

Day 2

Transmission: 28:01

Music: [Sean Maher – Celestial Lullaby](#)

Working with the Architects of the Divine Vehicle, we begin the process of opening up the Akashic Records, which are held within your RNA/DNA. The sacred pathway - geometric code - is activated within your base chakra to allow the information to move into your bio-electrical, bio-chemical system. This begins to unlock the memory block-ages which are affecting this incarnation.

Your willingness to be the observer and allow this “process” to move into your consciousness and energy system is essential. We are unlocking energetic blocks which stream through multiple dimensions and systems in an effort to clear your matrix in this timeline.

Allow the music at the end to carry you into a deep state of awareness and surrender. Having these energetics stream through you may cause an emotional reaction. Breathe, relax, remember and release!
