary or confidential.

Frequency of Disclosure

It is the intention of GSAUK to update its Pillar 3 disclosure on an annual basis after the previous year’s annual accounts have been audited and finalised (normally April), unless circumstances warrant a more frequent update. GSAUK makes its Pillar 3 disclosure via its website, www.greenstreetadvisors.com.

* Green Street Advisors (UK) Limited is unable to carry on the MIFID investment service and activity of placing of financial instruments without a firm commitment basis (Annex 1, Section A7 of MiFID)
Scope and application of the requirements

Green Street Advisors (UK) Limited is authorised and regulated by the Financial Conduct Authority (FRN 482269) and as such is subject to minimum regulatory capital requirements. The registered office is 20 Balderton Street, 5th Floor, London W1K 6TL. GSAUK is categorised as a limited licence firm by the FCA for capital purposes. It publishes research and conducts consulting projects.

GSAUK is not a member of an EEA sub-group and so is not required to prepare consolidated reporting for prudential purposes.

Risk management

GSAUK is governed by its directors ("Principals") who determine its business strategy and risk appetite. They are also responsible for establishing and maintaining GSAUK’s governance arrangements along with designing and implementing a risk management framework that recognises the risks that the business faces.

The Principals also determine how the risk our business faces may be mitigated and assess on an ongoing basis the arrangements to manage those risks. The Principals meet on a regular basis and discuss current projections for profitability, cash flow, regulatory capital management, and business planning and risk management. The Principals manage GSAUK’s business risks through a framework of policies and procedures having regard to relevant laws, standards, principles and rules (including FCA principles and rules) with the aim to operate a defined and transparent risk management framework. These policies and procedures are updated as required.

GSAUK’s appetite for risk is low. The company is ultimately owned by Green Street Holdings, Inc. – a large percentage of which is owned by its senior management – and GSH Investor, LLC – a Private Equity investor – both of which wish to see the company grow without the need for unnecessary risk.

The company undertakes its Individual Capital Adequacy Assessment Process (ICAAP) on an annual basis. GSAUK’s ICAAP is approved by the Board of Directors, which has taken account of the following:

- Assessment of current market, credit and operational risks.
- Assessment of any future risks.
- Assessment of possible terminal risks.
- Assessment of remuneration structure.

The Principals have identified that business, operational and market risks are the main areas of risk to which GSAUK is exposed. Annually the Principals formally review their risks, controls and other risk mitigation arrangements and assess their effectiveness. Where the Principals identify material risks they consider the financial impact of these risks as part of our business planning and capital management and conclude whether the amount of regulatory capital is adequate.

GSAUK places strong reliance on the operational procedures and controls that it has in place in order to mitigate risk and seeks to ensure that all personnel are aware of their responsibilities in this respect.
Regulatory capital

GSAUK is a Limited Liability Company and its capital arrangements are established in its Articles. Its capital is summarised as follows:

Closing Shareholders’ Funds as at 31 December 2018 £1,879,606

The main features of GSAUK’s capital resources for regulatory purposes are as follows:

<table>
<thead>
<tr>
<th>Capital item</th>
<th>£’000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tier 1 capital less innovative tier 1 capital</td>
<td>1,748</td>
</tr>
<tr>
<td>Total tier 2, innovative tier 1 and tier 3 capital</td>
<td>0</td>
</tr>
<tr>
<td>Deductions from tier 1 and tier 2 capital</td>
<td>0</td>
</tr>
<tr>
<td>Total capital resources, net of deductions</td>
<td>1,748</td>
</tr>
</tbody>
</table>

GSAUK’s Tier 1 capital comprises ordinary shares and retained earnings. Intangible assets are deducted in full in accordance with FCA requirements.

Our Firm is small with a simple operational infrastructure.

- The company does not hold client money.
- The company does not hold client assets.
- The company will always maintain sufficient capital to manage its risks.

Its market risk is limited to foreign exchange risk on its accounts receivable in foreign currency, and settlement risk from its agency trading business. GSAUK follows the standardised approach to market risk and the simplified standard approach to credit risk. GSAUK is subject to the Fixed Overhead Requirement and is not required to calculate an operational risk capital charge though it considers this as part of its process to identify the level of risk based capital required.

Justification for the adequacy of GSAUK’s internal capital to support current and future activities is contained in the ICAAP. The fixed overhead requirements under Pillar 1 are deemed by the company to be sufficient capital to meet its immediate needs. All known risks have been assessed and appropriate stress tests and scenario analyses have been undertaken to determine any additional capital required under Pillar 2. After consideration of the Firm’s current planning horizon and impact of potential risk areas, the Principals believe GSAUK’s Pillar 1 capital resources requirement to be the company’s minimum capital requirement. Therefore, no additional capital is currently required for Pillar 2.

As discussed above GSAUK is a limited licence firm and as such its capital requirements are the greater of:

- Its base capital requirement of £50,000; or
- The sum of its market and credit risk requirements; or
- Its Fixed Overhead Requirement.

We have not identified credit risk exposure classes or the minimum capital requirements for market risk as we believe that they are immaterial.

It is GSAUK’s experience that the Fixed Overhead Requirement establishes its capital requirements and hence market and credit risks are considered not to be material.
Remuneration Disclosure

Under the FCA’s Remuneration Code (‘RemCode’) (contained in SYSC19.A (Senior Management Arrangements, Systems and Controls) of the FCA Handbook), GSAUK is classified as a Level 3 firm. In accordance with CRD III and CEBS guidelines (‘Guidance’) GSAUK is therefore allowed to take a proportionate approach to its Remuneration Code Disclosures in line with its nature, scale and complexity. As such GSAUK has chosen not to disclose exact figures in regards to the remuneration of the four Code Staff identified by GSAUK’s Remuneration Policy and Assessment. It has been determined that only those Approved Persons performing Significant Influence Functions within GSAUK are to be classified as Code Staff. The RemCode covers an individual’s total remuneration, fixed and variable; GSAUK incentivises staff through a combination of the two.

Our policy is designed to ensure that we comply with the RemCode and our compensation arrangements:

- Are consistent with and promote sound and effective risk management;
- Do not encourage excessive risk taking;
- Include measures to avoid conflicts of interest;
- Are in line with our business strategy, objectives, values and long-term interests.

We are required to disclose certain information on at least an annual basis regarding our Remuneration Policy and practices for those staff whose professional activities have a material impact on the risk profile of the firm. Our disclosure is made in accordance with our classification, size, internal organization and the nature, scope and complexity of our activities. As such, some of the more onerous provisions in the Guidance have been disapplied.

GSAUK confirms that no Code Staff received more than £500,000 total remuneration for their role with GSAUK during the relevant period and that all discretionary remuneration is directly related to the performance of our staff on behalf of our clients, as well as the company’s performance overall. Furthermore, it is GSAUK’s policy that only in exceptional circumstances will the variable component exceed 100% of the fixed component and that part of such remuneration is deferred.

We believe that our Remuneration structure ensures that Code Staff interests are innately aligned with the interest of GSA UK and its Clients.
