

Day 9

Transmission: 25:46

Music: [Sean Maher - Nebula](#)

We continue to build this new network of Light within our Divine Matrix. This transmission of Light connects us to our Galactic star. As we extend our network of Light into the cosmos, the pathways and interfaces are very specific. Again it is about connecting into the appropriate Light streams holding frequencies which will enhance our wisdom and consciousness. The pathways being connected are bypassing the lower frequency bands within the galactic network to ensure clear and pure communication.

When accessing this level of Light frequency, the individualized association fades from our awareness. The energy is a more purified stream of consciousness, which leads to more intrinsic wisdom and knowledge.

Many will be unable to put an association with it, for example coming from the Arcturians or Sirians. This level of connection is bringing in the matrix structure to go beyond this level of frequency. Although this gives the personality less to work with, the wisdom and Light consciousness coming through will enhance your consciousness in new and beneficial ways.

Remember, please take care of your physical body during this process. With the new level of frequencies which are beginning to penetrate your matrix, self care is necessary and welcomed. Follow your guidance as to what your body requires.
