

Day 8

Transmission: 32:29

Music - [Daniel Schotsborg - Holo Meditations - Heavenly Air](#)

This activation is so pure, so beautiful and so gentle. Focused on your heart center, new functionality is integrated to allow your internal guidance system to operate at a more expanded level.

Ancient language is spoken to unlock your key codes and memory, instructing the heart to discern all incoming information. Allowing the purest level of wisdom to emerge into your consciousness, the pathways of Light and functionality of the multi-dimensional organs are re-aligned and activated. The conscious decision to live from your heart is amplified with the increased pathways, allowing an expanded experience of heart-centered awareness.

Allow the information to flood your awareness and remember to bring everything through your own heart center, for this will allow true wisdom to emerge.
