

Day 13

Transmission: 27:00

Music – [Sean Maher - All Together Now](#)

Once again the Architects of the Divine Vehicle, The Divine Grandmothers and Divine Mothers gather to assist with this final activation of Light. Many other Masters of Light join in to weave and infuse downloads of Light information, knowledge and wisdom to assist you with expanding your perceptions of your current reality. This download of Light assists you with “seeing” beyond the illusions of your current reality, being aware of many layers of frequency influencing the situation, and intuiting the multitude of information streaming in to assist you with navigating your life.

All knowledge can become wisdom when interpreted and applied to our lives. As a Master of Light, your ability to make the appropriate decisions, take inspired action and live from your heart is greatly enhanced by utilizing all the Light information available. As you heighten your capacity to perceive energy, people and situations more effectively, your potential to manifest a reality which is more aligned with your truth comes into fruition with more ease and grace.

Your bodies are undergoing a massive reconfiguration to assist you with expanding your perceptions and navigating your reality with a higher level of awareness. Allow this information to positively impact your everyday reality. You are a Master of Light.

I highly recommend repeating this series, as often as you feel called, to continue this process of opening up your capacity to see beyond the illusion into the truth.

It is a true honor and privilege to facilitate this series of activations. Remember to live from your heart center and co-create your reality from this expanded state of consciousness.

With deep love and compassion.... thank you for Being!
