

Day 13

Transmission: 27:56

Music: [Sean Maher - Celestial Lullaby](#)

The gathering of Light Beings for this final transmission is astounding. I have to admit it is difficult even articulating words.... The love, admiration, joy and, dare I say, adulation is overwhelming at times. In addition, the 3D signs of being in sync with this transmission are undeniable and almost laughable!

This truly is a symphony of Light showering into your fields. Set your intention to receive and embrace the love with all your heart!

With an overwhelming feeling of sadness, I truly do not want this series to end. It has been such an honor and privilege to facilitate this for you. From the depths of my soul, I hope you embrace your own knowingness and co-create your reality as one which brings you immense joy, peace and harmony, all the while being fully aligned with your highest potential for your true happiness and to be in service to the world.

We are the change we've been waiting for. Allow your Light to shine and your actions manifest an experience that uplifts you and all those with whom you come into contact.

You ARE Divine Light, manifest in physical reality, with the potential to have an undeniable positive impact for everyone you meet. Step up to that knowing and let your Light shine!
