Digestive Support Essential Oil Blend with Calcium Carbonate

PRODUCT DESCRIPTION
DigestZen is one of doTERRA's most popular blends due to its ability to aid in digestion, soothe occasional stomach upset, and maintain overall digestive health.* Now this incredibly effective blend is available in a convenient chewable tablet. DigestTab is a calcium carbonate tablet infused with DigestZen Digestive Blend to deliver the benefits of digestion—supportive essential oils as well as the acid—neutralizing benefits of calcium carbonate.*

CONCEPT

**Calcium Carbonate**
Calcium carbonate, which comes from natural mineral sources, helps maintain stomach acid balance by neutralizing excess acid in the stomach.* This helps relieve the discomfort caused by occasional acidity such as heartburn, indigestion, and flatulence.* This specially designed calcium carbonate is less chalky than many similar products on the market and much easier to chew and swallow.

**DigestZen Essential Oil Blend**
This unique blend contains Ginger, Fennel, and Coriander to help ease occasional stomach discomfort, including motion sickness and indigestion, while Peppermint, Tarragon, Anise, and Caraway aid with digestion and help maintain a healthy gastrointestinal tract.* DigestZen is a healthy, natural, and gentle way to soothe an occasional upset stomach or maintain a healthy digestive system.*
