

## Day 13

Transmission: 26:37

Music: [Sean Maher – Ancient Transmission](#)

There are no words to adequately articulate the magnitude of our experience in this series. We are truly stepping into a new frontier of Light within the expansion of our human consciousness. An entirely new level of Light has been unlocked, allowing us to embody a new level of our own mastery.

We all have our interpretations of what mastery is, or what beings we consider to exemplify the qualities of a master - Souls, past and present, who guide our path on this planet.

As I am writing this, the energy frequency I know as the Christ or Kristos is extremely present and showing me a new “highway” of Light. The essence of the conversation...

“Expressing how the Christ consciousness set the stepping stone, if you will, to the next level of collective consciousness. As the Light workers or Light emissaries continue to upshift their Light quotient, access to the inter-workings of the Divine Vehicle unfolds.”

It is such an honor to say that we are truly on the cutting edge of consciousness, stepping into a new frontier of awareness. Thank you for being on this journey with me and trusting me to unlock your matrix to continue the journey of embodying the next level of your Light.
