

Century 21 Discovery opens new technology center

Century 21 Discovery held a Ribbon Cutting Ceremony on Tuesday, Nov. 27, for their new Technology Center at their Valencia Mesa office in Fullerton.

The new technology will allow the Realtors to access the Multiple Listing Service and Century 21 Online websites from their computer, iPad or Smartphone from anywhere in the office and view it on large multi-media screens.

The Technology Center includes new

flat-screen computers linked to the wireless printing system throughout the office.

"This new center allows our professional Realtors to use the latest technology to work with their clients efficiently in reviewing properties and contracts in an environmentally friendly way," said Century 21 Discovery President Joe Lins.

Anyone wishing for more information about the services offered by Century 21 Discovery can call (714) 626-2000.
