I understand and agree to the following: Health Associates Medical Group is a fee for service clinic and all services are to be paid for AT THE TIME OF SERVICE PROVIDED; Health Associates does not bill insurance companies. Health Associates will provide a superbill with the appropriate medical codes for my insurance company for reimbursement. HMO insurances will not cover any services at Health Associates. I also understand that some of my testing is considered "not usual and customary" and may not be covered by my insurance company. Most laboratory services are performed at an outside facility. Therefore, if needed, I will receive a separate bill for them. I understand that I will be expected to pay this amount at the time of service. Nutritional supplements recommended frequently as therapy are usually not covered by insurance companies and, if purchased here, are not taxed. I can pay by Visa, MasterCard, Discover Card, American Express, personal check or cash. The initial consultation is \$365. The total cost of the visit is usually \$500-\$600 including nutritional supplements. **Please note:** Medicare pricing is different than listed above.

Also, by signing below, I authorize release of information relating to any claims submitted to insurance companies by Health Associates.

Health Associates Medical Group is not a 24-hour acute care facility, although we do have an answering service. We do not have physicians on call in the evenings or on weekends. If you cannot get through to us and you have an emergency or urgent problem, we recommend you go immediately to your nearest walk-in clinic or Emergency Room. Please contact us as soon as possible during our normal office hours regarding your problem if you are seen at another facility.
