## Feature Breakdown

**Users:** Add users to SalesforceQ to increase collaboration and provide clarity across your organization.

**Lists:** Easily keep track of your opportunities, deals, customers, etc.

**Automatic Data Capture:** We automatically capture data from your email, calendar and many other data sources so you don't have to.

**Shared Address Book:** Contacts are automatically synced and merged across your team, giving each teammate the best information your organization has for every lead.

**Enriched Contact Profiles:** With as little as an email address, SalesforceQ automatically finds you valuable data about your leads, including Facebook and LinkedIn profiles.

**Suggested Tasks:** Forgot to respond to an email? SalesforceQ will automatically remind you to reply. Respond faster to your best leads and close more deals.

**Team Collaboration:** Get a 360 degree view of every deal. Quickly refresh your memory of your interactions with a client and see who on your team has been in touch with them.

**Mobile:** Your life is mobile. So is SalesforceQ. Grow your business wherever you are with our powerful Android and iOS apps.

**Chrome Extension:** Use our killer Chrome extension to update contacts, access deal information, and track interactions with your sent emails, all without leaving your Gmail inbox.

**Read Receipts:** Did a contact read your email or click on your link? Never wonder again. SalesforceQ notifies you when contacts engage with the emails you send.

**Closest Connections:** SalesforceQ shows you if other team members have interacted with a contact before, allowing you to get warm introductions you would not have found otherwise.

**Direct Integrations:** Use prebuilt integrations with key tools like MailChimp, HubSpot, Pardot and Desk or easily connect to over 300 apps using Zapier.

**API Access:** Write your own integration using our powerful API to customize your workflow.

**Activity Reports:** Take your automatically captured data one step further and get deeper insights on your team's performance.

**Sales Reports:** Teams can easily track how much revenue they've closed. Visualize where each person stands on the sales leaderboard and compare their average deal sizes.

**Pipeline Reports:** Get instant insights into the health of your pipeline with the ability to track the percentage of deals that convert through each status, the win rate of each member of your sales team, and more.

**Forecasting:** Gives sales teams instant clarity into their funnels. You can view forecasts for your entire team or for individual reps in your sales reports.

**Admin Controls:** Keep your data accurate by restricting which team members can import & export data, create or delete fields, and edit your List data.
