La ripetizione di un modulo elementare materializza una sfera incompleta, in sospenso.

Materiale: struttura in alluminio pressofuso verniciato; lenti in metacrilato diffondente; rosone in tecnopolimero con finitura verniciata.

The repetition of a simple module creates an incomplete suspended structure.

C'est une répétition d'un module élémentaire qui forme une sphère incomplète en suspension.

Durch Wiederholung eines elementaren Moduls wirkt diese Pendelleuchte wie eine Kugel mit unvollständiger Struktur.

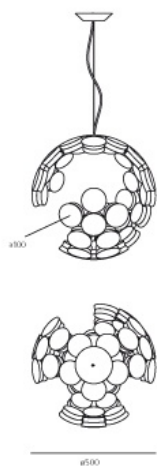

La repetición de un módulo elemental se materializa en una esfera incompleta; en suspensión.

Materials: lamp body in die-cast aluminium; methacrylate lens; ceiling rose in technopolymer.

Matériaux : corps réalisé en aluminium ; lentille en méthacrylate ; rosace en techno-polymère.

Materialien: Leuchtenkörper aus lackiertem Aluminiumdruckguss; Linse aus Methacrylat; Deckenbaldachin aus lackiertem Technopolymer.

MATERIALS:

Aluminium, methacrylate, ABS

DESCRIPTION:

Created through the repetition of an elementary module, this suspension lamp consists of a sphere with an incomplete structure. Ever changing in its appearance, depending on the point it is viewed from, it radically breaks the mould of the pure and sometimes monotonous forms that normally characterise this kind of lamp. Like the Black Star of the Empire in Star Wars, immobile in space, its apparent incompleteness is contrasted with its technical efficiency.
