

Day 2

Transmission: 28:52

Music: [Ron Crose - Base Chakra 2](#)

Working with many councils of Light, we continue to clear the deep seated energies within the base chakra energetics. Unraveling the DNA and cellular codes which inhibit your ability to manifest and live a fearless experience, you move throughout time and space clearing for both yourself and humanity.

Thousands of Light councils gather to help orchestrate and optimize our collective efforts. You may recognize some as visions and memories from various eras of time enter your awareness. Your willingness to surrender and to be an instrument of Light can speed up the process for both yourself and the collective consciousness.

You may experience vertigo during this transmission, so allow yourself to be unencumbered. This is an extremely necessary process to prepare for the energetic upgrades. The ancient aboriginal council of Light, the originators of dream time, are assisting you to move through this experience with ease and grace.

Once again, this pure didgeridoo music is specifically composed to clear the base chakra. Allow the music to carry you through the multiple layers of consciousness, deep into a state of unconsciousness back into the void. For in this process we ARE clearing back to the beginning of time in this holographic reality. Set your intention to do so with clarity, with confidence, with compassion and with grace.

If you are experiencing physical clearing, remember to hydrate your body with electrolytes and consume deep nutrients to help your body shift.
