If funds awarded to CONTRACTOR have not been expended in accordance with this Agreement and COUNTY has determined after consultation with CONTRACTOR that funds will not be spent in a timely manner, such funds will revert to COUNTY for that reason and to the extent permitted by and in a manner consistent with federal and state law, regulations, and policies.

(c) Availability of Funds. It is mutually understood that, for the benefit of both parties, this Agreement may have been written before ascertaining the availability of congressional and/or state legislative appropriation of funds in order to avoid program and fiscal delays that would occur if the Agreement were executed after that determination was made. If funding of this Agreement is dependent upon the availability of congressional and legislative appropriation of funds, then:

1. This Agreement shall be deemed automatically terminated if the Congress and and/or the State Legislature do not appropriate funds needed for this Agreement;

2. At COUNTY's discretion, this Agreement may be deemed automatically terminated or this Agreement may be modified or amended in accordance with Paragraph 2.17 (Amendment/Modifications), if the Congress and/or State Legislature do not appropriate sufficient funds needed for this Agreement; and

3. This Agreement is subject to any additional restrictions, limitations, or conditions enacted by the Congress or State Legislature, or any statute enacted by the Congress or State Legislature, that may in any manner affect the provisions, terms, or funding of this Agreement.

(d) COUNTY may withhold any compensation due CONTRACTOR as an offset for any revenues lost arising from an act or omission in billing or documentation practices by CONTRACTOR. CONTRACTOR shall make COUNTY whole for any such lost revenues.

2.4 **Method of Payment.**

(a) Invoices. All payments for compensation and reimbursement for expenses shall be made only upon presentation by CONTRACTOR to COUNTY of an itemized billing invoice in a form acceptable to the Napa County Auditor which indicates, at a minimum, CONTRACTOR's name, address, Social Security or Taxpayer Identification Number, itemization of the hours worked or, where compensation is on a per-task basis, a description of the tasks completed during the billing period, the person(s) actually performing the services and the position(s) held by such person(s), and the approved hourly or task rate. Where expense reimbursement is sought, the invoice shall describe the nature and cost of the expense, the task(s) if any to which the expense was related, and the date incurred. CONTRACTOR shall submit invoices not more often than monthly to the Contract Administrator. After review and approval as to form and content, the invoice shall be submitted to the Napa County Auditor no later than fifteen (15) calendar days following receipt.

(b) Legal status. So that COUNTY may properly comply with its reporting obligations under federal and state laws pertaining to taxation, if CONTRACTOR is or becomes a corporation during the term of this Agreement, proof that such status is currently recognized by and complies with the laws of both the state of incorporation or organization and the State of California, if different, shall be provided to the Contract Administrator upon request during the term of this Agreement in a form satisfactory to the Napa County Auditor. Such proof shall

include, but need not be limited to, a copy of any annual or other periodic filings or registrations required by the state of origin or California, the current address for service of process on the corporation or limited liability partnership, and the name of any agent designated for service of process by CONTRACTOR within the State of California.

2.5 **Independent Contractor.** CONTRACTOR shall perform this Agreement as an independent contractor. CONTRACTOR and the officers, agents and employees of CONTRACTOR are not, and shall not be deemed, COUNTY employees for any purpose, including workers' compensation and employee benefits. CONTRACTOR shall, at CONTRACTOR's own risk and expense, determine the method and manner by which duties imposed on CONTRACTOR by this Agreement shall be performed; provided, however, that COUNTY may monitor the work performed by CONTRACTOR. COUNTY shall not deduct or withhold any amounts whatsoever from the compensation paid to CONTRACTOR, including, but not limited to amounts required to be withheld for state and federal taxes. As between the parties to this Agreement, CONTRACTOR shall be solely responsible for all such payments.

2.6 **Specific Performance.** It is agreed that CONTRACTOR, including the agents, employees and authorized subcontractors of CONTRACTOR, shall be the sole providers of the services required by this Agreement. Because the services to be performed by CONTRACTOR under the terms of this Agreement are of a special, unique, unusual, extraordinary, and intellectual or time-sensitive character which gives them a peculiar value, the loss of which cannot be reasonably or adequately compensated in damages in an action of law, COUNTY, in addition to any other rights or remedies which COUNTY may possess, shall be entitled to injunctive and other equitable relief to prevent a breach of this Agreement by CONTRACTOR.

2.7. **Insurance.** CONTRACTOR shall obtain and maintain in full force and effect throughout the term of this Agreement, and thereafter as to matters occurring during the term of this Agreement, the following insurance coverage:

(a) Workers' Compensation Insurance. To the extent required by law during the term of this Agreement, CONTRACTOR shall provide workers' compensation insurance for the performance of any of CONTRACTOR's duties under this Agreement, including but not limited to, coverage for workers' compensation and employer's liability and a waiver of subrogation, and shall provide COUNTY with certification of all such coverages upon request by COUNTY's Risk Manager.

(b) Liability Insurance. CONTRACTOR shall obtain and maintain in full force and effect during the term of this Agreement the following liability insurance coverages, issued by a company admitted to do business in California and having an A.M. Best rating of A:VII or better, or equivalent self-insurance:

(1) General Liability. Commercial general liability [CGL] insurance coverage (personal injury and property damage) of not less than ONE MILLION DOLLARS ($1,000,000) combined single limit per occurrence, covering liability or claims for any personal injury, including death, to any person and/or damage to the property of any person arising from the acts or omissions of CONTRACTOR or any officer, agent, or employee of CONTRACTOR under this Agreement. If the coverage includes an aggregate limit, the aggregate limit shall be no less than twice the per occurrence limit.

(2) Professional Liability/Errors and Omissions. Professional liability [or errors and omissions] insurance for all activities of CONTRACTOR arising out of or in connection with this Agreement in an amount not less than ONE MILLION DOLLARS ($1,000,000) per claim.

(3) Comprehensive Automobile Liability Insurance. Comprehensive automobile liability insurance (Bodily Injury and Property Damage) on owned, hired, leased and non-owned vehicles used in conjunction with CONTRACTOR's business of not less than ONE MILLION DOLLARS ($1,000,000) combined single limit per occurrence. Coverage shall be business auto insurance coverage using Insurance Services Office (ISO) form number CA 0001 06 92 including symbol 1 (any Auto) or the exact equivalent. If CONTRACTOR owns no vehicles, this requirement may be satisfied by a non-owned auto endorsement to the General Liability Insurance described in subparagraph (b)(1) above. If CONTRACTOR or CONTRACTOR's employees, officers, or agents will use personal automobiles in any way in the performance of this Agreement, CONTRACTOR shall provide evidence of personal auto liability coverage for each such person upon request.

(c) Certificates of Coverage. All insurance coverages referenced in 2.7(b), above, shall be evidenced by one or more certificates of coverage or, with the consent of COUNTY's Risk Manager, demonstrated by other evidence of coverage acceptable to COUNTY's Risk Manager, which shall be filed by CONTRACTOR with the Health and Human Services Agency prior to commencement of performance of any of CONTRACTOR's duties.

(1) The certificate(s) or other evidence of coverage shall reference this Agreement by its COUNTY number or title and department; shall be kept current during the term of this Agreement; shall provide that COUNTY shall be given no less than thirty (30) days prior written notice of any non-renewal, cancellation, other termination, or material change, except that only ten (10) days prior written notice shall be required where the cause of non-renewal or cancellation is non-payment of premium; and shall provide that the inclusion of more than one insured shall not operate to impair the rights of one insured against another insured, the coverage afforded applying as though separate policies had been issued to each insured, but the inclusion of more than one insured shall not operate to increase the limits of the company's liability.

(2) Waiver of Subrogation and Additional Insured Endorsements. For the commercial general liability insurance coverage referenced in 2.7(b)(1) and, for the comprehensive automobile liability insurance coverage referenced in 2.7(b)(3) where the vehicles are covered by a commercial policy rather than a personal policy, CONTRACTOR shall also file with the evidence of coverage an endorsement from the insurance provider naming COUNTY, its officers, employees, agents and volunteers as additional insureds and waiving subrogation. For the Workers Compensation insurance coverage, CONTRACTOR shall file with the evidence of coverage an endorsement waiving subrogation.

(3) The certificate or other evidence of coverage shall provide that if the same policy applies to activities of CONTRACTOR not covered by this Agreement, then the limits in the applicable certificate relating to the additional insured coverage of COUNTY shall pertain only to liability for activities of CONTRACTOR under this Agreement, and that the insurance provided is primary coverage to COUNTY with respect to any insurance or self-insurance programs maintained by COUNTY. The additional insured endorsements for the general liability coverage shall use Insurance Services Office (ISO) Form No. CG 20 09 11 85 or CG 20

10 11 85, or equivalent, including (if used together) CG 2010 10 01 and CG 2037 10 01; but shall not use the following forms: CG 20 10 10 93 or 03 94.

(4) Upon request by COUNTY's Risk Manager, CONTRACTOR shall provide or arrange for the insurer to provide within thirty (30) days of the request, certified copies of the actual insurance policies or relevant portions thereof.

(d) Deductibles/Retentions. Any deductibles or self-insured retentions shall be declared to, and be subject to approval by, COUNTY's Risk Manager, which approval shall not be denied unless the COUNTY's Risk Manager determines that the deductibles or self-insured retentions are unreasonably large in relation to compensation payable under this Agreement and the risks of liability associated with the activities required of CONTRACTOR by this Agreement. At the option of and upon request by COUNTY's Risk Manager if the Risk Manager determines that such deductibles or retentions are unreasonably high, either the insurer shall reduce or eliminate such deductibles or self-insurance retentions as respects COUNTY, its officers, employees, agents and volunteers or CONTRACTOR shall procure a bond guaranteeing payment of losses and related investigations, claims administration and defense expenses.

(e) Inclusion in Subcontracts. CONTRACTOR agrees to require all subcontractors and any other entity or person who is involved in providing services under this Agreement to comply with the Workers Compensation and General Liability insurance requirements set forth in this Paragraph 2.7.

(f) Failure to demand evidence of full compliance with the insurance requirements set forth in this Agreement or failure to identify any insurance deficiency shall not relieve CONTRACTOR, nor be construed or deemed a waiver of, its obligation to maintain the required insurance at all times during the performance of this Agreement.

2.8 **Hold Harmless/Defense/Indemnification.**

(a) In General. To the full extent permitted by law, CONTRACTOR shall hold harmless, defend at its own expense, and indemnify COUNTY and the officers, agents, employees and volunteers of COUNTY from any and all liability, claims, losses, damages or expenses, including reasonable attorney's fees, for personal injury (including death) or damage to property, arising from all acts or omissions to act of CONTRACTOR or its officers, agents, employees, volunteers, contractors and subcontractors in rendering services under this Agreement, excluding, however, such liability, claims, losses, damages or expenses arising from the sole negligence or willful acts of COUNTY or its officers, agents, employees or volunteers or other contractors or their subcontractors. Each party shall notify the other party immediately in writing of any claim or damage related to activities performed under this Agreement. The parties shall cooperate with each other in the investigation and disposition of any claim arising out of the activities under this Agreement, providing that nothing shall require either party to disclose any documents, records or communications that are protected under peer review privilege, attorney-client privilege, or attorney work product privilege.

(b) Obligations Relating to Criminal Background Checks.

1. If CONTRACTOR's obligations under this Agreement involve contact with vulnerable populations such as children, elderly, mentally ill or disabled persons (hereafter in this paragraph referred to as "third persons"), then CONTRACTOR shall investigate by all lawful means, including but not limited to obtaining information from official government sources as the result of taking fingerprints, the criminal background of each and all of its officers, agents, employees, interns, and volunteers, however denominated (hereafter, "employees"), who

will have direct personal contact with, or provide direct personal services to, third persons in the performance of this contract. Depending upon the information acquired by its investigation, CONTRACTOR shall not allow any of its employees to have personal contact with, or provide direct personal services to, third persons where it may reasonably be concluded as a result of its investigation that an employee should not have such contact or provide such service. Nothing herein requires CONTRACTOR to investigate the criminal background of an employee who is currently licensed by the State of California and whose license requires a criminal background investigation.

2. Notwithstanding anything to the contrary in (a) or (c), CONTRACTOR shall defend and indemnify COUNTY and its officers, agents and employees from any and all claims, actions, settlements or judgments of whatever kind which may arise from the failure of CONTRACTOR to conduct the criminal background investigation described in this subparagraph (b) or from the failure of CONTRACTOR after the investigation to reasonably disallow an employee from having such personal contact or providing such direct personal service.

(c) Employee Character and Fitness. CONTRACTOR accepts responsibility for determining and approving the character and fitness of its employees (including volunteers, agents or representatives) to provide the services required of CONTRACTOR under this Agreement, including completion of a satisfactory criminal/background check and period rechecks to the extent permitted by law. Notwithstanding anything to the contrary in this Paragraph, CONTRACTOR shall hold COUNTY and its officers, agents and employees harmless from any liability for injuries or damages resulting from a breach of this provision or CONTRACTOR's actions in this regard.

2.9 **Termination for Cause.**

(a) If either party shall fail to fulfill in a timely and proper manner that party's obligations under this Agreement or otherwise breach this Agreement and fail to cure such failure or breach within ten (10) days of receipt of written notice from the other party describing the nature of the breach, the non-defaulting party may, in addition to any other remedies it may have, terminate this Agreement by giving five (5) days written notice to the defaulting party in the manner set forth in Paragraph 2.13 (Notices).

(b) The Department Director is delegated the authority to terminate this Agreement in accordance with this Paragraph on behalf of COUNTY, but may exercise such authority only after consultation with, and concurrence of, the County Counsel and the County Executive Officer or their respective designees; however, nothing in this delegation prevents the Department Director from requesting the Board of Supervisors to terminate this Agreement under this Paragraph.

2.10 **Other Termination.**

(a) This Agreement may be terminated by either party for any reason and at any time by giving prior written notice of such termination to the other party specifying the effective date thereof at least thirty
(30)
days prior to the effective date; provided, however, that no such termination may be effected by

COUNTY unless an opportunity for consultation is provided prior to the effective date of the termination.

(b) The Department Director is delegated the authority to terminate this Agreement in accordance with this Paragraph on behalf of COUNTY, but may exercise such authority only after consultation with, and concurrence of, the County Counsel and the County Executive Officer or their respective designees; however, nothing in this delegation prevents the Department Director from requesting the Board of Supervisors to terminate this Agreement under this Paragraph.

2.11. **Disposition of, Title to and Payment for Work upon Expiration or Termination.**

(a) Upon expiration or termination of this Agreement, if and to the extent CONTRACTOR has provided services through Software and Applications materials licensed to COUNTY, COUNTY shall promptly return the Software and Application materials to CONTRACTOR. In addition, to the extent CONTRACTOR maintains COUNTY data on those portions of digital software hosted by CONTRACTOR and not controlled by COUNTY ("County data"), CONTRACTOR shall promptly return County data to COUNTY Information Technology Department (ITS) in a format designated by ITS and shall subsequently purge County data from CONTRACTOR's systems upon confirmation from COUNTY that the copy of the data provided to COUNTY is comprehensive of the data previously hosted by CONTRACTOR.

(b) Upon expiration or termination of this Agreement, all finished or unfinished documents and other materials, if any, and all rights therein shall become, at the option of COUNTY, the property of and shall be promptly returned to COUNTY, although CONTRACTOR may retain a copy of such work for its personal records only. Unless otherwise expressly provided in this Agreement, any copyrightable or patentable work created by CONTRACTOR under this Agreement shall be deemed a "work made for hire" for purposes of copyright or patent law and only COUNTY shall be entitled to claim or apply for the copyright or patent thereof.

(c) Notwithstanding the provisions set forth in subparagraph (b) above, if the services involve development or improvement of previously patented inventions or previously copyrighted software, upon expiration or termination of this Agreement, title to, ownership of, and all applicable patents, copyrights and trade secrets in the products developed or improved under this Agreement, shall remain with CONTRACTOR or any other person or entity if such person previously owned or held such patents, copyrights, and trade secrets, and such persons shall retain complete rights to market such product; provided, however, that COUNTY shall receive, at no additional cost, a perpetual license to use such products for its own use or the use of any consortium or joint powers agency to which COUNTY is a party. If the product involves a source code, CONTRACTOR shall either provide a copy of the source code to COUNTY or shall place the source code in an escrow account, at CONTRACTOR's expense, from which the source code may be withdrawn and used by COUNTY for the sole purpose of maintaining and updating the system dependent upon such code when such use is necessary to prevent loss of service to COUNTY.

(d) CONTRACTOR shall be entitled to receive compensation for any satisfactory work completed prior to expiration or receipt of the notice of termination or commenced prior to receipt of notice of termination and completed satisfactorily prior to the effective date of the

DocuSign Envelope ID: 261B9978-4CC1-4ACD-AF61-76B1B4286F76

termination; except that CONTRACTOR shall not be relieved of liability to COUNTY for damages sustained by COUNTY by virtue of any breach of the Agreement by CONTRACTOR whether or not the Agreement expired or was otherwise terminated, and COUNTY may withhold any payments not yet made to CONTRACTOR for purpose of setoff until such time as the exact amount of damages due to COUNTY from CONTRACTOR is determined.

2.12 **No Waiver.** The waiver by either party of any breach or violation of any requirement of this Agreement shall not be deemed to be a waiver of any such breach in the future, or of the breach of any other requirement of this Agreement.

2.13 **Notices.**

(a) In General. Except as set forth in subparagraph (b) below with respect to notice of automatically adopted provisions, all notices required or authorized by this Agreement shall be in writing and shall be delivered in person or by deposit in the United States mail, by certified mail, postage prepaid, return receipt requested. Any notice sent by mail in the manner prescribed by this subparagraph shall be deemed to have been received on the date noted on the return receipt or five days following the date of deposit, whichever is earlier. Any mailed notice, demand, request, consent, approval or communication that COUNTY desires to give to CONTRACTOR shall be addressed to CONTRACTOR's Contract Contact Person at the mailing address set forth in SECTION 1 of this Agreement. Any mailed notice, demand, request, consent, approval or communication that CONTRACTOR desires to give to COUNTY shall be addressed to COUNTY's Contract Administrator at the mailing address set forth in SECTION 1 of this Agreement. Either party may change its address by notifying the other party of the change of address.

(b) Provisions Adopted Automatically. COUNTY reserves the right to provide notice to CONTRACTOR via facsimile of terms, which automatically become part of this Agreement upon approval by the Napa County Board of Supervisors. Notice delivered by facsimile shall be deemed to have been received on the date a successful delivery confirmation report is generated.

(c) Waiver of Notice by CONTRACTOR. If receipt of notice is refused by CONTRACTOR or if notice is undeliverable due to CONTRACTOR's failure to provide a change of address, notice shall be deemed waived and COUNTY may proceed as though notice were accomplished.

2.14 **Compliance with COUNTY Policies on Waste, Harassment, Drug/Alcohol-Free Workplace, and Computer Use.** CONTRACTOR hereby agrees to comply, and require its employees and subcontractors to comply, with the following policies, copies of which are on file with the Clerk of the Board of Supervisors and incorporated by reference herein. Future versions of the following policies shall automatically become part of this Agreement upon approval by the Napa County Board of Supervisors and notice to CONTRACTOR pursuant to Paragraph 2.13. CONTRACTOR also agrees that it shall not engage in any activities, or permit its officers, agents and employees to do so, during the performance of any of the services required under this Agreement, which would interfere with compliance or induce violation of these policies by COUNTY employees or contractors.

(a) Waste Source Reduction and Recycled Product Content Procurement Policy.

(b) County of Napa "Policy for Maintaining a Harassment and Discrimination Free Work Environment."

(c) Drug and Alcohol Policy.

(d) Napa County Information Technology Use and Security Policy. To this end, all employees and subcontractors of CONTRACTOR whose performance of services under this Agreement requires access to any portion of the COUNTY computer network shall sign and have on file with COUNTY's ITS Department prior to receiving such access the certification attached to said Policy.

(e) Napa County Workplace Violence Policy, adopted by the BOS effective May 23, 1995 and subsequently revised effective November 2, 2004, which is located in the County of Napa Policy Manual Part I, Section 37U.

2.15 **Confidentiality.**

(a) Maintenance of Confidential Information. Confidential information is defined as all information disclosed to or created by CONTRACTOR which relates to COUNTY's past, present, and future activities, as well as activities under this Agreement. CONTRACTOR shall hold all such information as CONTRACTOR may receive or create, if any, in trust and confidence, except with the prior written approval of COUNTY, as expressed through the Department Director. Upon cancellation or expiration of this Agreement, to the extent permitted by law, CONTRACTOR shall return to COUNTY all written and descriptive matter which contains any such confidential information, except that CONTRACTOR may retain for its files a copy of CONTRACTOR's work product if such product has been made available to the public by COUNTY.

(b) Protection of Personally Identifiable Information and Protected Health Information.

(1) To the extent CONTRACTOR is provided, creates, or has access to, Protected Health Information (PHI), Personally Identifiable Information (PII), or any other legally protected confidential information or data in any form or matter (collectively referred to as "Protected Information"), CONTRACTOR shall adhere to all federal, state and local laws, rules and regulations protecting the privacy of such information. CONTRACTOR shall adhere to all existing and future federal, state and local laws, rules and regulations regarding the privacy and security of Protected Information, including, but not limited to, laws and regulations requiring data encryption or policy and awareness programs for the protection of COUNTY Protected Information provided to, or accessed or created by, CONTRACTOR.

(2) CONTRACTOR agrees to adhere to the applicable terms regarding the privacy and security of Protected Information as set forth in the COUNTY-entity agreements identified in Paragraph 1.8 of Section 1 of this Agreement (Contract Administration). CONTRACTOR shall also observe and comply with those requirements set forth in "Addendum For Contracts Involving Protected Information Subject to Confidentiality or Security Provisions of County's Agreements with Other Entities" which is incorporated by reference herein, is on file with the Clerk of the Board of Supervisors and the Department, and is also online at: **www.countyofnapa.org**.

(3) CONTRACTOR shall ensure that its staff is trained to its privacy and security policies and procedures and that appropriate physical, technological and administrative safeguards are in place to protect the confidentiality of COUNTY's Protected Information, including, but not limited to, PHI and PII. Upon request, CONTRACTOR shall make available to COUNTY its policies and procedures, staff training records and other documentation of compliance with this Paragraph 2.15.

(4) CONTRACTOR agrees to notify COUNTY, by and through the Napa County Privacy Officer at 2751 Napa Valley Corporate Dr. Suite B, Napa, CA 94559, or 707.253-4715, immediately in the following instances:

(A) Upon the discovery of a breach of PHI/PII/other Protected Information in electronic or other media;

(B) Upon the discovery that PHI/PII/other Protected Information was, or is reasonably believed to have been accessed or acquired by an unauthorized person;

(C) Upon the discovery of a suspected security incident that involves PHI/PII/other Protected Information; or

(D) Upon the discovery of any breach, security incident, intrusion, or unauthorized access, use, or disclosure of PHI/PII/other Protected Information.

(5) CONTRACTOR will be responsible for all costs associated with CONTRACTOR's breach of the security and privacy of PHI/PII/other Protected Information, or its unauthorized access to or disclosure of PHI/PII/or other Protected Information, including, but not limited to, mitigation of the breach, cost to the County of any monetary sanctions resulting from breach, notification of individuals affected by the breach, and any other action required by federal, state, or local laws, rules or regulations applicable at the time of the breach.

(c) To the extent CONTRACTOR creates, is provided, or has access to applications and records concerning any individual made or kept by COUNTY in connection with public social services (records) as defined in California Welfare & Institutions Code Section 10850, CONTRACTOR shall maintain the confidentiality of such records in accordance with Section 10850, except as otherwise permitted by COUNTY and as necessary for purposes of providing services under this Agreement.

(d) Protection of County Data. If CONTRACTOR will be processing and storing the COUNTY's data in an offsite location, such as a cloud service site, cloud storage site, hosted application site, or hosted storage site, CONTRACTOR shall guarantee that such data is encrypted using an encryption algorithm that meets the current US Department of Defense minimum requirements in order to protect COUNTY data against a breach of protected data if lost or stolen. All offsite cloud applications and storage systems utilized by CONTRACTOR shall be located in the United States, which includes any backup and failover facilities. Application and storage solutions in any foreign location is prohibited.

All desktop and laptop computers, as well other similar type computer systems, used by CONTRACTOR shall be encrypted using the same encryption algorithm described above. All data in transit shall require the same encryption. Storage of COUNTY data on removable portable storage is prohibited.

2.16 **No Assignments or Subcontracts.**

(a) In general. A consideration of this Agreement is the personal reputation of CONTRACTOR; therefore, CONTRACTOR shall not assign any interest in this Agreement or subcontract any of the services CONTRACTOR is to perform hereunder without the prior written consent of COUNTY, which shall not be unreasonably withheld. The inability of the assignee to provide personnel equivalent in experience, expertise, and numbers to those provided by CONTRACTOR, or to perform any of the remaining services required under this Agreement within the same time frame required of CONTRACTOR shall be deemed to be reasonable grounds for COUNTY to withhold its consent to assignment. For purposes of this subparagraph, the consent of COUNTY may be given by the Department Director.

(b) Effect of Change in Status. If CONTRACTOR changes its status during the term of this Agreement from or to that of a corporation, limited liability partnership, limited liability company, general partnership, or sole proprietorship, such change in organizational status shall be viewed as an attempted assignment of this Agreement by CONTRACTOR. Failure of CONTRACTOR to obtain approval of such assignment under this Paragraph shall be viewed as a material breach of this Agreement.

2.17 **Amendment/Modification.**

(a) Except as specifically provided herein, this Agreement may be modified or amended only in writing and with the prior written consent of both parties. In particular, only COUNTY, by the Department Director (as long as the aggregate compensation payable to CONTRACTOR by COUNTY under this and all prior agreements with CONTRACTOR will not exceed $10,000), or by COUNTY's Purchasing Agent (as long as the aggregate compensation payable to CONTRACTOR by COUNTY under this and all prior agreements with CONTRACTOR will not exceed the maximum aggregate amount for Purchasing Agent contracts as specified by Napa County Code section 2.36.040 (G)) or by COUNTY's Board of Supervisors (in all other instances), in the form of an amendment of this Agreement, may authorize extra and/or changed work if beyond the scope of services prescribed by "Exhibit A." Failure of CONTRACTOR to secure such authorization in writing in advance of performing any of the extra or changed work shall constitute a waiver of any and all rights to adjustment in the contract price or contract time and no compensation shall be paid for such extra work.

(b) Notwithstanding anything to the contrary in (a), this Agreement may be unilaterally modified by COUNTY upon written notice to CONTRACTOR under the following circumstances:

1. There is a decrease in state or federal funding needed for this Agreement;
2. There is a no-cost extension of the end date of the Agreement as authorized by a state or federal funding source; or
3. There is a change in state/federal law or regulation requiring a change in a provision of this Agreement.

(c) The Department Director is delegated the authority to modify this Agreement in accordance with subparagraph (b), but may exercise such authority only after consultation with, and concurrence of, the County Counsel and the County Executive Officer or their respective designees; provided, however, that nothing in this delegation prevents the Department Director from requesting the Board of Supervisors to modify this Agreement under subparagraph (b).

2.19 **Compliance with Laws.** CONTRACTOR shall observe and comply with all applicable Federal, State and local laws, ordinances, and codes. **CONTRACTOR acknowledges its independent duty to be and to remain informed of all changes in such laws without reliance on COUNTY to provide notice of such changes.** Such laws shall include, but not be limited to, the following, except where prohibited by law:

(b) Documentation of Right to Work. CONTRACTOR agrees to abide by the requirements of the Immigration and Control Reform Act pertaining to assuring that all newly-hired employees of CONTRACTOR performing any services under this Agreement have a legal right to work in the United States of America, that all required documentation of such right to work is inspected, and that INS Form 1-9 (as it may be amended from time to time) is completed and on file for each employee. CONTRACTOR shall make the required documentation available upon request to COUNTY for inspection.

(c) Federal Grant Source. Notwithstanding anything to the contrary in this Agreement, if the funds for this Agreement are derived from a grant from a federal agency, pursuant to 29 CFR 97.36(i)(8) and (9), CONTRACTOR is hereby notified of, and shall comply with the requirements and regulations imposed by the federal granting agency with respect to any discovery or invention which arises or is developed pursuant to this Agreement, and pertaining to any copyrights or rights in data created or otherwise developed when engaging in activities of CONTRACTOR under this Agreement. The requirements and regulations imposed by the federal granting agency are set forth in the original grant agreement specified in Section 1 of the Agreement and are incorporated by reference herein. The original grant agreement is on file with the Clerk of the Board of Supervisors.

(d) Prevailing Wages. If the services to be provided relate to construction or pre-construction-related services, including but not limited to testing, surveying, and inspection, then this Agreement includes the following provisions:

(1) Affected work. CONTRACTOR shall comply with Labor Code sections 1774 and 1775 in relation to payment of prevailing wages for any portion of the required work performed under this Agreement on or after January 1, 2002 relating to construction design, testing, surveying and/inspection work, and construction if the State Director of Industrial Relations has established prevailing wage rates for the types of work involved.

(2) Prevailing wages rates. In accordance with the provisions of Section 1774 of the Labor Code of the State of California, to the extent the Director of Industrial Relations has established the general prevailing rate of wages (which rate includes employer payments for health and welfare, pension, vacation and similar purposes) for the above-described portions of the work required under this Agreement, such rates of wages will be on file and available for inspection at the office of the County of Napa Department of Public Works, 1195 Third Street, Room 201, Napa, California.

(3) Payroll records. In accordance with Labor Code section 1776, a copy of all payrolls for work subject to this subparagraph shall be submitted weekly to COUNTY's Director of Public Works. Payrolls shall contain the full name, address and social security number of each employee, his correct classification, rate of pay, daily and weekly number of hours worked, itemized deductions made and actual wages paid. They shall also indicate apprentices and ratio of apprentices to journeymen. The employee's address and social security number need only appear on the first payroll on which his name appears. The payroll shall be accompanied by a "Statement of Compliance" signed by the employer or his agent indicating that the payrolls are correct and complete and that the wage rates contained therein are not less than those required by the contract. The "Statement of Compliance" shall be on forms furnished by the Director of Public Works or his designee or on any form with identical wording. CONTRACTOR shall be responsible for the submission of copies of payrolls of all subcontractors.

(4) Apprentices. CONTRACTOR shall be responsible for ensuring compliance with the provisions of Labor Code section 1777.5 relating to employment and

payment of apprentices for work under this Agreement relating to land surveying and/or construction inspection if the total compensation to be paid CONTRACTOR for such work is $30,000 or more.

(e) Inclusion in Subcontracts. To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party, CONTRACTOR shall include all of the provisions of this Paragraph 2.19 in all such subcontracts as obligations of the subcontractor.

(f) Notwithstanding any other provisions of this contract, CONTRACTOR represents that it will comply with the applicable cost principles and administrative requirements including claims for payment or reimbursement by COUNTY as set forth in 2 C.F.R. 200 et. seq., as currently enacted or as may be amended throughout the term of this Agreement.

2.20 **Taxes.** CONTRACTOR agrees to file all applicable federal and state tax returns or applicable withholding documents and to pay all applicable taxes or to make all required withholdings on amounts paid pursuant to this Agreement, and shall be solely liable and responsible to make such withholdings and/or pay such taxes and other obligations including, without limitation, state and federal income and FICA taxes. CONTRACTOR agrees to indemnify and hold COUNTY harmless from any liability it may incur to the United States or the State of California as a consequence of CONTRACTOR's failure to pay or withhold, when due, all such taxes and obligations. In the event that COUNTY is audited for compliance regarding any withholding or other applicable taxes or amounts, CONTRACTOR agrees to furnish COUNTY with proof of payment of taxes or withholdings on those earnings.

2.21 **Access to Records/Retention.** COUNTY, any federal or state grantor agency funding all or part of the compensation payable hereunder, the State Controller, the Comptroller General of the United States, or the duly authorized representatives of any of the above, shall have access to any books, documents, papers and records of CONTRACTOR which are directly pertinent to the subject matter of this Agreement for the purpose of making audit, examination, excerpts and transcriptions. Except where longer retention is required by any federal or state law, CONTRACTOR shall maintain all required records, including clinical documentation, for at least ten (10) years after COUNTY makes final payment for any other work authorized hereunder and all pending matters are closed, whichever is later.

2.22 **Authority to Contract.** CONTRACTOR and COUNTY each warrant hereby that they are legally permitted and otherwise have the authority to enter into and perform this Agreement. The parties further warrant that the signatories to this Agreement are authorized to execute this Agreement on behalf of their respective parties and that any action necessary to bind each such party has been taken by that party prior to entering into this Agreement.

2.23 **Conflict of Interest.**

(a) Covenant of No Undisclosed Conflict. The parties to the Agreement acknowledge that they are aware of the provisions of Government Code section 1090, et seq., and section 87100, et seq., relating to conflict of interest of public officers and employees. CONTRACTOR hereby covenants that it presently has no interest not disclosed to COUNTY and shall not acquire any interest, direct or indirect, which would conflict in any material manner or degree with the performance of its services or confidentiality obligation hereunder, except as such as COUNTY

may consent to in writing prior to the acquisition by CONTRACTOR of such conflict. CONTRACTOR further warrants that it is unaware of any financial or economic interest of any public officer or employee of County relating to this Agreement. CONTRACTOR agrees that if such financial interest does exist at the inception of this Agreement, COUNTY may terminate this Agreement immediately upon giving written notice without further obligation by COUNTY to CONTRACTOR under this Agreement. The Department Director is delegated the authority to terminate this Agreement in accordance with this Paragraph on behalf of COUNTY, but may exercise such authority only after consultation with, and concurrence of, the County Counsel and the County Executive Officer or their respective designees; however, nothing in this delegation prevents the Department Director from requesting the Board of Supervisors terminate this Agreement.

(b) Statements of Economic Interest. CONTRACTOR acknowledges and understands that COUNTY has developed and approved a Conflict of Interest Code as required by state law which requires CONTRACTOR to file with the Elections Division of the Napa County Assessor-Clerk Recorder "assuming office", "annual", and "leaving office" Statements of Economic Interest as a "consultant", as defined in section 18701(a)(2) of Title 2 of the California Code of Regulations, unless COUNTY, through a person authorized to execute this Agreement on behalf of COUNTY, or the Department Director, has determined in writing that CONTRACTOR, although holding a "designated" position as a consultant, has been hired to perform a range of duties so limited in scope as to not be required to fully comply with such disclosure obligation. CONTRACTOR agrees to timely comply with all filing obligations for a consultant under COUNTY's Conflict of Interest Code unless such a determination is on file on the filing dates for each of the required Statements of Economic Interest.

2.24 **Non-Solicitation of Employees.** Each party agrees not to solicit for employment the employees of the other party who were directly involved in the performance of the services hereunder for the term of this Agreement and a period of six (6) months after termination of this Agreement except with the written permission of the other party, except that nothing in this Paragraph shall preclude either party from publishing or otherwise distributing applications and information regarding that party's job openings where such publication or distribution is directed to the general public.

2.25 **Third Party Beneficiaries.** Nothing contained in this Agreement shall be construed to create any rights in third parties and the parties do not intend to create such rights.

2.26 **Attorney's Fees.** In the event that either party commences legal action of any kind or character to either enforce the provisions of this Agreement or to obtain damages for breach thereof, the prevailing party in such litigation shall be entitled to all costs and reasonable attorney's fees incurred in connection with such action.

2.27 **Severability.** If any provision of this Agreement, or any portion thereof, is found by any court of competent jurisdiction to be unenforceable or invalid for any reason, such provision shall be severable and shall not in any way impair the enforceability of any other provision of this Agreement.

2.28 **Entirety of Contract.** This Agreement, including documents incorporated by reference and not attached hereto, constitutes the entire agreement between the parties relating to the subject of this Agreement and supersedes all previous agreements, promises, representations, understandings and negotiations, whether written or oral, among the parties with respect to the subject matter hereof.

2.29. **Other Terms and Conditions [Reserved.]**

2.30 **Acknowledgment of Funds; Compliance with Government Code Section 7550.**

(a) **In General.** Because the monies provided by COUNTY are funded by taxpayer dollars, it is important that the public know the individuals and organizations that are receiving funds from COUNTY under this Agreement. Therefore, CONTRACTOR shall acknowledge funding received under this Agreement in statements or printed materials relating thereto. All printed materials shall contain the following information in a type size and style appropriate to the materials: "Made possible by funding provided by the County of Napa."

(b) **Compliance With Government Code Section 7550.** In addition, if the Scope of Work includes preparation of a document or written report and the total cost of the work is more than $5,000, each document or report prepared by CONTRACTOR for or under the direction of COUNTY pursuant to this Agreement shall contain the numbers and dollar amounts of the Agreement and all subcontracts under the Agreement relating to the preparation of the document or written report as required by Government Code section 7550. The Agreement and subcontract dollar amounts shall be contained in a separate section of the document or written report. If multiple documents or written reports are the subject of the Agreement or subcontracts, the disclosure section may also contain a statement indicating that the total contract amount represents compensation for multiple documents or written reports.

2.31 **Compliance with Federal Health Care Program Requirements.** If CONTRACTOR will be performing services under this Agreement that are covered by a Federal Health Care Program, then:

(a) CONTRACTOR shall observe and comply with all applicable Federal Health Care Program Requirements, including but not limited to those requirements set forth in "Addendum For Contracts Involving Federal Health Care Programs—Revision of March 22, 2021." (f) CONTRACTOR shall pay any penalty or fine assessed against COUNTY arising from CONTRACTOR's failure to comply with all applicable Federal or State Health Care Program Requirements, including, but not limited to any penalties or fines which may be assessed under a Federal or State False Claims Act provision.

(g) To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party, CONTRACTOR shall include the provisions of the Addenda in all such subcontracts as obligations of the subcontractor.

(h) CONTRACTOR agrees to abide by COUNTY'S policies entitled "Whistleblower Protections", "The False Claims Act (Federal & State Statutes) & Other Administrative Remedies & Statutes", "Federal Anti-Kickback Prohibitions" and "Physicians Referrals – The Stark Law". CONTRACTOR shall provide copies of documentation requested by COUNTY immediately, and by no later than 14 calendar days, after such request is made. As set forth in Paragraph 2.21, CONTRACTOR is required to maintain all records, including clinical documentation, for a period of ten (10) years after COUNTY makes final payment for any work authorized pursuant to this Agreement and after all audit and fiscal matters are closed by COUNTY, whichever is later. Failure by CONTRACTOR to provide such documentation upon request by COUNTY shall subject contractor to monetary damages, in addition to CONTRACTOR reimbursing the payments it received from COUNTY for services related to the requested documentation, and all remedies and damages that COUNTY may seek for CONTRACTOR'S breach of its specific performance of the services provided pursuant to this Agreement.

2.32 **Compliance with State Medi-Cal Specialty Mental Health Services Requirements.** If CONTRACTOR, under this Agreement, is required to and performs services that are covered by a State Medi-Cal Specialty Mental Health Services Program, then:

(f) To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party; CONTRACTOR shall include the provisions of this Paragraph in all such subcontracts as obligations of the subcontractor.

2.34 **Compliance with Federal Health Insurance Portability and Accountability Act of 1996.** If CONTRACTOR shall perform services under this Agreement involving the receipt, use, or disclosure of protected health information, then:

(a) Federal and other applicable law. CONTRACTOR shall observe and comply with all applicable requirements of the Federal Insurance Portability and Accountability Act of 1996 and regulations promulgated thereunder by the U.S. Department of Health and Human Services (collectively referred to as "HIPAA"), and other applicable laws.

(b) HIPAA Business Associate Agreement. If applicable, CONTRACTOR shall comply with the terms and conditions of the HIPAA Business Associate Agreement previously entered into with COUNTY, which is incorporated by reference herein and on file with the Clerk of the Board of Supervisors.

(c) Use or Disclosure of Protected Health Information. CONTRACTOR may use or disclose protected health information for the purpose of performing functions, activities for or on behalf of COUNTY, as specified in this Agreement, provided that such use or disclosure would not violate HIPAA, if done by COUNTY, or the provisions of any applicable HIPAA Business Associate Agreement.

(d) Subcontractors. To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party, CONTRACTOR shall require compliance with all applicable HIPAA provisions, other applicable law, and any applicable HIPAA Business Associate Agreement(s) in such subcontracts as obligations of the subcontractor.

2.35 **Compliance With COUNTY's Obligations Under Contracts With Other Entities.** If CONTRACTOR under this Agreement shall perform services as a subcontractor under COUNTY's contract(s) with other entities, including, but not limited to State and Federal Agencies, and such services involve the use or disclosure of personally identifiable information, then:

(a) CONTRACTOR shall observe and comply with all applicable terms of COUNTY's contract(s) with other entities, including, but not limited to, those requirements set forth in "Addendum For Contracts Involving Personally Identifiable Information Subject to Confidentiality or Security Provisions of County's Agreements with Other Entities" which is incorporated by reference herein, is on file with the Clerk of the Board of Supervisors and the Department, and is also online at: **www.countyofnapa.org**.

2.37 **Licensure Status.**

(a) License in Good Standing. If CONTRACTOR is providing services under this Agreement as a state-licensed professional, CONTRACTOR shall ensure that CONTRACTOR's professional license is in good standing with all applicable licensing boards. CONTRACTOR understands COUNTY may terminate the Agreement if CONTRACTOR fails to maintain a current professional license in good standing. For purposes of this Agreement, "license in good standing" means there is no suspension, revocation or probation for any reason (including the failure to pay licensing fees), nor any restriction upon the provisions of the license: including, but not limited to, restrictions placed by a licensing agency upon CONTRACTOR's license pursuant to any consent or settlement agreement or to an administrative decision of the licensing agency.

(b) Expiration of License. In the event that CONTRACTOR's professional license is not renewed on or before its expiration, CONTRACTOR shall neither provide nor be reimbursed for services pursuant to this Agreement commencing the day after license expiration and until CONTRACTOR's professional license is renewed. HHSA Code of Ethics applies to CONTRACTOR's activities under this Agreement, CONTRACTOR shall read, understand, and abide by the Code of Ethics, and CONTRACTOR shall on an annual basis provide written certification to HHSA that CONTRACTOR has received, read, understands, and will abide by HHSA's Code of Ethics. The Code of Ethics may be found online at **www.countyofnapa.org** or may be obtained from HHSA upon written request.

2.39 **Electronic Billing System**. CONTRACTOR understands that Napa County Health and Human Services (HHSA) operates an electronic billing system program, which seeks reimbursement from the State of California for the delivery of alcohol, drug abuse and mental health services. If CONTRACTOR provides any services related to alcohol, drug abuse or mental health services under the terms of CONTRACTOR's Agreement, CONTRACTOR agrees, upon request of the Director of HHSA or the Director's designee, to implement the COUNTY's sponsored electronic health record system as part of CONTRACTOR's requirement for the delivery of these services.

2.40 **Audit Report Requirements.** If COUNTY has determined that CONTRACTOR is a "subrecipient" (also known as a "pass-through entity") as defined in 2 C.F.R. § 200 et. seq., CONTRACTOR represents that it will comply with the applicable cost principles and administrative requirements including claims for payment or reimbursement by COUNTY as set forth in 2 C.F.R. § 200 et. seq., as currently enacted or as may be amended throughout the term of this Agreement. CONTRACTOR shall observe and comply with all applicable Audit Report Requirements, including but not limited to those requirements set forth in "Addendum for Contracts Involving Federal Awards." The Addendum is incorporated by reference as if set forth herein. EXHIBIT 2 TO

SECTION 999.5(d)(5)(I)

NAPA COUNTY AGREEMENT FOR SERVICES NO. 250143D

This agreement ("Agreement"), dated the 1st day of July, 2024, ("Effective Date") is by and between NAPA COUNTY, a political subdivision of the State of California (hereinafter "COUNTY"), and **ST. JOSEPH HEALTH NORTHERN CALIFORNIA, LLC, D.B.A. PROVIDENCE QUEEN OF THE VALLEY MEDICAL CENTER**, a California nonprofit public benefit corporation (hereinafter "HOSPITAL"), which maintains an acute care hospital located in Napa, CA.

WHEREAS, COUNTY has established an Emergency Medical Services (EMS) system pursuant to Division 2.5 of the California Health and Safety Code and has designated the Napa County Department of Health & Human Services, Public Health Division as the local Emergency Medical Services Agency, hereinafter referred to as the "EMS Agency," pursuant to Section 1797.200 of the Health and Safety Code; and

WHEREAS, the COUNTY wishes to assure the highest quality of care by directing ST Elevation Myocardial Infarction (STEMI) patients to facilities qualified to meet STEMI Receiving Hospital standards; and

WHEREAS, the COUNTY has implemented a Comprehensive Cardiac Care System; and

WHEREAS, the COUNTY has designated HOSPITAL as a STEMI Receiving Hospital pursuant to Section 1797.204 of the Health and Safety Code and the Emergency Medical Services System Plan approved by the California EMS Authority; and

WHEREAS, HOSPITAL is willing to accept designation as a STEMI Receiving Center; and

WHEREAS, HOSPITAL, by virtue of the parties' execution of this Agreement, will be designated by the COUNTY as a STEMI Receiving Center under the terms of the Agreement;

NOW THEREFORE, in consideration of the recitals and the mutual obligations of the parties expressed herein, both the COUNTY and HOSPITAL do hereby expressly agree as follows:

1. Definitions.

For the purposes of this Agreement:

a. "STEMI Patient" means a person evaluated by prehospital, physician, nursing or other clinical personnel according to the policies and procedures established by the EMS Agency, as may be amended from time to time, and been found to require STEMI Receiving Center Services.

b. "STEMI Care System" means an integrated prehospital and hospital program that is intended to direct patients with field identified ST Segment Elevation Myocardial Infarction directly to hospitals with specialized capabilities to promptly treat these patients.

c. "STEMI Receiving Center Services" means the customary and appropriate hospital and physician services provided by a STEMI Receiving Center to STEMI patients, which, at a minimum, meet STEMI Receiving Center Standards.

2. Term of Agreement.

The term of this Agreement shall be July 1, 2024 to June 30, 2027. It will cover the fiscal years 2024-2025, 2025-2026 and 2026-2027. The fiscal year is recognized as commencing the first of July and ending on the thirtieth of June. This Agreement shall expire at 11:59 p.m. on June 30, 2027, unless otherwise extended or unless terminated earlier in accordance with the provisions of Section 8 below.

3. Fees.

HOSPITAL shall reimburse the COUNTY for functions related to its designation as a STEMI Receiving Center. The annual HOSPITAL fee is $15,000. The COUNTY shall submit an invoice to HOSPITAL by July 31st of each fiscal year; fee is payable within 30 days of receipt of invoice.

At its discretion, the COUNTY may suspend HOSPITAL's designation whenever payment of a fee is more than ten days overdue, and may revoke the designation whenever a payment of a fee is more than 90 days overdue.

In the event of the termination of this Agreement by COUNTY without cause, COUNTY shall return to HOSPITAL, a prorated amount of the annual fee paid by HOSPITAL for that year.

4. Scope of Hospital Services.

e. HOSPITAL shall provide all persons, employees, supplies, equipment, and faculties needed to perform the services required under this Agreement.

f. HOSPITAL shall notify the COUNTY, in writing, within 24 hours of any failure to meet STEMI Receiving Center Standards, and take corrective action within a reasonable period of time to correct the failure.

g. HOSPITAL shall immediately notify the COUNTY of any circumstances that will prevent HOSPITAL from providing STEMI Receiving Center Services.

h. HOSPITAL shall comply with any COUNTY plan of correction, regarding any identified failure to meet STEMI Receiving Center Standards, within the timeframes established by the COUNTY.

i. HOSPITAL shall actively and cooperatively participate as a member of the STEMI Committee, and such other related committees that may, from time to time, be named and organized by the COUNTY.

j. HOSPITAL shall maintain and submit STEMI data to the COUNTY on a regular basis, as requested by the EMS Agency. HOSPITAL shall, at a minimum, collect and maintain the data specified by the COUNTY.

c. The COUNTY will strive to optimize the overall effectiveness of the STEMI Care System and employ continuous quality improvement strategies and collaboration with stakeholders.

6. Administration.

The COUNTY's Health and Human Services Agency Director or designee shall administer this Agreement on behalf of the COUNTY. The COUNTY shall audit and inspect records, monitor

HOSPITAL's services and provide technical guidance as required. HOSPITAL's Chief Administrative Officer or designee shall administer this Agreement on behalf of the HOSPITAL.

7. On-Site Review.

The COUNTY shall have the right at all times to monitor, assess, or evaluate HOSPITAL's performance as a STEMI RECEIVING CENTER. Such monitoring, assessments, or evaluations may include, without limitation, audits and inspections of premises, reports, patient records, and interviews of staff and participants, all to the maximum extent permitted by law. At any time during the term of designation, the COUNTY may, at its discretion, conduct an on-site review of all records and materials related to HOSPITAL's operation of the STEMI Receiving Center to evaluate the effectiveness of the center in providing care in compliance with the terms and conditions of this Agreement.

8. Termination.

a. Termination Without Cause. Notwithstanding any other provision of this Agreement, at any time and without cause, COUNTY shall have the right, in its sole discretion, to terminate this Agreement with thirty (30) days written notice to HOSPITAL. HOSPITAL may terminate this Agreement at any time and for any reason by serving written notice upon the other party at least ninety (90) days prior to the effective date of such termination.

b. Termination for Cause. COUNTY may terminate this Agreement upon written notice to HOSPITAL, subject to HOSPITAL's opportunity to cure as set forth below, upon the occurrence of any one or more of the following events as determined by the COUNTY:

i. any material breach of this Agreement by HOSPITAL;

ii. any violation by HOSPITAL of any applicable laws, regulations, or local ordinances;

iii. any failure to provide timely surgical and non-surgical physician coverage for STEMI patients, causing unnecessary risk of mortality and/or morbidity for the STEMI patient;

iv. submission by HOSPITAL to the COUNTY reports or information that HOSPITAL knows or should know is incorrect in any material respect;

v. any failure by HOSPITAL to comply with STEMI Receiving Center Standards;

vi. loss or suspension of licensure as an acute care hospital, loss or suspension of any existing or future special permits issued by state or federal agencies necessary for the provision of the services provided by HOSPITAL under the terms of this Agreement;

In addition, Contractor and any individuals assigned, by Contractor to Hospital, acknowledge and understand the requirements for reporting suspected abuse.

3.3 Non-Exclusivity. Each Party understands and agrees that the provision of Services pursuant to the terms of this Agreement does not in any way constitute an exclusive arrangement and that either Party may contract for similar services at any time.

4. TERM AND TERMINATION

4.1 Term. The term of this Agreement shall commence as of the Effective Date and shall continue for five (5) years unless terminated sooner as provided for herein.

4.2 Termination without Cause. Either Party may terminate this Agreement at any time and for any reason upon at least thirty (30) days prior written notice to the other Party. A material breach of this Agreement shall include, without limitation, violation of any federal, state or local laws, regulations, rule, statutes, or ordinances related to the Services and any requirements necessary to provided Services; or if Hospital (e) no longer is able to carry out its duties and provide the Service for which this Agreement was entered into; (f) receives a written opinion from Hospital's legal counsel that this Agreement may adversely affect the ability of Hospital and/or any of its affiliates to obtain or maintain tax-exempt financing.

Further, Contractor shall maintain workers' compensation insurance as required by applicable State Law and employers' liability insurance, in the event of an injury received while working in or about Hospital. Contractor Employee Trainees who are not eligible for Workers' Compensation benefits shall be advised of their individual responsibility to carry extended health insurance. Nothing in this Section or any subsequent Sub-Sections be construed to limit the legal rights of the Hospital, limit Contractor's and/or Employee Trainee's liability, or be constituted as a waiver of any of the benefits of a statute of limitations or equitable defense by Hospital. If Contractor is a Business Associate under HIPAA/HITECH then Contractor shall also maintain cyber liability insurance including third party coverage of one million dollars ($1,000,000) and notification/breach response coverage of five hundred thousand dollars ($500,000).

5.1.1 If excess or umbrella liability insurance, over the primary policy, is used to meet limit requirements in Sections 5.1, such excess or umbrella liability insurance coverage shall follow primary policy and provide additional coverage at least as broad as specified in the underlying primary policy. The excess or umbrella liability insurance policy shall contain a clause stating that it takes effect and thereby drops down in the event the primary policy limits are impaired or exhausted.

5.1.2 In the event any coverage required in Section 5.1 are through a "claims made" policy and is either canceled, non-renewed, or should Contractor and/or Employee Trainees replace and bind coverage with a different carrier for any reason, Contractor and/or Employee Trainees shall, take the necessary actions required in order to provide continuous coverage by either obtaining "tail" insurance from the preceding carriers or "nose" insurance from the subsequent carriers. In order to satisfy the requirements of Section 5.1, the "tail" insurance must be of either an unlimited type or of the type which would extend the discovery period beyond the last effective day of the Agreement between the Parties for a period of three (3) years. In order to satisfy the requirements of Section 5.1 for "nose" insurance, the retroactive effective date for such insurance must be at least the first date of the relevant term noted above.

5.1.3 Contractor shall ensure that all such policies provide for notification to Hospital at least thirty (30) days in advance of any material modification or cancellation of such coverage. Contractor shall provide certificates evidencing all coverage referred to in this section within five (5) days of execution of this Agreement and thereafter, on an annual basis except that, with respect to Employee Trainees, such evidence will be provided prior to the date when any new Employee Trainee commences participation in the training.

5.1.4 In the event Contractor and/or Employee Trainees fail to procure, maintain or pay for said insurance as required herein, Hospital shall have the right, but not be obligated to, obtain such insurance. In such event, Contractor and/or Employee Trainees shall reimburse Hospital for the cost thereof and failure to repay the same upon demand by Hospital shall constitute a material breach hereunder.

5.1.5 Hospital shall be named or endorsed to name Hospital on all policies required under this Agreement as an additional insured.

5.1.6 All insurance coverage required hereunder shall be written with insurance carriers, which have an A.M. Best rating of A:VIII or better or a qualified program of self-insurance.

5.1.7 Contractor shall maintain the ability to self-insure so long as the coverage and limits described herein are met. It should be expressly understood, however, that the coverage of self-insurance required hereunder shall not in any way limit the liability of Contractor. Certificates evidencing such coverage of self-insurance shall include: (a) Certificate of Consent to Self-Insure and (b) Certificate of Authority. Any lapse of insurance shall be considered a default under the terms of this Agreement.

5.2 Indemnification. Contractor shall indemnify, defend and hold harmless Hospital, its parents and subsidiaries and their respective officers, directors, trustees, employees and agents, from and against any claim, demand, liability, loss, judgment, settlement, suit, action, cost or expense, including reasonable attorneys' fees, arising out of or incident to this Agreement.

5.3 Cooperation in Litigation, Investigation and Review. Furthermore, Contractor shall make available to Hospital, any and all documentation, testimony, and all other relevant information, as required to fulfill the obligations of this section except where Contractor is named as an adverse party. Failure to comply with the requirements of this section shall constitute a material breach of this Agreement and shall provide grounds for immediate termination. Nothing contained in this section shall be construed as a waiver by Hospital of any legal rights of confidentiality with respect to patient information, records, and proprietary information. No permission is hereby granted to Contractor for access to any Hospital records. Contractor shall, during normal business hours and as often as Hospital and/or any agent of the Federal, State, and/or Local government may deem necessary, make available for examination and/or duplication all of its records with respect to all matters covered by this Agreement. The Parties specifically agree to take actions necessary to implement the standards and requirements of the HIPAA Regulations and other applicable State

and Federal laws, regulations, and statutes. The Parties acknowledge and agree that any such applicable laws, regulations, and statues shall automatically be amended such that the HIPAA Regulations herein remains in compliance with such laws, regulations, and statues. Failure to abide by these HIPAA Regulations shall be cause for termination of this agreement. All information related to Hospital business and non-public information that is disclosed or becomes known as a consequence of or through its activities under this Agreement including, but not limited to, personnel information, matters of a business nature, and prospective names and information, bill rates, salary, compensation requests for placement, costs, profits, margins, markets, sales, business processes, products, processes, purchases, plans, information systems, business plans, projections and strategies, contracting and managed care strategies and information, past and present methods, procedures and techniques used in conducting and enhancing operations and any other information of a similar nature and including the contents of this Agreement shall be treated as confidential by Contractor and each of its employees, agents and contractors and shall not be disclosed to any third party without the prior written consent of Hospital unless otherwise required by law. This Agreement imposes no obligations on Contractor with respect to information that: (a) was in Contractor's possession before receipt from Hospital; (b) is or becomes a matter of public knowledge through no fault of Contractor; (c) is rightfully received by Contractor from a third party without a duty of confidentiality; (d) is disclosed by Hospital to a third party without a duty of confidentiality on the third party; (e) is independently developed by Contractor; or (f) is disclosed under operation of law. Failure to abide by the ICP compliance requirements shall give Hospital the right to terminate this Agreement immediately at its sole discretion.

All such costs and attorney fees shall be deemed to have accrued on commencement of any legal action or proceeding and this section shall be enforceable whether or not such legal action or proceeding is prosecuted to judgment. For purposes of this section, and to the fullest extent permitted by law, "prevailing party" includes a party against whom a legal action is filed and is later voluntarily dismissed in whole or in part, regardless of the reason or motivation for such dismissal.

6.5 Entire Agreement; Amendment. This Agreement including the attachments and exhibits hereto contains the complete and full agreement between the Parties hereto with

In the event that Business Associate determines that returning or destroying the PHI is infeasible, Business Associate shall notify PSJH of such a determination and shall extend the protections of this Agreement to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such PHI. This Section shall survive the termination of this Agreement.

III. OBLIGATIONS OF PSJH

1. Use and Disclosure of PHI.

the portion of the Service Agreement that is affected by the breach. When neither cure nor termination is feasible, the non-breaching Party shall report the problem to the Secretary.

3. Equitable Remedies

The Parties agree that damages are inadequate to compensate for the unique losses to be suffered in the event of a breach of this Agreement, and that the damaged party will be entitled, in addition to any other remedy it may have under this Agreement or at law, to seek and obtain injunctive and other equitable relief, including specific performance of the terms of this Agreement without the necessity of posting bond or other security and without having to prove the inadequacy of available remedies at law, it being acknowledged and agreed that any such violation shall cause irreparable injury to the Disclosing Party and that monetary damages shall not provide an adequate remedy.

V. AMENDMENT

If any of the regulations promulgated under HIPAA/HITECH or ARRA are amended or interpreted in a manner that renders this Agreement inconsistent therewith, PSJH may, on thirty (30) calendar days' written notice to Business Associate, amend this Agreement to the extent necessary to comply with such amendments or interpretations. Business Associate agrees that it will fully comply with all such regulations promulgated under HIPAA/HITECH or ARRA, and that it will agree to amend this Agreement to incorporate any provisions required by such regulations. This Agreement modifies and supplements the terms and conditions of the Service Agreement, and the provisions set forth herein shall be deemed a part of the Service Agreement.

VI. INDEMNIFICATION

Each of the Parties agrees to be liable for its own conduct in connection with this Business Associate Agreement and to indemnify the other Party against any and all losses therefore. In the event that loss or damage results from the conduct of more than one Party, each Party agrees to be responsible for its own proportionate share of the claimant's total damages under the laws of the State of Washington. Each of the Parties agrees to indemnify, defend and hold harmless the other Party and its directors, officers, subcontractors, workforce members, affiliates, agents, and representatives from and against any and all third party liabilities, costs, claims, suits, actions, proceedings, demands, losses and liabilities of any kind (including court costs and reasonable attorneys' fees) brought by a third party, arising from or relating to the acts or omissions of that Party or any of its directors, officers, subcontractors, workforce members, affiliates, agents, and representatives in connection with that Party's performance under this Agreement or Service Agreement, without regard to any limitation or exclusion of damages provision otherwise set forth in the Agreement. This Section shall survive the termination of this Agreement.

VII. COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.

VIII. CONFLICTING TERMS

In the event any terms of this Agreement conflict with any terms of the Service Agreement, the terms of this Agreement shall govern and control.

IX. GOVERNING LAW

SCOPE OF WORK
July 1, 2024 through June 30, 2027

1. **Program Name:** Substance Use Navigation in the Emergency Department

2. **Program Goal:** Increase access to treatment and services by offering Substance Use Navigation (SUN) services to all Emergency Department (ED) patients in need and continuing with outreach and education to hospital providers around the availability of SUN services and Medications for Addiction Treatment (MAT) services. The SUN will use the evidence-based method for Screening, Brief Intervention, and Referral to Treatment (SBIRT) for patients with a substance use disorder or opioid use disorder. Partnerships with and referrals to CommuniCare+OLE's MAT program, Napa County Alcohol & Drug Services (ADS), and Archway Services for withdrawal management and residential services, and other outpatient treatment programs. Further development of resource guides and materials for both internal and community use will help increase access to referrals and treatment for individuals in need.

3. **Services to be Provided:**
   A. Expand MAT Services.
      1) Staff the ED with a full-time SUN to screen patients and refer for appropriate opioid use disorder (OUD) treatment and services, including CommuniCare+OLE's MAT program.
      2) SUN and Clinical Champion continue outreach to hospital providers about available treatment and services to increase the number of providers comfortable prescribing MAT to patients with an OUD.
   B. Develop materials to inform community of a variety of resources.
      1) Develop materials for MAT services and how to refer patients so ED caregivers can offer equitable patient access to treatment and resources 24/7.
      2) Develop resource guides for patients to access necessary treatment and services throughout the county.

4. **Outcomes to be achieved during the grant period:**
   - By the end of Year 3, increase by 20% the number of patients diagnosed with an OUD that are prescribed MAT in the ED.
   - By the end of Year 3, increase by 20% the number of patients diagnosed with an OUD that are prescribed MAT for a limited term at discharge.
   - By the end of Year 3, 75% of patients prescribed MAT in the ED and/or at discharge will be connected with the SUN and referred to CommuniCare+OLE's MAT program or another outpatient treatment program.
   - Provide education and/or resources for SUD and OUD services available throughout Napa County to 100 hospital caregivers, patients, and family members each year, as measured by the number of individuals reached by SUN.

5. **Specific quantitative and qualitative evaluation methods that will be used to collect, analyze, and measure outputs and outcomes:**
   - Number of patients in the ED that SUN provides services and referrals for treatment, including CommuniCare+OLE's MAT program (Target = 320 per year).
   - Number of ED patients diagnosed with an OUD and prescribed MAT in the ED (Target = 140 in year 3).
   - Number of ED patients diagnosed with an OUD and prescribed MAT at discharge (Target = 110 in year 3).
   - Implement specific resource for CommuniCare+OLE MAT services in hospital resource book in the ED case management office.
   - Share flyer/resource for patient and community distribution.

CONFLICT RESOLUTION AND MEDIATION

In the event COUNTY or CONTRACTOR encounter problems that significantly threaten to impede the fulfillment of the terms of this agreement, an ad hoc meeting may be called by either the Health and Human Services Agency (HHSA) Director, or designee, or CONTRACTOR executive management, wherein problem resolution is attempted, if need be, with a third party agreeable to both. Prior to termination of Agreement, each party agrees to attempt such conflict resolution at least one time prior to termination of contract.

RECOGNITION OF COUNTY FUNDING

All press releases, media advisories, communications, and other material referencing programs funded by Opioid Settlement Funds (OSF) shall include the following tagline and/or HHSA and Napa County logos:

EXHIBIT C

SECTION 2. GENERAL TERMS AND CONDITIONS –VERSION 12

2.1 **Term of the Agreement.**

(a) Term. The term of this Agreement shall commence on the date first written on page 1 and shall expire on the expiration date set forth on page 1 unless terminated earlier in accordance with Paragraphs 2.9 (Termination for Cause), 2.10 (Other Termination) or 2.23(a) (Covenant of No Undisclosed Conflict).

(b) Automatic Renewal. The term of this Agreement shall be automatically renewed for an additional year at the end of each fiscal year, under the same terms and conditions, unless either party gives the other party written notice of intention not to renew no less than thirty (30) days prior to the expiration of the then current term. For purposes of this Agreement, "fiscal year" shall mean the period commencing on July 1 and ending on June 30. COUNTY authorizes the Department Director to determine whether this Agreement shall not be renewed and to provide the written notice of the intention to not renew on behalf of COUNTY.

(c) Obligations Extending Beyond Term. The obligations of the parties under Paragraphs 2.7 (Insurance) and 2.8 (Hold Harmless/Defense/Indemnification) shall continue in full force and effect after the expiration date or early termination in relation to acts or omissions occurring prior to such dates during the term of the Agreement, and the obligations of CONTRACTOR to COUNTY shall also continue after the expiration date or early termination in relation to the obligations prescribed by Paragraphs 2.15 (Confidentiality), 2.20 (Taxes), 2.21 (Access to Records/Retention), 2.31 (Compliance with Federal Health Care Program Requirements, 2.32 (Compliance with State Medi-Cal Specialty Mental Health Services Requirements), and 2.33 (Compliance with Mental Health Activities Requirements). To the extent the paragraphs referenced in this Paragraph 2.1 may be modified by Specific Terms and Conditions contained in SECTION 3 of this Agreement, the modifications shall also continue after the expiration date or early termination.

2.2 **Scope of Services.** CONTRACTOR shall provide COUNTY those services set forth in Exhibit "A."

2.3 **Compensation.**

(a) Compensation/Maximum. In consideration of CONTRACTOR's fulfillment of the promised work, COUNTY shall pay CONTRACTOR at the rates and/or in the amount(s) set forth in Exhibit "B". The maximum payment for the initial term of this Agreement, and the successive maximum payments for each subsequent automatically renewed term, shall each be that maximum amount set forth on page 1; provided, however, that such amounts shall not be construed as guaranteed sums, and compensation shall be based upon services actually rendered and reimbursable expenses actually incurred.

(b) Advance Funding.

1. Use of Funds. To the extent this Agreement may permit advance funding of services and expenses, use of funds delineated in this Agreement is limited to the term of performance unless otherwise modified in accordance with Paragraph 2.17

Docusign Envelope ID: 9B62ABA8-5872-4005-8C85-A77E516407B2

(Amendment/Modification). COUNTY may at its discretion recapture funds obligated under the authority of this Agreement if expenditure plans are not being met.

2. Reversion of Funds. If funds awarded to CONTRACTOR have not been expended in accordance with this Agreement and COUNTY has determined after consultation with CONTRACTOR that funds will not be spent in a timely manner, such funds will revert to COUNTY for that reason and to the extent permitted by and in a manner consistent with federal and state law, regulations, and policies.

(c) Availability of Funds. It is mutually understood that, for the benefit of both parties, this Agreement may have been written before ascertaining the availability of congressional and/or state legislative appropriation of funds in order to avoid program and fiscal delays that would occur if the Agreement were executed after that determination was made. If funding of this Agreement is dependent upon the availability of congressional and legislative appropriation of funds, then:

1. This Agreement shall be deemed automatically terminated if the Congress and and/or the State Legislature do not appropriate funds needed for this Agreement;

2. At COUNTY's discretion, this Agreement may be deemed automatically terminated or this Agreement may be modified or amended in accordance with Paragraph 2.17 (Amendment/Modifications), if the Congress and/or State Legislature do not appropriate sufficient funds needed for this Agreement; and

3. This Agreement is subject to any additional restrictions, limitations, or conditions enacted by the Congress or State Legislature, or any statute enacted by the Congress or State Legislature, that may in any manner affect the provisions, terms, or funding of this Agreement.

(d) COUNTY may withhold any compensation due CONTRACTOR as an offset for any revenues lost arising from an act or omission in billing or documentation practices by CONTRACTOR. CONTRACTOR shall make COUNTY whole for any such lost revenues.

2.4 **Method of Payment.**

(a) Invoices. All payments for compensation and reimbursement for expenses shall be made only upon presentation by CONTRACTOR to COUNTY of an itemized billing invoice in a form acceptable to the Napa County Auditor which indicates, at a minimum, CONTRACTOR's name, address, Social Security or Taxpayer Identification Number, itemization of the hours worked or, where compensation is on a per-task basis, a description of the tasks completed during the billing period, the person(s) actually performing the services and the position(s) held by such person(s), and the approved hourly or task rate. Where expense reimbursement is sought, the invoice shall describe the nature and cost of the expense, the task(s) if any to which the expense was related, and the date incurred. CONTRACTOR shall submit invoices not more often than monthly to the Contract Administrator. After review and approval as to form and content, the invoice shall be submitted to the Napa County Auditor no later than fifteen (15) calendar days following receipt.

(b) Legal status. So that COUNTY may properly comply with its reporting obligations under federal and state laws pertaining to taxation, if CONTRACTOR is or becomes a corporation during the term of this Agreement, proof that such status is currently recognized by and complies with the laws of both the state of incorporation or organization and the State of California, if different, shall be provided to the Contract Administrator upon request during the term of this Agreement in a form satisfactory to the Napa County Auditor. Such proof shall

include, but need not be limited to, a copy of any annual or other periodic filings or registrations required by the state of origin or California, the current address for service of process on the corporation or limited liability partnership, and the name of any agent designated for service of process by CONTRACTOR within the State of California.

2.5 **Independent Contractor.** CONTRACTOR shall perform this Agreement as an independent contractor. CONTRACTOR and the officers, agents and employees of CONTRACTOR are not, and shall not be deemed, COUNTY employees for any purpose, including workers' compensation and employee benefits. CONTRACTOR shall, at CONTRACTOR's own risk and expense, determine the method and manner by which duties imposed on CONTRACTOR by this Agreement shall be performed; provided, however, that COUNTY may monitor the work performed by CONTRACTOR. COUNTY shall not deduct or withhold any amounts whatsoever from the compensation paid to CONTRACTOR, including, but not limited to amounts required to be withheld for state and federal taxes. As between the parties to this Agreement, CONTRACTOR shall be solely responsible for all such payments.

2.6 **Specific Performance.** It is agreed that CONTRACTOR, including the agents, employees and authorized subcontractors of CONTRACTOR, shall be the sole providers of the services required by this Agreement. Because the services to be performed by CONTRACTOR under the terms of this Agreement are of a special, unique, unusual, extraordinary, and intellectual or time-sensitive character which gives them a peculiar value, the loss of which cannot be reasonably or adequately compensated in damages in an action of law, COUNTY, in addition to any other rights or remedies which COUNTY may possess, shall be entitled to injunctive and other equitable relief to prevent a breach of this Agreement by CONTRACTOR.

2.7. **Insurance.** CONTRACTOR shall obtain and maintain in full force and effect throughout the term of this Agreement, and thereafter as to matters occurring during the term of this Agreement, the following insurance coverage:

(a) Workers' Compensation Insurance. To the extent required by law during the term of this Agreement, CONTRACTOR shall provide workers' compensation insurance for the performance of any of CONTRACTOR's duties under this Agreement, including but not limited to, coverage for workers' compensation and employer's liability and a waiver of subrogation, and shall provide COUNTY with certification of all such coverages upon request by COUNTY's Risk Manager.

(b) Liability Insurance. CONTRACTOR shall obtain and maintain in full force and effect during the term of this Agreement the following liability insurance coverages, issued by a company admitted to do business in California and having an A.M. Best rating of A:VII or better, or equivalent self-insurance:

(1) General Liability. Commercial general liability [CGL] insurance coverage (personal injury and property damage) of not less than ONE MILLION DOLLARS ($1,000,000) combined single limit per occurrence, covering liability or claims for any personal injury, including death, to any person and/or damage to the property of any person arising from the acts or omissions of CONTRACTOR or any officer, agent, or employee of CONTRACTOR under this Agreement. If the coverage includes an aggregate limit, the aggregate limit shall be no less than twice the per occurrence limit.

Docusign Envelope ID: 9B62ABA8-5872-4005-8C85-A77E516407B2

(2) Professional Liability/Errors and Omissions. Professional liability [or errors and omissions] insurance for all activities of CONTRACTOR arising out of or in connection with this Agreement in an amount not less than ONE MILLION DOLLARS ($1,000,000) per claim.

(3) Comprehensive Automobile Liability Insurance. Comprehensive automobile liability insurance (Bodily Injury and Property Damage) on owned, hired, leased and non-owned vehicles used in conjunction with CONTRACTOR's business of not less than ONE MILLION DOLLARS ($1,000,000) combined single limit per occurrence. Coverage shall be business auto insurance coverage using Insurance Services Office (ISO) form number CA 0001 06 92 including symbol 1 (any Auto) or the exact equivalent. If CONTRACTOR owns no vehicles, this requirement may be satisfied by a non-owned auto endorsement to the General Liability Insurance described in subparagraph (b)(1) above. If CONTRACTOR or CONTRACTOR's employees, officers, or agents will use personal automobiles in any way in the performance of this Agreement, CONTRACTOR shall provide evidence of personal auto liability coverage for each such person upon request.

(c) Certificates of Coverage. All insurance coverages referenced in 2.7(b), above, shall be evidenced by one or more certificates of coverage or, with the consent of COUNTY's Risk Manager, demonstrated by other evidence of coverage acceptable to COUNTY's Risk Manager, which shall be filed by CONTRACTOR with the Health and Human Services Agency prior to commencement of performance of any of CONTRACTOR's duties.

(1) The certificate(s) or other evidence of coverage shall reference this Agreement by its COUNTY number or title and department; shall be kept current during the term of this Agreement; shall provide that COUNTY shall be given no less than thirty (30) days prior written notice of any non-renewal, cancellation, other termination, or material change, except that only ten (10) days prior written notice shall be required where the cause of non-renewal or cancellation is non-payment of premium; and shall provide that the inclusion of more than one insured shall not operate to impair the rights of one insured against another insured, the coverage afforded applying as though separate policies had been issued to each insured, but the inclusion of more than one insured shall not operate to increase the limits of the company's liability.

(2) Waiver of Subrogation and Additional Insured Endorsements. For the commercial general liability insurance coverage referenced in 2.7(b)(1) and, for the comprehensive automobile liability insurance coverage referenced in 2.7(b)(3) where the vehicles are covered by a commercial policy rather than a personal policy, CONTRACTOR shall also file with the evidence of coverage an endorsement from the insurance provider naming COUNTY, its officers, employees, agents and volunteers as additional insureds and waiving subrogation. For the Workers Compensation insurance coverage, CONTRACTOR shall file with the evidence of coverage an endorsement waiving subrogation.

(3) The certificate or other evidence of coverage shall provide that if the same policy applies to activities of CONTRACTOR not covered by this Agreement, then the limits in the applicable certificate relating to the additional insured coverage of COUNTY shall pertain only to liability for activities of CONTRACTOR under this Agreement, and that the insurance provided is primary coverage to COUNTY with respect to any insurance or self-insurance programs maintained by COUNTY. The additional insured endorsements for the general liability coverage shall use Insurance Services Office (ISO) Form No. CG 20 09 11 85 or CG 20

10 11 85, or equivalent, including (if used together) CG 2010 10 01 and CG 2037 10 01; but shall not use the following forms: CG 20 10 10 93 or 03 94.

(4) Upon request by COUNTY's Risk Manager, CONTRACTOR shall provide or arrange for the insurer to provide within thirty (30) days of the request, certified copies of the actual insurance policies or relevant portions thereof.

(d) Deductibles/Retentions. Any deductibles or self-insured retentions shall be declared to, and be subject to approval by, COUNTY's Risk Manager, which approval shall not be denied unless the COUNTY's Risk Manager determines that the deductibles or self-insured retentions are unreasonably large in relation to compensation payable under this Agreement and the risks of liability associated with the activities required of CONTRACTOR by this Agreement. At the option of and upon request by COUNTY's Risk Manager if the Risk Manager determines that such deductibles or retentions are unreasonably high, either the insurer shall reduce or eliminate such deductibles or self-insurance retentions as respects COUNTY, its officers, employees, agents and volunteers or CONTRACTOR shall procure a bond guaranteeing payment of losses and related investigations, claims administration and defense expenses.

(e) Inclusion in Subcontracts. CONTRACTOR agrees to require all subcontractors and any other entity or person who is involved in providing services under this Agreement to comply with the Workers Compensation and General Liability insurance requirements set forth in this Paragraph 2.7.

(f) Failure to demand evidence of full compliance with the insurance requirements set forth in this Agreement or failure to identify any insurance deficiency shall not relieve CONTRACTOR, nor be construed or deemed a waiver of, its obligation to maintain the required insurance at all times during the performance of this Agreement.

2.8 **Hold Harmless/Defense/Indemnification.**

(a) In General. To the full extent permitted by law, CONTRACTOR shall hold harmless, defend at its own expense, and indemnify COUNTY and the officers, agents, employees and volunteers of COUNTY from any and all liability, claims, losses, damages or expenses, including reasonable attorney's fees, for personal injury (including death) or damage to property, arising from all acts or omissions to act of CONTRACTOR or its officers, agents, employees, volunteers, contractors and subcontractors in rendering services under this Agreement, excluding, however, such liability, claims, losses, damages or expenses arising from the sole negligence or willful acts of COUNTY or its officers, agents, employees or volunteers or other contractors or their subcontractors. Each party shall notify the other party immediately in writing of any claim or damage related to activities performed under this Agreement. The parties shall cooperate with each other in the investigation and disposition of any claim arising out of the activities under this Agreement, providing that nothing shall require either party to disclose any documents, records or communications that are protected under peer review privilege, attorney-client privilege, or attorney work product privilege.

(b) Obligations Relating to Criminal Background Checks.

1. If CONTRACTOR's obligations under this Agreement involve contact with vulnerable populations such as children, elderly, mentally ill or disabled persons (hereafter in this paragraph referred to as "third persons"), then CONTRACTOR shall investigate by all lawful means, including but not limited to obtaining information from official government sources as the result of taking fingerprints, the criminal background of each and all of its officers, agents, employees, interns, and volunteers, however denominated (hereafter, "employees"), who

Docusign Envelope ID: 9B62ABA8-5872-4005-8C85-A77E516407B2

will have direct personal contact with, or provide direct personal services to, third persons in the performance of this contract. Depending upon the information acquired by its investigation, CONTRACTOR shall not allow any of its employees to have personal contact with, or provide direct personal services to, third persons where it may reasonably be concluded as a result of its investigation that an employee should not have such contact or provide such service. Nothing herein requires CONTRACTOR to investigate the criminal background of an employee who is currently licensed by the State of California and whose license requires a criminal background investigation.

2. Notwithstanding anything to the contrary in (a) or (c), CONTRACTOR shall defend and indemnify COUNTY and its officers, agents and employees from any and all claims, actions, settlements or judgments of whatever kind which may arise from the failure of CONTRACTOR to conduct the criminal background investigation described in this subparagraph (b) or from the failure of CONTRACTOR after the investigation to reasonably disallow an employee from having such personal contact or providing such direct personal service.

(c) Employee Character and Fitness. CONTRACTOR accepts responsibility for determining and approving the character and fitness of its employees (including volunteers, agents or representatives) to provide the services required of CONTRACTOR under this Agreement, including completion of a satisfactory criminal/background check and period rechecks to the extent permitted by law. Notwithstanding anything to the contrary in this Paragraph, CONTRACTOR shall hold COUNTY and its officers, agents and employees harmless from any liability for injuries or damages resulting from a breach of this provision or CONTRACTOR's actions in this regard.

2.9 **Termination for Cause.**

(a) If either party shall fail to fulfill in a timely and proper manner that party's obligations under this Agreement or otherwise breach this Agreement and fail to cure such failure or breach within ten (10) days of receipt of written notice from the other party describing the nature of the breach, the non-defaulting party may, in addition to any other remedies it may have, terminate this Agreement by giving five (5) days written notice to the defaulting party in the manner set forth in Paragraph 2.13 (Notices).

(b) The Department Director is delegated the authority to terminate this Agreement in accordance with this Paragraph on behalf of COUNTY, but may exercise such authority only after consultation with, and concurrence of, the County Counsel and the County Executive Officer or their respective designees; however, nothing in this delegation prevents the Department Director from requesting the Board of Supervisors to terminate this Agreement under this Paragraph.

2.10 **Other Termination.**

(a) This Agreement may be terminated by either party for any reason and at any time by giving prior written notice of such termination to the other party specifying the effective date thereof at least thirty
(30)
days prior to the effective date; provided, however, that no such termination may be effected by

COUNTY unless an opportunity for consultation is provided prior to the effective date of the termination.

(b) The Department Director is delegated the authority to terminate this Agreement in accordance with this Paragraph on behalf of COUNTY, but may exercise such authority only after consultation with, and concurrence of, the County Counsel and the County Executive Officer or their respective designees; however, nothing in this delegation prevents the Department Director from requesting the Board of Supervisors to terminate this Agreement under this Paragraph.

2.11. **Disposition of, Title to and Payment for Work upon Expiration or Termination.**

(a) Upon expiration or termination of this Agreement, if and to the extent CONTRACTOR has provided services through Software and Applications materials licensed to COUNTY, COUNTY shall promptly return the Software and Application materials to CONTRACTOR. In addition, to the extent CONTRACTOR maintains COUNTY data on those portions of digital software hosted by CONTRACTOR and not controlled by COUNTY ("County data"), CONTRACTOR shall promptly return County data to COUNTY Information Technology Department (ITS) in a format designated by ITS and shall subsequently purge County data from CONTRACTOR's systems upon confirmation from COUNTY that the copy of the data provided to COUNTY is comprehensive of the data previously hosted by CONTRACTOR.

(b) Upon expiration or termination of this Agreement, all finished or unfinished documents and other materials, if any, and all rights therein shall become, at the option of COUNTY, the property of and shall be promptly returned to COUNTY, although CONTRACTOR may retain a copy of such work for its personal records only. Unless otherwise expressly provided in this Agreement, any copyrightable or patentable work created by CONTRACTOR under this Agreement shall be deemed a "work made for hire" for purposes of copyright or patent law and only COUNTY shall be entitled to claim or apply for the copyright or patent thereof.

(c) Notwithstanding the provisions set forth in subparagraph (b) above, if the services involve development or improvement of previously patented inventions or previously copyrighted software, upon expiration or termination of this Agreement, title to, ownership of, and all applicable patents, copyrights and trade secrets in the products developed or improved under this Agreement, shall remain with CONTRACTOR or any other person or entity if such person previously owned or held such patents, copyrights, and trade secrets, and such persons shall retain complete rights to market such product; provided, however, that COUNTY shall receive, at no additional cost, a perpetual license to use such products for its own use or the use of any consortium or joint powers agency to which COUNTY is a party. If the product involves a source code, CONTRACTOR shall either provide a copy of the source code to COUNTY or shall place the source code in an escrow account, at CONTRACTOR's expense, from which the source code may be withdrawn and used by COUNTY for the sole purpose of maintaining and updating the system dependent upon such code when such use is necessary to prevent loss of service to COUNTY.

(d) CONTRACTOR shall be entitled to receive compensation for any satisfactory work completed prior to expiration or receipt of the notice of termination or commenced prior to receipt of notice of termination and completed satisfactorily prior to the effective date of the

Docusign Envelope ID: 9B62ABA8-5872-4005-8C85-A77E516407B2

termination; except that CONTRACTOR shall not be relieved of liability to COUNTY for damages sustained by COUNTY by virtue of any breach of the Agreement by CONTRACTOR whether or not the Agreement expired or was otherwise terminated, and COUNTY may withhold any payments not yet made to CONTRACTOR for purpose of setoff until such time as the exact amount of damages due to COUNTY from CONTRACTOR is determined.

2.12 **No Waiver.** The waiver by either party of any breach or violation of any requirement of this Agreement shall not be deemed to be a waiver of any such breach in the future, or of the breach of any other requirement of this Agreement.

2.13 **Notices.**

(a) In General. Except as set forth in subparagraph (b) below with respect to notice of automatically adopted provisions, all notices required or authorized by this Agreement shall be in writing and shall be delivered in person or by deposit in the United States mail, by certified mail, postage prepaid, return receipt requested. Any notice sent by mail in the manner prescribed by this subparagraph shall be deemed to have been received on the date noted on the return receipt or five days following the date of deposit, whichever is earlier. Any mailed notice, demand, request, consent, approval or communication that COUNTY desires to give to CONTRACTOR shall be addressed to CONTRACTOR's Contract Contact Person at the mailing address set forth in SECTION 1 of this Agreement. Either party may change its address by notifying the other party of the change of address.

(b) Provisions Adopted Automatically. COUNTY reserves the right to provide notice to CONTRACTOR via facsimile of terms, which automatically become part of this Agreement upon approval by the Napa County Board of Supervisors. Notice delivered by facsimile shall be deemed to have been received on the date a successful delivery confirmation report is generated.

(c) Waiver of Notice by CONTRACTOR. If receipt of notice is refused by CONTRACTOR or if notice is undeliverable due to CONTRACTOR's failure to provide a change of address, notice shall be deemed waived and COUNTY may proceed as though notice were accomplished.

2.14 **Compliance with COUNTY Policies on Waste, Harassment, Drug/Alcohol-Free Workplace, and Computer Use.** CONTRACTOR hereby agrees to comply, and require its employees and subcontractors to comply, with the following policies, copies of which are on file with the Clerk of the Board of Supervisors and incorporated by reference herein. Future versions of the following policies shall automatically become part of this Agreement upon approval by the Napa County Board of Supervisors and notice to CONTRACTOR pursuant to Paragraph 2.13. CONTRACTOR also agrees that it shall not engage in any activities, or permit its officers, agents and employees to do so, during the performance of any of the services required under this Agreement, which would interfere with compliance or induce violation of these policies by COUNTY employees or contractors.

(b) County of Napa "Policy for Maintaining a Harassment and Discrimination Free Work Environment."

(c) Drug and Alcohol Policy.

(d) Napa County Information Technology Use and Security Policy. CONTRACTOR shall hold all such information as CONTRACTOR may receive or create, if any, in trust and confidence, except with the prior written approval of COUNTY, as expressed through the Department Director. Upon cancellation or expiration of this Agreement, to the extent permitted by law, CONTRACTOR shall return to COUNTY all written and descriptive matter which contains any such confidential information, except that CONTRACTOR may retain for its files a copy of CONTRACTOR's work product if such product has been made available to the public by COUNTY.

(b) Protection of Personally Identifiable Information and Protected Health Information.

(d) Protection of County Data. If CONTRACTOR will be processing and storing the COUNTY's data in an offsite location, such as a cloud service site, cloud storage site, hosted application site, or hosted storage site, CONTRACTOR shall guarantee that such data is encrypted using an encryption algorithm that meets the current US Department of Defense minimum requirements in order to protect COUNTY data against a breach of protected data if lost or stolen. 2.16 **No Assignments or Subcontracts.**

(a) In general. A consideration of this Agreement is the personal reputation of CONTRACTOR; therefore, CONTRACTOR shall not assign any interest in this Agreement or subcontract any of the services CONTRACTOR is to perform hereunder without the prior written consent of COUNTY, which shall not be unreasonably withheld. The inability of the assignee to provide personnel equivalent in experience, expertise, and numbers to those provided by CONTRACTOR, or to perform any of the remaining services required under this Agreement within the same time frame required of CONTRACTOR shall be deemed to be reasonable grounds for COUNTY to withhold its consent to assignment. For purposes of this subparagraph, the consent of COUNTY may be given by the Department Director.

(b) Effect of Change in Status. If CONTRACTOR changes its status during the term of this Agreement from or to that of a corporation, limited liability partnership, limited liability company, general partnership, or sole proprietorship, such change in organizational status shall be viewed as an attempted assignment of this Agreement by CONTRACTOR. Failure of CONTRACTOR to obtain approval of such assignment under this Paragraph shall be viewed as a material breach of this Agreement.

2.17 **Amendment/Modification.**

(a) Except as specifically provided herein, this Agreement may be modified or amended only in writing and with the prior written consent of both parties. In particular, only COUNTY, by the Department Director (as long as the aggregate compensation payable to CONTRACTOR by COUNTY under this and all prior agreements with CONTRACTOR will not exceed $10,000), or by COUNTY's Purchasing Agent (as long as the aggregate compensation payable to CONTRACTOR by COUNTY under this and all prior agreements with CONTRACTOR will not exceed the maximum aggregate amount for Purchasing Agent contracts as specified by Napa County Code section 2.36.040 (G)) or by COUNTY's Board of Supervisors (in all other instances), in the form of an amendment of this Agreement, may authorize extra and/or changed work if beyond the scope of services prescribed by "Exhibit A." Failure of CONTRACTOR to secure such authorization in writing in advance of performing any of the extra or changed work shall constitute a waiver of any and all rights to adjustment in the contract price or contract time and no compensation shall be paid for such extra work.

(b) Notwithstanding anything to the contrary in (a), this Agreement may be unilaterally modified by COUNTY upon written notice to CONTRACTOR under the following circumstances:

1. There is a decrease in state or federal funding needed for this Agreement;
2. There is a no-cost extension of the end date of the Agreement as authorized by a state or federal funding source; or

(b) Documentation of Right to Work. CONTRACTOR agrees to abide by the requirements of the Immigration and Control Reform Act pertaining to assuring that all newly-hired employees of CONTRACTOR performing any services under this Agreement have a legal right to work in the United States of America, that all required documentation of such right to work is inspected, and that INS Form 1-9 (as it may be amended from time to time) is completed and on file for each employee. CONTRACTOR shall make the required documentation available upon request to COUNTY for inspection.

(c) Federal Grant Source. Notwithstanding anything to the contrary in this Agreement, if the funds for this Agreement are derived from a grant from a federal agency, pursuant to 29 CFR 97.36(i)(8) and (9), CONTRACTOR is hereby notified of, and shall comply with the requirements and regulations imposed by the federal granting agency with respect to any discovery or invention which arises or is developed pursuant to this Agreement, and pertaining to any copyrights or rights in data created or otherwise developed when engaging in activities of CONTRACTOR under this Agreement. The requirements and regulations imposed by the federal granting agency are set forth in the original grant agreement specified in Section 1 of the Agreement and are incorporated by reference herein. (2) Prevailing wages rates. In accordance with the provisions of Section 1774 of the Labor Code of the State of California, to the extent the Director of Industrial Relations has established the general prevailing rate of wages (which rate includes employer payments for health and welfare, pension, vacation and similar purposes) for the above-described portions of the work required under this Agreement, such rates of wages will be on file and available for inspection at the office of the County of Napa Department of Public Works, 1195 Third Street, Room 201, Napa, California.

(3) Payroll records. In accordance with Labor Code section 1776, a copy of all payrolls for work subject to this subparagraph shall be submitted weekly to COUNTY's Director of Public Works. Payrolls shall contain the full name, address and social security number of each employee, his correct classification, rate of pay, daily and weekly number of hours worked, itemized deductions made and actual wages paid. They shall also indicate apprentices and ratio of apprentices to journeymen. The employee's address and social security number need only appear on the first payroll on which his name appears. (e) Inclusion in Subcontracts. To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party, CONTRACTOR shall include all of the provisions of this Paragraph 2.19 in all such subcontracts as obligations of the subcontractor.

(f) Notwithstanding any other provisions of this contract, CONTRACTOR represents that it will comply with the applicable cost principles and administrative requirements including claims for payment or reimbursement by COUNTY as set forth in 2 C.F.R. 200 et. seq., as currently enacted or as may be amended throughout the term of this Agreement.

2.20 **Taxes.** CONTRACTOR agrees to file all applicable federal and state tax returns or applicable withholding documents and to pay all applicable taxes or to make all required withholdings on amounts paid pursuant to this Agreement, and shall be solely liable and responsible to make such withholdings and/or pay such taxes and other obligations including, without limitation, state and federal income and FICA taxes. CONTRACTOR agrees to indemnify and hold COUNTY harmless from any liability it may incur to the United States or the State of California as a consequence of CONTRACTOR's failure to pay or withhold, when due, all such taxes and obligations. In the event that COUNTY is audited for compliance regarding any withholding or other applicable taxes or amounts, CONTRACTOR agrees to furnish COUNTY with proof of payment of taxes or withholdings on those earnings.

2.21 **Access to Records/Retention.** COUNTY, any federal or state grantor agency funding all or part of the compensation payable hereunder, the State Controller, the Comptroller General of the United States, or the duly authorized representatives of any of the above, shall have access to any books, documents, papers and records of CONTRACTOR which are directly pertinent to the subject matter of this Agreement for the purpose of making audit, examination, excerpts and transcriptions. Except where longer retention is required by any federal or state law, CONTRACTOR shall maintain all required records, including clinical documentation, for at least ten (10) years after COUNTY makes final payment for any other work authorized hereunder and all pending matters are closed, whichever is later.

2.22 **Authority to Contract.** CONTRACTOR and COUNTY each warrant hereby that they are legally permitted and otherwise have the authority to enter into and perform this Agreement. The parties further warrant that the signatories to this Agreement are authorized to execute this Agreement on behalf of their respective parties and that any action necessary to bind each such party has been taken by that party prior to entering into this Agreement.

2.23 **Conflict of Interest.**

(a) Covenant of No Undisclosed Conflict. The parties to the Agreement acknowledge that they are aware of the provisions of Government Code section 1090, et seq., and section 87100, et seq., relating to conflict of interest of public officers and employees. CONTRACTOR hereby covenants that it presently has no interest not disclosed to COUNTY and shall not acquire any interest, direct or indirect, which would conflict in any material manner or degree with the performance of its services or confidentiality obligation hereunder, except as such as COUNTY

may consent to in writing prior to the acquisition by CONTRACTOR of such conflict. CONTRACTOR further warrants that it is unaware of any financial or economic interest of any public officer or employee of County relating to this Agreement. CONTRACTOR agrees that if such financial interest does exist at the inception of this Agreement, COUNTY may terminate this Agreement immediately upon giving written notice without further obligation by COUNTY to CONTRACTOR under this Agreement. The Department Director is delegated the authority to terminate this Agreement in accordance with this Paragraph on behalf of COUNTY, but may exercise such authority only after consultation with, and concurrence of, the County Counsel and the County Executive Officer or their respective designees; however, nothing in this delegation prevents the Department Director from requesting the Board of Supervisors terminate this Agreement.

(b) Statements of Economic Interest. CONTRACTOR acknowledges and understands that COUNTY has developed and approved a Conflict of Interest Code as required by state law which requires CONTRACTOR to file with the Elections Division of the Napa County Assessor-Clerk Recorder "assuming office", "annual", and "leaving office" Statements of Economic Interest as a "consultant", as defined in section 18701(a)(2) of Title 2 of the California Code of Regulations, unless COUNTY, through a person authorized to execute this Agreement on behalf of COUNTY, or the Department Director, has determined in writing that CONTRACTOR, although holding a "designated" position as a consultant, has been hired to perform a range of duties so limited in scope as to not be required to fully comply with such disclosure obligation. CONTRACTOR agrees to timely comply with all filing obligations for a consultant under COUNTY's Conflict of Interest Code unless such a determination is on file on the filing dates for each of the required Statements of Economic Interest.

2.24 **Non-Solicitation of Employees.** Each party agrees not to solicit for employment the employees of the other party who were directly involved in the performance of the services hereunder for the term of this Agreement and a period of six (6) months after termination of this Agreement except with the written permission of the other party, except that nothing in this Paragraph shall preclude either party from publishing or otherwise distributing applications and information regarding that party's job openings where such publication or distribution is directed to the general public.

2.25 **Third Party Beneficiaries.** Nothing contained in this Agreement shall be construed to create any rights in third parties and the parties do not intend to create such rights.

2.26 **Attorney's Fees.** In the event that either party commences legal action of any kind or character to either enforce the provisions of this Agreement or to obtain damages for breach thereof, the prevailing party in such litigation shall be entitled to all costs and reasonable attorney's fees incurred in connection with such action.

2.27 **Severability.** If any provision of this Agreement, or any portion thereof, is found by any court of competent jurisdiction to be unenforceable or invalid for any reason, such provision shall be severable and shall not in any way impair the enforceability of any other provision of this Agreement.

2.28 **Entirety of Contract.** This Agreement, including documents incorporated by reference and not attached hereto, constitutes the entire agreement between the parties relating to the subject of this Agreement and supersedes all previous agreements, promises, representations, understandings and negotiations, whether written or oral, among the parties with respect to the subject matter hereof.

2.29. **Other Terms and Conditions [Reserved.]**

2.30 **Acknowledgment of Funds; Compliance with Government Code Section 7550.**

(a) **In General.** Because the monies provided by COUNTY are funded by taxpayer dollars, it is important that the public know the individuals and organizations that are receiving funds from COUNTY under this Agreement. Therefore, CONTRACTOR shall acknowledge funding received under this Agreement in statements or printed materials relating thereto. All printed materials shall contain the following information in a type size and style appropriate to the materials: "Made possible by funding provided by the County of Napa."

(b) **Compliance With Government Code Section 7550**. In addition, if the Scope of Work includes preparation of a document or written report and the total cost of the work is more than $5,000, each document or report prepared by CONTRACTOR for or under the direction of COUNTY pursuant to this Agreement shall contain the numbers and dollar amounts of the Agreement and all subcontracts under the Agreement relating to the preparation of the document or written report as required by Government Code section 7550. The Agreement and subcontract dollar amounts shall be contained in a separate section of the document or written report. If multiple documents or written reports are the subject of the Agreement or subcontracts, the disclosure section may also contain a statement indicating that the total contract amount represents compensation for multiple documents or written reports.

2.31 **Compliance with Federal Health Care Program Requirements.** If CONTRACTOR will be performing services under this Agreement that are covered by a Federal Health Care Program, then:

(a) CONTRACTOR shall observe and comply with all applicable Federal Health Care Program Requirements, including but not limited to those requirements set forth in "Addendum For Contracts Involving Federal Health Care Programs—Revision of March 22, 2021." The Addendum is incorporated by reference as if set forth herein. A copy of the Addendum is on file with and available for inspection in the offices of the Clerk of the Napa County Board of Supervisors and the Department and is online at: www.countyofnapa.org.

(b) CONTRACTOR shall attend and/or provide Compliance Trainings as required by the Department Director unless otherwise deemed exempt by the Department Director or designee thereof.

(c) CONTRACTOR shall make COUNTY whole for any revenues lost arising from an act or omission in billing practices by CONTRACTOR.

(d) CONTRACTOR warrants that no one providing services is an Excluded Individual as such term is defined for Federal Health Care Programs.

(e) CONTRACTOR shall pay any penalty or fine assessed against COUNTY arising from CONTRACTOR's failure to comply with the obligations imposed by the "Addendum for Contractors Involving Federal Health Care Programs". Said penalties and fines that may be

assessed are as follows: civil monetary penalties of $11,000 per item or service; treble damages for the submission of claims for reimbursement from an excluded health care provider.

(f) CONTRACTOR shall pay any penalty or fine assessed against COUNTY arising from CONTRACTOR's failure to comply with all applicable Federal or State Health Care Program Requirements, including, but not limited to any penalties or fines which may be assessed under a Federal or State False Claims Act provision.

(i) CONTRACTOR shall provide copies of any and all clinical documentation supporting the services it provided pursuant to this Agreement at any time requested by COUNTY, including after this Agreement is terminated. CONTRACTOR shall provide copies of documentation requested by COUNTY immediately, and by no later than 14 calendar days, after such request is made. As set forth in Paragraph 2.21, CONTRACTOR is required to maintain all records, including clinical documentation, for a period of ten (10) years after COUNTY makes final payment for any work authorized pursuant to this Agreement and after all audit and fiscal matters are closed by COUNTY, whichever is later. Failure by CONTRACTOR to provide such documentation upon request by COUNTY shall subject contractor to monetary damages, in addition to CONTRACTOR reimbursing the payments it received from COUNTY for services related to the requested documentation, and all remedies and damages that COUNTY may seek for CONTRACTOR'S breach of its specific performance of the services provided pursuant to this Agreement.

2.32 **Compliance with State Medi-Cal Specialty Mental Health Services Requirements.** If CONTRACTOR, under this Agreement, is required to and performs services that are covered by a State Medi-Cal Specialty Mental Health Services Program, then:

(a) CONTRACTOR shall observe and comply with all applicable State Medi-Cal Specialty Mental Health Services Requirements, including but not limited to those requirements set forth in "Addendum for Contracts Involving Medi-Cal Specialty Mental Health Services--Revision No. 1" for services performed on or after July 1, 2014. (b) CONTRACTOR shall provide such documentation as required by the Department Director, Contract Administrator, or designees thereof at any time for purposes of quality assurance, audit, or to substantiate claims for payment. COUNTY may elect to withhold payment, or request reimbursement of payments made, for failure by CONTRACTOR to provide such documentation as required by COUNTY.

(d) CONTRACTOR shall make COUNTY whole for any losses, including, but not limited to, disallowances for payment or lost revenues identified and discovered by COUNTY that are attributable to CONTRACTOR's actions when performing its obligations under this Agreement, such as insufficient documentation by CONTRACTOR of Medical Necessity or billing errors by CONTRACTOR that preclude COUNTY from claiming the Federal Financial Participation share of Medi-Cal or State General Funds.

(e) To the extent that CONTRACTOR must make COUNTY whole under this Paragraph, COUNTY may elect to withhold any payments for past services, offset against any payments for future services for which CONTRACTOR provides, or demand reimbursement without offset.

(f) CONTRACTOR shall pay any penalty or fine assessed against COUNTY arising from CONTRACTOR's failure to comply with all applicable Federal or State Health Care Program Requirements, including, but not limited to any penalties or fines which may be assessed under a Federal or State False Claims Act provision.

(g) To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party, CONTRACTOR shall include the provisions of the applicable Addendum in all such subcontracts as obligations of the subcontractor.

(h) CONTRACTOR shall provide copies of any and all clinical documentation supporting the services it provided pursuant to this Agreement at any time requested by COUNTY, including after this Agreement is terminated. 2.33 **Compliance with Mental Health Activities Requirements.** If CONTRACTOR, under this Agreement, is required to perform mental health activities, then:

(a) CONTRACTOR shall provide such documentation as required by the Department Director, Contract Administrator or designees thereof at any time for purposes of quality assurance, audit, or to substantiate claims for payment. COUNTY may elect to withhold payment, or request reimbursement of payments made, for failure by CONTRACTOR to provide such documentation as required by COUNTY.

(b) CONTRACTOR shall be subject to any audits of its services or claims conducted by Department, California State Department of Mental Health or other auditors. Any resulting audit exemption shall be repaid to COUNTY.

(c) CONTRACTOR shall make COUNTY whole for any losses, including, but not limited to, lost revenues as identified and discovered by the COUNTY that are attributable to CONTRACTOR's performance under this Agreement such as CONTRACTOR's insufficient documentation of services as required by the Agreement.

(d) To the extent that CONTRACTOR must make COUNTY whole under this Paragraph, COUNTY may elect to withhold any payments for past services, offset against any payments for future services for which CONTRACTOR provides, or demand reimbursement without offset.

(e) CONTRACTOR shall pay any penalty or fine assessed against COUNTY arising from CONTRACTOR's failure to comply with all applicable requirements.

(f) To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party; CONTRACTOR shall include the provisions of this Paragraph in all such subcontracts as obligations of the subcontractor.

(g) CONTRACTOR shall provide copies of any and all clinical documentation supporting the services it provided pursuant to this Agreement at any time requested by COUNTY, including after this Agreement is terminated. CONTRACTOR shall provide copies of documentation requested by COUNTY immediately, and by no later than 14 calendar days, after such request is made. As set forth in Paragraph 2.21, CONTRACTOR is required to maintain all records, including clinical documentation, for a period of ten (10) years after COUNTY makes final payment for any work authorized pursuant to this Agreement and after all audit and fiscal matters are closed by COUNTY, whichever is later. Failure by CONTRACTOR to provide such documentation upon request by COUNTY shall subject contractor to monetary damages, in addition to CONTRACTOR reimbursing the payments it received from COUNTY for services related to the requested documentation, and all remedies and damages that COUNTY may seek for CONTRACTOR'S breach of its specific performance of the services provided pursuant to this Agreement.

2.34 **Compliance with Federal Health Insurance Portability and Accountability Act of 1996.** If CONTRACTOR shall perform services under this Agreement involving the receipt, use, or disclosure of protected health information, then:

(a) Federal and other applicable law. CONTRACTOR shall observe and comply with all applicable requirements of the Federal Insurance Portability and Accountability Act of 1996 and regulations promulgated thereunder by the U.S. Department of Health and Human Services (collectively referred to as "HIPAA"), and other applicable laws.

(b) HIPAA Business Associate Agreement. If applicable, CONTRACTOR shall comply with the terms and conditions of the HIPAA Business Associate Agreement previously entered into with COUNTY, which is incorporated by reference herein and on file with the Clerk of the Board of Supervisors.

(c) Use or Disclosure of Protected Health Information. CONTRACTOR may use or disclose protected health information for the purpose of performing functions, activities for or on behalf of COUNTY, as specified in this Agreement, provided that such use or disclosure would not violate HIPAA, if done by COUNTY, or the provisions of any applicable HIPAA Business Associate Agreement.

(d) Subcontractors. To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party, CONTRACTOR shall require compliance with all applicable HIPAA provisions, other applicable law, and any applicable HIPAA Business Associate Agreement(s) in such subcontracts as obligations of the subcontractor.

Docusign Envelope ID: 9B62ABA8-5872-4005-8C85-A77E51640782

2.35 **Compliance With COUNTY's Obligations Under Contracts With Other Entities.** If CONTRACTOR under this Agreement shall perform services as a subcontractor under COUNTY's contract(s) with other entities, including, but not limited to State and Federal Agencies, and such services involve the use or disclosure of personally identifiable information, then:

(a) CONTRACTOR shall observe and comply with all applicable terms of COUNTY's contract(s) with other entities, including, but not limited to, those requirements set forth in "Addendum For Contracts Involving Personally Identifiable Information Subject to Confidentiality or Security Provisions of County's Agreements with Other Entities" which is incorporated by reference herein, is on file with the Clerk of the Board of Supervisors and the Department, and is also online at: www.countyofnapa.org.

(b) CONTRACTOR shall pay any penalty or fine assessed against COUNTY arising from CONTRACTOR's failure to comply with the obligations imposed by the "Addendum for Contracts Involving Personally Identifiable Information Subject to Confidentiality or Security Provisions of County's Agreements with Other Entities".

(c) To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party, CONTRACTOR shall include the provisions of the "Addendum for Contracts Involving Protected Information Subject to Confidentiality or Security Provisions of County's Agreements with Other Entities" in all such subcontracts as obligations of the subcontractor.

2.36 **Napa Health Matters Listing.** If CONTRACTOR is an organization providing health, human, or social services of a type recognized for listing on the "Napa Health Matters" website, CONTRACTOR agrees to maintain a current and accurate listing on www.NapaHealthMatters.org for such services.

2.37 **Licensure Status**.

(a) License in Good Standing. If CONTRACTOR is providing services under this Agreement as a state-licensed professional, CONTRACTOR shall ensure that CONTRACTOR's professional license is in good standing with all applicable licensing boards. CONTRACTOR understands COUNTY may terminate the Agreement if CONTRACTOR fails to maintain a current professional license in good standing. For purposes of this Agreement, "license in good standing" means there is no suspension, revocation or probation for any reason (including the failure to pay licensing fees), nor any restriction upon the provisions of the license: including, but not limited to, restrictions placed by a licensing agency upon CONTRACTOR's license pursuant to any consent or settlement agreement or to an administrative decision of the licensing agency.

(b) Expiration of License. In the event that CONTRACTOR's professional license is not renewed on or before its expiration, CONTRACTOR shall neither provide nor be reimbursed for services pursuant to this Agreement commencing the day after license expiration and until CONTRACTOR's professional license is renewed. For purposes of this Agreement, renewal date is the date the licensing board issues a renewed license, and it is irrelevant whether the licensing board subsequently recognizes any lapse in licensure.

2.38 **Code of Ethics**. CONTRACTOR understands that Napa County Health and Human Services (HHSA) has adopted a Code of Ethics. If the Department Director determines that the

HHSA Code of Ethics applies to CONTRACTOR's activities under this Agreement, CONTRACTOR shall read, understand, and abide by the Code of Ethics, and CONTRACTOR shall on an annual basis provide written certification to HHSA that CONTRACTOR has received, read, understands, and will abide by HHSA's Code of Ethics. The Code of Ethics may be found online at www.countyofnapa.org or may be obtained from HHSA upon written request.

2.39 **Electronic Billing System**. CONTRACTOR understands that Napa County Health and Human Services (HHSA) operates an electronic billing system program, which seeks reimbursement from the State of California for the delivery of alcohol, drug abuse and mental health services. If CONTRACTOR provides any services related to alcohol, drug abuse or mental health services under the terms of CONTRACTOR's Agreement, CONTRACTOR agrees, upon request of the Director of HHSA or the Director's designee, to implement the COUNTY's sponsored electronic health record system as part of CONTRACTOR's requirement for the delivery of these services.

2.40 **Audit Report Requirements.** If COUNTY has determined that CONTRACTOR is a "subrecipient" (also known as a "pass-through entity") as defined in 2 C.F.R. § 200 et. seq., CONTRACTOR represents that it will comply with the applicable cost principles and administrative requirements including claims for payment or reimbursement by COUNTY as set forth in 2 C.F.R. § 200 et. seq., as currently enacted or as may be amended throughout the term of this Agreement. CONTRACTOR shall observe and comply with all applicable Audit Report Requirements, including but not limited to those requirements set forth in "Addendum for Contracts Involving Federal Awards." EXHIBIT C

SECTION 2. GENERAL TERMS AND CONDITIONS --VERSION 12

2.1 **Term of the Agreement.**

(a) Term. The term of this Agreement shall commence on the date first written on page 1 and shall expire on the expiration date set forth on page 1 unless terminated earlier in accordance with Paragraphs 2.9 (Termination for Cause), 2.10 (Other Termination) or 2.23(a) (Covenant of No Undisclosed Conflict).

(b) Automatic Renewal. The term of this Agreement shall be automatically renewed for an additional year at the end of each fiscal year, under the same terms and conditions, unless either party gives the other party written notice of intention not to renew no less than thirty (30) days prior to the expiration of the then current term. For purposes of this Agreement, "fiscal year" shall mean the period commencing on July 1 and ending on June 30. COUNTY authorizes the Department Director to determine whether this Agreement shall not be renewed and to provide the written notice of the intention to not renew on behalf of COUNTY.

(c) Obligations Extending Beyond Term. The obligations of the parties under Paragraphs 2.7 (Insurance) and 2.8 (Hold Harmless/Defense/Indemnification) shall continue in full force and effect after the expiration date or early termination in relation to acts or omissions occurring prior to such dates during the term of the Agreement, and the obligations of CONTRACTOR to COUNTY shall also continue after the expiration date or early termination in relation to the obligations prescribed by Paragraphs 2.15 (Confidentiality), 2.20 (Taxes), 2.21 (Access to Records/Retention), 2.31 (Compliance with Federal Health Care Program Requirements, 2.32 (Compliance with State Medi-Cal Specialty Mental Health Services Requirements), and 2.33 (Compliance with Mental Health Activities Requirements). To the extent the paragraphs referenced in this Paragraph 2.1 may be modified by Specific Terms and Conditions contained in SECTION 3 of this Agreement, the modifications shall also continue after the expiration date or early termination.

2.2 **Scope of Services.** CONTRACTOR shall provide COUNTY those services set forth in Exhibit "A."

2.3 **Compensation.**

(a) Compensation/Maximum. In consideration of CONTRACTOR's fulfillment of the promised work, COUNTY shall pay CONTRACTOR at the rates and/or in the amount(s) set forth in Exhibit "B". The maximum payment for the initial term of this Agreement, and the successive maximum payments for each subsequent automatically renewed term, shall each be that maximum amount set forth on page 1; provided, however, that such amounts shall not be construed as guaranteed sums, and compensation shall be based upon services actually rendered and reimbursable expenses actually incurred.

Docusign Envelope ID: 9B62ABA8-5872-4005-8C85-A77E516407B2

(b) Advance Funding.

1. Use of Funds. To the extent this Agreement may permit advance funding of services and expenses, use of funds delineated in this Agreement is limited to the term of performance unless otherwise modified in accordance with Paragraph 2.17 (Amendment/Modification). COUNTY may at its discretion recapture funds obligated under the authority of this Agreement if expenditure plans are not being met.

2. Reversion of Funds. If funds awarded to CONTRACTOR have not been expended in accordance with this Agreement and COUNTY has determined after consultation with CONTRACTOR that funds will not be spent in a timely manner, such funds will revert to COUNTY for that reason and to the extent permitted by and in a manner consistent with federal and state law, regulations, and policies.

(c) Availability of Funds. It is mutually understood that, for the benefit of both parties, this Agreement may have been written before ascertaining the availability of congressional and/or state legislative appropriation of funds in order to avoid program and fiscal delays that would occur if the Agreement were executed after that determination was made. If funding of this Agreement is dependent upon the availability of congressional and legislative appropriation of funds, then:

1. This Agreement shall be deemed automatically terminated if the Congress and and/or the State Legislature do not appropriate funds needed for this Agreement;

2. At COUNTY's discretion, this Agreement may be deemed automatically terminated or this Agreement may be modified or amended in accordance with Paragraph 2.17 (Amendment/Modifications), if the Congress and/or State Legislature do not appropriate sufficient funds needed for this Agreement; and

3. This Agreement is subject to any additional restrictions, limitations, or conditions enacted by the Congress or State Legislature, or any statute enacted by the Congress or State Legislature, that may in any manner affect the provisions, terms, or funding of this Agreement.

(d) COUNTY may withhold any compensation due CONTRACTOR as an offset for any revenues lost arising from an act or omission in billing or documentation practices by CONTRACTOR. CONTRACTOR shall make COUNTY whole for any such lost revenues.

2.4 **Method of Payment.**

(a) Invoices. All payments for compensation and reimbursement for expenses shall be made only upon presentation by CONTRACTOR to COUNTY of an itemized billing invoice in a form acceptable to the Napa County Auditor which indicates, at a minimum, CONTRACTOR's name, address, Social Security or Taxpayer Identification Number, itemization of the hours worked or, where compensation is on a per-task basis, a description of the tasks completed during the billing period, the person(s) actually performing the services and the position(s) held by such person(s), and the approved hourly or task rate. Where expense reimbursement is sought, the invoice shall describe the nature and cost of the expense, the task(s) if any to which the expense was related, and the date incurred. CONTRACTOR shall submit invoices not more often than monthly to the Contract Administrator. After review and approval

as to form and content, the invoice shall be submitted to the Napa County Auditor no later than fifteen (15) calendar days following receipt.

(b) Legal status. So that COUNTY may properly comply with its reporting obligations under federal and state laws pertaining to taxation, if CONTRACTOR is or becomes a corporation during the term of this Agreement, proof that such status is currently recognized by and complies with the laws of both the state of incorporation or organization and the State of California, if different, shall be provided to the Contract Administrator upon request during the term of this Agreement in a form satisfactory to the Napa County Auditor. Such proof shall include, but need not be limited to, a copy of any annual or other periodic filings or registrations required by the state of origin or California, the current address for service of process on the corporation or limited liability partnership, and the name of any agent designated for service of process by CONTRACTOR within the State of California.

2.5 **Independent Contractor.** CONTRACTOR shall perform this Agreement as an independent contractor. CONTRACTOR and the officers, agents and employees of CONTRACTOR are not, and shall not be deemed, COUNTY employees for any purpose, including workers' compensation and employee benefits. CONTRACTOR shall, at CONTRACTOR's own risk and expense, determine the method and manner by which duties imposed on CONTRACTOR by this Agreement shall be performed; provided, however, that COUNTY may monitor the work performed by CONTRACTOR. COUNTY shall not deduct or withhold any amounts whatsoever from the compensation paid to CONTRACTOR, including, but not limited to amounts required to be withheld for state and federal taxes. As between the parties to this Agreement, CONTRACTOR shall be solely responsible for all such payments.

2.6 **Specific Performance.** It is agreed that CONTRACTOR, including the agents, employees and authorized subcontractors of CONTRACTOR, shall be the sole providers of the services required by this Agreement. Because the services to be performed by CONTRACTOR under the terms of this Agreement are of a special, unique, unusual, extraordinary, and intellectual or time-sensitive character which gives them a peculiar value, the loss of which cannot be reasonably or adequately compensated in damages in an action of law, COUNTY, in addition to any other rights or remedies which COUNTY may possess, shall be entitled to injunctive and other equitable relief to prevent a breach of this Agreement by CONTRACTOR.

2.7. **Insurance.** CONTRACTOR shall obtain and maintain in full force and effect throughout the term of this Agreement, and thereafter as to matters occurring during the term of this Agreement, the following insurance coverage:

(a) Workers' Compensation Insurance. To the extent required by law during the term of this Agreement, CONTRACTOR shall provide workers' compensation insurance for the performance of any of CONTRACTOR's duties under this Agreement, including but not limited to, coverage for workers' compensation and employer's liability and a waiver of subrogation, and shall provide COUNTY with certification of all such coverages upon request by COUNTY's Risk Manager.

(b) Liability Insurance. CONTRACTOR shall obtain and maintain in full force and effect during the term of this Agreement the following liability insurance coverages, issued by a

Docusign Envelope ID: 9B62ABA8-5872-4005-8C85-A77E516407B2

company admitted to do business in California and having an A.M. Best rating of A:VII or better, or equivalent self-insurance:

(1) General Liability. Commercial general liability [CGL] insurance coverage (personal injury and property damage) of not less than ONE MILLION DOLLARS ($1,000,000) combined single limit per occurrence, covering liability or claims for any personal injury, including death, to any person and/or damage to the property of any person arising from the acts or omissions of CONTRACTOR or any officer, agent, or employee of CONTRACTOR under this Agreement. If the coverage includes an aggregate limit, the aggregate limit shall be no less than twice the per occurrence limit.

(2) Professional Liability/Errors and Omissions. Professional liability [or errors and omissions] insurance for all activities of CONTRACTOR arising out of or in connection with this Agreement in an amount not less than ONE MILLION DOLLARS ($1,000,000) per claim.

(3) Comprehensive Automobile Liability Insurance. Comprehensive automobile liability insurance (Bodily Injury and Property Damage) on owned, hired, leased and non-owned vehicles used in conjunction with CONTRACTOR's business of not less than ONE MILLION DOLLARS ($1,000,000) combined single limit per occurrence. Coverage shall be business auto insurance coverage using Insurance Services Office (ISO) form number CA 0001 06 92 including symbol 1 (any Auto) or the exact equivalent. If CONTRACTOR owns no vehicles, this requirement may be satisfied by a non-owned auto endorsement to the General Liability Insurance described in subparagraph (b)(1) above. If CONTRACTOR or CONTRACTOR's employees, officers, or agents will use personal automobiles in any way in the performance of this Agreement, CONTRACTOR shall provide evidence of personal auto liability coverage for each such person upon request.

(c) Certificates of Coverage. All insurance coverages referenced in 2.7(b), above, shall be evidenced by one or more certificates of coverage or, with the consent of COUNTY's Risk Manager, demonstrated by other evidence of coverage acceptable to COUNTY's Risk Manager, which shall be filed by CONTRACTOR with the Health and Human Services Agency prior to commencement of performance of any of CONTRACTOR's duties.

(1) The certificate(s) or other evidence of coverage shall reference this Agreement by its COUNTY number or title and department; shall be kept current during the term of this Agreement; shall provide that COUNTY shall be given no less than thirty (30) days prior written notice of any non-renewal, cancellation, other termination, or material change, except that only ten (10) days prior written notice shall be required where the cause of nonrenewal or cancellation is non-payment of premium; and shall provide that the inclusion of more than one insured shall not operate to impair the rights of one insured against another insured, the coverage afforded applying as though separate policies had been issued to each insured, but the inclusion of more than one insured shall not operate to increase the limits of the company's liability.

(2) Waiver of Subrogation and Additional Insured Endorsements. For the

commercial general liability insurance coverage referenced in 2.7(b)(1) and, for the comprehensive automobile liability insurance coverage referenced in 2.7(b)(3) where the vehicles are covered by a commercial policy rather than a personal policy, CONTRACTOR shall also file with the evidence of coverage an endorsement from the insurance provider naming COUNTY, its officers, employees, agents and volunteers as additional insureds and waiving subrogation. For the Workers Compensation insurance coverage, CONTRACTOR shall file with the evidence of coverage an endorsement waiving subrogation.

(3) The certificate or other evidence of coverage shall provide that if the same policy applies to activities of CONTRACTOR not covered by this Agreement, then the limits in the applicable certificate relating to the additional insured coverage of COUNTY shall pertain only to liability for activities of CONTRACTOR under this Agreement, and that the insurance provided is primary coverage to COUNTY with respect to any insurance or self-insurance programs maintained by COUNTY. The additional insured endorsements for the general liability coverage shall use Insurance Services Office (ISO) Form No. CG 20 09 11 85 or CG 20 10 11 85, or equivalent, including (if used together) CG 2010 10 01 and CG 2037 10 01; but shall not use the following forms: CG 20 10 10 93 or 03 94.

(4) Upon request by COUNTY's Risk Manager, CONTRACTOR shall provide or arrange for the insurer to provide within thirty (30) days of the request, certified copies of the actual insurance policies or relevant portions thereof.

(d) Deductibles/Retentions. Any deductibles or self-insured retentions shall be declared to, and be subject to approval by, COUNTY's Risk Manager, which approval shall not be denied unless the COUNTY's Risk Manager determines that the deductibles or self-insured retentions are unreasonably large in relation to compensation payable under this Agreement and the risks of liability associated with the activities required of CONTRACTOR by this Agreement. At the option of and upon request by COUNTY's Risk Manager if the Risk Manager determines that such deductibles or retentions are unreasonably high, either the insurer shall reduce or eliminate such deductibles or self-insurance retentions as respects COUNTY, its officers, employees, agents and volunteers or CONTRACTOR shall procure a bond guaranteeing payment of losses and related investigations, claims administration and defense expenses.

(e) Inclusion in Subcontracts. CONTRACTOR agrees to require all subcontractors and any other entity or person who is involved in providing services under this Agreement to comply with the Workers Compensation and General Liability insurance requirements set forth in this Paragraph 2.7.

(f) Failure to demand evidence of full compliance with the insurance requirements set forth in this Agreement or failure to identify any insurance deficiency shall not relieve CONTRACTOR, nor be construed or deemed a waiver of, its obligation to maintain the required insurance at all times during the performance of this Agreement.

2.8 **Hold Harmless/Defense/Indemnification.**

(a) In General. To the full extent permitted by law, CONTRACTOR shall hold harmless, defend at its own expense, and indemnify COUNTY and the officers, agents, employees and volunteers of COUNTY from any and all liability, claims, losses, damages or

Docusign Envelope ID: 9B62ABA8-5872-4005-8C85-A77E516407B2

expenses, including reasonable attorney's fees, for personal injury (including death) or damage to property, arising from all acts or omissions to act of CONTRACTOR or its officers, agents, employees, volunteers, contractors and subcontractors in rendering services under this Agreement, excluding, however, such liability, claims, losses, damages or expenses arising from the sole negligence or willful acts of COUNTY or its officers, agents, employees or volunteers or other contractors or their subcontractors. Each party shall notify the other party immediately in writing of any claim or damage related to activities performed under this Agreement. The parties shall cooperate with each other in the investigation and disposition of any claim arising out of the activities under this Agreement, providing that nothing shall require either party to disclose any documents, records or communications that are protected under peer review privilege, attorneyclient privilege, or attorney work product privilege.

(b) Obligations Relating to Criminal Background Checks.

1. If CONTRACTOR's obligations under this Agreement involve contact with vulnerable populations such as children, elderly, mentally ill or disabled persons (hereafter in this paragraph referred to as "third persons"), then CONTRACTOR shall investigate by all lawful means, including but not limited to obtaining information from official government sources as the result of taking fingerprints, the criminal background of each and all of its officers, agents, employees, interns, and volunteers, however denominated (hereafter, "employees"), who will have direct personal contact with, or provide direct personal services to, third persons in the performance of this contract. Depending upon the information acquired by its investigation, CONTRACTOR shall not allow any of its employees to have personal contact with, or provide direct personal services to, third persons where it may reasonably be concluded as a result of its investigation that an employee should not have such contact or provide such service. Nothing herein requires CONTRACTOR to investigate the criminal background of an employee who is currently licensed by the State of California and whose license requires a criminal background investigation.

2. Notwithstanding anything to the contrary in (a) or (c), CONTRACTOR shall defend and indemnify COUNTY and its officers, agents and employees from any and all claims, actions, settlements or judgments of whatever kind which may arise from the failure of CONTRACTOR to conduct the criminal background investigation described in this subparagraph (b) or from the failure of CONTRACTOR after the investigation to reasonably disallow an employee from having such personal contact or providing such direct personal service.

(c) Employee Character and Fitness. CONTRACTOR accepts responsibility for determining and approving the character and fitness of its employees (including volunteers, agents or representatives) to provide the services required of CONTRACTOR under this Agreement, including completion of a satisfactory criminal/background check and period rechecks to the extent permitted by law. Notwithstanding anything to the contrary in this Paragraph, CONTRACTOR shall hold COUNTY and its officers, agents and employees harmless from any liability for injuries or damages resulting from a breach of this provision or CONTRACTOR's actions in this regard.

2.9 **Termination for Cause.**

Docusign Envelope ID: 9B62ABA8-5872-4005-8C85-A77E516407B2

(a) If either party shall fail to fulfill in a timely and proper manner that party's obligations under this Agreement or otherwise breach this Agreement and fail to cure such failure or breach within ten (10) days of receipt of written notice from the other party describing the nature of the breach, the non-defaulting party may, in addition to any other remedies it may have, terminate this Agreement by giving five (5) days written notice to the defaulting party in the manner set forth in Paragraph 2.13 (Notices).

(b) The Department Director is delegated the authority to terminate this Agreement in accordance with this Paragraph on behalf of COUNTY, but may exercise such authority only after consultation with, and concurrence of, the County Counsel and the County Executive Officer or their respective designees; however, nothing in this delegation prevents the Department Director from requesting the Board of Supervisors to terminate this Agreement under this Paragraph.

2.10 **Other Termination.**

(a) This Agreement may be terminated by either party for any reason and at any time by giving prior written notice of such termination to the other party specifying the effective date thereof at least thirty (30) days prior to the effective date; provided, however, that no such termination may be effected by COUNTY unless an opportunity for consultation is provided prior to the effective date of the termination.

(b) The Department Director is delegated the authority to terminate this Agreement in accordance with this Paragraph on behalf of COUNTY, but may exercise such authority only after consultation with, and concurrence of, the County Counsel and the County Executive Officer or their respective designees; however, nothing in this delegation prevents the Department Director from requesting the Board of Supervisors to terminate this Agreement under this Paragraph.

2.11. **Disposition of, Title to and Payment for Work upon Expiration or Termination.**

(a) Upon expiration or termination of this Agreement, if and to the extent CONTRACTOR has provided services through Software and Applications materials licensed to COUNTY, COUNTY shall promptly return the Software and Application materials to CONTRACTOR. In addition, to the extent CONTRACTOR maintains COUNTY data on those portions of digital software hosted by CONTRACTOR and not controlled by COUNTY ("County data"), CONTRACTOR shall promptly return County data to COUNTY Information Technology Department (ITS) in a format designated by ITS and shall subsequently purge County data from CONTRACTOR's systems upon confirmation from COUNTY that the copy of the data provided to COUNTY is comprehensive of the data previously hosted by CONTRACTOR.

(b) Upon expiration or termination of this Agreement, all finished or unfinished documents and other materials, if any, and all rights therein shall become, at the option of COUNTY, the property of and shall be promptly returned to COUNTY, although CONTRACTOR may retain a copy of such work for its personal records only. Unless otherwise expressly provided in this Agreement, any copyrightable or patentable work created by

CONTRACTOR under this Agreement shall be deemed a "work made for hire" for purposes of copyright or patent law and only COUNTY shall be entitled to claim or apply for the copyright or patent thereof.

(c) Notwithstanding the provisions set forth in subparagraph (b) above, if the services involve development or improvement of previously patented inventions or previously copyrighted software, upon expiration or termination of this Agreement, title to, ownership of, and all applicable patents, copyrights and trade secrets in the products developed or improved under this Agreement, shall remain with CONTRACTOR or any other person or entity if such person previously owned or held such patents, copyrights, and trade secrets, and such persons shall retain complete rights to market such product; provided, however, that COUNTY shall receive, at no additional cost, a perpetual license to use such products for its own use or the use of any consortium or joint powers agency to which COUNTY is a party. If the product involves a source code, CONTRACTOR shall either provide a copy of the source code to COUNTY or shall place the source code in an escrow account, at CONTRACTOR's expense, from which the source code may be withdrawn and used by COUNTY for the sole purpose of maintaining and updating the system dependent upon such code when such use is necessary to prevent loss of service to COUNTY.

(d) CONTRACTOR shall be entitled to receive compensation for any satisfactory work completed prior to expiration or receipt of the notice of termination or commenced prior to receipt of notice of termination and completed satisfactorily prior to the effective date of the termination; except that CONTRACTOR shall not be relieved of liability to COUNTY for damages sustained by COUNTY by virtue of any breach of the Agreement by CONTRACTOR whether or not the Agreement expired or was otherwise terminated, and COUNTY may withhold any payments not yet made to CONTRACTOR for purpose of setoff until such time as the exact amount of damages due to COUNTY from CONTRACTOR is determined.

2.12 **No Waiver.** The waiver by either party of any breach or violation of any requirement of this Agreement shall not be deemed to be a waiver of any such breach in the future, or of the breach of any other requirement of this Agreement.

2.13 **Notices.**

(a) In General. Except as set forth in subparagraph (b) below with respect to notice of automatically adopted provisions, all notices required or authorized by this Agreement shall be in writing and shall be delivered in person or by deposit in the United States mail, by certified mail, postage prepaid, return receipt requested. Any notice sent by mail in the manner prescribed by this subparagraph shall be deemed to have been received on the date noted on the return receipt or five days following the date of deposit, whichever is earlier. Any mailed notice, demand, request, consent, approval or communication that COUNTY desires to give to CONTRACTOR shall be addressed to CONTRACTOR's Contract Contact Person at the mailing address set forth in SECTION 1 of this Agreement. Any mailed notice, demand, request, consent, approval or communication that CONTRACTOR desires to give to COUNTY shall be addressed to

Docusign Envelope ID: 9B62ABA8-5872-4005-8C85-A77E516407B2

COUNTY's Contract Administrator at the mailing address set forth in SECTION 1 of this Agreement. Either party may change its address by notifying the other party of the change of address.

(b) Provisions Adopted Automatically. COUNTY reserves the right to provide notice to CONTRACTOR via facsimile of terms, which automatically become part of this Agreement upon approval by the Napa County Board of Supervisors. Notice delivered by facsimile shall be deemed to have been received on the date a successful delivery confirmation report is generated.

(a) In general. A consideration of this Agreement is the personal reputation of CONTRACTOR; therefore, CONTRACTOR shall not assign any interest in this Agreement or subcontract any of the services CONTRACTOR is to perform hereunder without the prior written consent of COUNTY, which shall not be unreasonably withheld. The inability of the assignee to provide personnel equivalent in experience, expertise, and numbers to those provided by CONTRACTOR, or to perform any of the remaining services required under this Agreement within the same time frame required of CONTRACTOR shall be deemed to be reasonable grounds for COUNTY to withhold its consent to assignment. For purposes of this subparagraph, the consent of COUNTY may be given by the Department Director.

(b) Effect of Change in Status. If CONTRACTOR changes its status during the term of this Agreement from or to that of a corporation, limited liability partnership, limited liability

company, general partnership, or sole proprietorship, such change in organizational status shall be viewed as an attempted assignment of this Agreement by CONTRACTOR. Failure of CONTRACTOR to obtain approval of such assignment under this Paragraph shall be viewed as a material breach of this Agreement.

2.17 **Amendment/Modification.**

(a) Except as specifically provided herein, this Agreement may be modified or amended only in writing and with the prior written consent of both parties. In particular, only COUNTY, by the Department Director (as long as the aggregate compensation payable to CONTRACTOR by COUNTY under this and all prior agreements with CONTRACTOR will not exceed $10,000), or by COUNTY's Purchasing Agent (as long as the aggregate compensation payable to CONTRACTOR by COUNTY under this and all prior agreements with CONTRACTOR will not exceed the maximum aggregate amount for Purchasing Agent contracts as specified by Napa County Code section 2.36.040 (G)) or by COUNTY's Board of Supervisors (in all other instances), in the form of an amendment of this Agreement, may authorize extra and/or changed work if beyond the scope of services prescribed by "Exhibit A." Failure of CONTRACTOR to secure such authorization in writing in advance of performing any of the extra or changed work shall constitute a waiver of any and all rights to adjustment in the contract price or contract time and no compensation shall be paid for such extra work.

(b) Notwithstanding anything to the contrary in (a), this Agreement may be unilaterally modified by COUNTY upon written notice to CONTRACTOR under the following circumstances:

1. There is a decrease in state or federal funding needed for this Agreement;
2. There is a no-cost extension of the end date of the Agreement as authorized by a state or federal funding source; or
3. There is a change in state/federal law or regulation requiring a change in a provision of this Agreement.

(b) Documentation of Right to Work. CONTRACTOR agrees to abide by the requirements of the Immigration and Control Reform Act pertaining to assuring that all newlyhired employees of CONTRACTOR performing any services under this Agreement have a legal right to work in the United States of America, that all required documentation of such right to work is inspected, and that INS Form 1-9 (as it may be amended from time to time) is completed and on file for each employee. CFR 97.36(i)(8) and (9), CONTRACTOR is hereby notified of, and shall comply with the requirements and regulations imposed by the federal granting agency with respect to any discovery or invention which arises or is developed pursuant to this Agreement, and pertaining to any copyrights or rights in data created or otherwise developed when engaging in activities of CONTRACTOR under this Agreement. The requirements and regulations imposed by the federal granting agency are set forth in the original grant agreement specified in Section 1 of the Agreement and are incorporated by reference herein. The original grant agreement is on file with the Clerk of the Board of Supervisors.

(d) Prevailing Wages. If the services to be provided relate to construction or preconstruction-related services, including but not limited to testing, surveying, and inspection, then this Agreement includes the following provisions:

(1) Affected work. CONTRACTOR shall comply with Labor Code sections 1774 and 1775 in relation to payment of prevailing wages for any portion of the required work performed under this Agreement on or after January 1, 2002 relating to construction design, testing, surveying and/inspection work, and construction if the State Director of Industrial Relations has established prevailing wage rates for the types of work involved.

(2) Prevailing wages rates. In accordance with the provisions of Section 1774 of the Labor Code of the State of California, to the extent the Director of Industrial Relations has established the general prevailing rate of wages (which rate includes employer payments for health and welfare, pension, vacation and similar purposes) for the above-described portions of the work required under this Agreement, such rates of wages will be on file and available for inspection at the office of the County of Napa Department of Public Works, 1195 Third Street, Room 201, Napa, California.

They shall also indicate apprentices and ratio of apprentices to journeymen. The employee's address and social security number need only appear on the first payroll on which his name appears. The payroll shall be accompanied by a "Statement of Compliance" signed by the employer or his agent indicating that the payrolls are correct and complete and that the wage rates contained therein are not less than those required by the contract. The "Statement of Compliance" shall be on forms furnished by the Director of Public Works or his designee or on any form with identical wording. CONTRACTOR shall be responsible for the submission of copies of payrolls of all subcontractors.

(4) Apprentices. CONTRACTOR shall be responsible for ensuring compliance with the provisions of Labor Code section 1777.5 relating to employment and payment of apprentices for work under this Agreement relating to land surveying and/or construction inspection if the total compensation to be paid CONTRACTOR for such work is $30,000 or more.

(e) Inclusion in Subcontracts. To the extent any of the services required of

CONTRACTOR under this Agreement are subcontracted to a third party, CONTRACTOR shall include all of the provisions of this Paragraph 2.19 in all such subcontracts as obligations of the subcontractor.

(f) Notwithstanding any other provisions of this contract, CONTRACTOR represents that it will comply with the applicable cost principles and administrative requirements including claims for payment or reimbursement by COUNTY as set forth in 2 C.F.R. 200 et. seq., as currently enacted or as may be amended throughout the term of this Agreement.

2.20 **Taxes.** CONTRACTOR agrees to file all applicable federal and state tax returns or applicable withholding documents and to pay all applicable taxes or to make all required withholdings on amounts paid pursuant to this Agreement, and shall be solely liable and responsible to make such withholdings and/or pay such taxes and other obligations including, without limitation, state and federal income and FICA taxes. CONTRACTOR agrees to indemnify and hold COUNTY harmless from any liability it may incur to the United States or the State of California as a consequence of CONTRACTOR's failure to pay or withhold, when due, all such taxes and obligations. In the event that COUNTY is audited for compliance regarding any withholding or other applicable taxes or amounts, CONTRACTOR agrees to furnish COUNTY with proof of payment of taxes or withholdings on those earnings.

2.21 **Access to Records/Retention.** COUNTY, any federal or state grantor agency funding all or part of the compensation payable hereunder, the State Controller, the Comptroller General of the United States, or the duly authorized representatives of any of the above, shall have access to any books, documents, papers and records of CONTRACTOR which are directly pertinent to the subject matter of this Agreement for the purpose of making audit, examination, excerpts and transcriptions. Except where longer retention is required by any federal or state law, CONTRACTOR shall maintain all required records, including clinical documentation, for at least ten (10) years after COUNTY makes final payment for any other work authorized hereunder and all pending matters are closed, whichever is later.

2.22 **Authority to Contract.** CONTRACTOR and COUNTY each warrant hereby that they are legally permitted and otherwise have the authority to enter into and perform this Agreement. The parties further warrant that the signatories to this Agreement are authorized to execute this Agreement on behalf of their respective parties and that any action necessary to bind each such party has been taken by that party prior to entering into this Agreement.

2.23 **Conflict of Interest.**

(a) Covenant of No Undisclosed Conflict. The parties to the Agreement acknowledge that they are aware of the provisions of Government Code section 1090, et seq., and section 87100, et seq., relating to conflict of interest of public officers and employees. CONTRACTOR hereby covenants that it presently has no interest not disclosed to COUNTY and shall not acquire any interest, direct or indirect, which would conflict in any material manner or degree with the performance of its services or confidentiality obligation hereunder, except as such as COUNTY may consent to in writing prior to the acquisition by CONTRACTOR of such conflict. CONTRACTOR further warrants that it

Docusign Envelope ID: 9B62ABA8-5872-4005-8C85-A77E51640782

is unaware of any financial or economic interest of any public officer or employee of County relating to this Agreement. CONTRACTOR agrees that if such financial interest does exist at the inception of this Agreement, COUNTY may terminate this Agreement immediately upon giving written notice without further obligation by COUNTY to CONTRACTOR under this Agreement. The Department Director is delegated the authority to terminate this Agreement in accordance with this Paragraph on behalf of COUNTY, but may exercise such authority only after consultation with, and concurrence of, the County Counsel and the County Executive Officer or their respective designees; however, nothing in this delegation prevents the Department Director from requesting the Board of Supervisors terminate this Agreement.

(b) Statements of Economic Interest. CONTRACTOR acknowledges and understands that COUNTY has developed and approved a Conflict of Interest Code as required by state law which requires CONTRACTOR to file with the Elections Division of the Napa County Assessor-Clerk Recorder "assuming office", "annual", and "leaving office" Statements of Economic Interest as a "consultant", as defined in section 18701(a)(2) of Title 2 of the California Code of Regulations, unless COUNTY, through a person authorized to execute this Agreement on behalf of COUNTY, or the Department Director, has determined in writing that CONTRACTOR, although holding a "designated" position as a consultant, has been hired to perform a range of duties so limited in scope as to not be required to fully comply with such disclosure obligation. CONTRACTOR agrees to timely comply with all filing obligations for a consultant under COUNTY's Conflict of Interest Code unless such a determination is on file on the filing dates for each of the required Statements of Economic Interest.

2.24 **Non-Solicitation of Employees.** Each party agrees not to solicit for employment the employees of the other party who were directly involved in the performance of the services hereunder for the term of this Agreement and a period of six (6) months after termination of this Agreement except with the written permission of the other party, except that nothing in this Paragraph shall preclude either party from publishing or otherwise distributing applications and information regarding that party's job openings where such publication or distribution is directed to the general public.

2.25 **Third Party Beneficiaries.** Nothing contained in this Agreement shall be construed to create any rights in third parties and the parties do not intend to create such rights.

2.26 **Attorney's Fees.** In the event that either party commences legal action of any kind or character to either enforce the provisions of this Agreement or to obtain damages for breach thereof, the prevailing party in such litigation shall be entitled to all costs and reasonable attorney's fees incurred in connection with such action.

2.27 **Severability.** If any provision of this Agreement, or any portion thereof, is found by any court of competent jurisdiction to be unenforceable or invalid for any reason, such provision shall be severable and shall not in any way impair the enforceability of any other provision of this Agreement.

2.29. **Other Terms and Conditions [Reserved.]**

2.30 **Acknowledgment of Funds; Compliance with Government Code Section 7550.**

All printed materials shall contain the following information in a type size and style appropriate to the materials: "Made possible by funding provided by the County of Napa."

In addition, if the Scope of Work includes preparation of a document or written report and the total cost of the work is more than $5,000, each document or report prepared by CONTRACTOR for or under the direction of COUNTY pursuant to this Agreement shall contain the numbers and dollar amounts of the Agreement and all subcontracts under the Agreement relating to the preparation of the document or written report as required by Government Code section 7550. The Agreement and subcontract dollar amounts shall be contained in a separate section of the document or written report. If multiple documents or written reports are the subject of the Agreement or subcontracts, the disclosure section may also contain a statement indicating that the total contract amount represents compensation for multiple documents or written reports.

Said penalties and fines that may be assessed are as follows: civil monetary penalties of $11,000 per item or service; treble damages for the submission of claims for reimbursement from an excluded health care provider.

As set forth in Paragraph 2.21, CONTRACTOR is required to maintain all records, including clinical documentation, for a period of ten (10) years after COUNTY makes final payment for any work authorized pursuant to this Agreement and after all audit and fiscal matters are closed by COUNTY, whichever is later. Failure by CONTRACTOR to provide such documentation upon request by COUNTY shall subject contractor to monetary damages, in addition to CONTRACTOR reimbursing the payments it received from COUNTY for services related to the requested documentation, and all remedies and damages that COUNTY may seek for CONTRACTOR'S breach of its specific performance of the services provided pursuant to this Agreement.

(a) Federal and other applicable law. CONTRACTOR shall observe and comply

with all applicable requirements of the Federal Insurance Portability and Accountability Act of 1996 and regulations promulgated thereunder by the U.S. Department of Health and Human Services (collectively referred to as "HIPAA"), and other applicable laws.

(b) HIPAA Business Associate Agreement. If applicable, CONTRACTOR shall comply with the terms and conditions of the HIPAA Business Associate Agreement previously entered into with COUNTY, which is incorporated by reference herein and on file with the Clerk of the Board of Supervisors.

(c) Use or Disclosure of Protected Health Information. CONTRACTOR may use or disclose protected health information for the purpose of performing functions, activities for or on behalf of COUNTY, as specified in this Agreement, provided that such use or disclosure would not violate HIPAA, if done by COUNTY, or the provisions of any applicable HIPAA Business Associate Agreement.

(d) Subcontractors. To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party, CONTRACTOR shall require compliance with all applicable HIPAA provisions, other applicable law, and any applicable HIPAA Business Associate Agreement(s) in such subcontracts as obligations of the subcontractor.

2.35 **Compliance With COUNTY's Obligations Under Contracts With Other Entities.** If CONTRACTOR under this Agreement shall perform services as a subcontractor under COUNTY's contract(s) with other entities, including, but not limited to State and Federal Agencies, and such services involve the use or disclosure of personally identifiable information, then:

(a) CONTRACTOR shall observe and comply with all applicable terms of COUNTY's contract(s) with other entities, including, but not limited to, those requirements set forth in "Addendum For Contracts Involving Personally Identifiable Information Subject to Confidentiality or Security Provisions of County's Agreements with Other Entities" which is incorporated by reference herein, is on file with the Clerk of the Board of Supervisors and the Department, and is also online at: www.countyofnapa.org.

(b) CONTRACTOR shall pay any penalty or fine assessed against COUNTY arising from CONTRACTOR's failure to comply with the obligations imposed by the "Addendum for Contracts Involving Personally Identifiable Information Subject to Confidentiality or Security Provisions of County's Agreements with Other Entities".

(c) To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party, CONTRACTOR shall include the provisions of the "Addendum for Contracts Involving Protected Information Subject to Confidentiality or Security Provisions of County's Agreements with Other Entities" in all such subcontracts as obligations of the subcontractor.

2.36 **Napa Health Matters Listing.** If CONTRACTOR is an organization providing health, human, or social services of a type recognized for listing on the "Napa Health Matters" website, CONTRACTOR agrees to maintain a current and accurate listing on www.NapaHealthMatters.org for such services.

2.37 **Licensure Status.**

(a) License in Good Standing. If CONTRACTOR is providing services under this Agreement as a state-licensed professional, CONTRACTOR shall ensure that CONTRACTOR's professional license is in good standing with all applicable licensing boards. CONTRACTOR understands COUNTY may terminate the Agreement if CONTRACTOR fails to maintain a current professional license in good standing. For purposes of this Agreement, "license in good standing" means there is no suspension, revocation or probation for any reason (including the failure to pay licensing fees), nor any restriction upon the provisions of the license: including, but not limited to, restrictions placed by a licensing agency upon CONTRACTOR's license pursuant to any consent or settlement agreement or to an administrative decision of the licensing agency.

(b) Expiration of License. In the event that CONTRACTOR's professional license is not renewed on or before its expiration, CONTRACTOR shall neither provide nor be reimbursed for services pursuant to this Agreement commencing the day after license expiration and until CONTRACTOR's professional license is renewed. For purposes of this Agreement, renewal date is the date the licensing board issues a renewed license, and it is irrelevant whether the licensing board subsequently recognizes any lapse in licensure.

2.38 **Code of Ethics**. CONTRACTOR understands that Napa County Health and Human Services (HHSA) has adopted a Code of Ethics. If the Department Director determines that the HHSA Code of Ethics applies to CONTRACTOR's activities under this Agreement, CONTRACTOR shall read, understand, and abide by the Code of Ethics, and CONTRACTOR shall on an annual basis provide written certification to HHSA that CONTRACTOR has received, read, understands, and will abide by HHSA's Code of Ethics. The Code of Ethics may be found online at www.countyofnapa.org or may be obtained from HHSA upon written request.

2.39 **Electronic Billing System**. CONTRACTOR understands that Napa County Health and Human Services (HHSA) operates an electronic billing system program, which seeks reimbursement from the State of California for the delivery of alcohol, drug abuse and mental health services. If CONTRACTOR provides any services related to alcohol, drug abuse or mental health services under the terms of CONTRACTOR's Agreement, CONTRACTOR agrees, upon request of the Director of HHSA or the Director's designee, to implement the COUNTY's sponsored electronic health record system as part of CONTRACTOR's requirement for the delivery of these services.

2.40 **Audit Report Requirements.** If COUNTY has determined that CONTRACTOR is a "subrecipient" (also known as a "pass-through entity") as defined in 2 C.F.R. § 200 et. seq., CONTRACTOR represents that it will comply with the applicable cost principles and administrative requirements including claims for payment or reimbursement by COUNTY as set forth in 2 C.F.R. § 200 et. seq., as currently enacted or as may be amended throughout the term of this Agreement. CONTRACTOR shall observe and comply with all applicable Audit Report Requirements, including but not limited to those requirements set forth in "Addendum for Contracts Involving Federal Awards." The Addendum is incorporated by reference as if set forth herein. A copy of the Addendum is on file with and available for inspection in the offices of the

Clerk of the Napa County Board of Supervisors and the Department and are also online at: www.countyofnapa.org.

3. **Compensation.**

(a) Rates. In consideration of CONTRACTOR's fulfillment of the promised work, COUNTY shall pay CONTRACTOR at the fixed prices set forth in Exhibit "B," attached hereto and incorporated by reference herein.

(b) Expenses. No travel or other expenses will be reimbursed by COUNTY.

(c) Maximum Amount. Notwithstanding subparagraphs (a) and (b), the maximum payments under this Agreement shall not exceed $25,000 (TWENTY-FIVE THOUSAND DOLLARS) per fiscal year; provided, however, that such amounts shall not be construed as guaranteed sums, and compensation shall be based upon services actually rendered and reimbursable expenses actually incurred.

4. **Method of Payment.**

(a) Professional Services. All payments for compensation and reimbursement for expenses shall be made only upon presentation by CONTRACTOR to COUNTY of an itemized billing invoice in a form acceptable to the Napa County Auditor which indicates, at a minimum, CONTRACTOR's name, address, Social Security or Taxpayer Identification Number, itemization of the hours worked, a detailed description of the tasks completed during the billing period, the names of person(s) performing the services and the position(s) held by such person(s), and the approved hourly or task rate.

(b) Expenses. If the Agreement provides for expense reimbursement, requests for reimbursement shall describe the nature and cost of the expense, the date incurred. With the exception of per diem reimbursements, receipts must be attached.

(c) Fixed Price. If the Agreement provides for a fixed price, if CONTRACTOR presents interim invoices, CONTRACTOR must state the percentage of work completed, which must be verified by COUNTY, i.e., 35% design, 95% design, draft report, et cetera, at which time CONTRACTOR shall be paid the equivalent percentage of the fixed price.

(d) CONTRACTOR shall submit invoices not more often than monthly to the DIRECTOR OF HOUSING AND HOMELESS SERVICES who, after review and approval as to form and content, shall submit the invoice to the Napa County Auditor no later than fifteen (15) calendar days following receipt. A sample invoice showing the level of detail required is attached as Exhibit "C."

(e) Legal status. So that COUNTY may properly comply with its reporting obligations under federal and state laws pertaining to taxation, if CONTRACTOR is or becomes a corporation during the term of this Agreement, proof that such status is currently recognized by and complies with the laws of both the state of incorporation or organization and the State of California, if different, shall be provided to the DIRECTOR OF HOUSING AND HOMELESS SERVICES upon request in a form satisfactory to the Napa County Auditor. Such proof shall include, but need not be limited to, a copy of any annual or other periodic filings or registrations required by the state of origin or California, the current address for service of process on the corporation or limited liability partnership, and the name of any agent designated for service of process by CONTRACTOR within the State of California.

5. **Independent Contractor.** CONTRACTOR shall perform this Agreement as an independent contractor. CONTRACTOR and the officers, agents and employees of CONTRACTOR are not, and shall not be deemed, COUNTY employees for any purpose, including workers' compensation and employee benefits. CONTRACTOR shall, at CONTRACTOR's own risk and expense, determine the method and manner by which duties

Docusign Envelope ID: EF335207-DA3B-4A2A-A62E-BB77A5C56FC3

imposed on CONTRACTOR by this Agreement shall be performed; provided, however, that COUNTY may monitor the work performed by CONTRACTOR. COUNTY shall not deduct or withhold any amounts whatsoever from the compensation paid to CONTRACTOR, including, but not limited to amounts required to be withheld for state and federal taxes, unless required to do so by court order. As between the parties to this Agreement, CONTRACTOR shall be solely responsible for all such payments.

6. **Specific Performance.** It is agreed that CONTRACTOR, including the agents or employees of CONTRACTOR, shall be the sole providers of the services required by this Agreement. Because the services to be performed by CONTRACTOR under the terms of this Agreement are of a special, unique, unusual, extraordinary, and intellectual or time-sensitive character which gives them a peculiar value, the loss of which cannot be reasonably or adequately compensated in damages in an action of law, COUNTY, in addition to any other rights or remedies which COUNTY may possess, shall be entitled to injunctive and other equitable relief to prevent a breach of this Agreement by CONTRACTOR.

7. **Insurance.** CONTRACTOR shall obtain and maintain in full force and effect throughout the term of this Agreement, and thereafter as to matters occurring during the term of this Agreement, the following insurance coverage:

(a) Workers' Compensation Insurance. To the extent required by law during the term of this Agreement, CONTRACTOR shall provide workers' compensation insurance for the performance of any of CONTRACTOR's duties under this Agreement, including but not limited to, coverage for workers' compensation and employer's liability and a waiver of subrogation, and shall provide COUNTY with certification of all such coverages upon request by COUNTY's Risk Manager.

(b) Liability Insurance. CONTRACTOR shall obtain and maintain in full force and effect during the term of this Agreement the following liability insurance coverages, issued by a company admitted to do business in California and having an A.M. Best rating of A:VII or better, or equivalent self-insurance:

(1) General Liability. Commercial general liability [CGL] insurance coverage (personal injury and property damage) of not less than ONE MILLION DOLLARS ($1,000,000) combined single limit per occurrence, covering liability or claims for any personal injury, including death, to any person and/or damage to the property of any person arising from the acts or omissions of CONTRACTOR or any officer, agent, or employee of CONTRACTOR under this Agreement. If the coverage includes an aggregate limit, the aggregate limit shall be no less than twice the per occurrence limit.

(2) Professional Liability/Errors and Omissions. Professional liability [or errors and omissions] insurance for all activities of CONTRACTOR arising out of or in connection with this Agreement in an amount not less than ONE MILLION DOLLARS ($1,000,000) per claim. If the coverage includes an aggregate limit, the aggregate limit shall be no less than twice the per occurrence limit.

(2) Professional Liability/Errors and Omissions. [RESERVED]

(3) Comprehensive Automobile Liability Insurance. Comprehensive automobile liability insurance (Bodily Injury and Property Damage) on owned, hired, leased and non-owned vehicles used in conjunction with CONTRACTOR's business of not less than ONE MILLION DOLLARS ($1,000,000) combined single limit per occurrence. Coverage shall be business auto insurance coverage using Insurance Services Office (ISO) form number CA 0001

06 92 including symbol 1 (any Auto) or the exact equivalent. If CONTRACTOR owns no vehicles, this requirement may be satisfied by a non-owned auto endorsement to the General Liability Insurance described in subparagraph (b)(1) above. If CONTRACTOR or CONTRACTOR's employees, officers, or agents will use personal automobiles in any way in the performance of this Agreement, CONTRACTOR shall provide evidence of personal auto liability coverage for each such person upon request.

(c) Certificates of Coverage. All insurance coverages referenced in 7(b), above, shall be evidenced by one or more certificates of coverage or, with the consent of COUNTY's Risk Manager, demonstrated by other evidence of coverage acceptable to COUNTY's Risk Manager, which shall be filed by CONTRACTOR with the COUNTY EXECUTIVE OFFICE prior to commencement of performance of any of CONTRACTOR's duties.

(1) The certificate(s) or other evidence of coverage shall reference this Agreement by its COUNTY number or title and department; shall be kept current during the term of this Agreement; shall provide that COUNTY shall be given no less than thirty (30) days prior written notice of any non-renewal, cancellation, other termination, or material change, except that only ten (10) days prior written notice shall be required where the cause of non-renewal or cancellation is non-payment of premium; and shall provide that the inclusion of more than one insured shall not operate to impair the rights of one insured against another insured, the coverage afforded applying as though separate policies had been issued to each insured, but the inclusion of more than one insured shall not operate to increase the limits of the company's liability.

(2) Waiver of Subrogation and Additional Insured Endorsements. For the commercial general liability insurance coverage referenced in 7(b)(1) and, for the comprehensive automobile liability insurance coverage referenced in 7(b)(3) where the vehicles are covered by a commercial policy rather than a personal policy, CONTRACTOR shall also file with the evidence of coverage an endorsement from the insurance provider naming COUNTY, its officers, employees, agents and volunteers as additional insureds and waiving subrogation. For the Workers Compensation insurance coverage, CONTRACTOR shall file with the evidence of coverage an endorsement waiving subrogation.

(3) The certificate or other evidence of coverage shall provide that if the same policy applies to activities of CONTRACTOR not covered by this Agreement, then the limits in the applicable certificate relating to the additional insured coverage of COUNTY shall pertain only to liability for activities of CONTRACTOR under this Agreement, and that the insurance provided is primary coverage to COUNTY with respect to any insurance or self-insurance programs maintained by COUNTY. The additional insured endorsements for the general liability coverage shall use Insurance Services Office (ISO) Form No. CG 20 09 11 85 or CG 20 10 11 85, or equivalent, including (if used together) CG 2010 10 01 and CG 2037 10 01; but shall not use the following forms: CG 20 10 10 93 or 03 94.

(4) Upon request by COUNTY's Risk Manager, CONTRACTOR shall provide or arrange for the insurer to provide within thirty (30) days of the request, certified copies of the actual insurance policies or relevant portions thereof.

(d) Deductibles/Retentions. Any deductibles or self-insured retentions shall be declared to, and be subject to approval by, COUNTY's Risk Manager, which approval shall not be denied unless the COUNTY's Risk Manager determines that the deductibles or self-insured retentions are unreasonably large in relation to compensation payable under this Agreement and the risks of liability associated with the activities required of CONTRACTOR by this Agreement. At the option of and upon request by COUNTY's Risk Manager if the Risk

Docusign Envelope ID: EF335207-DA3B-4A2A-A62E-BB77A5C56FC3

Manager determines that such deductibles or retentions are unreasonably high, either the insurer shall reduce or eliminate such deductibles or self-insurance retentions as respects COUNTY, its officers, employees, agents and volunteers or CONTRACTOR shall procure a bond guaranteeing payment of losses and related investigations, claims administration and defense expenses.

(e) Inclusion in Subcontracts. CONTRACTOR agrees to require all subcontractors and any other entity or person who is involved in providing services under this Agreement to comply with the Workers Compensation and General Liability insurance requirements set forth in this Paragraph 7.

8. **Hold Harmless/Defense/Indemnification.**

(a) In General. To the full extent permitted by law, CONTRACTOR shall defend at its own expense, indemnify, and hold harmless COUNTY and its officers, agents, employees, volunteers, or representatives from and against any and all liability, claims, actions, proceedings, losses, injuries, damages or expenses of every name, kind, and description, including litigation costs and reasonable attorney's fees incurred in connection therewith, brought for or on account of personal injury (including death) or damage to property, arising from all acts or omissions of CONTRACTOR or its officers, agents, employees, volunteers, contractors and subcontractors in rendering services under this Agreement, excluding, however, such liability, claims, actions, losses, injuries, damages or expenses arising from the sole negligence or willful acts of COUNTY or its officers, agents, employees, volunteers, representatives, or other contractors or their subcontractors. Each party shall notify the other party immediately in writing of any claim or damage related to activities performed under this Agreement. The parties shall cooperate with each other in the investigation and disposition of any claim arising out of the activities under this Agreement, providing that nothing shall require either party to disclose any documents, records or communications that are protected under peer review privilege, attorney-client privilege, or attorney work product privilege.

(b) Employee Character and Fitness. CONTRACTOR accepts responsibility for determining and approving the character and fitness of its employees (including volunteers, agents or representatives) to provide the services required of CONTRACTOR under this Agreement, including completion of a satisfactory criminal/background check and period rechecks to the extent permitted by law. Notwithstanding anything to the contrary in this Paragraph, CONTRACTOR shall hold COUNTY and its officers, agents and employees harmless from any liability for injuries or damages resulting from a breach of this provision or CONTRACTOR's actions in this regard.

9. **Termination for Cause.** If either party shall fail to fulfill in a timely and proper manner that party's obligations under this Agreement or otherwise breach this Agreement and fail to cure such failure or breach within TEN (10) days of receipt of written notice from the other party describing the nature of the breach, the non-defaulting party may, in addition to any other remedies it may have, terminate this Agreement by giving TEN (10) days prior written notice to the defaulting party in the manner set forth in Paragraph 13 (Notices). The Napa County Purchasing Agent or designee pursuant to Napa County Code section 2.36.050 is hereby authorized to make all decisions and take all actions required under this Paragraph to terminate this Agreement on behalf of COUNTY for cause.

10. **Other Termination.** This Agreement may be terminated by either party for any reason and at any time by giving prior written notice of such termination to the other party specifying the effective date thereof at least SIXTY days prior to the effective date, as long as the date the notice is given and the effective date of the termination are in the same fiscal year; provided, however, that no such termination may be effected by COUNTY unless an opportunity for consultation is provided prior to the effective date of the termination. COUNTY hereby authorizes the Napa County Executive Officer to make all decisions and take all actions required under this Paragraph to terminate this Agreement on behalf of COUNTY for the convenience of COUNTY.

11. **Disposition of, Title to and Payment for Work Upon Expiration or Termination.**

(a) Upon expiration of this Agreement or termination for cause under Paragraph 9 or termination for convenience of a party under Paragraph 10:

(1) To the extent CONTRACTOR has provided services through Software and Applications materials licensed to COUNTY, COUNTY shall promptly return the Software and Application materials to CONTRACTOR. In addition, to the extent CONTRACTOR maintains COUNTY data on those portions of digital software hosted by CONTRACTOR and not controlled by COUNTY ("County data"), CONTRACTOR shall promptly return County data to COUNTY Information Technology Department (ITS) in a format designated by ITS and shall subsequently purge County data from CONTRACTOR's systems upon confirmation from COUNTY that the copy of the data provided to COUNTY is comprehensive of the data previously hosted by CONTRACTOR.

(2) All finished or unfinished documents and other materials, if any, and all rights therein shall become, at the option of COUNTY, the property of and shall be promptly returned to COUNTY, although CONTRACTOR may retain a copy of such work for its personal records only, except as otherwise provided under Paragraph 15 (Confidentiality) of this Agreement. Unless otherwise expressly provided in this Agreement, any copyrightable or patentable work created by CONTRACTOR under this Agreement shall be deemed a "work made for hire" for purposes of copyright or patent law and only COUNTY shall be entitled to claim or apply for the copyright or patent thereof. Notwithstanding the foregoing and to the extent services under this Agreement involve the development of previously patented inventions or copyrighted software, then upon expiration or termination of this Agreement, title to, ownership of, and all applicable patents, copyrights and trade secrets in the products developed or improved under this Agreement, shall remain with CONTRACTOR or any other person or entity if such person previously owned or held such patents, copyrights, and trade secrets, and such persons shall retain complete rights to market such product; provided, however, that COUNTY shall receive, at no additional cost, a perpetual license to use such products for its own use or the use of any consortium or joint powers agency to which COUNTY is a party. If the product involves a source code, CONTRACTOR shall either provide a copy of the source code to COUNTY or shall place the source code in an escrow account, at CONTRACTOR's expense, from which the source code may be withdrawn and used by COUNTY for the sole purpose of maintaining and updating the system dependent upon such code when such use is necessary to prevent loss of service to COUNTY.

(b) CONTRACTOR shall be entitled to receive compensation for any satisfactory work completed prior to expiration or receipt of the notice of termination or commenced prior to receipt of the notice of termination and completed satisfactorily prior to the effective date of the termination; except that CONTRACTOR shall not be relieved of liability to COUNTY for

damages sustained by COUNTY by virtue of any breach of the Agreement by CONTRACTOR whether or not the Agreement expired or otherwise terminated, and COUNTY may withhold any payments not yet made to CONTRACTOR for purpose of setoff until such time as the exact amount of damages due to COUNTY from CONTRACTOR is determined.

12. **No Waiver.** The waiver by either party of any breach or violation of any requirement of this Agreement shall not be deemed to be a waiver of any such breach in the future, or of the breach of any other requirement of this Agreement.

13. **Notices.** All notices required or authorized by this Agreement shall be in writing and shall be delivered in person or by deposit in the United States mail, by certified mail, postage prepaid, return receipt requested. 15. **Confidentiality.**

(a) Maintenance of Confidential Information. Confidential information is defined as all information disclosed to CONTRACTOR which relates to COUNTY's past, present, and future activities, as well as activities under this Agreement. CONTRACTOR shall hold all such information as CONTRACTOR may receive, if any, in trust and confidence, except with the prior written approval of COUNTY, expressed through its DIRECTOR OF HOUSING AND HOMELESS SERVICES. Upon cancellation or expiration of this Agreement, CONTRACTOR shall return to COUNTY all written and descriptive matter which contains any such confidential information, except that CONTRACTOR may retain for its files a copy of CONTRACTOR's work product if such product has been made available to the public by COUNTY.

(b) Protection of Personally Identifiable Information and Protected Health Information.

(1) To the extent CONTRACTOR is provided, creates, or has access to, Protected Health Information (PHI), Personally Identifiable Information (PII), or any other legally protected confidential information or data in any form or matter (collectively referred to as "Protected Information"), CONTRACTOR shall adhere to all federal, state and local laws, rules and regulations protecting the privacy of such information. CONTRACTOR shall adhere to all existing and future federal, state and local laws, rules and regulations regarding the privacy and security of Protected Information, including, but not limited to, laws and regulations requiring data encryption or policy and awareness programs for the protection of COUNTY Protected Information provided to, or accessed or created by, CONTRACTOR. Additionally, CONTRACTOR shall only access, use or disclose County Protected Information if such access, use, or disclosure is expressly permitted by the terms of its agreement with County. Any other access, use or disclosure of County Protected Information is prohibited. Examples of prohibited accesses, uses and disclosures include, but are not limited to: the removal of confidential files, documents or devices containing County Protected Information from a County facility; the unauthorized transmission of County Protected Information via email, fax or other means; and the discussion of such information with other individuals (including other CONTRACTOR or County employees) who do not have a County approved business reason to obtain the information.

(2) CONTRACTOR shall ensure that its staff and any third party organizations or individuals that it engages to perform services in conjunction with the terms if this agreement are trained to its privacy and security policies, as well as Paragraph 15 of this agreement; and procedures and that appropriate physical, technological and administrative safeguards are in place to protect the confidentiality of COUNTY's Protected Information. Upon request, CONTRACTOR shall make available to COUNTY its policies and procedures, staff training records and other documentation of compliance with this Paragraph 15.

(3) CONTRACTOR agrees to notify COUNTY immediately of any unauthorized access to or disclosure of Protected Information that it becomes aware of. This includes instances wherein CONTRACTOR encounters unsecured Protected Information in areas where CONTRACTOR employees are performing services.

(4) CONTRACTOR will be responsible for all costs associated with CONTRACTOR's breach of the security and privacy of COUNTY's Protected Information, or its unauthorized access to or disclosure of COUNTY's Protected Information, including, but not limited to, mitigation of the breach, cost to the County of any monetary sanctions resulting from breach, notification of individuals affected by the breach, and any other action required by federal, state, or local laws, rules or regulations applicable at the time of the breach.

(c) Protection of County Data. (a) In General. A consideration of this Agreement is the personal reputation of CONTRACTOR; therefore, CONTRACTOR shall not assign any interest in this Agreement or subcontract any of the services CONTRACTOR is to perform hereunder without the prior written consent of COUNTY, which shall not be unreasonably withheld. The inability of the assignee to provide personnel equivalent in experience, expertise, and numbers to those provided by CONTRACTOR, or to perform any of the remaining services required under this Agreement within the same time frame required of CONTRACTOR shall be deemed to be reasonable grounds for COUNTY to withhold its consent to assignment. For purposes of this subparagraph, the consent of COUNTY may be given by the DIRECTOR OF HOUSING AND HOMELESS SERVICES.

(b) Effect of Change in Status. If CONTRACTOR changes its status during the term of this Agreement from or to that of a corporation, limited liability partnership, limited liability company, general partnership, or sole proprietorship, such change in organizational status shall be viewed as an attempted assignment of this Agreement by CONTRACTOR. Failure of CONTRACTOR to obtain approval of such assignment under this Paragraph shall be viewed as a material breach of this Agreement.

18. **Interpretation; Venue.**

(a) Interpretation. The headings used herein are for reference only. The terms of the Agreement are set out in the text under the headings. This Agreement shall be governed by the laws of the State of California without regard to the choice of law or conflicts.

19. **Compliance with Laws.** CONTRACTOR shall observe and comply with all applicable Federal, State and local laws, ordinances, and codes. Such laws shall include, but not be limited to, the following, except where prohibited by law:

(a) Non-Discrimination. (c) Inclusion in Subcontracts. To the extent any of the services required of CONTRACTOR under this Agreement are subcontracted to a third party, CONTRACTOR shall include all of the provisions of this Paragraph 19 in all such subcontracts as obligations of the subcontractor.

20. **Taxes.** CONTRACTOR agrees to file federal and state tax returns or applicable withholding documents and to pay all applicable taxes or make all required withholdings on amounts paid pursuant to this Agreement and shall be solely liable and responsible to make such withholdings and/or pay such taxes and other obligations including, without limitation, state and federal income and FICA taxes. (b) Statements of Economic Interest. By executing this Agreement, the DIRECTOR OF HOUSING AND HOMELESS SERVICES determines in writing on behalf of COUNTY that CONTRACTOR has been hired to perform a range of duties so limited in scope as to not be required to comply with such disclosure obligation.

24. **Third Party Beneficiaries.** Nothing contained in this Agreement shall be construed to create any rights in third parties and the parties do not intend to create such rights.

25. **Attorney's Fees.** In the event that either party commences legal action of any kind or character to either enforce the provisions of this Agreement or to obtain damages for breach thereof, the prevailing party in such litigation shall be entitled to all costs and reasonable attorney's fees incurred in connection with such action.

SCOPE OF WORK

CONTRACTOR shall provide COUNTY with the following services:

I. DESCRIPTION OF SERVICES

Napa County Department of Housing and Homeless Services (DHHS) is launching a rental assistance pilot program to stabilize tenancy for Extremely Low Income (ELI) and Severely Rent Burdened (SRB) older adults in Napa County. The pilot program name is the Stable Housing and Community Resilience ("SHARE") Program. The program includes a consortium of local providers of social services to vulnerable, low-income, and Spanish-speaking older adult individuals in Napa County to leverage and expand existing service networks and program operations. This contract is to establish time-sensitive and time-limited services specific to SHARE Program delivery goals and outcomes.

Eligible households will demonstrate they are experiencing severe rent burden resulting in imminent or highly likely future eviction and/or homelessness. Higher priority is given to households with previous experience of homelessness, severe rent burden, no access to other forms of assistance, and those individuals from communities that are vulnerable due to historically inequitable systems of power and resource distribution.

The SHARE Program design includes four areas of service delivery: Outreach, Program Application & Enrollment, Program Delivery & Social Services Engagement, and Pilot Administration. The Scope of Work detailed below represents the scope of services required to be performed by Contractors to providing Program Application & Enrollment Services.

Program Application & Enrollment Services Overview

Multiple local disasters and the global pandemic have caused long-term economic, social, and emotional impacts on fixed income and older adults in Napa County, with the negative impacts falling disproportionally on extremely low income, severely rent-burden households. Napa Program Application & Enrollment pilot partners have a uniquely extensive experience implementing emergency financial assistance programs targeting low-income individuals and families who are not eligible for other government assistance following Federally declared disasters in 2017, 2018 and 2020 adversely affecting Napa County's more than 14,000 ELI households[i][ii][iii] U.S. Census Bureau QuickFacts: Napa County, California]. Existing experienced case managers and staff are fluent in Spanish and a variety of indigenous languages and have been providing safety net and social services across the geographic reach of Napa County (including more isolated, rural, and disproportionally older adult populations) for more than two decades.

On the front end, Program Application and Enrollment (A&E) agencies will work with referred, eligible individuals to ensure applications are complete and timely and be a bridge to overcome any technology-related limitations that might otherwise hinder older adults with limited technology access or proficiency. Applications will be submitted via an existing cloud-based portal These staff will "stay with" the applicant through the process of application and enrollment to provide guidance, reassurance and troubleshooting on the applicant's behalf. Once

05/13/2026 NOTICE-001460

Docusign Envelope ID: EF335207-DA3B-4A2A-A62E-BB77A5C56FC3

the application and enrollment step is complete, A&E staff will schedule an introductory meeting with the Program Delivery and Social Service Engagement (DSSE) case managers to complete a "warm handoff" to long-term case management staff.

On the back end, submitted applications will be reviewed and approved for eligibility. Importantly, this step will be done by the Napa County Department of Housing & Homeless Services staff as the Pilot Administrative Entity. This protects the role of trusted support established between the Outreach and A & E staff and clients, preserving that staff role as one of advocacy and client-centered support, while maintaining a necessary and valuable review step to ensure documentation of eligibility and comprehensive record-keeping across all applicants.

Upon approval, Administration staff will notify the A&E staff of client approval. A&E staff will then coordinate an initial meeting with one of the long-term case managers on the DSSE team. A&E agencies will bill for staff services on a fee-for-service (FFS) basis with a fixed-rate per applicant until the program is fully enrolled. The FFS model is used for this support service as the time frame for the necessary service is relatively time-limited, with heavy support and volume necessary at the outset of the pilot to reach full enrollment and necessitate utilization of multiple staff within each partner organizations to accomplish the work in a timely fashion. After initial full-enrollment, ongoing application and enrollment services will be on a case-by-case basis as existing program enrollees exit or graduate from needing services, therefore the FFS model is best suited to reimbursement for services as-performed rather than FTE or hourly rate agreements.

Contractor shall:

1. Provide services that are culturally competent, considering the ethnic, linguistic and experiential needs of older adult residents experiencing a housing crisis.
2. Provide one single point of contact for DHHS program staff.
3. Participate in staff trainings provided by the County for the program implementation and Neighborly application portal system.
4. Respond with acknowledgment of all referrals via Neighborly portal from Referral and Support Service Linkage Partners.
5. Provide support and guidance to eligible clients with applying for the SHARE Program:
    a. Assist with collecting all documentation necessary for the application for eligibility.
    b. Bridge through direct service assistance any language, technology or other access-related barriers to eligible applicants.
6. Provide support to eligible clients throughout the process of application, approval and potential program enrollment; this may include in-home meetings.
7. Provide information and referrals to various community services existing within the County.
8. Notify client of program approval and set initial meeting between Application & Support staff, client and SHARE Program assigned long-term case management staff once application has been approved.
9. Participate in regular meetings (both in-person or virtual) and forums, as it pertains to the SHARE Program.

10. Attend the initial meeting with client and SHARE Program long-term case manager (in person or virtual depending on client's preference) to introduce client to the new case manager.
    a. Provide a note in the Neighborly System to confirm meeting has taken place.
11. Provide monthly invoices, submitted via the Neighborly system, for completed and submitted applications, and completed and submitted enrollments at agreed upon rate.

COUNTY shall:

1. Provide one single point of contact for program staff.
2. Review all Linkage Partner SHARE Program referrals and assign referred applications to Application and Enrollment Partners.
3. Review all completed and submitted applications and confirm or deny enrollment eligibility.
4. Refer selected eligible applicants for SHARE Program enrollment via notification in the Neighborly Portal Task System.
5. Host bi-weekly barrier resolution meetings for all SHARE Program service providers.
6. Issue payment within 30 days of approved and complete invoice submission.

II. COMPLIANCE WITH GOVERNMENT CODE SECTION 7550. As required by Government Code section 7550, each document or report prepared by CONTRACTOR for or under the direction of COUNTY pursuant to this Agreement shall contain the numbers and dollar amounts of the Agreement and all subcontracts under the Agreement relating to the preparation of the document or written report. The Agreement and subcontract dollar amounts shall be contained in a separate section of the document or written report. If multiple documents or written reports are the subject of the Agreement or subcontracts, the disclosure section may also contain a statement indicating that the total contract amount represents compensation for multiple documents or written reports.

    a. CONTRACTOR reimbursement is up to a maximum of $25,000 for the term of the Agreement from contract execution, subject to the fiscal year limitations set forth in the fee for service rates below:
        i. $300 for each application successfully submitted to the Neighborly portal
    b. All amounts above are dependent upon eligible SHARE client applications successfully submitted to the Neighborly portal and enrolled in the SHARE program; actual amounts reimbursed may be less than above contract maximum.

11 Cal. Code Reg. Section 999.5(d)(5)(K)

A description of each measure proposed by the applicant to mitigate or eliminate any potential adverse effect on the availability of healthcare services to the affected community that may result from the agreement or transaction

The parties do not anticipate any adverse effect on the availability or accessibility of health care services resulting from the Transaction. Rather, the Parties expect that the proposed Transaction will expand access to healthcare services and improve levels of community benefit. Please see Section 999.5(d)(5)(H) above for further details.

11 Cal. Code Reg. Section 999.5(d)(5)(L)

A list of the primary languages spoken at the health facility or facility that provides similar healthcare and the threshold languages for Medi-Cal beneficiaries, as determined by the State Department of Healthcare Services for the county in which the health facility or facility that provides similar healthcare is located

The languages spoken at QVMC and the Napa Clinics either as a primary language or through translation services include English and Spanish. The threshold languages for Medi-Cal beneficiaries, as determined by the California Department of Healthcare Services for Napa are English and Spanish.

Title 11, California Code of Regulations, § 999.5(d)(6)

POSSIBLE EFFECT ON COMPETITION

11 Cal. Code Reg. Section 999.5(d)(6)(A)

For any agreement or transaction for which a Premerger Notification and Report Form is required to be submitted to the Federal Trade Commission under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, a brief analysis of the possible effect of any proposed merger or acquisition of each healthcare facility or facility that provides similar healthcare that is the subject of the agreement or transaction on competition and market share in any relevant product or geographic market

The proposed Transaction will not reduce competition because QVMC operates in a separate geographic market from NorthBay's hospital campuses, and there is *de minimis* competition between the parties today. Instead, the transaction will benefit patients, payors, and members of the Napa community.

QVMC is located in Napa, CA, and it primarily serves patients who reside in Napa County. QVMC faces competition from other area hospitals, including Adventist Health St. Helena, Sutter Health (Solano), and Kaiser Permanente (multiple facilities). NorthBay has one hospital with two campuses in Solano County: one in Fairfield, NorthBay Medical Center, and one in Vacaville, VacaValley Hospital. The NorthBay hospital campuses primarily serve patients residing in Solano County. Like QVMC, NorthBay faces competition from other large, well-resourced competitors, including Kaiser Permanente (multiple facilities), Sutter Health (Solano), and others.

Standard economic analysis of hospital mergers shows that QVMC and NorthBay are not close competitors today. The geographic areas from which each party draws the top 75% of its commercial inpatient discharges do not overlap (*source: 2024 California Department of Health Care Access and Information (HCAI*) *commercial inpatient discharge data*). Moreover, the parties have *de minimis* shares in each other's 75% draw areas. QVMC has only a 1.1% share in NorthBay's primary service area, and NorthBay has only a 0.7% share in QVMC's primary service area. The proposed Transaction will, in fact, be de-concentrating in QVMC's primary service area, as Providence is selling QVMC but not its other facilities to a smaller, local independent system.

Economic analysis of diversion ratios between QVMC and NorthBay also confirms that the parties are not close head-to-head competitors. The diversion ratios between the parties are very low (less than 3% each) and below the levels the Federal Trade Commission typically applies in analyzing whether to further investigate hospital mergers. The diversion analysis instead shows that each party competes most closely with Kaiser, which has multiple competing hospitals located nearby. In fact, Kaiser is QVMC's largest commercial payor. Willingness to pay analysis further confirms that the proposed Transaction does not present competitive concerns.

The proposed Transaction also will not lessen competition for physician services. Today, NorthBay has very few contracted physicians who practice in Napa County where QVMC is located: only three primary care providers, who practice in American Canyon on the southern end of Napa County, a 0.5 FTE clinical care urologist who divides time evenly between Fairfield and Napa, and a podiatrist who also splits his time between Fairfield and Napa. Combining those three primary care providers in American Canyon with Providence's primary care clinics located in the City of Napa will have no meaningful impact on competition because there are hundreds of other competing primary care providers in Napa County, including many who practice in the City of Napa. Together, NorthBay and QVMC have less than a 10% share of primary care physicians practicing within 30 miles of QVMC. Similarly, the 0.25 FTE urologist and 0.5 FTE podiatrist services in Napa should have no meaningful impact on the professional urology or podiatry services in Napa County.

Attached to this Section 999.5(d)(6)(A) as **Exhibit 1** is a presentation prepared by economic consulting firm NERA that further explains these points.

The proposed Transaction will also result in benefits to patients and the community. NorthBay has committed to investing up to $10 million in the Queen of the Valley Medical Center Foundation to support priority capital expenditure projects benefitting providers and patients. NorthBay has further committed to providing a number of community benefit programs through QVMC, including a care network for low-income Napa County residents, a mobile dental clinic, a cancer wellness program available free of charge to patients residing in the Napa Valley, and other community programs. The proposed Transaction will also allow the NorthBay hospitals and QVMC to share best practices and operate more efficiently.

INDEPENDENT AUDITORS' REPORT

Board of Directors
NorthBay Healthcare Corporation and its Affiliates
dba: NorthBay Health
Fairfield, California

Report on the Audit of the Financial Statements

Opinion

We have audited the consolidated financial statements of NorthBay Healthcare Corporation and its Affiliates dba: NorthBay Health, which comprise the consolidated balance sheet as of December 31, 2025, and the related consolidated statements of operations and changes in net assets, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of NorthBay Healthcare Corporation and its Affiliates dba: NorthBay Health, as of December 31, 2025, and the results of its operations and changes in net assets, and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of NorthBay Healthcare Corporation and its Affiliates dba: NorthBay Health and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Prior Period Financial Statements

NorthBay Healthcare Corporation and its Affiliates dba: NorthBay Health's consolidated financial statements as of December 31, 2024 were audited by other auditors whose report dated April 15, 2025, expressed an unmodified opinion on those consolidated financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

CLA (CliftonLarsonAllen LLP) is an independent network member of CLA Global. See CLAglobal.com/disclaimer.

Responsibilities of Management for the Financial Statements (Continued)

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about NorthBay Healthcare Corporation and its Affiliates dba: NorthBay Health's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of NorthBay Healthcare Corporation and its Affiliates dba: NorthBay Health's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about NorthBay Healthcare Corporation and its Affiliates dba: NorthBay Health's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 25, 2026, on our consideration of NorthBay Healthcare Corporation and its Affiliates dba: NorthBay Health's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of NorthBay Healthcare Corporation and its Affiliates dba: NorthBay Health's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering NorthBay Healthcare Corporation and its Affiliates dba: NorthBay Health's internal control over financial reporting and compliance.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

NorthBay Healthcare Corporation (NBHC)

NBHC and its affiliates, d.b.a. NorthBay Health (the System), is a healthcare delivery system headquartered in Fairfield, Solano County, California. The System provides services to residents of Fairfield, Vacaville, and surrounding cities. The individual affiliates of the System are listed below. NBHC is the sole corporate member of these not-for-profit affiliates.

NorthBay Healthcare Group (NBHG or the Group)

The Group is responsible for the operations of two nonprofit hospitals: NorthBay Medical Center (NorthBay) in Fairfield, California, and VacaValley Hospital (VacaValley) in Vacaville, California. Each hospital provides both inpatient and outpatient health care services.

Health care services also include physician services through NBHG's medical foundation, doing business as NorthBay Medical Group (NBMG), a network of multi-specialty clinics located in Fairfield, California; Vacaville, California; and Napa, California. NBMG contracts with physicians for professional medical services. NBMG operates under Section 1206(l) of the California Health and Safety Code.

The Group owns 100% of the equity interest of NorthBay Physicians Surgery Center, LLC (NBPSC). NBPSC is a California limited liability company that operates an Ambulatory Surgery Center in Vacaville, California.

The Group's interest in Western Health Advantage (WHA), a nonprofit, full-service health care plan, at December 31, 2025 and 2024, was 50%. This interest is accounted for under the equity method (see Note 10).

NorthBay Healthcare Foundation (NBHF)

NBHF provides fundraising services for NBHG and its affiliated organizations. Additionally, NBHF provides support to the Group by managing the NorthBay Guild and volunteer services.

NorthBay Health Medical Foundation (NBHMF)

NBHMF is being established to provide physician healthcare services through a network of Multi-Specialty clinics located throughout Solano, Napa and Yolo counties. NBHMF will assume operation of many of the NBHG ambulatory clinics in January 2026 and will contract with physicians for professional medical services. NBHMF will operate under Section 1206(l) of the California Health and Safety Code.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Organization (Continued)

NorthBay Health Advantage (NBHA)

NBHA supports and carries out the purposes and functions of the Group by managing NorthBay Health Advantage HealthSpring Fitness, a medical fitness center located on the VacaValley campus, and satellite diagnostic imaging centers located near the two hospitals. NBHA's ownership interest in Solano Diagnostic Partners (SDP), the facility operator, is 95% at December 31, 2025 and 2024. NBHC's ownership interest in SDP is 5% at December 31, 2025 and 2024.

NBHA owns 100% of the equity interest of NorthBay Health Advantage LLC (NBHA LLC). NBHA LLC is a single purpose entity established to hold legal title of the VacaValley Wellness Center (VVWC). NBHA also owns 100% of the equity interest of NorthBay Health Advantage Ambulatory Surgery Center LLC (NBHA ASC LLC), which is a single purpose entity established to hold legal title of the NorthBay Ambulatory Surgery Center (ASC).

Basis of Consolidation

The consolidated financial statements include the accounts of the organizations listed in Note 1 except for the equity interest in WHA. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Tax Status

The System has applied for and received tax determination letters from government authorities advising that they are exempt from federal income and state franchise taxes under Section 501(c)(3) of the Internal Revenue Code and Section 23701d of the Revenue and Taxation Code of the state of California, respectively. Therefore, there has been no provision for income taxes included in the accompanying consolidated financial statements.

Cash and Cash Equivalents

Cash and cash equivalents include certain investments in highly liquid debt instruments with original maturities of three months or less (see Note 12).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash and Cash Equivalents (Continued)

Financial instruments that potentially expose the System to concentrations of credit risk consist principally of cash and cash equivalents on deposit with financial institutions, the balances of which frequently exceed federally insured limits. If any of the financial institutions with whom the System does business were to be placed into receivership with the Federal Deposit Insurance Corporation, the System may be unable to access the cash they have on deposit with such institutions. If the System was unable to access its cash and cash equivalents as needed, the System's financial position and ability to operate its business could be adversely affected.

Assets Whose Use is Limited

Assets whose use is limited consist principally of money market funds, cash equivalents, certificates of deposit, and debt and equity securities held through managed mutual funds pursuant to the System's investment policy. Equity securities are recorded at fair value. Certain assets are held by trustees in accordance with the indentures relating to long-term debt and by the System's governing board for future capital improvement. The Board retains control of these assets and may, at its discretion, use these amounts for other purposes.

Investment income, net (including realized gains and losses on investments, interest, and dividends) is included in the excess of revenues over expenses unless the income is restricted by donor or law. Changes in the fair value of equity securities are recorded as unrealized gains or losses and are included in the excess of revenues over expenses.

Fair Value of Financial Instruments

Unless otherwise indicated, the fair values of all reported assets and liabilities, which represent financial instruments, approximate their carrying values. The System's policy is to recognize transfers in and transfers out of Levels 1 and 2 as of the end of the reporting period.

Patient Accounts Receivable, Amounts Payable to Third-Party Payors, and Net Patient Service Revenue

As of and for the years ended December 31, 2025 and 2024, accounts receivable, amounts payable to third-party payors, and net patient service revenue are reported at the estimated amount to which the System believes it is entitled in exchange for patient care provided (see Note 9).

Concentration of Credit Risk

The System derives significant portions of its revenues from Medicare, Medicaid (Medi-Cal), and other third-party payor programs. The receipt of future revenues by the System is subject to, among other factors, federal and state policies affecting the health care industry.

Contracts with two health plans accounted for 100% of premiums received under capitation arrangements during the years ended December 31, 2025 and 2024.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Concentration of Credit Risk (Continued)

In addition, as part of the System's mission to serve the community, the System provides care to patients who come into the hospitals through emergency situations. As a result, the System is exposed to certain credit risks. The System manages its risks by regularly reviewing accounts and contracts and by providing for appropriate allowances to patient accounts receivable.

The mix of net patient accounts receivable at December 31 is as follows:

	2025	2024
Commercial Insurance	50 %	67 %
Medicare	28	18
Medi-Cal	17	14
Self-Pay/Other	5	1
Total	100 %	100 %

Inventories

Inventories are stated at the lower of cost or net realizable value, using a combination of first-in, first-out (FIFO) and current pricing. All stock inventories, except for pharmaceuticals, are valued using FIFO methodology. Because of the high turnover rate for pharmaceutical inventory, it is valued using current pricing, which approximates net realizable value.

Property and Equipment, Net

The system capitalizes property and equipment purchases with historical cost of at least $5,000 for individually identifiable assets and $8,000 for groups of similar long-lived assets with an individual unit cost of at least $1,000. Donated property, if any, is recorded at the fair value at date of donation. The cost of maintenance and repairs is charged to expense as incurred; significant renewals and betterments are capitalized. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which range from 3 to 40 years and are based upon the American Hospital Association's recommended estimated useful lives of depreciable assets by asset class. Leasehold improvements are amortized on a straight-line basis over lives not exceeding the related lease terms up to 20 years. When assets are retired, sold, or otherwise disposed of, the cost and related accumulated depreciation and amortization are removed from the accounts, and any resulting gain or loss is recognized as other income or expense. Interest costs incurred on borrowed funds during the period of construction of capital assets, net of related interest income, are capitalized as a component of the cost of acquiring those assets.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property and Equipment, Net (Continued)

Gifts of long-lived assets such as buildings or equipment are reported as net assets without donor restrictions within contributions and are excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts or other assets that must be used to acquire long-lived assets are reported as net assets with donor restrictions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Prepaid Expenses and Other

Prepaid expenses and other include estimated stop loss recoveries for capitation plans, quality incentives receivables, other miscellaneous receivables, prepaid service contracts, and subordinated debt from WHA (see Note 10).

Other Current Liabilities

Other current liabilities mainly consist of the current portion of the System's hospital medical malpractice, capitation arrangement liabilities, hospital quality assurance fees payable, and cash advances from a third-party payor.

Bond Issuance Costs and Bond Premiums

Bond issuance costs are amortized over the life of the bonds using a method that approximates the effective interest method and are netted against the long-term debt balance. During the years ended December 31, 2025 and 2024, interest expense related to bond issuance costs was $580,000 and $258,000, respectively. The amortization of bond premiums was $283,000 and $779,000 for the years ended December 31, 2025 and 2024, respectively.

Leases

Transactions give rise to leases when the System receives substantially all of the economic benefits from, and has the ability to direct, the use of the specified property and equipment. The System primarily has lessee activity that is classified as operating leases. Operating leases are including in operating lease right-of-use assets, net, current maturities of operating lease liabilities, and operating lease liabilities, net of current maturities in the consolidated balance sheets. Finance leases are included in property and equipment, net, current maturities of long-term debt obligations, and long-term debt obligations, net of current maturities in the consolidated balance sheets.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (Continued)

Right-of-use assets represent the right to use an underlying asset for the lease term and lease liabilities represent obligations to make lease payments arising from the lease. Operating lease right-of-use assets and liabilities are recognized at the commencement date based on the present value of lease payments over the lease term. When discount rates implicit in leases cannot be readily determined, the System uses the applicable incremental borrowing rate at lease commencement to perform lease classification tests and to measure lease liabilities and right-of-use assets. Lease expense for operating leases is recognized on a straight-line basis over the lease term.

The System has agreements with lease and nonlease components, such as common area maintenance, and has elected to account for the lease and nonlease components as separate components. The System has elected not to recognize right-of-use assets and lease liabilities for leases of terms less than 12 months.

Other Long-Term Liabilities

Other long-term liabilities consist mainly of the long-term portion of workers' compensation and medical malpractice liabilities.

Workers' Compensation

The System participates in a large deductible insurance program to manage the risk and cost of workers' compensation claims. The System has a reinsurance agreement with an insurance company to limit its losses to $250,000 per claim for losses prior to October 1, 2003, $350,000 per claim for losses from October 1, 2003, through September 30, 2019, and to $500,000 per claim for claims after that date. Losses from claims incurred but not reported (IBNR) during the coverage period have been accrued. An actuarial estimate of losses from reported and unreported incidents has been used by management to record a liability and related receivable from the insurance company. As of December 31, 2025 and 2024, the System had accrued total liabilities of $8,302,000 and $6,990,000, respectively, related to these claims. As of December 31, 2025 and 2024, the System had reported total receivables of $1,662,000 and $535,000, respectively. The current portion of workers' compensation liability and receivable ($5,705,000 and $1,142,000 respectively, at December 31, 2025, and ($4,873,000 and $373,000 respectively, at December 31, 2024) was estimated based on the claims expected to be paid within one year. The liability is recorded in accrued payroll and related liabilities, and the receivable is recorded in prepaid expenses and other. The long-term portion of the workers' compensation liability and receivable ($2,597,000 and $520,000 respectively, at December 31, 2025, and ($2,117,000 and $162,000 respectively, at December 31, 2024) is reported in other long-term liabilities and other assets, respectively.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Hospital Medical Malpractice Liability

The System purchases insurance coverage from a third-party insurer to cover medical malpractice claims. The policy, which went into effect on October 1, 2003, is a claims-made policy covering losses in excess of $100,000 per claim with a coverage limit of $15,000,000. Losses prior to October 1, 2003, are covered in excess of $50,000 per claim with a coverage limit of $25,000,000. Losses from IBNR claims during the coverage period have been accrued. These accruals are based on historical claims experience. As of December 31, 2025 and 2024, the System had accrued $9,909,000 and $8,890,000, respectively, related to these claims. The current portion of the liability ($910,000 and $762,000 at December 31, 2025 and 2024, respectively) was estimated based on the claims expected to be paid within one year and is included in other current liabilities. The long-term portion of the liability ($8,999,000 and $8,128,000 at December 31, 2025 and 2024, respectively) is included in other long-term liabilities. Additionally, the System had reported total receivables of $6,084,000 and $5,647,000 at December 31, 2025 and 2024, respectively. The current portion of the receivable ($480,000 and $445,000 at December 31, 2025 and 2024, respectively) was estimated based on the claims expected to be paid within one year and is included in prepaid expenses and other on the consolidated balance sheets. The long-term portion of the receivable ($5,604,000 and $5,202,000 at December 31, 2025 and 2024, respectively) is included in other assets.

Net Assets

All contributions that are not restricted by donors are included in net assets without donor restrictions. Contributions restricted by donors for a specific time period or purpose are initially reported as net assets with donor restrictions and are transferred to net assets without donor restrictions when the restrictions have been met.

Net assets with donor restrictions are to be used as of December 31 for the following purposes and time restrictions (in thousands):

	2025	2024
Subject to Expenditure for Specified Purpose:		
Specific Health Programs	$ 5,457	$ 5,617
Education	117	116

Total	5,879	5,989
Subject to the Passage of Time	1,932	1,932
To be Maintained in Perpetuity	1,060	947
Total Net Assets with Donor Restrictions	$ 8,871	$ 8,868

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Assets (Continued)

Net assets with donor restrictions related to endowments have been restricted by donors to be maintained by the System in perpetuity. These endowments remain intact with earnings on such funds providing an ongoing source of revenue to be used primarily for indigent medical care and research. Total endowments at December 31, 2025 and 2024, were $1,086,000 and $947,000, respectively. Net assets with donor restrictions related to endowments are commingled with the System's other investments and returns and are allocated to the net assets with donor restrictions endowment fund on a pro rata basis. Unrealized gain (loss) and investment income, net allocated to the endowment funds are classified as net assets with donor restrictions, as supported by associated agreements, until those amounts are appropriated for expenditure by the System in a manner consistent with the standard of prudence by the Uniform Prudent Management of Institutional Funds Act (UPMIFA).

Capitation Arrangements

NBHG has entered into capitation contracts with prepaid health plans to provide medical services to subscribing participants. Under these agreements, NBHG receives monthly capitation payments based on the number of health plan participants, regardless of services actually performed by NBHG. NBHG is in turn responsible for certain covered medical services for these capitated patients. Capitation revenue is recognized over time during the month in which members are entitled to health care services. NBHG maintains a stop loss insurance policy to cover payment for commercial subscribers whose medical costs exceed a certain level ($525,000 and $500,000 per member in 2025 and 2024, respectively). NBHG also has a stop-loss contractual arrangement to cover payment for governmental subscribers whose medical costs exceed $400,000 and $300,000 per member in 2025 and 2024, respectively. Premiums paid under this policy were $4,271,000 and $1,929,000 for the years ended December 31, 2025 and 2024, respectively. NBHG has recorded a liability for referred services authorized and unpaid at year-end, including IBNR claims. As of December 31, 2025 and 2024, the System had accrued $6,538,000 and $10,282,000, respectively, related to these claims, which is included in other current liabilities. Additionally, NBHG has recorded a receivable for stop-loss recoveries related to these claims for $4,212,000 and $5,096,000 as of December 31, 2025 and 2024, respectively.

Referred Claims

Referred claims, also known as purchased medical services, represent the incurred costs relating to providing capitation services which have not been otherwise included in the System's expenses. These include costs of services for covered members rendered by other healthcare providers, as well as the costs of stop-loss insurance and the recoveries from those policies relating to capitated plans.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Charity Care

NBHG provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Information identified throughout the collection process is used to determine a patient's eligibility for charity care. As NBHG does not pursue collection of amounts once they are determined to qualify as charity care, they are not reported as net patient service revenue.

Contributions

Contributions are recorded as operating gains when received, unless restricted as to use. Resources restricted as to use for additions to operating plant and equipment, or specific operating purposes are recorded as additions to net assets with donor restrictions. Externally restricted funds may be utilized only in accordance with the purposes established by the donor. Funds are transferred from net assets with donor restrictions to net assets without donor restrictions when expenditures are made for the purpose intended by the donor. Contributions for which restrictions are satisfied in the same period as received are recorded as contributions revenue without donor restrictions.

Functional Expenses

The consolidated financial statements report certain expense categories that are attributable to more than one healthcare service or support function. Therefore, these expenses require an allocation on a reasonable basis that is consistently applied. Costs not directly attributable to a function including depreciation and amortization and interest are allocated to a function based on a units-of-service basis.

Expenses by function and nature consist of the following for the years ended December 31 (in thousands):

Hospital Fee Receivables

Hospital fee receivables include amounts due to the System under the California Hospital Fee Program.

California Hospital Fee Program

In November 2009, the California Hospital Fee Program (the Program) was signed into California state law. The Program provided supplemental Medi-Cal payments to certain California hospitals. It was funded by a quality assurance fee (the Fee) paid by participating hospitals and by matching federal funds. Hospitals received supplemental payments from either the California Department of Health Care Services (DHCS), managed care plans, or a combination of both. The program includes a Fee-for-Service component and a Managed Care component. The Centers for Medicare and Medicaid Services (CMS) must approve each component before it becomes effective. The resulting revenue represents variable consideration and is included in the transaction price to the extent that it is probable that a significant reversal will not occur in future periods. Revenues and expenses for the Fee-for-Service component are recognized by the System when the CMS waiver approval is received and the amounts are known, in the period in which the services are performed. Beginning in the year ended December 31, 2021, the System recognized revenues and expenses for the pass-through portion of the Managed Care component when the CMS waiver approval is received and actual invoices for amounts to be paid and received are known.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

California Hospital Fee Program

During the year ended December 31, 2024, the System changed its accounting estimate to recognize the Managed Care component when CMS waiver approval is received and the amounts are known, as the System concluded that there was sufficient history of actual payments under the Program consistent with amounts approved by CMS such that it is improbable there would be a significant reversal of revenue once CMS has issued its final approval and payments are received. As a result, the System has concluded that CMS' final approval and payment receipt no longer represent a constraint on the variable consideration under the Program, and consequently recognized revenue and expense in the period in which they are incurred and amounts are known. As of December 31, 2025 and 2024, the System recorded hospital quality assurance fee receivable on the consolidated balance sheets of $107,738,000 and $82,043,000, respectively, for funds due in accordance with the Program, and total Program revenue of $57,886,000 and $110,507,000, respectively, for the years then ended, which is included in net patient service revenue on the consolidated statements of operations and changes in net assets. As of December 31, 2025 and 2024, the System recorded hospital quality assurance fee payable of $43,164,000 and $24,816,000, respectively, for funds payable in accordance with the Program, and total Program expenses of $31,970,000 and $40,755,000 for the years then ended December 31, 2025 and 2024, respectively, which is included in hospital quality assurance fee expense on the consolidated statements of operations and changes in net assets.

The following table presents the California Hospital Fee Program revenues and expenses recognized during the years ended December 31 by program component (in thousands):

NOTE 3 FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based on assumptions that market participants would use in pricing an asset or liability, prioritizing the use of observable inputs and minimizing the use of unobservable inputs.

NOTE 3 FAIR VALUE MEASUREMENTS (CONTINUED)

Inputs used in measuring fair value are categorized into a hierarchy based on the degree to which they are observable in the market. The hierarchy consists of three levels, which are described below:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Assets Whose Use is Limited – Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include money market funds and other cash equivalents, highly liquid government bonds, and exchange traded equities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows. Level 2 securities include certificates of deposit.

NOTE 3 FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables present the fair value measurements of assets and liabilities recognized in the accompanying consolidated balance sheets measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2025 and 2024 (in thousands):

NOTE 5 LONG-TERM OBLIGATIONS, NET (CONTINUED)

In 2013, NBHG entered into a Master Lease and Sublease Agreement with Siemens Public, Inc., as lessor; ABAG Finance Authority for Nonprofit Corporations as lessee; and NBHG as sublessee to acquire and install water conservation and energy saving equipment at the Fairfield hospital. The lease (Schedule 1 to the Master Lease) had an initial principal amount of $2,164,000 with an interest rate of 3.76% and amortizes ratably over a 16-year period ending September 2029, with monthly payments beginning in October 2014. The lease obligation is collateralized by the leased equipment.

In 2015, 2016, 2017, and 2025, NBHC and the Group (collectively, the Obligated Group) issued tax-exempt municipal bonds through the California Municipal Finance Authority.

Series 2015 A Bonds were issued in the principal amount of $31,960,000. The Series 2015 A Bonds were sold at a premium of $2,849,000 and included additional borrower funds of $178,000, resulting in total proceeds of $34,987,000, of which $32,000,000 was used for to finance certain preconstruction costs related to the planned expansion of NorthBay Medical Center. Of the remaining proceeds, $2,113,000 was used to establish a debt service reserve fund for the Series 2015 A Bonds, and $874,000 was used to pay certain costs to issue the Series 2015 A Bonds. Interest on the Series 2015 A Bonds is fixed at 5.00% per annum. Principal will be repaid beginning in 2016 and annually thereafter until 2044. The issuance premium is being amortized over the life of the Series 2015 A Bonds using the effective-interest method. The Series 2015 A Bonds are secured by the revenues of the Obligated Group, a deed of trust dated October 1, 2013, and other amounts held in any fund or account established by the Indenture to the Series 2015 A Bonds.

Series 2016 A Bonds were issued in April 2016 in the principal amount of $34,895,000. The Series 2016 A Bonds were sold at a premium of $4,934,000 and included the balance of Series 2013 A Bonds unspent funds of $4,049,000, resulting in total proceeds of $43,878,000, of which $39,593,000 was used to refund the variable rate Series 2013 A Bonds. Of the remaining proceeds, $3,489,000 was used to establish a debt service reserve fund for the Series 2016 A Bonds, and $796,000 was used to pay certain costs to issue the Series 2016 A Bonds. Interest on the Series 2016 A Bonds is fixed at rates varying from 2.00% to 5.00% per annum. Principal will be repaid beginning in 2016 and annually thereafter until 2028. The issuance premium is being amortized over the life of the Series 2016 A Bonds using the effective-interest method. The Series 2016 A Bonds are secured by the revenues of the Obligated Group, a deed of trust dated October 1, 2013, and other amounts held in any fund or account established by the Indenture to the Series 2016 A Bonds.

The issuance premium is being amortized over the life of the Series 2017 A Bonds using the effective-interest method. The Series 2017 A Bonds are secured by the revenues of the Obligated Group, a deed of trust dated October 1, 2013, and other amounts held in any fund or account established by the Indenture to the Series 2017 A Bonds.

The Series 2025 A Bonds were issued in March 2025 in the principal amount of $42,000,000, with proceeds used to refund and retire the Series 2025 Notes, which were originally issued in January 2025 in the principal amount of $40,000,000 to finance a land acquisition. Interest on the Series 2025 Notes was payable monthly at a rate equal to the Daily SOFR Rate plus 1.75% and was fully repaid from the proceeds of the Series 2025A Bonds. The Series 2025 A Bonds bear interest at a variable rate and mature in 2055. Bond issuance costs of $580,184 were incurred in connection with the issuance of the Series 2025A Bonds and are being amortized over the life of the bonds using the effective-interest method. The Series 2025 A Bonds are secured by the revenues of the Obligated Group in accordance with the applicable master trust indenture and related bond documents.

Series 2015 Bonds, Series 2016 Bonds, Series 2017 Bonds, and Series 2025 Bonds are governed by a Master Indenture dated October 2013 that contains certain covenants which require the Obligated Group to maintain, among other things, certain financial ratios.

In January 2015, NBHG entered into a Master Lease Agreement with Macquarie Equipment Finance, Inc., to acquire various computer and medical equipment. Schedules 1 and 2 to the Master Lease Agreement were accepted in September 2015 and July 2016, respectively, in the amounts of $673,000 and $935,000, respectively. The lease term for Schedule 1 is five years and the lease term for Schedule 2 is three years. The Master Lease Agreement was subsequently assigned to Huntington Technology Finance, Inc.

NOTE 5 LONG-TERM OBLIGATIONS, NET (CONTINUED)

In January 2020, NBHA ASC LLC purchased the ASC from the real estate developer for $16,250,000. The transaction consisted of $4,875,000 in cash and a note payable to Siemens Financing in the amount of $11,375,000. The note is interest only, at 3.97%, through December 2025, with principal and interest payments commencing in January 2026 based on a 10-year amortization. The note has a maturity date of January 3, 2030.

NBHC maintains a margin borrowing arrangement with Fidelity that allows it to borrow against certain investment securities held in its investment account to meet short-term cash needs while retaining ownership of the underlying investments. The System may borrow on margin up to a maximum amount of $100,262,000, subject to collateral requirements and market conditions. During the year, the System utilized this facility and borrowed up to $77,465,000 in aggregate principal, which bears interest at a variable rate. A portion of these borrowings was repaid during the year, and the outstanding margin loan balance was $56,518,000 at year end. The margin loan is secured by eligible investment securities and requires the maintenance of minimum collateral coverage levels. In addition, the borrowing provisions require that, in each fiscal year, there be at least one consecutive twenty-day period during which the balances of all short-term indebtedness, including the margin balance, do not exceed 5% of total net revenues, and management monitors compliance with this requirement.

In July 2021, NBHA LLC entered into a finance lease arrangement through a Term Note Agreement with BMO Harris N.A. in the amount of $41,625,000 to finance the development of a wellness center. A portion of the proceeds was used to pay the outstanding principal and interest balance of a 2019 financing obligation with Siemens Financing. Principal and interest were payable on the first of each month commencing September 1, 2021. The obligation bore interest at the Secured Overnight Financing Rate (SOFR) one-month index plus a spread of 1.96% and had a stated maturity date of July 30, 2031. In 2025, the System completed the sale of the wellness center and related assets to HealthCore Vacaville, LLC. As a result of this transaction, the finance lease obligation was fully satisfied and extinguished, and the related finance lease right-of-use asset and finance lease liability were derecognized. No amounts were outstanding under this finance lease obligation as of December 31, 2025. At December 31, 2024, the effective interest rate on the finance lease obligation was 5.97%.

In July 2021, NBHA LLC entered into an Interest Rate Swap Agreement with BMO Harris N.A. to manage exposure to changes in variable interest rates associated with the Term Note Agreement. The swap had a notional amount of $41,625,000 and a termination date of July 30, 2031. Under the terms of the agreement, NBHA LLC was obligated to make monthly fixed interest payments at a rate of 3.39% in exchange for receiving variable interest payments based on the one-month LIBOR-BBA rate. In connection with the sale of the wellness center in 2025 and the extinguishment of the related term debt, the Interest Rate Swap Agreement was terminated. The interest rate swap was not designated as a hedging instrument for accounting purposes. The fair value of the interest rate swap was $0 as of December 31, 2025. At December 31, 2024, the fair value of the interest rate swap was an asset of $5,233,000.

NOTE 7 NET PATIENT SERVICE REVENUE

Patent service revenue is reported at the estimated amount to which the System believes it is entitled in exchange for patient care provided. These amounts are due from patients, third-party payors (including health insurers and government programs), and others and includes variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Revenue is recognized as the performance obligations are satisfied over time based on actual charges incurred in relation to total expected consideration. The System believes this method provides a faithful depiction of the transfer of services over the term of performance obligations based on the inputs needed to satisfy the obligations.

NOTE 7 NET PATIENT SERVICE REVENUE (CONTINUED)

Performance obligations are determined based on the nature of the services provided. The System measures the performance obligation from admission into the hospital, or the commencement of an outpatient service, to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge or completion of the outpatient services.

Patient accounts receivable represent unconditional rights to consideration for services provided and are recognized when the performance obligations are satisfied; accordingly, the System does not record contract assets.

Because all of its performance obligations relate to contracts with a duration of less than one year, the System is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to previously are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

The System determines the transaction price based on standard charges for goods and services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured patients in accordance with the System's policies, implicit price concessions provided to uninsured patients, and expected credit losses. The System determines its estimates of contractual adjustments and discounts based on contractual agreements, its discount policies, and historical experience. The System determines its estimate of implicit price concessions based on its historical collection experience or due to expected credit losses.

Agreements with third-party payors typically provide for payments at amounts less than established charges. A summary of the payment arrangements with major third-party payors follows:

Medicare – Certain inpatient acute care services are paid at prospectively determined rates per discharge based on clinical, diagnostic, and other factors. Certain services are paid based on cost-reimbursement methodologies subject to certain limits. Physician services are paid based upon established fee schedules. Outpatient services are paid using prospectively determined rates.

Medi-Cal – Reimbursements for Medi-Cal services are generally paid at prospectively determined rates per discharge, per occasion of service, or per covered member.

Other – Payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations provide for payment using prospectively determined rates per discharge, discounts from established charges, prospectively determined daily rates, or per covered member.

NOTE 7 NET PATIENT SERVICE REVENUE (CONTINUED)

Settlements with third-party payors for retroactive adjustments due to audits, reviews, or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor, and the System's historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known (that is, new information becomes available), or as years are settled or are no longer subject to such audits, reviews, and investigations. Adjustments arising from a change in the transaction price were not significant in 2025 and 2024.

Generally, patients who are covered by third-party payors are responsible for related deductibles and coinsurance, which vary in amount. The System also provides services to uninsured patients and the System's Financial Assistance Policy details the discounts available to uninsured patients. The System estimates the transaction price for patients with deductibles and coinsurance, and those who are uninsured based on historical experience, current market conditions, and expected credit losses.

Consistent with the System's mission, care is provided to patients regardless of their ability to pay. Therefore, it has provided implicit price concessions to uninsured patients and patients with other uninsured balances (e.g., copays and deductibles). The implicit price concessions included in estimating the transaction price represent the difference between amounts billed to patients and the expected realizable collectible amounts based on its collection history with those patients or due to expected credit losses.

Laws and regulations governing the Medicare and Medi-Cal programs are extremely complex and subject to interpretation. As a result, there is a reasonable possibility that recorded estimates could change by a material amount in the near term. Adjustments from finalization of prior-year cost reports from both Medicare and Medi-Cal resulted in increases in net patient service revenues of approximately $307,000 and $14,436,000 for the years ended December 31, 2025 and 2024, respectively. Medicare and Medi-Cal cost reports have been audited through December 31, 2021 and 2022, respectively.

The System believes that it is in compliance with all applicable laws and regulations and is not aware of any significant pending or threatened investigations involving allegations of potential wrongdoing. While no such significant regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medi-Cal programs.

The System participated in a single defined contribution plan (the Plan). The Plan is exempt from the Employee Retirement Income Security Act of 1974 (ERISA). The Plan provides, among other things, that the employer will contribute 2.00% to 7.50% of an employee's wages depending on the number of years of continuous employment. All full-time or part-time employees on their first day of employment are eligible for participation in the Plan. Employer contributions are included in the consolidated statements of operations and changes in net assets as part of employee benefits expense in the amount of $12,402,000 and $11,373,000 for the years ended December 31, 2025 and 2024, respectively.

NOTE 10 RELATED-PARTY TRANSACTIONS

WHA is a nonprofit, full-service healthcare plan sponsored by the System and one other healthcare organization. WHA serves 14 Northern California counties (Sacramento, El Dorado, Placer, Yolo, Colusa, Solano, Napa, Sonoma, Marin, San Francisco, San Mateo, Alameda, Humboldt, and Contra Costa). The System accounts for its capital contribution in WHA as an equity interest in WHA's net assets. At December 31, 2025 and 2024, the System's interest in WHA was $6,856,000 and $5,703,000, respectively, which is included in other assets on the consolidated balance sheets. For the years ended December 31, 2025 and 2024, the System recognized a gain of $1,153,000 and $1,397,000, respectively, as other income representing its share of WHA's income. NOTE 11 COMMITMENTS AND CONTINGENCIES

Contingencies

The healthcare industry is subject to numerous laws and regulations of federal, state, and local governments. Compliance with these laws and regulations can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of regulations by healthcare providers, which could result in the imposition of significant fines and penalties as well as significant repayment of previously billed and collected revenues for patient services. Management believes that the System is in substantial compliance with current laws and regulations.

The System regularly evaluates all active legal matters. Several labor lawsuits have been filed against the System. It is too early in the litigation to provide a reasonable estimate of the potential liability.

The System has available Letters of Credit as of December 31, 2025 and 2024, of $35,000,000 and $3,827,000, respectively, securing workers' compensation claims. No amounts were drawn against these Letters of Credit as of December 31, 2025 and 2024.

NOTE 12 LIQUIDITY AND AVAILABILITY

As of December 31, 2025 and 2024, the System has working capital of $167,509,000 and $106,745,000 and average days (based on normal expenditures) cash on hand of 148 and 140, respectively.

Financial assets available for general expenditure within one year of the consolidated balance sheet date consist of the following as of December 31 (in thousands):

	2025	2024
Cash and Cash Equivalents	$ 28,378	$ 18,941
Patient Accounts Receivable, Net	161,179	125,362
Total	$ 189,557	$ 144,303

The System has certain board-designated and donor-restricted assets whose use is limited which are available for general expenditure within one year in the normal course of operations. Accordingly, these assets have been included in the quantitative information above. The System has other assets whose use is limited for donor-restricted purposes, capital improvements, debt service, self-insurance liabilities, deferred compensation plans, and other employee benefit funds that are not included in the quantitative information above as those assets are not available for general expenditures within one year.

As part of the System's liquidity management plan, cash in excess of daily requirements is invested in money market funds. These funds generally invest in highly liquid U.S. government and agency obligations. As of December 31, 2025 and 2024 the System's money market fund balance was $10,926,000 and $19,897,000, respectively. This fund established by the board of directors may be drawn upon, if necessary, to meet unexpected liquidity needs.

Additionally, the System has the ability to borrow, from its investment account, on margin to meet short-term cash needs. In every fiscal year, there shall be at least a consecutive 20-day period when the balances of all short-term indebtedness, including the margin balance, shall not exceed 5% of total net revenues. The System's board of directors will establish a maximum margin borrowing limit. As of December 31, 2025 and 2024, the balance on the System's margin indebtedness was $56,518,000 and $8,456,000, respectively.

The System's margin borrowing arrangement is subject to market conditions, including fluctuations in the fair value of pledged investment securities, which could result in additional collateral requirements or margin calls. Management actively monitors investment values, borrowing levels, and liquidity sources to mitigate the risk of adverse market-driven liquidity impacts.

Management has concluded that no conditions raise substantial doubt about the System's ability to continue as a going concern for a reasonable period of time.

NOTE 13 SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the consolidated balance sheet date, but before the consolidated financial statements are issued. The System recognizes in the consolidated financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the consolidated balance sheet, including the estimates inherent in the process of preparing the consolidated financial statements. The System's consolidated financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the consolidated balance sheet, but arose after the consolidated balance sheet date and before the consolidated financial statements are issued.

Prior to December 31, 2025, the System entered into a non-binding Letter of Intent with Providence to acquire Providence Queen of the Valley Medical Center, a 198-bed acute-care hospital located in Napa, California. The proposed transaction contemplates the transfer of ownership of Queen of the Valley Medical Center and related assets to the System, subject to the execution of a definitive agreement, receipt of required regulatory approvals, and satisfaction of customary closing conditions. Management currently anticipates that the transaction, if completed, would close by the end of calendar year 2026. As of the date these consolidated financial statements were issued, a definitive agreement had not been executed, and the transaction had not closed. Accordingly, no assets or liabilities related to the proposed acquisition have been recognized in the accompanying consolidated financial statements. The System is evaluating the potential financial and operational impact of the proposed acquisition; however, the ultimate terms and accounting treatment of the transaction cannot be determined until a definitive agreement is executed and the transaction is consummated.

Report on Internal Control Over Financial Reporting (Continued)

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether NorthBay Healthcare Corporation and its Affiliates dba: NorthBay Health's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the consolidated financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Any certificate or other documents filed under law which relate to such action shall state that the action was taken by unanimous written consent of the board of directors of the Member without a meeting, and that these Bylaws authorize the Member to so act.

ARTICLE III

BOARD OF DIRECTORS

Section 3.1 **Powers**. The activities and affairs of the Corporation shall be conducted and all corporate powers shall be exercised by or under the direction of the Board, except as reserved to the Member by the California Corporations Code, the Corporation's Articles of Incorporation, or these Bylaws. The Board may delegate the management of the activities of the Corporation to any person or persons or committee however composed, provided that the activities and affairs of the Corporation shall be managed and all corporate powers shall be exercised under the ultimate direction of the Board.

Section 3.2 **Number and Composition of Directors**. The initial Board shall be comprised of four (4) to seven (7) directors (each, a "**Director**", and collectively, the "**Directors**") with the exact authorized number of Directors to be determined by the Board from time to time. The election of a certain number of Directors to the Board constitutes fixing the number of Directors for purposes of this Section. The Chief Executive Officer of the Member (the "**CEO**") shall serve as a Director ex officio. The remaining Directors shall be elected by the Board in accordance with these Bylaws, provided that at least two (2) of the Directors so elected, not counting the CEO, must be members of the board of directors of the Member and at least one (1) of the Directors so elected must be a physician who practices in the community served by the NorthBay Health System ("**Health System**").

Section 3.3 **Qualifications for Directors**. The required qualifications for each Director shall be:

(a) Commitment to the improvement and development of superior healthcare in the communities served by the Health System;

(b) Ability to be unbiased, open to changes that are necessary, and optimistic concerning the future;

(c) Adequate time to serve on the Board;

(d) Ability to analyze health issues, visualize possible outcomes and measure them against predetermined goals and objectives;

(e) Cooperation, consideration, and tolerance for the views of others;

(f) Willingness to undertake ongoing personal education about the changing health care system;

(g) Community visibility that has resulted from participation in community activities and dedicated involvement with community service;

(h) Willingness to attend at least one (1) Director seminar per year;

(i) Disclosure of potential conflicts of interest regarding the business and activities of the Corporation; and

(j) Consideration shall be given to any actual or potential conflicts of interest, as defined in the Corporation's Conflict of Interest Policy and Questionnaire, in connection with the selection of any individual to serve as a Director.

Section 3.4 Election. All Directors, other than any Director serving ex-officio, shall be elected by the Member.

Section 3.5 Term. Each Director elected in accordance with Section 3.4 above shall serve for a term of three (3) years commencing on the effective date of election and ending at the end of the third calendar year after the term commences, unless such Director sooner dies, resigns or is removed, and until such Director's successor is duly elected and qualified. Director terms shall be staggered so that the terms of approximately one third (1/3) of the Directors expire in each year.

(a) Any person who has served as an elected Director for three (3) consecutive terms (not including either an initial term of less than three (3) years necessary to initiate the classification of the elected Directors nor any partial term filling another's unfinished term created by vacancy) shall not be eligible for election to the Board until one (1) year has elapsed from the date on which the third consecutive term ended. At such time, the Director may be elected to the Board for only a single additional three (3) year term. In no event shall any individual cumulatively serve more than four (4) three (3) year terms as a Director.

(b) The term of office of any Director serving ex-officio shall be the duration of the individual's tenure in the role that entitles such individual to ex-officio service as a Director of the Corporation. Such term shall end immediately upon termination of the individual's tenure, without further action, and the individual succeeding to such role shall immediately become an ex-officio Director of the Corporation, without need of further action.

Section 3.6 Resignation. Any Director may resign at any time by giving written notice to the Chair or Secretary of the Corporation. Such resignation takes effect on the date of receipt or at any later time specified in the written notice. If a resignation is made effective at a later date, the pending vacancy may be filled in accordance with these Bylaws prior to the effective date, provided that the successor does not take office until the effective date. Unless otherwise provided in the notice, acceptance of the resignation shall not be necessary to make it effective.

Section 3.7 Removal. A Director may be removed from office, at any time, with or without cause by the vote of a majority of the Directors then in office, subject to the approval of the Member.

Section 3.8 Vacancies. A vacancy in the Board shall be deemed to exist in the case of the death, resignation, or removal of any Director, or if the authorized number of Directors is increased. The Board of Directors may declare vacant the office of any Director who has been convicted of a felony, declared of unsound mind by a court order, or found by final order or judgment of any court to have breached a duty under the California Corporations Code. In the event of any vacancy on the Board, the Member may appoint a replacement to serve for the

unexpired portion of the term of his or her predecessor in office and until a successor has been selected and qualified.

Section 3.9 **Restriction on Interested Persons as Directors**. No more than forty-nine percent (49%)of the individuals serving on the Board may be "interested persons." An interested person is (i) any person compensated by the Corporation for services rendered to it within the previous twelve (12) months, whether as a full-time or part-time employee, independent contractor, or otherwise, excluding any reasonable compensation paid to a Trustee for their services as such; and (ii) any brother, sister, ancestor, descendant, spouse, brother-in-law, sister-in-law, son-in-law, daughter-in-law, mother-in-law, or father-in-law of such person. However, any violation of this paragraph does not affect the validity or enforceability of transactions entered into by the Corporation.

Section 3.10 **Compensation and Expenses**. Directors shall not receive compensation for their service as Directors or on any committee. Any expenses reasonably incurred by Directors in connection with the performance of official duties shall be reimbursed. Subject to the provisions of these Bylaws, the Corporation's conflict of interest policy, and applicable law, the Board may contract with one or more Directors for services as an independent contractor.

ARTICLE IV

MEETINGS OF BOARD OF DIRECTORS.

Section 4.1 **Place of Meetings**. All meetings of the Board shall be held at the principal office of the Corporation or at such other place within the State of California as the Board may determine from time to time.

Section 4.2 **Annual Meeting**. The Board shall hold its annual meeting of the Board for the purpose of electing Officers and transacting such other business as may properly come before the Board, at such date and time as the Board shall determine.

Section 4.3 **Regular Meetings**. The Board shall hold regular meetings for purposes of managing the business and affairs of the Corporation with such frequency and at such dates and times as the Board shall determine; provided, however, in no event shall the Board meet less than quarterly.

Section 4.4 **Special Meetings**. Special meetings of the Board for any purpose may be called at any time by the Chair, Vice Chair, Secretary or any two (2) Directors.

Section 4.5 **Notice of Meetings**. Notice of any meeting of the Board must be given to all Directors at least forty-eight (48) hours in advance if given by notice delivered personally, by telephone, or by electronic transmission. Notice cannot be given by telephonic or electronic transmission if the Corporation is unable to deliver two (2) consecutive notices to a Director by that means, or if the inability to deliver the notice becomes known to the Secretary or other person responsible for giving such notice. In that case, notice must be provided at least four (4) days in advance by first class mail. In the event a Director has not provided consent to the electronic transmission of information from the Corporation, notice may not be given by electronic transmission.

Section 4.6 **Additional Notice Required**. Notice of any meeting of the Board may also be given in accordance with these Bylaws to the individual serving as the Chief of Staff of the Corporation when the Board determines that the individual's attendance at a meeting of the Board will be beneficial to the Corporation. Subject to the Board's continuing discretion, such individual shall be permitted to attend and participate in meetings of the Board; provided, however, that such individual shall have no vote in any matters coming before the Board and shall not be counted for purposes of establishing quorum.

Section 4.7 **Waiver of Notice**. A Director may waive notice of any meeting, either before or after the meeting, by signing a written waiver of notice, a consent to holding the meeting, or an approval of the minutes. The waiver of notice or consent need not specify the purpose of the meeting. All such waivers, consents, and approvals must be made a part of the minutes of the proceedings of the Board. Notice of a meeting need not be given to any Director who attends the meeting and does not protest the lack of notice, before or at the commencement of the meeting.

Section 4.8 **Meetings by Telecommunication**. Any Board meeting may be held by conference telephone, video screen communication, or other communications equipment. Participation in a meeting under this Section shall constitute presence in person at the meeting if both the following apply:

(a) Each Director participating in the meeting can communicate concurrently with all other Directors;

(b) Each Director is provided the means of participating in all matters before the Board, including the capacity to propose, or to interpose an objection to, a specific action to be taken by the corporation.

Section 4.9 **Quorum**. A majority of Directors in office shall constitute a quorum for the transaction of business.

Section 4.10 **Action by the Board**. Except as otherwise provided in these Bylaws, every act or decision done or made by a majority of the Directors present at a meeting duly held, at which a quorum is present, shall be regarded as the act of the Board. A meeting at which a quorum is initially present may continue to transact business, notwithstanding a withdrawal of Directors, if any action taken is approved by at least a majority of the required quorum. Each Director is entitled to one vote on any matter before the Board. Voting by proxy shall not be permitted.

Section 4.11 **Adjournment**. The majority of the Directors present, whether or not constituting a quorum, may adjourn any meeting to another time and place. Notice of the time and place of holding an adjourned meeting need not be given unless the meeting is adjourned for more than forty-eight (48) hours, in which case personal notice of the time and place shall be given before the time of the adjourned meeting to the Directors who were not present at the time of adjournment.

Section 4.12 **Action Without a Meeting**. An action required or permitted to be taken by the Board may be taken without a meeting if all of the Directors, individually or collectively, consent in writing to that action; provided, however, that the consent of any Director who (i) has a material financial interest in a transaction to which the Corporation is a party and who is an

"interested director" as defined in section 5233(a) of the California Corporations Code or (ii) is a "common director" as defined in Section 5234(b) of the California Corporations Code, is not required for approval of that transaction. Such action by written consent shall have the same force and effect as an unanimous vote of the Board. Such written consent or consents shall be filed with the Board's minutes.

ARTICLE V

COMMITTEES

Section 5.1 **Board Committees**. The Board, by resolution adopted by a majority of the Directors then in office, may designate one (1) or more committees that exercise Board authority (each, a "**Board Committee**"), each consisting of two (2) or more Directors, to serve at the pleasure of the Board. A Board Committee must be comprised of only Directors. Any Board Committee shall have the authority of the Board to the extent provided in the act of the Board creating that Board Committee, including as may be set forth in a charter adopted by the Board; provided, however, that no Board Committee shall have the power or authority to:

(a) Appoint any new officers of the Corporation;

(b) Fill vacancies on the Board or on any Board Committee, remove any Director, or declare vacant the seat of any Director;

(c) Fix the compensation of the Directors for serving on the Board or any committee;

(d) Amend or repeal the Corporation's Articles of Incorporation or these Bylaws or adopt new Bylaws;

(e) Amend or repeal any resolution of the Board;

(f) Create Board Committees or appoint Directors to a Board Committee;

(g) Expend corporate funds to support a nominee for Director;

(h) Approve any contract or transaction to which the Corporation is a party and in which one (1) or more Directors has a material financial interest or between the Corporation and one (1) or more of Directors or between the Corporation and any corporation or firm in which one (1) or more Directors has a material financial interest; or

(i) Approve any merger, reorganization, voluntary dissolution, or disposition of substantially all of the assets of the Corporation.

Section 5.2 **Advisory Committees**. The Board may create advisory committees, composed of any person(s) determined by the Board to be appropriate for membership thereon due to the special skills and knowledge possessed by such person(s) related to the Corporation's purposes, operations, or other activities or topics (each, an "**Advisory Committee**"). Advisory Committees shall have such responsibilities as may be assigned to them by the Board; provided,

however, that no Advisory Committee shall have or exercise Board authority and members of Advisory Committees (other than Board members and officers) shall not have fiduciary duties to the Corporation.

Section 5.3 **Standing Committees**. The Board shall establish standing committees to carry out specific governance and oversight responsibilities. Each standing committee shall operate in accordance with a written charter approved by the Board, which defines its duties and responsibilities; and approval or amendment of a committee charter by the Board confirms the scope of that standing committee's advisory role and does not, by itself, confer delegated authority under Section 5212 of the California Corporations Code. The Board may delegate authority to any standing committee, provided, however, that any such standing committee to which authority has been delegated shall be comprised solely of members who are voting Directors. The standing committees of the Board shall include the Executive Committee, Board Credentials Committee, Audit Committee and Nominating Committee.

Section 5.4 **Meetings and Actions of Committees**. Meetings and actions of Board Committees and Advisory Committees shall be governed by, held, and taken in accordance with the provisions of these Bylaws concerning meetings and other actions of the Board, except that the time for regular meetings of such committees and calling of special meetings of such committees may be determined either by resolution of the Board, or if there is none, by resolution of the committee. Minutes of each meeting of any Board Committee or Advisory Committee shall be kept and shall be filed with the minutes of the proceedings of the Board. Board Committees and Advisory Committees shall otherwise operate in accordance with their committee charters, as adopted, and as may be modified from time to time, by the Board.

ARTICLE VI

OFFICERS

Section 6.1 **Officers**. The Officers of this Corporation shall be a Chair, a Vice Chair, a President, a Treasurer and a Secretary, and such other officers as the Board may elect or appoint from time to time (each, an "**Officer**" and, collectively, the "**Officers**"). Any number of offices may be held by the same person, except that neither the Treasurer nor the Secretary may serve concurrently as the Chair or the President.

Section 6.2 **Election and Tenure**. The Officers shall be elected by a majority vote of the Directors at the annual meeting of the Board for terms of one (l) year or until their successors are elected and qualified.

Section 6.3 **Resignation**. Any Officer may resign at any time by giving written notice to the Chair or to the Secretary. The resignation of any Officer shall be effective upon delivery of notice, or at any later time specified in the notice. Section 6.4 **Removal**. Any Officer elected by the Board may be removed from office, with or without cause, by the Board.

Section 6.5 **Vacancies**. Any vacancies in any office because of death, resignation or removal, or any other cause, shall be filled by a Director who is elected by a majority vote of the Directors, and such Director shall complete the unexpired term of office of the vacating Director or continue until a qualified successor is elected.

Section 6.6 **Chair**. The Chair of the Corporation shall preside at all meetings of the Board. Except as otherwise specified, the Chair (or his or her designee) shall serve *ex officio* as a member of all committees. The Chair may sign on behalf of the Corporation any documents or instruments which the Board has authorized to be executed, except where the signing and execution thereof is expressly delegated by the Board or these Bylaws to some other Officer or Agent. The Chair shall recommend candidates to the Board for membership on Committees. The Chair shall have such other powers and duties as may be prescribed by the Board or these Bylaws.

Section 6.7 **Vice Chair**. In the absence or disability of the Chair, the Vice Chair shall perform all the duties of the Chair, and when so acting shall have all the powers of, and be subject to all the restrictions upon, the Chair. In the event that the Vice Chair is not available to so act, the Chair shall designate another Director to act as Chair in his or her absence. The Vice Chair shall have such other powers and perform such other duties from time to time as may be prescribed by the Board or the Chair.

The President shall serve as the chief executive officer of the Corporation and shall, subject to the direction of the Board, have authority to direct and control the business and affairs of the Corporation. The President shall provide support staff to the Board and Committees as is necessary or requested. The President shall act as a duly authorized representative of the Board in all matters except those in which the Board has formally designated another person or group to act, and may sign documents on behalf of the Corporation. The President shall have such other powers and perform such other duties from time to time as may be prescribed by the Board.

Section 6.9 **Secretary**. The Secretary shall keep or cause to be kept, at the principal office of the Corporation, a book of minutes of all meetings and actions of Directors and committees. ARTICLE VII

MEDICAL STAFF

Section 7.1 **Organization**The Board shall cause to be created an organized medical staff, to be known as the "**Medical Staff**", for its acute care hospital operations including related healthcare services. The Medical Staff shall be a distinct part of the Corporation and its membership shall be comprised solely of those physicians, dentists, podiatrists, and others who are privileged to attend patients at the general acute care hospital and related healthcare facilities operated by the Corporation ("**Hospital**"). Medical Staff membership shall be a prerequisite to the exercise of clinical privileges at the Hospital. Notwithstanding anything herein, the Medical Staff shall have no authority or power whatsoever with respect to (i) individuals who are not members of the Medical Staff or (ii) activities conducted by the Corporation which are not solely related to licensure of the Hospital.

Section 7.2 **Medical Staff Bylaws, Rules and Regulations**.

(a) The Medical Staff shall propose, vote on and adopt bylaws, rules and regulations for its internal governance which will be effective only when approved by the Board. These Bylaws, rules and regulations shall create an administrative unit to discharge the functions and responsibilities assigned to the Medical Staff by the Board, and such bylaws, rules, and regulations shall be consistent with applicable licensing and accreditation standards and recommendations, applicable law, applicable facility policy and the Articles of Incorporation and Bylaws of the Corporation. The Medical Staff bylaws, rules and regulations shall be subject to the provision herein and shall state the purposes, functions and organization of the Medical Staff, and shall be subject to the provisions herein and shall set forth the policies by which the Medical Staff exercises and accounts for its functions and responsibilities.

(b) The Board and the Medical Staff shall work in good faith to adopt Medical Staff bylaws that meet accreditation standards and applicable law in a manner that is mutually acceptable. In the event that (i) the Medical Staff does not forward recommendations to the Board in a timely manner for Medical Staff bylaws and rules and regulations and amendments thereto for purposes of complying with (A) accreditation standards, (B) licensing citations and/or statements of deficiencies, and (C) decisional law and/or court rulings and orders directly affecting the Hospital, or (ii) if, in the written opinion of recognized expert legal counsel for both the Hospital and the Medical Staff, amendments are necessary to avoid or correct violations of state and/or federal statutes or regulations or formal policy statements of implementing agencies, the Board may, on its own initiative, modify or amend the Medical Staff bylaws and rules and regulations for purposes of achieving such compliance, provided, however, that no such action by the Board shall be taken until at least ninety (90) days advance notice of such possible action has been given in writing to the Medical Executive Committee (as defined below) with an opportunity for a special joint meeting between the Board and the Medical Executive Committee to discuss the issues not less than forty-five (45) days before any proposed final action by the Board. At least fifteen (15) days before any proposed special joint meeting, Board-proposed modification or amendment language and supportive documentation (e.g. letters of counsel and/or regulating agencies, copies of citations, case decisions and/or court orders) shall be provided to the Medical Executive Committee in order that the Medical Executive Committee may seek review by legal counsel.

(c) The Medical Staff shall establish controls that are designed to ensure the achievement and maintenance of high standards of professional ethical practices, including a provision that all members of the Medical Staff be required to demonstrate their ability to perform surgical and other procedures competently and to the satisfaction of an appropriate committee or committees of the Medical Staff. Such demonstrations shall be made at the time of original application for appointment to the Medical Staff, upon change in medical staff status (e.g. courtesy staff or provisional staff to active staff) and, at least, every two (2) years thereafter.

Section 7.3 Medical Staff Executive Committee. There shall be a medical executive committee (the "**Medical Executive Committee**") that shall be empowered to act for the Medical Staff in the intervals between meetings of the Medical Staff. Subject to the foregoing, the Medical Executive Committee shall have responsibility for the effectiveness of all medical activities of the Medical Staff, and shall act for the Medical Staff at the Hospital. The Medical Executive Committee shall be a mechanism for providing a clearly defined formal relationship between the Medical Staff and the Corporation. The members of the Medical Executive Committee shall be selected as described in the Medical Staff bylaws.

Section 7.4 Medical Staff Membership and Clinical Privileges.

(a) The Board shall delegate to the Medical Staff the responsibility and authority to investigate and evaluate all matters relating to Medical Staff membership status, clinical privileges and corrective action, and shall require that the Medical Staff make recommendations to the Board thereon. Final action on all such matters shall be taken by the Board, or by the Board Credentials Committee, if any, after considering the Medical Staff recommendations forwarded to it pursuant to this Section, provided that the Board shall act in any event if the Medical Staff does not adopt and submit any such recommendations within the time periods required by the Medical Staff bylaws. Such Board action without a Medical Staff recommendation shall be based on the same kind of documented investigation and evaluation of current ability, judgment and character as is required for Medical Staff recommendations. With respect to corrective action, in those instances in which the Medical Staffs failure to investigate, or initiate corrective action is contrary to the weight of the evidence, after consultation with the Medical Staff, the Board may direct the Medical Staff to initiate an investigation or corrective action. In the event the Medical Staff fails to take action in response to such a directive, after written notice to the Medical Staff, the Board may initiate an investigation or corrective action subject to the hearing and appellate rights provisions of the Medical Staff bylaws.

(b) The Medical Staff bylaws shall require the Medical Staff to adopt and forward to the Board specific written recommendations on all matters of Medical Staff membership status, clinical privileges, and professional corrective action. Such recommendations shall contain sufficient support and documentation so that the Board will be able to take informed action.

(c) In acting on matters of Medical Staff membership status, the Board shall consider the Medical Staffs recommendations, the needs of the Corporation and the community, and such other criteria as are set forth in the Medical Staff bylaws. In granting and defining the scope of clinical privileges to be exercised by each practitioner, the Board shall consider the Medical Staffs recommendations, the supporting information on which they are based, and such

criteria as are set forth in the Medical Staff bylaws. No aspect of membership status or specific clinical privileges shall be limited or denied to a practitioner on the basis of sex, race, creed, color or national origin, or on the basis of any other criterion unrelated to good patient care at the facility. The Board's decision shall be based on professional ability and judgment, community needs, and other relevant factors.

(d) The terms and conditions of Medical Staff membership status and of the exercise of clinical privileges shall be specified in the Medical Staff bylaws.

(e) The procedures to be followed by the Medical Staff and the Board in acting on matters of Medical Staff membership status, clinical privileges and corrective action shall be specified in the Medical Staff bylaws.

Section 7.5 Hearing and Appellate Rights. As mandated by applicable state law, the Board shall require that any action taken by the Medical Executive Committee or by the Board, the effect of which is to adversely affect a practitioner as described in the Medical Staff bylaws, be accomplished in accordance with a Board-approved fair hearing plan then in effect. The fair hearing plan must be set forth in the Medical Staff bylaws; such plans shall provide for procedures to assure fair treatment and afford an opportunity for the presentation of all pertinent information.

Section 7.6 Allied Health Professionals. As required by applicable law, licensing or accreditation standards, the Board shall delegate to the Medical Staff, in conjunction with the President of the Corporation (or designee), the responsibility and authority to investigate and evaluate each application by an allied health professional for practice privileges with respect to patients at the Hospital. Final action on all matters relating to the performance of specified patient care services in such Hospital by allied health professionals shall be taken by the Medical Executive Committee of the Medical Staff in conjunction with the President (or designee), provided that the Board shall act in any event if the Medical Executive Committee does not act within the time periods required by the Medical Staff bylaws and the applicable Hospital personnel policies.

Section 7.7 Relationship between Contracts for Medical Services and Medical Staff Membership. The rights and obligations of a physician who has contracted to provide medical services to the Corporation shall be separate from and independent of their rights and obligations as a member of the Medical Staff. In no event shall the termination of such a contract give any such physician the same rights of hearing and appeal as are available to members of the Medical Staff unless such termination also expressly includes a termination, restriction or suspension of such physician's clinical privileges and/or Medical Staff membership for medical cause or reason at the Hospital, in which case the issues on appeal shall be limited to the termination, restriction or suspension of clinical privileges and/or membership.

Section 7.8 President, Attendance at Medical Staff Meetings. The President of the Corporation or any other person designated by the Board shall be allowed to attend all meetings of the Medical Staff on behalf of the Corporation and shall be given advance notice of all such meetings.

ARTICLE VIII

NON-HOSPITAL CLINICAL OPERATIONS

Section 8.1 **Definition**. The ambulatory division of the Corporation shall be referred to as the Corporation's "**Non-Hospital Clinical Operations**".

Section 8.2 **Delegated Clinical Governance**. The Board may delegate oversight of credentialing, peer review, and quality functions for Non-Hospital Clinical Operations to duly constituted committees or governing bodies established pursuant to these Bylaws, provided the Board retains ultimate oversight authority and receives regular reports sufficient to discharge its fiduciary and regulatory responsibilities related thereto.

ARTICLE IX

QUALITY IMPROVEMENT

Section 9.1 **Board Responsibility**. In conjunction with establishing a Medical Staff, and oversight of Non-Hospital Clinical Operations, the Board shall also establish, maintain, support and exercise oversight over an ongoing quality improvement program that includes specific and effective review, evaluation and monitoring mechanisms to assess, preserve and improve the overall quality and efficiency of patient care in the general acute care Hospital and all Non-Hospital Clinical Operations entities operated by the Corporation.

Section 9.2 **Delegation to Administration.** The Board delegates to the administration of the Hospital and the Non-Hospital Clinical Operations, and holds such Hospital and Non-Hospital Clinical Operations accountable for:

(a) Providing the administrative assistance reasonably necessary to support and facilitate the implementation and ongoing operation of the Hospital's or Non-Hospital Clinical Operations' quality improvement program;

(b) Implementing the quality improvement program as it concerns non-medical professional personnel, technical staffs and patient care units; and

(c) Analyzing information and acting upon problems involving technical, administrative and support services and Hospital or Non-Hospital Clinical Operations policy.

Section 9.3 **Delegation to the Medical Staff or Non-Hospital Clinical Operations Committees**. The Board delegates to the Medical Staff and the Non-Hospital Clinical Operations Committees, if any, the authority, for which the Medical Staff and the Non-Hospital Clinical Operations Committee shall be held accountable, to conduct those specific activities which contribute to the preservation and improvement of the quality and efficiency of patient care provided at each Hospital and the Non-Hospital Clinical Operations, respectively. These activities include:

(a) Systematic evaluation of practitioner performance against explicit, predetermined criteria;

(b) Ongoing monitoring of critical aspects of care, including where applicable, antibiotic and drug usage, transfusion practices, tissue, infections, mortalities, and the monitoring of unexpected clinical occurrences;

(c) Review of the utilization of each facility's resources, and the proper and timely allocation of such resources to patients in need of them;

(d) Provision of continuing professional education, fashioned in part on the needs identified through Medical Staff or Non-Hospital Clinical Operations Committees' review, evaluation, and monitoring activities, as well as on any new, state-of-the-art developments;

(e) Definition of clinical privileges for Medical Staff and professional qualifications for professional staff which may be appropriately granted within the facilities and within each department or service; delineation of clinical privileges for members of the Medical Staff or professional staff commensurate with individual credentials and demonstrated ability and judgment; and participation in assigning patient care responsibilities to other health care professionals consistent with individual qualifications and demonstrated ability;

(f) Management of clinical affairs, including enforcement of clinical policies and consultation requirements, initiation of disciplinary actions, surveillance over requirements for performance monitoring and for the exercise of newly-acquired clinical privileges, and other clinically-oriented activities; and

(g) Such other measures as the Board may deem necessary for the preservation and improvement of the quality and efficiency of patient care at each Hospital and Non-Hospital Clinical Operations.

Section 9.4 Documentation and Oversight. The Medical Staff and Non-Hospital Clinical Operations Committees, if any, shall document and provide recommendations to the Board with respect to their duties, obligations and actions under these Bylaws, so that the Board may consider and act upon the findings and recommendations of the Medical Staff and Non-Hospital Clinical Operations Committees. All such findings and recommendations shall be in writing, signed by the persons responsible for conducting the activities, and supported and accompanied by appropriate documentation and rationale upon which the Board can take informed action.

ARTICLE X

INDEMNIFICATION

Section 10.1 Definitions. For the purposes of this Article, "**Eligible Indemnitee**" means: (i) any person who is or was a Director, Officer, or employee of the Corporation; (ii) any person or entity acting as an agent of the Corporation that the Board has authorized to be eligible for indemnification (a "**Board-designated Agent**"); (iii) any person who is or was serving at the request of the Corporation as a director, officer, employee or Board-designated Agent of another foreign or domestic corporation, partnership, joint venture, trust or other enterprise; or (iv) any person who was a director, officer, employee or Board-designated Agent of a foreign or domestic corporation which was a predecessor corporation of the Corporation or of another enterprise at the

request of such predecessor corporation; "**Proceeding**" means any threatened, pending or completed action or proceeding, whether civil, criminal, administrative or investigative; and "**Expenses**" includes, without limitation, attorneys' fees and any expenses of establishing a right to indemnification under this Article.

Section 10.2 Indemnification in Actions by Third Parties. The Corporation shall, to the maximum extent of the law, indemnify any person who was or is a party or is threatened to be made a party to any Proceeding (other than an action by or in the right of the Corporation to procure a judgment in its favor, an action brought under Section 5233 of the California Corporations Code, or an action brought by the Attorney General or a person granted relator status by the Attorney General for any breach of duty relating to assets held in charitable trust), by reason of the fact that such person is or was an Eligible Indemnitee of the Corporation, against Expenses, judgments, fines, settlements and other amounts actually and reasonably incurred by such person in connection with such Proceeding if such person acted in good faith and in a manner such person reasonably believed to be in the best interests of the Corporation and, in the case of a criminal Proceeding, had no reasonable cause to believe the conduct of such person was unlawful. The termination of any Proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in the best interests of the Corporation or that the person had reasonable cause to believe that the person's conduct was unlawful.

Section 10.3 Right to Indemnification. The Corporation shall, to the maximum extent of the law, indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action by or in the right of the Corporation, or brought under Section 5233 of the California Corporations Code, or brought by the Attorney General or a person granted relator status by the Attorney General for any breach of duty relating to assets held in charitable trust, to procure a judgment in the Corporation's favor by reason of the fact that such person is or was an Eligible Indemnitee of the Corporation, against Expenses actually and reasonably incurred by such person in connection with the defense or settlement of such action if such person acted in good faith, in a manner such person believed to be in the best interests of the Corporation, and with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances. No indemnification shall be made under this Section:

(a) In respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the Corporation in the performance of such person's duty to the Corporation, unless and only to the extent that the court in which such Proceeding is or was pending shall determine upon application that, in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for the Expenses which such court shall determine;

(b) Of amounts paid in settling or otherwise disposing of a threatened or pending action, with or without court approval; or

(c) Of Expenses incurred in defending a threatened or pending action which is settled or otherwise disposed of without court approval, unless it is settled with the approval of the Attorney General.

Section 10.4 Indemnification Against Expenses. To the extent that an Eligible Indemnitee of the Corporation has been successful on the merits in defense of any Proceeding referred to in this Article or in defense of any claim, issue or matter therein, the Eligible Indemnitee shall be indemnified against Expenses actually and reasonably incurred by the Eligible Indemnitee in connection therewith.

Section 10.5 Required Determination. Except as provided in this Article, any indemnification under this Article shall be made by the Corporation only if authorized in the specific case, upon a determination that indemnification of the Eligible Indemnitee is proper in the circumstances because the Eligible Indemnitee has met the applicable standard of conduct set forth in this Article, by:

(a) A majority vote of a quorum of the Board, consisting of Directors who are not parties to such Proceeding, and approval of the same by the Member; or

(b) The court in which such Proceeding is or was pending upon application made by the Corporation or the Eligible Indemnitee or the attorney or other person rendering services in connection with the defense, whether or not such application by the Eligible Indemnitee, attorney or other person is opposed by the Corporation.

Section 10.6 Advance of Expenses. Expenses incurred by a person seeking indemnification under this Article in defending any Proceeding covered by this Article may be advanced by the Corporation prior to the final disposition of such Proceeding upon receipt of an undertaking by or on behalf of the Eligible Indemnitee to repay such amount unless it shall be determined ultimately that the Eligible Indemnitee is entitled to be indemnified as authorized in this Article.

Section 10.7 Other Indemnification. No provision made by the Corporation to indemnify its Directors or Officers or its subsidiary's directors or officers for the defense of any Proceeding, whether contained in the Corporation's Articles of Incorporation, these Bylaws, a resolution of Directors, an agreement or otherwise, shall be valid unless consistent with this Article. Nothing contained in this Article shall affect any right to indemnification to which persons other than such Directors and Officers may be entitled by contract or otherwise.

Section 10.8 Forms of Indemnification Not Permitted. Except as provided in this Article, no indemnification or advance shall be made in any circumstances where it appears:

(a) That it would be inconsistent with a provision of the Corporation's Articles of Incorporation, these Bylaws or an agreement in effect at the time of the accrual of the alleged cause of action asserted in the Proceeding in which the Expenses were incurred or other amounts were paid which prohibits or otherwise limits indemnification; or

(b) That it would be inconsistent with any condition expressly imposed by a court in approving a settlement.

Section 10.9 Insurance. The Corporation shall have the power to purchase and maintain insurance on behalf of any Eligible Indemnitee of the Corporation against any liability asserted against or incurred by the Eligible Indemnitee in such capacity or arising out of the Eligible

Indemnitee's status as such whether or not the Corporation would have the power to indemnify the Eligible Indemnitee against such liability under the provisions of this Article, provided, however, that the Corporation shall have no power to purchase and maintain such insurance to indemnify any Eligible Indemnitee of the Corporation for a violation of Section 5233 of the California Corporations Code.

ARTICLE XI

GENERAL PROVISIONS

Section 11.1 Fiscal Year. The last day of the Corporation's fiscal year shall be December 31.

Section 11.2 Loans Prohibited. (b) The principal changes in assets and liabilities, including trust funds, during the fiscal year;

(c) The revenue or receipts of the Corporation, both unrestricted and restricted to particular purposes, for the fiscal year;

(d) The expenses or disbursements of the Corporation, for both general and restricted purposes, during the fiscal year;

(e) Any information required by Section 6322 of the California Corporations Code;

(f) Any transaction during the previous fiscal year involving more than $50,000 in which the Corporation (or its parent or subsidiaries, if any) was a party and in which any Director or Officer of the Corporation has a direct or indirect financial interest, or any of a number of such transaction in which the same person had a direct or indirect financial interest and which transactions in the aggregate involved more than $50,000; and

(g) The amount and circumstances of any indemnifications or advances aggregating more than $10,000 paid during the fiscal year to any Director or Officer of the Corporation pursuant to these Bylaws, unless such indemnification has already been approved as provided herein.

For each transaction, the report must disclose the names of the interested persons involved in such transaction and state such person's relationship to the Corporation, the nature of such person's interest in the transaction and, where practicable, the value of such interest. The report shall be accompanied by a report of independent accountants or, if there is no such report, by the certificate of an authorized officer of the Corporation that such financial statements were prepared without an audit from the books and records of the Corporation.

Section 11.6 Financial Audit. The Corporation shall obtain a financial audit for any tax year in which it receives or accrues gross revenue of $2 million or more, excluding grant or contract income from any governmental entity for which the entity requires an accounting. Any audited financial statements obtained by the Corporation, whether or not required by law, shall be made available for inspection by the Attorney General and by the general public within nine (9) months after the close of the fiscal year to which the statements relate. For three (3) years, such statements shall be available at the Corporation's offices during regular business hours and shall be made available either by mailing a copy to any person who so requests in person or in writing, or by posting them on the Corporation's website.

Section 11.7 Corporate Seal. The Board may provide a suitable seal for the Corporation.

Section 11.8 Construction and Definitions. Without limiting the generality of the above, the masculine gender includes the feminine and the neuter, the singular numbers include the plural, the plural numbers include the singular, and the term "person" includes both corporations and natural persons. The captions or headings in these Bylaws are for convenience only and are not intended to limit or define the scope or effect of any provision of these Bylaws.

Section 11.9 Electronic Transmission. Subject to any guidelines and procedures that the Board may adopt from time to time, the terms "written" and "in writing" as used in these Bylaws include any form of recorded message in the English language capable of comprehension by ordinary visual means and may include electronic transmissions, such as facsimile or email, provided, for electronic transmissions from the Corporation, the Corporation has obtained an

unrevoked written consent from the recipient to the use of such means of communication; for electronic transmission to the Corporation, the Corporation has in effect reasonable measures to verify that the sender is the individual purporting to have sent such transmissions; and the transmission creates a record that can be retained, retrieved, reviewed, and rendered into clearly legible tangible form.

Section 1.1 **Name of Corporation**. The name of the Corporation is NorthBay Healthcare Corporation (the "**Corporation**").

Section 1.2 **Office**. The principal office for the transaction of the business of the Corporation shall be located in Solano County, California. The Corporation may have such other offices as the Board of Directors of the Corporation (the "**Board**") may determine from time to time.

Section 1.3 **Purpose**. The purpose for which the Corporation is formed shall be as set forth in the Corporation's Articles of Incorporation, as amended from time to time, and shall include improving the well-being of our communities by providing conveniently accessible high-quality care through the Corporation's support of the multi-entity health care delivery system (the "**Health System**").

ARTICLE II

MEMBERSHIP

The Corporation shall have no members within the meaning of Section 5056 of the California Corporations Code.

ARTICLE III

BOARD OF DIRECTORS

Section 3.1 **Powers**. The activities and affairs of the Corporation, including the rights of the Corporation as member of any affiliated organization, shall be conducted and all corporate powers shall be exercised by or under the direction of the Board. The Board may delegate the management of the activities of the Corporation to any person or persons or committee however composed, which may include development and execution of plans, programs, and operational processes within the parameters approved by the Board, subject to regular reporting to the Board.

Section 3.2 **Governance Authority Matrix**. The Board may adopt, and amend from time to time, a governance authority matrix, which is intended to illustrate and provide additional detail regarding the decision-making set forth in these Bylaws with respect to the Corporation and the Health System as a whole.

Section 3.3 **Number and Composition**. The Board shall be comprised of not less than six (6) nor more than twelve (12) directors (each, a "**Director**", and collectively, the

Docusign Envelope ID: 1DE663D0-F485-8379-8372-CDB40194AA6E

"**Directors**") with the exact authorized number of Directors to be determined by the Board from time to time. The election of a certain number of Directors to the Board constitutes fixing the number of Directors for purposes of this Section. The President and Chief Executive Officer of the Corporation (the "**President & CEO**") shall serve as a Director ex officio. The remaining Directors shall be elected by the Board in accordance with these Bylaws. In selecting Directors, the Board shall seek to include individuals with clinical experience, including current or former physicians or other licensed clinicians, to ensure informed oversight of quality, safety, and patient care. No more than two (2) Directors may be physicians.

Section 3.4 **Qualifications for Directors**. The required qualifications or each Director shall be set forth in a separate document as adopted, and as may be amended, by the Board from time to time.

Section 3.5 **Election**. All Directors, other than any Director serving ex-officio, shall be elected by the Board.

Section 3.6 **Term**.

(a) Each Director elected in accordance with Section 3.4 above shall serve for a term of three (3) years commencing on the effective date of election and ending at the end of the third calendar year after the term commences, unless such Director sooner dies, resigns or is removed, and until such Director's successor is duly elected and qualified; provided, however, that a Director may be elected to a shorter term for purposes of staggering the Board.

(b) The term of office of any Director serving ex-officio shall be the duration of the individual's tenure in the role that entitles such individual to ex-officio service as a Director of the Corporation. Such term shall end immediately upon termination of the individual's tenure, without further action, and the individual succeeding to such role shall immediately become an ex-officio Director of the Corporation, without need of further action.

Section 3.7 **Resignation**. Any Director may resign at any time by giving written notice to the Chair or Secretary of the Corporation. Such resignation takes effect on the date of receipt or at any later time specified in the written notice. If a resignation is made effective at a later date, the pending vacancy may be filled in accordance with these Bylaws prior to the effective date, provided that the successor does not take office until the effective date. Unless otherwise provided in the notice, acceptance of the resignation shall not be necessary to make it effective.

Section 3.8 **Removal**. A Director may be removed from office, with or without cause, at any regular or special meeting of the Board by the vote of a majority of the Directors then in office, provided the notice for such meeting indicates that the purpose or one of the purposes is to vote on the removal of one or more Directors.

Section 3.9 **Vacancies**. A vacancy in the Board shall be deemed to exist in the case of the death, resignation, or removal of any Director, or if the authorized number of Directors is increased. The Board of Directors may declare vacant the office of any Director who has been convicted of a felony, declared of unsound mind by a court order, or found by final order or judgment of any court to have breached a duty under the California Corporations Code. In the

Docusign Envelope ID: 1DE663D0-F485-8379-8372-CDB40194AA6E

event of any vacancy on the Board, the Board may appoint a replacement to serve for the unexpired portion of the term of his or her predecessor in office and until a successor has been selected and qualified.

Section 3.10 Restriction on Interested Persons as Directors. No more than forty-nine percent (49%)of the individuals serving on the Board may be "interested persons." An interested person is (i) any person compensated by the Corporation for services rendered to it within the previous twelve (12) months, whether as a full-time or part-time employee, independent contractor, or otherwise, excluding any reasonable compensation paid to a Trustee for their services as such; and (ii) any brother, sister, ancestor, descendant, spouse, brother-in-law, sister-in-law, son-in-law, daughter-in-law, mother-in-law, or father-in-law of such person. However, any violation of this paragraph does not affect the validity or enforceability of transactions entered into by the Corporation.

Section 3.11 Compensation and Expenses. Directors shall not receive compensation for their service as Directors or on any committee. Any expenses reasonably incurred by Directors in connection with the performance of official duties shall be reimbursed. Subject to the provisions of, these Bylaws, any conflict of interest policy of the Corporation in place from time to time, and applicable law, the Board may contract with one or more Directors for services as an independent contractor.

ARTICLE IV

MEETINGS OF BOARD OF DIRECTORS.

Section 4.1 Place of Meetings. All meetings of the Board are held at the principal office of the Corporation or at such other place within the state of California as determined from time to time by the Board.

Section 4.2 Annual Meeting. The Board shall hold an annual meeting of the Board for the purpose of electing Officers and transacting such other business as may properly come before the Board, at such date and time as the Board shall determine.

Section 4.3 Regular Meetings. The Board shall hold regular meetings for purposes of managing the business and affairs of the Corporation with such frequency and at such dates and times as the Board shall determine; provided, however, in no event shall the Board meet less than quarterly.

Section 4.4 Special Meetings. Special meetings of the Board for any purpose may be called at any time by the Chair, Vice Chair, Secretary or any two (2) Directors.

Section 4.5 Notice of Meetings. Notice of any meeting of the Board must be given to all Directors at least forty-eight (48) hours in advance if given by notice delivered personally, by telephone, or by electronic transmission. Notice cannot be given by telephonic or electronic transmission if the Corporation is unable to deliver two (2) consecutive notices to a Director by that means, or if the inability to deliver the notice becomes known to the Secretary or other person responsible for giving such notice. In that case, notice must be provided at least four (4) days in advance by first class mail. In the event a Director has not provided consent to the

Docusign Envelope ID: 1DE663D0-F485-8379-8372-CDB40194AA6E

electronic transmission of information from the Corporation, notice may not be given by electronic transmission.

Section 4.6 Waiver of Notice. A Director may waive notice of any meeting, either before or after the meeting, by signing a written waiver of notice, a consent to holding the meeting, or an approval of the minutes. The waiver of notice or consent need not specify the purpose of the meeting. All such waivers, consents, and approvals must be made a part of the minutes of the proceedings of the Board. Notice of a meeting need not be given to any Director who attends the meeting and does not protest the lack of notice, before or at the commencement of the meeting.

Section 4.7 Meetings by Telecommunication. Any Board meeting may be held by conference telephone, video screen communication, or other communications equipment. Participation in a meeting under this Section shall constitute presence in person at the meeting if both the following apply:

(a) Each Director participating in the meeting can communicate concurrently with all other Directors;

(b) Each Director is provided the means of participating in all matters before the Board, including the capacity to propose, or to interpose an objection to, a specific action to be taken by the corporation.

Section 4.8 Quorum. A majority of the Directors in office shall constitute a quorum for the transaction of business.

Section 4.9 Action by the Board. Except as otherwise provided in these Bylaws, every act or decision done or made by a majority of the Directors present at a meeting duly held, at which a quorum is present, shall be regarded as the act of the Board. A meeting at which a quorum is initially present may continue to transact business, notwithstanding a withdrawal of Directors, if any action taken is approved by at least a majority of the required quorum. Each Director is entitled to one vote on any matter before the Board. Voting by proxy is not permitted.

Section 4.10 Adjournment. The majority of the Directors present, whether or not constituting a quorum, may adjourn any meeting to another time and place. Notice of the time and place of holding an adjourned meeting need not be given unless the meeting is adjourned for more than forty-eight (48) hours, in which case personal notice of the time and place shall be given before the time of the adjourned meeting to the Directors who were not present at the time of adjournment.

Section 4.11 Action Without a Meeting. An action required or permitted to be taken by the Board may be taken without a meeting if all Directors, individually or collectively, consent in writing to that action; provided, however, that the consent of any Director who (i) has a material financial interest in a transaction to which the Corporation is a party and who is an "interested director" as defined in section 5233(a) of the California Corporations Code or (ii) is a "common director" as defined in Section 5234(b) of the California Corporations Code, is not required for approval of that transaction. Such action by written consent shall have the same

Docusign Envelope ID: 1DE663D0-F485-8379-8372-CDB40194AA6E

force and effect as an unanimous vote of the Board. Such written consent or consents shall be filed with the Board's minutes.

ARTICLE V

COMMITTEES

Section 5.1 **Board Committees**. The Board, by resolution adopted by a majority of the Directors then in office, may designate one (1) or more committees that exercise Board authority (each, a "**Board Committee**"), each consisting of two (2) or more Directors, to serve at the pleasure of the Board. A Board Committee must be comprised of only Directors. Any Board Committee shall have the authority of the Board to the extent provided in the act of the Board creating that Board Committee, including as may be set forth in a charter adopted by the Board; provided, however, that no Board Committee shall have the power or authority to:

(a) Appoint any new officers of the Corporation;

(b) Fill vacancies on the Board or on any Board Committee, remove any Director, or declare vacant the seat of any Director;

(c) Fix the compensation of the Directors for serving on the Board or any committee;

(d) Amend or repeal the Corporation's Articles of Incorporation or these Bylaws or adopt new Bylaws;

(e) Amend or repeal any resolution of the Board;

(f) Create Board Committees or appoint Directors to a Board Committee;

(g) Expend corporate funds to support a nominee for Director;

(h) Approve any contract or transaction to which the Corporation is a party and in which one (1) or more Directors has a material financial interest or between the Corporation and one (1) or more of Directors or between the Corporation and any corporation or firm in which one (1) or more Directors has a material financial interest; or

(i) Approve any merger, reorganization, voluntary dissolution, or disposition of substantially all of the assets of the Corporation.

Section 5.2 **Advisory Committees**. The Board may create advisory committees, composed of any person(s) determined by the Board to be appropriate for membership thereon due to the special skills and knowledge possessed by such person(s) related to the Corporation's purposes, operations, or other activities or topics (each, an "**Advisory Committee**"). Advisory Committees shall have such responsibilities as may be assigned to them by the Board; provided, however, that no Advisory Committee shall have or exercise Board authority and members of Advisory Committees (other than Board members and officers) shall not have fiduciary duties to the Corporation.

Docusign Envelope ID: 1DE663D0-F485-8379-8372-CDB40194AA6E

Section 5.3 **Standing Committees**. The Board shall establish standing committees to carry out specific governance and oversight responsibilities. Each standing committee shall operate in accordance with a written charter approved by the Board, which defines its duties and responsibilities; and approval or amendment of a committee charter by the Board confirms the scope of that standing committee's advisory role and does not, by itself, confer delegated authority under Section 5212 of the California Corporations Code. The Board may delegate authority to any standing committee, provided, however, that any such standing committee to which authority has been delegated shall be comprised solely of members who are voting Directors. The Board may establish standing and ad hoc committees of the Board as it deems appropriate. The purpose, composition, and authority of each committee shall be set forth in a separate committee charter approved by the Board.

Section 5.4 **Meetings and Actions of Committees**. Meetings and actions of Board Committees and Advisory Committees shall be governed by, held, and taken in accordance with the provisions of these Bylaws concerning meetings and other actions of the Board, except that the time for regular meetings of such committees and calling of special meetings of such committees may be determined either by resolution of the Board, or if there is none, by resolution of the committee. Minutes of each meeting of any Board Committee or Advisory Committee shall be kept and shall be filed with the minutes of the proceedings of the Board. Board Committees and Advisory Committees shall otherwise operate in accordance with their committee charters, as adopted, and as may be modified from time to time, by the Board.

ARTICLE VI

OFFICERS

Section 6.1 **Officers**. The Officers of the Corporation shall be a Chair, a Vice Chair, a Secretary, a Treasurer, and such other Officers as the Board may elect or appoint (each, an "**Officer**" and collectively, the "**Officers**"). Any number of offices may be held by the same person, except that neither the Secretary nor the Treasurer may serve concurrently as the Chair.

Section 6.2 **Election and Tenure**. The Officers of the Corporation shall be elected by the Directors at the annual meeting of the Board for terms of one (1) year or until their successors are elected and qualified.

Section 6.3 **Resignation**. Any Officer may resign at any time by giving written notice to the Chair or to the Secretary. The resignation of any Officer shall be effective upon delivery of notice, or at any later time specified in the notice. Unless otherwise provided in the notice, acceptance of the resignation shall not be necessary to make it effective.

Section 6.4 **Removal**. An Officer may be removed from office, with or without cause, by the Board.

Section 6.5 **Vacancies**. Any vacancies in any office shall be filled by the Board to complete the unexpired term of office or until a successor is elected and qualified.

Section 6.6 **Chair**. The Chair of the Corporation shall preside at all meetings of the Corporation, including meetings of the Board. Except as otherwise specified, the Chair or

Docusign Envelope ID: 1DE663D0-F485-8379-8372-CDB40194AA6E

Chair's designee shall be an ex-officio member of all Board Committees. The Chair may sign on behalf of the Corporation any documents or instruments which the Board has authorized to be executed, except where the signing and execution thereof is expressly delegated by the Board or these Bylaws to some other Officer or agent of the Corporation. The Chair shall recommend candidates to the Board for Board Committees. The Chair shall have such other powers and duties as may be prescribed by the Board or these Bylaws.

Section 6.7 **Vice Chair**. In the absence or disability of the Chair, the Vice Chair shall perform all the duties of the Chair, and when so acting shall have all the powers of, and be subject to all the restrictions upon, the Chair. In the event the Vice Chair is not available to so act, the Chair shall designate another member of the Board to act as Chair in the Chair's absence. The Vice Chair shall have such other powers and perform such other duties from time to time as may be prescribed by the Board or the Chair.

Section 6.8 **Secretary**. The Secretary shall keep or cause to be kept, at the principal office of the Corporation, a book of minutes of all meetings and actions of Directors and committees of Directors. Such records shall contain the time and place of holding the meeting, whether the meeting is annual, regular or special (and, if special, how it was authorized), the notice given, the names of those present at such meeting and the proceedings of such meetings. The Secretary shall keep the seal of the Corporation in safe custody. The Secretary shall also have such other powers and perform such other duties as may be prescribed by the Board or these Bylaws. The Secretary may delegate any of the Secretary's duties to any elected or appointed recording secretary.

Section 6.9 **Treasurer**. The Treasurer shall keep or cause to be kept correct and accurate accounts of the properties and financial transactions of the Corporation. The Treasurer shall also perform all duties incident to the office, and such other duties as may be assigned from time to time by the Board or the Chair. The Treasurer may delegate any of the Treasurer's duties to any duly elected or appointed assistant financial officer.

ARTICLE VII

PRESIDENT & CHIEF EXECUTIVE OFFICER

The Board shall select and appoint a qualified person to serve as the President & CEO of the Corporation. The President & CEO shall be the Board's direct executive representative in the management of the Corporation. The President & CEO shall be given the necessary authority and be held responsible for the management of the Corporation in all its activities, subject only to the policies enacted by the Board or any committees to which the Board has delegated power for such action. The President & CEO shall provide support staff to the Board, Board Committees, and Advisory Committees as is necessary or requested by the Board. The President & CEO shall act as a duly authorized representative of the Board in all matters except those in which the Board has formally designated some other person or group to act.

ARTICLE VIII

INDEMNIFICATION

Section 8.1 **Definitions**. For the purposes of this Article, "**Eligible Indemnitee**" means: (i) any person who is or was a Director, Officer, or employee of the Corporation; (ii) any person or entity acting as an agent of the Corporation that the Board has authorized to be eligible for indemnification (a "**Board-designated Agent**"); (iii) any person who is or was serving at the request of the Corporation as a director, officer, employee or Board-designated Agent of another foreign or domestic corporation, partnership, joint venture, trust or other enterprise; or (iv) any person who was a director, officer, employee or Board-designated Agent of a foreign or domestic corporation which was a predecessor corporation of the Corporation or of another enterprise at the request of such predecessor corporation; "**Proceeding**" means any threatened, pending or completed action or proceeding, whether civil, criminal, administrative or investigative; and "**Expenses**" includes, without limitation, attorneys' fees and any expenses of establishing a right to indemnification under this Article.

Section 8.2 **Indemnification in Actions by Third Parties**. The Corporation shall, to the maximum extent of the law, indemnify any person who was or is a party or is threatened to be made a party to any Proceeding (other than an action by or in the right of the Corporation to procure a judgment in its favor, an action brought under Section 5233 of the California Corporations Code, or an action brought by the Attorney General or a person granted relator status by the Attorney General for any breach of duty relating to assets held in charitable trust), by reason of the fact that such person is or was an Eligible Indemnitee of the Corporation, against Expenses, judgments, fines, settlements and other amounts actually and reasonably incurred by such person in connection with such Proceeding if such person acted in good faith and in a manner such person reasonably believed to be in the best interests of the Corporation and, in the case of a criminal Proceeding, had no reasonable cause to believe the conduct of such person was unlawful. The termination of any Proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in the best interests of the Corporation or that the person had reasonable cause to believe that the person's conduct was unlawful.

Section 8.3 **Right to Indemnification**. The Corporation shall, to the maximum extent of the law, indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action by or in the right of the Corporation, or brought under Section 5233 of the California Corporations Code, or brought by the Attorney General or a person granted relator status by the Attorney General for any breach of duty relating to assets held in charitable trust, to procure a judgment in the Corporation's favor by reason of the fact that such person is or was an Eligible Indemnitee of the Corporation, against Expenses actually and reasonably incurred by such person in connection with the defense or settlement of such action if such person acted in good faith, in a manner such person believed to be in the best interests of the Corporation, and with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances. No indemnification shall be made under this Section:

Docusign Envelope ID: 1DE663D0-F485-8379-8372-CDB40194AA6E

(a) In respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the Corporation in the performance of such person's duty to the Corporation, unless and only to the extent that the court in which such Proceeding is or was pending shall determine upon application that, in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for the Expenses which such court shall determine;

(b) Of amounts paid in settling or otherwise disposing of a threatened or pending action, with or without court approval; or

(c) Of Expenses incurred in defending a threatened or pending action which is settled or otherwise disposed of without court approval, unless it is settled with the approval of the Attorney General.

Section 8.4 Indemnification Against Expenses. To the extent that an Eligible Indemnitee of the Corporation has been successful on the merits in defense of any Proceeding referred to in this Article or in defense of any claim, issue or matter therein, the Eligible Indemnitee shall be indemnified against Expenses actually and reasonably incurred by the Eligible Indemnitee in connection therewith.

Section 8.5 Required Determination. Except as provided in this Article, any indemnification under this Article shall be made by the Corporation only if authorized in the specific case, upon a determination that indemnification of the Eligible Indemnitee is proper in the circumstances because the Eligible Indemnitee has met the applicable standard of conduct set forth in this Article, by:

(a) A majority vote of a quorum of the Board, consisting of Directors who are not parties to such Proceeding; or

(b) The court in which such Proceeding is or was pending upon application made by the Corporation or the Eligible Indemnitee or the attorney or other person rendering services in connection with the defense, whether or not such application by the Eligible Indemnitee, attorney or other person is opposed by the Corporation.

Section 8.6 Advance of Expenses. Expenses incurred by a person seeking indemnification under this Article in defending any Proceeding covered by this Article may be advanced by the Corporation prior to the final disposition of such Proceeding upon receipt of an undertaking by or on behalf of the Eligible Indemnitee to repay such amount unless it shall be determined ultimately that the Eligible Indemnitee is entitled to be indemnified as authorized in this Article.

Section 8.7 Other Indemnification. No provision made by the Corporation to indemnify its Directors or Officers or its subsidiary's directors or officers for the defense of any Proceeding, whether contained in the Corporation's Articles of Incorporation, these Bylaws, a resolution of Directors, an agreement or otherwise, shall be valid unless consistent with this Article. Nothing contained in this Article shall affect any right to indemnification to which persons other than such Directors and Officers may be entitled by contract or otherwise.

Docusign Envelope ID: 1DE663D0-F485-8379-8372-CDB40194AA6E

Section 8.8 **Forms of Indemnification Not Permitted**. Except as provided in this Article, no indemnification or advance shall be made in any circumstances where it appears:

(a) That it would be inconsistent with a provision of the Corporation's Articles of Incorporation, these Bylaws or an agreement in effect at the time of the accrual of the alleged cause of action asserted in the Proceeding in which the Expenses were incurred or other amounts were paid which prohibits or otherwise limits indemnification; or

(b) That it would be inconsistent with any condition expressly imposed by a court in approving a settlement.

Section 8.9 **Insurance**. The Corporation shall have the power to purchase and maintain insurance on behalf of any Eligible Indemnitee of the Corporation against any liability asserted against or incurred by the Eligible Indemnitee in such capacity or arising out of the Eligible Indemnitee's status as such whether or not the Corporation would have the power to indemnify the Eligible Indemnitee against such liability under the provisions of this Article, provided, however, that the Corporation shall have no power to purchase and maintain such insurance to indemnify any Eligible Indemnitee of the Corporation for a violation of Section 5233 of the California Corporations Code.

ARTICLE IX

GENERAL PROVISIONS

Section 9.1 **Fiscal Year**. The last day of the Corporation's fiscal year shall be December 31.

Section 9.2 **Loans Prohibited**. The Corporation shall not make any loan of money or property to or guarantee the obligation of any Director or Officer, unless approved by the Attorney General of the State of California or otherwise permitted under the California Corporations Code; provided, however, that the Corporation may advance money to a Director or Officer of the Corporation for expenses reasonably anticipated to be incurred in the performance of the duties of such Director or Officer, provided that in the absence of such advance such Director or Officer would be entitled to be reimbursed for such expenses by the Corporation.

Section 9.3 **Maintenance of Records and Governing Documents**. The Corporation shall keep at its principal office, or such other place designated by the Board, adequate and correct books and records of account and the minutes of the proceedings of the Board, as well as any committees. The minutes shall include the time and place of holding each meeting, whether the meeting was annual, regular, or special and, if special, how authorized, the notice given, and the names of those present. The Corporation shall also keep a copy of its Articles of Incorporation and these Bylaws, as amended to date.

Section 9.4 **Inspection by Directors**. Every Director shall have the absolute right at any reasonable time to inspect and copy all of the Corporation's books, records, and documents of every kind, and to inspect the physical properties of the Corporation.

Docusign Envelope ID: 1DE663D0-F485-8379-8372-CDB40194AA6E

Section 9.5 **Annual Report**. The Corporation shall provide to the Directors, within one hundred and twenty (120) days of the close of its fiscal year, a report which shall include, but need not be limited to, the following information in reasonable detail:

(a) The assets and liabilities, including trust funds, of the Corporation as of the end of the fiscal year;

(b) The principal changes in assets and liabilities, including trust funds, during the fiscal year;

(c) The revenue or receipts of the Corporation, both unrestricted and restricted to particular purposes, for the fiscal year;

(d) The expenses or disbursements of the Corporation, for both general and restricted purposes, during the fiscal year;

(e) Any transaction during the previous fiscal year involving more than $50,000 in which the Corporation (or its parent or subsidiaries, if any) was a party and in which any Director or Officer of the Corporation has a direct or indirect financial interest, or any of a number of such transaction in which the same person had a direct or indirect financial interest and which transactions in the aggregate involved more than $50,000; and

(f) The amount and circumstances of any indemnifications or advances aggregating more than $10,000 paid during the fiscal year to any Director or Officer of the Corporation pursuant to these Bylaws, unless such indemnification has already been approved as provided herein.

For each transaction, the report must disclose the names of the interested persons involved in such transaction and state such person's relationship to the Corporation, the nature of such person's interest in the transaction and, where practicable, the value of such interest. The report shall be accompanied by a report of independent accountants or, if there is no such report, by the certificate of an authorized officer of the Corporation that such financial statements were prepared without an audit from the books and records of the Corporation.

Section 9.6 **Financial Audit**. The Corporation shall obtain a financial audit for any tax year in which it receives or accrues gross revenue of $2 million or more, excluding grant or contract income from any governmental entity for which the entity requires an accounting. Any audited financial statements obtained by the Corporation, whether or not required by law, shall be made available for inspection by the Attorney General and by the general public within nine (9) months after the close of the fiscal year to which the statements relate. For three (3) years, such statements shall be available at the Corporation's offices during regular business hours and shall be made available either by mailing a copy to any person who so requests in person or in writing, or by posting them on the Corporation's website.

Section 9.7 **Corporate Seal**. The Board may provide a suitable seal for the Corporation.

Section 9.8 **Construction and Definitions**. Unless the context requires otherwise, the general provisions, rules of construction, and definitions in the California Corporations Code shall govern the construction of these Bylaws. Without limiting the generality of the above, the masculine gender includes the feminine and the neuter, singular numbers include the plural, plural numbers include the singular, and the term "person" includes both corporations and natural persons. The captions or headings in these Bylaws are for convenience only and are not intended to limit or define the scope or effect of any provision of these Bylaws.

Section 9.9 **Electronic Transmission**. Subject to any guidelines and procedures that the Board may adopt from time to time, the terms "written" and "in writing" as used in these Bylaws include any form of recorded message in the English language capable of comprehension by ordinary visual means and may include electronic transmissions, such as facsimile or email, provided, for electronic transmissions from the Corporation, the Corporation has obtained an unrevoked written consent from the recipient to the use of such means of communication; for electronic transmission to the Corporation, the Corporation has in effect reasonable measures to verify that the sender is the individual purporting to have sent such transmissions; and the transmission creates a record that can be retained, retrieved, reviewed, and rendered into clearly legible tangible form.

Financial Assistance Program

I. POLICY STATEMENT:

NorthBay Health is committed to providing financial assistance to patients who have no health insurance to pay for medically necessary care or have insurance with high medical costs or out-of-pocket expenses not reimbursement by insurance or a health coverage program. NorthBay Health's mission to improve the well-being of our communities by providing conveniently accessible high-quality care will serve as the foundation for all financial assistance determinations pursuant to this policy. Financial assistance determinations will be made within the broader scope of assisting patients and their families to obtain adequate and affordable insurance that provides ongoing access to community health care services. NorthBay Health reserves the right to redirect the patient to the lowest cost service within our health system. This policy will be reviewed and/or revised biennially or as required by change of law or practice.

II. PURPOSE:

The purpose of this policy is to define the eligibility criteria for financial assistance and provide administrative guidelines for the communication and implementation of this financial assistance policy.

III. ELIGIBLE SERVICES:

Medically necessary care is defined as any necessary inpatient, outpatient, or emergency medical care that if not treated promptly would result in an adverse change in health status and is not entirely elective for patient comfort and convenience. Professional fees that are not billed by NorthBay Healthcare will not be covered under this Financial Assistance Policy. In accordance with Federal Emergency Medical Treatment and Labor Act (EMTALA) regulations, no patients shall be screened for financial assistance or payment information prior to the rendering of services in emergency situations.

IV. APPLYING FOR FINANCIAL ASSISTANCE:

NorthBay Health’s Financial Assistance Policy and Financial Assistance Application (English & Spanish) can be obtained as follow:

A. NorthBay Health's website at www.northbay.org/patients-visitors/billing.cfm

B. NorthBay Medical Center (1200 B. Gale Wilson Blvd., Fairfield) or NorthBay VacaValley Hospital (1000 Nut Tree Rd., Vacaville)

C. Financial Assistance Line at (707) 646-5637

V. ELIGIBILITY FOR FINANCIAL ASSISTANCE:

A. Eligibility determinations shall be made based on family income, which shall be calculated based on the gross income of the patient and each member of the patient's family unit. For purposes of this policy, a patient’s family unit shall include:

    1. For persons 18 years of age and older, spouse, registe4red domestic partner, and dependent children under 21 years of age, or any age if disabled.

    2. For persons under 18 years of age or for a dependent child 18 to 20 years of age, inclusive, parent, caretaker relatives, and parent's or caretaker relatives' other dependent children under 21 years of age, or any age if disabled.

B. All patients requesting financial assistance will be required to:

    1. inform the hospital of any health coverage or other coverage

    2. while patients are not required to apply for County, State and/or Federal health care programs, they are required to participate in the eligibility screening process for these programs

    3. complete and sign the financial assistance application form

    4. provide timely written verification of identification, residency, income including recent paystubs or income tax returns; self-declaration is acceptable either for those patients who do not have any written verification because they are homeless or because of their immigration status

C. Bankruptcy and deceased patients with no estate may be granted financial assistance without meeting the above requirements.

D. High medical costs mean any expenses for medical care that are not reimbursed by insurance or a health coverage program, such as Medicare copays or Medi-Cal cost sharing. NorthBay Health may waive or reduce Medicaid and Medicare cost-sharing amounts as part of its charity care program or discount payment program.

E. Non-covered and denied services provided to patients regardless of payer is a form of financial assistance. This includes, but is not limited to, services provided to Medicaid beneficiaries with restricted Medicaid benefits, Medicaid-pending accounts, charges related to days exceeding a length-of-stay limit, out-of-state Medicaid with no payment, and non-contracted or out-of-network plans. Charges related to these denials and/or non-covered amounts written off during the fiscal year are reported as uncompensated care.

F. Information from the predictive model may be used to grant presumptive eligibility or to satisfy the documentation requirements for non-Medicare patients in cases where there is an absence of information provided by the patient and after efforts to confirm coverage availability. Patient accounts granted presumptive eligibility will be reclassified under financial assistance and adjusted accordingly, even if account is already classified as bad debt. The discount provided will not be included in bad debt expense.

G. During an Access to Healthcare Crisis, NorthBay Health may flex its patient financial assistance policy to meet the needs of the community in crisis. Patient discounts related to an Access to Healthcare Crisis may be provided at the time of the crisis, regardless of the date of this policy, as hospital leadership may not be able to react quickly enough to update policy language to meet more pressing needs during that time.

VI. FINANCIAL ASSISTANCE GUIDELINES:

A. Financial assistance will be provided to patients on a sliding scale basis using the published Federal Poverty Levels (FPL) at the time of screening as guidelines. Financial assistance will be granted using the following criteria:

1. If family income is 138% of the FPL or less: Charity Care with free care to the patient.
2. If family income is 139% to 400% of the FPL: Reduced Care to the patient at 100% of the Medicare Fee Schedule and reasonable payment terms.
3. If family income is above 400% of the FPL: Refer to Discount Plan Guidelines for Self-Pay and Self-Pay After Insurance.

B. Monetary assets cannot be considered when determining a patient's eligibility.

C. Healthcare services shall not represent a catastrophic burden to patients. NorthBay Health will limit annual family obligations for patients who family income does not exceed 400% of the FPL and is not greater than 10% of the patient’s family income in the last year.

D. Reasonable payment plan will be offered to patients whose family income is 139% to 400% of the FPL. Monthly payments will not be more than 10% of a patient's family income for a month, excluding deductions for essential living expenses. Essential living expenses include rent or house payment and maintenance, food and household supplies, utilities and telephone, clothing, medical and dental payments, insurance, school or childcare, child or spousal support, transportation and auto expenses, including insurance, gas, and repairs, installment payments, laundry and cleaning, and other extraordinary expenses.

E. A patient's or their family's Health Savings Account (HSA) may be considered when negotiating payment plans for discounted care but are prohibited from considering monetary assets when determining eligibility for charity care or discount payment policies.

F. Patients determined to be eligible for financial assistance may not be charged more than the Amounts Generally Billed (AGB) for emergency or other medically necessary care. AGB is determined using a prospective payment method for outpatient clinics based on Medicare reimbursements and a retrospective payment method for the hospital based on Medicare and Commercial reimbursements.

G. Patients will be reimbursed for any overpayment, including interest, if they paid more than the amount due under the Hospital Fair Pricing Act, and will refund the overpayment within 30 days of the request. However, reimbursement is not required if it has been five years or more since the patient’s last payment to hospital/collection agency or the patient’s debt was sold before January 1, 2022, in accordance with the law at the time.

H. When a third-party payer (like an insurance company) directly reimburses a patient for hospital services, the hospital can demand payment of the full amount from the patient or guarantor. If a patient receives a settlement, judgment, or award in a legal case that includes payment for healthcare services, the hospital can require reimbursement up to the amount reasonably awarded for those services.

I. There are no time limits on applying for financial assistance and eligibility determination shall be done at any time. Financial assistance will be applied to

eligible accounts incurred for services received prior to the financial assistance application date.

J. Physicians who provide emergency medical services in a hospital setting are also required to provide discounts to uninsured patients or patients with high medical costs who are at or below 350% of the FPL.

VII. PATIENT NOTIFICATION AND APPEAL RIGHTS:

A. Patients will be provided with information regarding the Financial Assistance Policy at the point of access and first billing. If a patient feels that they may be eligible under the policy, then they shall be referred to financial counseling for further assistance. A final determination will be made within 30 days of an application being completed and all requested documentation being submitted by the Financial Counseling Unit. Once a decision is made for the approval or denial of financial assistance, a letter will be sent to the patient as notification of the decision made. Patient statements will reflect the financial assistance determination as “Compassionate Care Discount.”

B. Incomplete applications will be held for 120 days from first billing statement before the account is referred for collections.

C. Patients who disagree with the financial assistance determination have the right to appeal the decision. Appeals must be made in writing to the Director of Patient Access, NorthBay Health, 4500 Business Center Drive, Fairfield, CA 94533. A review committee consisting of finance staff, non-finance staff and NorthBay Health administrative representatives will review appeals monthly.

VIII. RELATIONSHIP TO COLLECTION PRACTICES:

A. NorthBay Health may employ reasonable collection efforts to obtain payment from patients. General collection activities may include issuing patient statements, phone calls, and referral of statements that have been sent to the patient or guarantor. Bills that are not paid 120 days after the first billing date may be placed with a collection agency.

B. NorthBay Health's collection policies outline the types of collection efforts that contracted collection agencies may/may not take to collect on past-due accounts. It is recognized that as part of the financial assistance process, patients may from time to time break their promise to pay made on the financial assistance application. In these instances, patients with past-due financial assistance obligations may be referred to collection in the same manner as any other patient with an unpaid past-due account might. However, in no instance will any patient

receiving financial assistance under this policy be subject to abusive telephone collection practices, liens being placed on any real property owned by the patient, wage garnishments, involuntary court hold orders or reporting adverse information about a patient's hospital debt to a consumer credit reporting agency.

IX. PUBLIC NOTICE OF FINANCIAL ASSISTANCE:

NorthBay Health will post notices regarding the availability of financial assistance in all patient registration areas, in patient handbooks and discharge instructions, at its billing office, and on its website. Notices shall be posted in English and Spanish. Patients with questions about NorthBay Health's Financial Assistance Program may call the Financial Assistance Line at (707) 646-5637.

Providence, NorthBay Health reach definitive agreement to transition ownership of Queen of the Valley Medical Center

FRIDAY, APRIL 10, 2026

NAPA, Calif., FAIRFIELD, Calif. (April 9, 2026) — Providence and NorthBay Health announced today the organizations have reached a definitive agreement to transfer ownership of Queen of the Valley Medical Center and related assets, including ambulatory clinics, in Napa County from Providence to NorthBay Health. The definitive agreement marks the next formal milestone in transitioning The Queen to NorthBay Health since the organizations announced last month they entered into a letter of intent.

The U.S. health care sector is in a moment of historic transformation. Providence has declared a bold vision for the future: to be the best place to give and receive care as the health system creates a delivery model for the future, supported by innovation and positive change. This transformation requires thoughtful planning, ensuring Providence can deliver compassionate, high-quality care in communities where the organization is best positioned to be a long-term partner.

In the months-long discernment process with leaders and individuals with diverse perspectives, it became clear to Providence that NorthBay Health was best positioned to address the long-term health care needs in the Napa community

"As Providence pursues its 2030 strategic direction, we recognize that we must focus our resources where we can do the greatest good," said Laureen Driscoll, Chief Executive, Providence South Division. "We are confident that NorthBay Health is the right organization to build on The Queen's legacy and continue the commitment to exceptional care for the Napa community. This milestone marks another important step in the process to thoughtfully transition The Queen to NorthBay Health."

As part of the definitive agreement, NorthBay Health will make several commitments to continue this legacy, including investing in clinical services and community benefit programs, extending offers of employment with NorthBay Health to actively employed caregivers, ensuring seismic requirements are met and supporting the Queen of the Valley Foundation in its philanthropic investments in the community.

"As a California-owned, locally governed, community-based health system, we are proud to build on Queen of the Valley Medical Center's long-standing legacy of care," said Mark Behl, President and CEO of NorthBay Health. "This agreement represents an important step toward expanding access, strengthening clinical services, and ensuring more people in the region benefit from high-quality, locally connected care."

For more than 65 years, NorthBay Health has been guided by a simple purpose: caring for our neighbors and strengthening the health of the communities we serve. The organization believes health care is strongest when decisions are made close to home, by people who understand their communities and are accountable to them. That commitment has shaped

NorthBay Health's growth, from expanding access to investing in services that meet the evolving needs of its region.

With a definitive agreement in place, the organizations will move into the regulatory review phase. The organizations have launched a website (AdvancingNapaHealth.org) where the community can follow progress. Pending regulatory review and approval, the transition is expected to occur by the end of 2026.

CAREGIVER MEMO

Update on QVMC Transition

Last month, we shared that Providence and NorthBay Health entered a letter of intent to transition ownership of Queen of the Valley Medical Center and related assets to NorthBay Health by the end of 2026, pending regulatory approval. I am writing to share we have reached the next milestone in the process. Both organizations have signed a definitive agreement outlining the terms and conditions that will govern the transition of ownership.

Where We Go from Here

This milestone marks an important next step in securing the long-term future of The Queen and continuing our legacy of exceptional, mission-centered care for the Napa community. With the definitive agreement in place, we will begin the regulatory review process. Pending regulatory approval, we expect the transition to take place by the end of 2026.

I know that since our initial announcement, there have been many questions and conversations about what this transition means for our community, caregivers and physicians. I want to restate a few key points.

- **Nothing changes today.** We have much work to do to determine the details of the transition. While the regulatory process unfolds, both Providence and NorthBay Health will be focused on defining the details of the transition for caregivers, physicians and the community.
- **NorthBay Health is committed to investing in the future of health care in Napa.** NorthBay Health will make several commitments to continue the strong legacy of The Queen, including continuing existing clinical services and community benefit programs, extending offers of employment with NorthBay Health to all actively employed caregivers, meeting seismic requirements and supporting the Queen of the Valley Foundation in its philanthropic investments in the community.
- **We are committed to creating space for conversation, getting to know NorthBay Health and providing updates along the way.** You can stay informed about the latest developments in multiple ways:
    - A dedicated SharePoint site will serve as the communication hub and will house future published FAQs. You can access the site here: Napa Transition - Home.
    - Over the coming months, caregivers and physicians will have the opportunity to connect with NorthBay Health leaders. We will communicate directly with you about those opportunities as they are formalized.
    - In addition, updates will be shared with the community via a public-facing website AdvancingNapaHealth.org.

While the definitive agreement is an important milestone in the transition process, many steps remain before a proposed transition occurs. During this time, it's critical that we remain focused on what matters most – providing exceptional care to the people who count on us every day.

Thank you for all you do for our patients, the community and each other.

FAQs

General FAQ

1. Why is Providence transitioning ownership of Queen of the Valley Medical Center to NorthBay Health?

Providence has set a bold vision through our 2030 strategic direction: be the best place to give and receive care as we create a delivery model for the future, supported by innovation and positive change. Getting there calls on us to lead with courage, compassion, a deep conviction for our Mission and care for our communities.

We know we need to re-invest in our ministries to achieve this vision and uphold our commitment to the health and healing of our communities. To do so, we must focus our resources. We engaged leaders from across Providence to ask, “Where can we do the greatest good?” and “Where can we be the best place to give and receive care?”

Through these conversations, we determined that a new owner is the right path for The Queen.

2. Why was NorthBay Health chosen?

NorthBay Health has demonstrated a clear understanding of and care for our caregivers and the Napa community, and a commitment to investing in the future of The Queen.

NorthBay Health is a California-owned, locally governed and community-based health system. Their focus will be continuing the values and culture that define The Queen, providing conveniently accessible high-quality care, expanding access, strengthening

clinical excellence, and continuing to offer a unified approach to health care delivery.

3. How is NorthBay Health the right fit to shepherd The Queen into its next chapter?
Through the process, it became clear that The Queen would thrive in its next chapter as part of NorthBay Health.

- Geographic and strategic presence: NorthBay Health is a California-owned, locally governed and community-based health system. In recent years, they have taken meaningful action to expand to meet the health care needs of Solano, Yolo, and Napa counties.
- Support for caregivers and physicians: NorthBay Health has demonstrated a clear understanding of and care for our caregivers and intends to extend offers of employment with NorthBay Health to all actively employed caregivers. NorthBay Health and QVMC recognize physicians are essential partners in improving community health and will work closely with affiliated and independent groups to ensure continuity of care.
- Expanded access and clinical excellence: As the demand for advanced, high-quality care close to home continues to grow, and NorthBay Health looks to meet that demand, The Queen has the capacity and capabilities to serve the Napa community long into the future.
- Future investment: We are still working through many details, but NorthBay Health intends to make several commitments, including continuing existing clinical services and community benefit programs and continuing to support the QVMC foundation in its philanthropic investments in the community.

These factors, among others, make NorthBay Health the right organization to continue the strong legacy of The Queen.

4. How was this decision reached? Who was involved?
Our founding Sisters were called to balance community needs with what they could deliver. Today, we are called to do the same.

In the tradition of Catholic health care, we used the deeply introspective process of discernment with Providence leaders and diverse perspectives to guide us on how to best meet critical considerations of our community, such as investing in the common good, fidelity to our caregivers, continued care for the poor and vulnerable and whole person and spiritual care. Ultimately, we determined that a new owner is the right path for The Queen.

5. What is the discernment process?
Collective discernment is rooted in reflection and deep listening. It promotes dialogue and sharing diverse perspectives and emotions, ensuring we take the time needed to make a thoughtful decision aligned with our Mission.

Discernment participants bring their hearts and minds into the process, and all involved

are deeply committed to doing the right thing for our communities, caregivers and Providence.

Through this deeply introspective process, we were guided to an organization who strives to earn the trust of patients and families, becoming their health care partner of choice at every stage of life. This commitment echoes The Queen's long-standing mission to serve all, especially those who are vulnerable, ensuring that no one is left behind in their time of need.

6. What is the definitive agreement?
The definitive agreement outlines the terms that will govern ownership transition of Queen of the Valley Medical Center and related assets in Napa County from Providence to NorthBay Health.

7. What still needs to happen before the transition is final?
Now that a definitive agreement has been reached, the proposed transition will move through the regulatory review process. Providence will continue to operate Queen of the Valley Medical Center until the proposed transition occurs. Pending regulatory approval, we expect the transition to occur by the end of 2026.

8. What commitments are outlined in the definitive agreement?
As part of the definitive agreement, NorthBay Health will make several commitments including continuing existing clinical services and community benefit programs, extending offers of employment with NorthBay Health to all actively employed caregivers, meeting seismic requirements and supporting the Queen of the Valley Foundation in its philanthropic investments in the community.

9. Was the archdiocese's financial outlook a factor in this decision?
No, The Queen operates independently of the archdiocese financially and our path forward is rooted in Providence's Mission and responsibility to ensure continued long-term access to high-quality care.

10. Will there be changes to The Queen's brand or identity?

during the first year, and our focus beyond that is on supporting all team members, investing in the workforce and creating long-term opportunities to succeed. [Added 4/10/26]

2. Where do I send questions about my job, my pay and my benefits?
We are still in the early stages of transition planning and will share a method for questions related to your current Providence role and benefits in the coming months. As we continue planning, we will also create opportunities for you to hear directly from NorthBay Health about these important topics.

3. When will I know exactly what is happening with my position?
We are in the early stages of a potential ownership transition of The Queen to NorthBay Health, with several steps still ahead. Next steps include completing the regulatory review process. Pending these approvals, the transition is anticipated by the end of 2026. As we continue planning, we will create opportunities for you to hear directly from NorthBay Health about these important topics.

4. Will I still be a Providence employee?
NorthBay Health plans to extend offers of employment to all actively employed caregivers at the time of transition who specifically support The Queen. Until then, you will remain a Providence employee. Pending regulatory approval, the transition is expected to occur by the end of 2026.

5. Will this transaction impact the current merit cycle?
No. The transaction will not impact the current merit cycle. Eligible caregivers will continue to participate in the merit process as planned. All current merit timelines, eligibility criteria, and processes remain unchanged.

6. What happens to my unused PTO?
All unused, accrued vested PTO will be paid out in conjunction with your final check from Providence. This payment will be considered a special disbursement in accordance with IRS requirements. More details about this will be provided closer to the ownership transition date.

7. What happens to my Providence benefits?
Your Providence benefits and well-being offerings will end on the last day of the month during which your employment transition occurs. You will be eligible to enroll in benefits offered by NorthBay Health. More information regarding their benefits offerings and enrollment will be provided in the coming months. For information on your existing benefits under Providence, please visit the Caregiver Service Portal (https://www.caregiverserviceportal.org/).

8. If I participate in the MPAP, what happens to this coverage?

The Medical Premium Assistance Program (MPAP) is a specific financial assistance program offered by the Providence family of organizations in connection with the Providence-sponsored medical insurance benefits. MPAP coverage ends when your Providence or Providence-affiliated medical coverage ends. MPAP is not a benefit offered as part of COBRA.

9. If I am in a role identified to transfer, what happens to my Health Savings Account (HSA) funds?
Your HSA is owned and managed by you and is yours to keep, even if you are employed by NorthBay Health. It is your responsibility to:

- Determine if you are eligible to open an HSA
- Ensure your withdrawals are for eligible expenses and eligible family members
- Keep receipts for your withdrawals for eligible expenses

If you enroll in a different medical plan or waive medical coverage and have funds remaining in your HSA, your account will remain open, and you can continue to use your HSA to pay for health care expenses for you and your qualified tax dependents. Note: You cannot contribute to your HSA while covered under another employer medical plan.

10. What happens to my Providence Flexible Savings Account (FSA)?
FSA funds will not carry over to employment with NorthBay Health. You will have an opportunity to submit for reimbursement for any eligible expenses incurred during the Providence coverage period for the FSA. If you have not claimed reimbursement for any FSA-eligible expenses, you will no longer have access to any remaining funds in your account after the claims runout period (per IRS rules). You will be offered COBRA at the end of your employment with the Providence family of organizations. If you elect COBRA, you would be able to maintain access to your FSA. Please contact the Benefits Service Center for more information.

11. What happens to my Health Reimbursement Account (HRA) funds upon transition to NorthBay Health?
When you transition from employment, you will have a 365-day run-out period following termination of the HRA Medical Plan to submit for eligible expenses incurred while covered by the HRA medical plan. You can use your HRA funds for any claims incurred prior to the end of your HRA medical plan coverage. You will no longer have access to any funds left over after the end of the claims run-out period.

For more information on the portability of the accounts after transition of employment with the Providence family of organizations, visit the "Accounts Overview 101" article in the Caregiver Service Portal (https://www.caregiverserviceportal.org/).

12. What happens to the home loan and car insurance I have through Providence?

Auto and Home Insurance is a voluntary benefit through Farmers Insurance (formerly MetLife). After your employment transitions, your policy would revert to direct billing (instead of payroll deduction). Because these are benefits through Farmers Insurance, you will need to contact them directly with any questions about your individual policy. You can visit the Caregiver Portal for information on how to contact Farmers Insurance for more information.

Providence does not sponsor, endorse or contribute toward these voluntary benefits. Please contact the vendor directly regarding questions about the voluntary benefits such as Auto/Home Insurance, Pet Insurance, Legal, Hospital Indemnity, Critical Illness or Accident Insurance.

13. Will my Retirement Savings Plan account be transferred to an account with NorthBay Health? What if I want to keep my Providence Retirement Savings Plan account?
Your 401(k) Plan account will not automatically transfer to a plan with NorthBay Health. If you wish to roll over your balance to the NorthBay Health plan, you may do so after transitioning employment.

- Both the 401(k) Savings Plan and the SJH/CHS 401(k) Plans ("the Plan") have an auto-cashout service with Fidelity.
- If a caregiver doesn't elect a different option by Fidelity's communicated deadline, and the account balance is $1,000 or less, Fidelity will directly send the transitioned caregiver a check (less any applicable taxes).
- If a transitioned caregiver has a balance in the Plan of $7,000 or less and doesn't elect a different option by Fidelity's communicated deadline, Fidelity will roll over the balance to an IRA (at Fidelity) on their behalf.
- If the transitioned caregiver has an account balance in the Plan over $7,000, the account balance can remain in the Plan indefinitely. No further contributions will be permitted, however, the caregiver retains control of how the balance is invested and make withdraw or roll their balance over at any time.

You may find it helpful to review this article or watch this video for a summary of options that become available when you change employers.

14. When do my retirement deductions end?
Contributions to the 401(k) - and 457(b) Plan, if applicable – will end with the last check you receive for retirement eligible compensation, including regular pay as well as incentive payments. Note that retirement deductions will also apply to any earnings paid in the first 60 days after your separation.

15. What will happen to my 457(b)?
Caregivers have 75 days from their last day of employment with Providence to submit a distribution request. More detailed information will be provided in future communications. For immediate questions, contact Fidelity at 800-343-0860.

16. What can I expect if I'm not fully vested in my retirement at the time of my employment transition?
Anyone affected by the transition will be fully vest in any unvested Providence retirement benefits. Updating vesting is a manual process and may take up to 30 days after your final paycheck to reflect with Fidelity. If you need urgent access to your balance, and vesting is not yet updated, contact the HR Service Center at 888-687-3753 (Mon-Fri, 7 a.m. - 6 p.m. PT) and ask the representative to route your case to retirement.

17. What will happen to my pension plan?
If you have a vested benefit in a frozen pension plan (this is not common), please visit MillimanBenefits.com or contact the Milliman Benefits Service Center at 800-724-2516 to review your options. Depending on your age, you may need to take a full distribution of your pension plan balance once you are no longer employed with Providence.

Community & Patients
1. How can the community stay informed and provide input or ask questions?
We have partnered with NorthBay health to launch an external website (AdvancingNapaHealth.org) where the community can follow along and get the latest updates on the proposed ownership transition. As part of the regulatory review process, the California Attorney General office will host a public hearing where interested community members can participate in the conversation. Details will be included on the website once known.

2. How does this impact patients?
We do not anticipate changes to patient care and patients can continue to see their physicians at current office locations.

3. Will there be any changes to the services currently offered?
Nothing will change today. The Queen will continue to operate as part of Providence while the due diligence and regulatory processes unfold. Pending regulatory approval, the ownership transition is expected to occur by the end of 2026.

4. Will Queen of the Valley Medical Center still accept my insurance?
Insurance coverage remains unchanged and patients can continue to see their same physicians. Any future updates will be communicated well in advance.

5. What does this mean for our donors and The Queen of the Valley Foundation?
The foundation will continue as it is today – a separate nonprofit organization in support of the health care needs of the community. NorthBay Health has expressed an interest in supporting the critical philanthropic programs in Napa. All gifts received prior to this transformation will be honored as intended and conveyed. All future gifts will remain local and established funding initiatives underway will continue.

Marking a major shift in hospital and health care in Napa Valley, Providence has reached a deal to sell Napa's Queen of the Valley Medical Center and related clinics to NorthBay Health.

The deal follows **a letter of intent written last month** and now enters a regulatory review phase.

If approved, the sale is expected to be completed by the end of this year, according to a news release from NorthBay Health.

Leaders from both organizations spoke to the Napa Valley Register exclusively on Tuesday about the change.

“We're equally excited for both organizations and the future for this community,” said Laureen Driscoll, chief executive of Providence South Division.

Mark Behl, president and CEO of NorthBay Health, also called it an important moment.

“It’s a detailed process … and to get to this point, it's a big milestone,” Behl said.

Financial terms of the deal were not disclosed. When asked about the value of the transaction, both sides declined to provide a price or price range.

“We're not sharing specific financial terms,” Driscoll said. “What is important … is that we have come into alignment” on future investments and support for services, staff and the community.

Driscoll said the decision to sell Queen of the Valley came after months of review.

“It became clear to Providence that NorthBay Health was best positioned to address the long-term health care needs in the Napa community,” she said.

NorthBay Health said in a news release that it plans to invest in clinical services, continue community benefit programs, and meet state seismic safety rules for hospitals.

NorthBay Health, with about 3,094 employees, currently operates two hospitals in Solano County, one in Fairfield and the other in Vacaville.

The acquisition also includes assurances to workers. Queen of the Valley has about 1,062 staffers.

Behl said Queen of the Valley employees in good standing will be offered a 12-month job commitment.

“We need caregivers; we need nurses; we need doctors,” Behl said. “There’s absolutely no intention for us to reduce or lay off teams.”

Driscoll said some system-level roles may shift as NorthBay Health takes over operations, but patient care roles are expected to continue.

For patients, leaders said they do not expect major changes right away.

“They're going to continue to be able to receive high-quality services,” said Behl.

Over time, he said, NorthBay Health may add services and expand care options.

The transition will also bring a change in religious affiliation. Queen of the Valley is a Catholic hospital that follows ethical and religious directives that restrict certain types of care, including some reproductive services.

Under the new ownership, those requirements no longer apply.

Behl said NorthBay Health will still support patients’ spiritual needs through chaplain services and partnerships with clergy, but the system is not religious.

“Our approach is inclusive,” he said. “We support patients of all faiths, as well as those who don't identify with a specific faith.”

Some visible parts of Queen of the Valley's religious history are expected to stay. Behl said the hospital name will remain Queen of the Valley, and the large, gold-colored statue of the Virgin Mary holding a cross hanging on the outside of the building at 1000 Trancas St. in Napa is expected to remain.

The fate of other religious-themed items inside the hospital, such as paintings, statues and crosses, has not been finalized. Behl said the goal is to respect the hospital's history while working with religious leaders on next steps.

The Providence name will eventually be removed from signs at the Queen, but no timeline has been set. Leaders said changes will not happen until the deal is approved and finalized.

Before that can happen, the agreement must be reviewed by regulators, including state Attorney General Rob Bonta.

Driscoll said public meetings tied to the attorney general's review typically begin about 45 days after the application to sell is filed. The organizations have not yet submitted that application and are still preparing documents, she said.

In 2019, then-Attorney General Xavier Becerra **declined to approve a proposed merger** involving select Northern California Providence and Adventist Health hospitals in 2019.

"This is a very different transaction," Driscoll said, expressing confidence that the attorney general's process is fair and believe that the sale will pass review.

Other stakeholders in the change include unions at the Queen, such as the California Nurses Association and the National Union of Healthcare Workers.

NorthBay Health will uphold existing union agreements, according to Behl. “We want to have a smooth transition,” he said.

Some Providence services will remain in Napa County. Driscoll said the organization’s PACE program, which serves older adults, will continue operating locally.

Both sides stressed that care will remain local.

“As a California-owned, locally governed, community-based health system, we are proud to build on Queen of the Valley Medical Center’s long-standing legacy of care,” Behl said. “I think this is going to be … a win for the Napa community.”

Additional information about the sale can be found at **AdvancingNapaHealth.org**.

Providence reaches deal with nonprofit to transfer Napa's Queen of the Valley hospital

Hospital giant Providence has signed an agreement to transfer ownership of Napa's Queen of the Valley Medical Center to Solano County-based NorthBay Health, the parties announced Thursday, April 9.

Terms of the deal have not been made public.

The announcement came about a month after Providence disclosed it was in talks with NorthBayHealth to unload Napa County's largest hospital.

Queen of the Valley Medical Center is a general acute care facility licensed for 198 beds. It has net inpatient revenue of $138 million and $204 million in net outpatient revenue, according to the latest data from the California Department of Health Care Access Information. After factoring in operating expenses, the hospital recorded a $5 million loss in 2023-24.

The turnover comes amid an unsettled time in the nation's health care sector as Medicaid reimbursement cuts enacted last year in President Donald Trump's tax and spending bill, along with other business trends, have pushed many facilities to the brink.

Washington-based Providence operates more than 50 hospitals across seven western states. It signaled the transfer was part of a longer term strategy geared to investing "our resources where we can do the greatest good."

NorthBay Health, in business for 67 years, operates hospitals in Fairfield and Vacaville.

NorthBay Health President and CEO Mark Behl called the transfer agreement an "important step toward expanding access, strengthening clinical services, and ensuring more people in the region benefit from high-quality, locally connected care."

Here's some of what we know about the deal and the parties involved in the transaction:

- On March 5, Providence announced in a memo to staff that it had entered into a letter of intent to transfer ownership of the hospital and related assets to NorthBay Health.
- Both Providence and NorthBay Health declined on Friday to reveal any details about the transaction, including whether it was a sale (and if so, for how much) or an exchange of assets.
- Providence and NorthBay, in press statements, said their "definitive agreement" marked a milestone in the process to transition the hospital to new ownership. Both sides said the deal was now entering the regulatory review phase.
- Providence spokesman Steven Buck said in an email, "Our organizations have not yet submitted the application for review to the state. The documents are still being prepared.

For Providence, the move follows a recent series of cuts, including elimination of its labor and delivery unit at Petaluma Valley Hospital and the closure of its inpatient pediatric unit at Santa Rosa Memorial Hospital.

Providence said in March that there were "no active discussions" involving the transfer or sale of any of its other Northern California hospitals.

In addition to Queen of the Valley, Petaluma Valley and Santa Rosa Memorial, Providence also operates Healdsburg Hospital.

NorthBay, Providence sign final agreement for Napa hospital

Process to acquire Queen of the Valley Hospital now moves to regulatory review

Providence Queen of the Valley Medical Center, in Napa, would be purchased by NorthBay Health under a final agreement announced Thursday. (Chris Riley/The Reporter)

By **ROBIN MILLER** | rmiller@thereporter.com | The Vacaville Reporter
PUBLISHED: April 9, 2026 at 4:14 PM PDT | UPDATED: April 15, 2026 at 1:30 PM PDT

NorthBay Health is one step closer to taking over Queen of the Valley Medical Center in Napa — a move leaders say could shape the future of local health care for years to come.

NorthBay Health and Providence have signed a final agreement to transfer ownership of Queen of the Valley Medical Center and related Napa County assets from Providence to NorthBay, the organizations announced April 9. The deal now moves into a regulatory review process.

The agreement follows last month's announcement that the two systems had entered into a letter of intent and shows a stronger commitment to shifting the hospital and its outpatient clinics to local control, officials from both organizations said. If approved by the state and other regulators, the transition is expected to be completed by the end of 2026.

Neither organization revealed the financial terms of the deal.

"As Providence pursues its 2030 strategic direction, we recognize that we must focus our resources where we can do the greatest good," said Laureen Driscoll, Chief Executive, Providence South Division. "We are confident that NorthBay Health is the right organization to build on The Queen's legacy and continue the commitment to exceptional care for the Napa community. This milestone marks another important step in the process to thoughtfully transition The Queen to NorthBay Health."

NorthBay Health President and CEO Mark Behl called the agreement an "important step toward expanding access, strengthening clinical services, and ensuring more people in the region benefit from high-quality, locally connected care."

He touted NorthBay's locally owned and governed system, saying the organization is "proud to build on Queen of the Valley Medical Center's long-standing legacy of care."

Strategic shift and local focus

Providence leaders said the decision comes as the U.S. health care system

After months of review that included input from leaders and the community, Providence determined that NorthBay Health was best suited to meet Napa's long-term health care needs.

NorthBay, which has operated in Solano County for more than 60 years, said it plans to maintain and build on the Napa hospital's legacy while keeping care centered in the community.

As part of the deal, NorthBay Health has committed to investing in clinical services and community programs, offering jobs to current caregivers, and making sure the facility meets California's earthquake safety standards.

The organizations have also launched a public website to share updates as the process moves forward. It can be found at advancingnapahealth.org/

Continuity of care

“Nothing will change today. The Queen will continue to operate as part of Providence while the due diligence and regulatory processes unfold,” a frequently asked questions section on a website explains. “NorthBay Health will make several commitments, including continuing existing clinical services and community benefit programs, extending offers of employment with NorthBay Health to actively employed caregivers, working with Providence and its NorCal medical group to transition Napa clinicians to the NorthBay system, and continuing to support the foundation in its philanthropic investments in the community.”

The companies admitted that while they will work closely with all caregivers and medical staff to ensure continuity of care, they “are still determining details of the ownership transition and don’t have all the answers today.”

A press release from the companies did not address any potential change in contracts with unions that represent some employees at Queen of the Valley, including the California Nurses Association and the National Union of Healthcare Workers. However, in an interview with the Napa Register, Behl said NorthBay will uphold existing union agreements. “We want to have a smooth transition,” he said.

NorthBay also said it will continue to support the Queen of the Valley Foundation and its fundraising work.

Leaders said patients should not see immediate changes to services, doctors or insurance coverage. Providence will continue to run the hospital during the review process, and patients can keep seeing their doctors at their current locations.

NorthBay Health also said it doesn’t have any current plans to move services out of Napa to other facilities, such as those in Fairfield, underscoring its focus on local care.

Catholic heritage and future structure

The deal would shift the hospital from Catholic ownership to a secular system. Providence said the decision to sell followed a process grounded in its mission and focused on community needs, vulnerable patients, and caregiver support.

As part of the transition, NorthBay Health plans to create a Mission Effectiveness Committee to help preserve the hospital's culture and keep community needs front and center. Spiritual care services will still be available for patients.

With the agreement signed, the proposal now enters a regulatory review that could take several months. Providence will continue to operate the hospital until the deal is finalized.

Each Party shall provide the requesting party and its representatives with copies of, and/or reasonable access to, all information reasonably requested for the purpose of conducting such due diligence. Each Party and its representatives will use good faith efforts to conduct due diligence in such a manner as to minimize any disruption.

4. Communication with Management and Employees. (ii) any requests for communication with any of the foregoing shall be coordinated through PSJH's outside legal counsel for this Transaction.

5. Exclusive Negotiations. The Parties agree to negotiate exclusively with each other in good faith regarding the Transaction until the earlier of: (i) February 28, 2026 and (ii) the termination of this Letter of Intent in accordance with Section 6 (the "**Exclusive Negotiation Period**"). The Exclusive Negotiation Period may be extended by mutual written consent of the Parties. In furtherance of the foregoing, and in consideration of Health System entering into and performing this Letter of Intent and incurring expenses in connection herewith, PSJH shall not directly or indirectly, make or solicit offers from or accept or consider any proposal of any other person or entity to acquire all or substantially all, or a material portion, of the Transferred Assets of QVMC or the Napa Clinics (each as defined below). Further, during the Exclusive Negotiation Period, Health System and its affiliates will not directly or indirectly solicit, initiate, or encourage any physician that performs services on behalf of PMF (as defined below) at the Napa Clinics to cease providing such services exclusively on behalf of PMF at the Napa Clinics. The Parties acknowledge and agree that the foregoing restriction shall not apply to any general solicitation for employment by Health System or to ordinary course communications with Health System medical staff. This Section 5 shall be binding on each Party for the duration of the Exclusive Negotiation Period.

6. Term; Termination of Negotiations. The term of this Letter of Intent shall commence on the Effective Date and continue until superseded by a Definitive Agreement or earlier terminated by mutual agreement of the Parties. In the event the Parties have not entered into a Definitive Agreement regarding the Transaction prior to the expiration of the Exclusive Negotiation Period, then this Letter of Intent will automatically terminate unless the Parties extend this Letter of Intent by mutual agreement. Upon the termination of this Letter of Intent, all rights and obligations of the Parties under this Letter of Intent shall terminate, other than the rights and obligations set forth in Sections 8.b, 8.c, and 8.g of this Letter of Intent. The termination of this Letter of Intent shall not affect the Parties' rights and obligations under the Nondisclosure Agreement, which shall remain in full force and effect pursuant to the terms of the Nondisclosure Agreement.

8. Miscellaneous.

a. Definitive Agreements. The Parties acknowledge and agree that any binding commitment to proceed with the Transaction will arise only if one or more Definitive Agreements with respect thereto are approved by the Parties, and such Definitive Agreements are executed and delivered by the Parties and become effective in accordance with the terms thereof. Neither the expenditure of funds nor the undertaking of actions consistent with this Letter of Intent shall be regarded as the partial performance of a binding agreement or entitle the Party expending funds or taking action to assert claims for reimbursement or damages against another Party relating to such expenditure of funds or actions except as expressly provided in this Letter of Intent. No Party will be entitled to recourse, in the form of damages or otherwise, for expenses incurred or benefits lost before or after the date of this Letter of Intent if there is a failure, for any reason other than a breach of Section 5, of the Parties to agree on the terms and conditions of the Definitive Agreements. The Parties will cooperate in negotiating the Definitive Agreements and any other documents contemplated thereby, but

11. **Queen of the Valley Medical Center Foundation**. Queen of the Valley Medical Center Foundation, a tax-exempt California nonprofit public benefit corporation ("**Foundation**") is a philanthropic foundation with a principal fund established to maintain and/or aid activities supporting QVMC. Pursuant to a Services Agreement between Foundation and QVMC (the "**Services Agreement**"), QVMC provides to Foundation, among other things, administrative employees and office facilities at no cost to the Foundation and Foundation agrees to perform ongoing fundraising services for QVMC. As of the Closing, Health System will assume all the rights and obligations of QVMC under the Services Agreement by either assuming the Services Agreement or entering into a new services agreement with Foundation to supersede and replace the Services Agreement. Following the Closing, Health System will match the Foundation's support of QVMC's identified priority capital expenditure projects in an amount up to Ten Million Dollars ($10,000,000).

12. **Due Diligence**. Health System will complete its due diligence review for the Transaction during the Exclusive Negotiation Period. Copies of third-party reports prepared on behalf of Health System as part of its due diligence review of the Transaction may be provided to PSJH, to the extent not privileged and otherwise permissible.

13. **Naming**. PSJH and Health System will mutually agree on the manner in which the pre-Closing name of QVMC will be incorporated in the name of QVMC after the Closing. 14. **Mission Commitments**.

(a) Mission Commitments. Following the Closing Date for a period of at least three years, or as longer agreed to in the Definitive Agreements (the "Commitment Period")[1], Health System will cause QVMC to continue to honor certain characteristics that are deeply valued by the community. Specifically, Health System shall: (i) continue use of/respect for sacred spaces, mental health services and spiritual care, including, as the diocese determines, diocesan oversight of chapel and/or sacred objects; (ii) ensure established access to liturgy or sacraments; (iii) support the transition and relocation of ecclesiastical goods and/or sacred spaces; (iv) continue the provision of spiritual care, defined by either the direct at-will employment or contracting of chaplains; (v) continue the provision of palliative care at historical levels of PSJH investment (subject to due diligence of same); and (vi) collaborate with PSJH on the transition of visual elements at QVMC that acknowledge the heritage and legacy of the facility (*e.g.*, legacy wall). For as long as PSJH or any of its affiliates provides transition services to Health System that involve the utilization of PSJH caregivers, such caregivers will continue to conduct activities

[1] Health System intends to continue with the mission commitments set forth in this Section 14(a) for longer than the defined Commitment Period, and this Section 14(a) should not be interpreted to mean that Health System intends to cease supporting these commitments after the defined period.

consistent with all aspects of the Ethical and Religious Directives. Further, during the Commitment Period, Health System will continue caring for those who are poor and vulnerable by: continuing to operate QVMC as a licensed acute care hospital; continuing to participate as an enrolled provider in Medicare and Medicaid; providing charity care pursuant to a charity care policy no less favorable than QVMC's existing charity care policy; and continuing to provide community benefit programs, including the following specific programs:

(i) **Care Network**: A comprehensive care coordination and assistance program offered to low-income Napa County residents with complex medical and social challenges who are underinsured or uninsured.

(ii) **Mobile Dental Clinic**: A Mobile Dental Clinic providing dental care to children and young adults throughout Napa County.

(iii) **Naloxone Distribution Box**: The Naloxone Distribution Box placed outside the emergency room provides 24/7 free access to life-saving naloxone and fentanyl testing strips. (iv) **Perinatal and Health Education**: A primary prevention program offering a range of maternal and child health education classes and community health services for mothers, children, and families.

(v) **Soules Family Cancer Wellness Program**: With a physician referral, QVMC's 12-week Cancer Wellness Program is available free of charge to cancer patients who reside in the Napa Valley, regardless of where they are treated, and for all patients treated at QVMC, regardless of where they live. Every year, more than 100 cancer patients and survivors rely on QVMC's Cancer Wellness Program.

(b) Religious Items. As will be further set forth in the Asset Purchase Agreement, PSJH will have the right to remove any and all sacred artifacts and ecclesiastical goods located at QVMC or its related healthcare facilities in the Napa Service Area ("**Religious Items**"), including, without limitation, the right to determine the manner in which such Religious Items are removed from QVMC and its related healthcare facilities, and Health System will cooperate with PSJH in good faith with such removal of Religious Items.

15. **Transition Services**. The Parties acknowledge that in order for Health System to transition certain components of the operations of QVMC and the Napa Clinics, Health System will need to obtain certain transition services from PSJH or its affiliates for a period of time after the Closing. Accordingly, such services will be negotiated by PSJH and Health System and memorialized in a Transition Services Agreement(s) (collectively, the "**TSA**") to be entered into between PSJH and/or its affiliates, on the one hand, and Health System, on the other hand. The scope of services to be provided to Health System under the TSA will be determined by PSJH and Health System during due diligence. The TSA shall contain commercially reasonable terms, including fair market value compensation to be paid by Health System to PSJH or its affiliates for the transition services rendered under the TSA.

16. **Termination Fees**. In the event the Transaction results in any termination, separation or similar fee being due and payable by PSJH or any of its affiliates under any system-level or multi-facility contracts of PSJH or any of its affiliates, Health System will be responsible for paying all such fees.

17. **Employees**. Prior to Closing, PSJH will provide Health System a list of all individuals who are an employee of SJHNC, PMF, or another affiliate of PSJH and, in each case primarily provide services at, to or on behalf of QVMC or the Napa Clinics (the "**Employees**"). At Closing, Health System will offer employment to all the Employees. Such Employees that are hired by Health System shall be referred to herein as "**Transferred Employees**." Transferred Employees will be employed in the same or comparable positions (including the same or better job title and responsibilities or as may be required by existing collective bargaining agreements and the National Labor Relations Act) for a minimum of eighteen (18) months after Closing, unless employment is terminated by the employer for cause. Unless otherwise set by applicable law or in a collective bargaining agreement applicable to any of the Employees, Health System will ensure that each Transferred Employee be provided with: (a) base salary/wages, target annual bonus and/or incentive compensation opportunities at least equal to the base salary/wages, target annual bonus and/or target annual incentive compensation made available to such Transferred Employee prior to the Closing; (b) severance benefits at least as favorable as those in effect for such Transferred Employee prior to Closing, if any; and (c) other benefits and terms and conditions of employment that are either: (i) substantially comparable in the aggregate to those in effect for such Transferred Employee prior to Closing; or (ii) substantially comparable to those provided to similarly situated employees of the Health System. Health System will reimburse PSJH for the cost of unused vacation, personal or sick time of Transferred Employees that has accrued as of the Closing and SJHNC, PMF, or another affiliate of PSJH pays as a result of terminating the employment of such Transferred Employees. Health System will recognize service credit of all Transferred Employees for purposes of eligibility, vesting and levels of benefits applicable to Health System's corresponding employee welfare benefit plans, retirement, vesting, paid time off, vacation, or other benefit of employment. Prior to the Closing, PJSH, in coordination with Health System, will provide notice to the union representatives of the Transferred Employees in compliance with applicable collective bargaining agreements and bargaining obligations under the National Labor Relations Board. Health System intends to honor existing collective bargaining agreements and will work with PSJH to transition such contracts to Health System.

18. **QVMC Medical Staff**. Health System will permit QVMC to retain a separate, independent medical staff accountable to Health System's board of directors and allow QVMC to retain the medical staff bylaws of QVMC in effect as of Closing. Additionally, Health System will not require or take any action as a condition of or in connection with the Transaction that would change any officers or committee chairs of the medical staff of QVMC or alter the membership status and clinical privileges that any medical staff member had immediately prior to the Closing. Health System agrees that such status may be changed only after the Closing and only in accordance with the provisions of the medical staff bylaws and applicable laws.

19. **Additional Terms**. The Definitive Agreements will also include the following terms:

Docusign Envelope ID: 2DF928FA-1CA5-44A7-8AEA-2212815B4229

(a) Health System will obtain all corporate and internal approvals necessary to consummate the Transaction prior to signing the Asset Purchase Agreement.

(b) The Sellers and Health System will make mutual representations and warranties to each other in the Asset Purchase Agreement, with knowledge and other customary qualifications and limitations and mutually agreeable materiality thresholds. The knowledge of each party will be limited to the actual knowledge of its executive leadership team. All representations and warranties will be qualified by disclosure schedules delivered by each party to the other party prior to signing the Asset Purchase Agreement and updated prior to Closing.

(c) The Sellers and Health System will provide full non-reliance provisions, agreeing that the other parties' representations and warranties set forth in the Asset Purchase Agreement, together with bring down certificates, delivered at Closing, constitute the sole and exclusive representations and warranties made by or on behalf of any of the parties in connection with the Asset Purchase Agreement or the Transaction. Each party will disclaim any other representations and warranties, express or implied, and waive any claim for reliance on any other representations or warranties.

(d) All representations and warranties by or on behalf of any of the Sellers will expire eighteen (18) months after the Closing. Sellers will defend and indemnify Health System against losses arising from: (i) a breach of the Sellers' representations, warranties and covenants in the Asset Purchase Agreement; and (ii) Excluded Liabilities; provided, that the aggregate liability of the Sellers for such indemnification will not exceed ten percent (10%) of the Purchase Price (the "**Cap**"). Each Party will notify the other of communications from the CAG relating to such notice or approval. Health System will accept all reasonable conditions imposed by the CAG in connection with the CAG's approval of the Transaction, with the reasonableness of such conditions being informed by conditions imposed by the CAG on hospital change-of-control transactions that have been consummated within the twenty-four (24) month prior to the Effective Date. Health System will be responsible for paying all costs associated with the CAG's review of the Transaction, including, without limitation, the cost of the CAG's outside consultants.

Docusign Envelope ID: 2DF928FA-1CA5-44A7-8AEA-2212815B4229

Health System will be responsible for all HSR Act filing fees for the Transaction. Each of PSJH and Health System will use reasonable best efforts to resolve any objections asserted by any applicable governmental agency with respect to the Transactions under the HSR Act or any other federal antitrust laws; provided, such reasonable best efforts shall not require Health System to commit to: (i) sell or otherwise dispose of assets of Health System's business or operations; or (ii) divest or hold separate any of the Transferred Assets or all or any portion of the Business.

Independent Auditors' Report

The Board of Directors
Providence St. Joseph Health:

Opinion

We have audited the combined financial statements of Providence St. Joseph Health(the Health System), which comprise the combined balance sheets as of December 31, 2025 and 2024, and the related combined statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the combined financial statements.

In our opinion, the accompanying combined financial statements present fairly, in all material respects, the financial position of the Health System as of December 31, 2025 and 2024, and the results of its operations and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Combined Financial Statements section of our report. We are required to be independent of the Health System and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Combined Financial Statements

Management is responsible for the preparation and fair presentation of the combined financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the combined financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Health System's ability to continue as a going concern for one year after the date that the combined financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Combined Financial Statements

Our objectives are to obtain reasonable assurance about whether the combined financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the combined financial statements.

KPMG LLP, a Delaware limited liability partnership, and its subsidiaries are part of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the combined financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the combined financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Health System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the combined financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Health System's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the combined financial statements as a whole. The Obligated Group Combining Balance Sheets and Statements of Operations Information included on pages 35 and 36 is presented for purposes of additional analysis and is not a required part of the combined financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined financial statements. The information has been subjected to the auditing procedures applied in the audit of the combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statements or to the combined financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the information is fairly stated in all material respects in relation to the combined financial statements as a whole.

(1) Basis of Presentation and Significant Accounting Policies

(a) Reporting Entity

Providence St. Joseph Health (the Health System), a Washington nonprofit corporation, is the sole corporate member of Providence Health & Services (PHS) and the St. Joseph Health System (SJHS). PHS, a Washington nonprofit corporation, is a Catholic healthcare system sponsored by the public juridic person, Providence Ministries. SJHS, a California nonprofit public benefit corporation, is a Catholic healthcare system sponsored by the public juridic person, St. Joseph Health Ministry.

The Health System seeks to improve the health of the communities it serves, especially the poor and vulnerable. The Health System operations include 51 hospitals and a comprehensive range of services provided across Alaska, California, Montana, New Mexico, Oregon, Texas, and Washington. The Health System also provides population health management through various affiliated licensed insurers and other risk-bearing entities.

The Health System has been recognized as exempt from federal income taxes, except on unrelated business income, under Section 501(a) of the Internal Revenue Code (IRC) as an organization described in Section 501(c)(3) and further described as a public charitable organization under Section 509(a)(3). PHS, SJHS, and substantially all of the corporations within the Health System have been granted exemptions from federal income tax under Section 501(a) of the Internal Revenue Code as charitable organizations described in Section 501(c)(3).

(b) Basis of Presentation

The accompanying combined financial statements of the Health System were prepared in accordance with U.S. generally accepted accounting principles and include the assets, liabilities, revenues, and expenses of all wholly owned affiliates, majority-owned affiliates over which the Health System exercises control, and, when applicable, entities in which the Health System has a controlling financial interest. Intercompany balances and transactions have been eliminated in combination.

(c) Performance Indicator

The performance indicator is the deficit of revenues over expenses. Changes in net assets without restrictions that are excluded from the performance indicator include net assets released from restriction for the purchase of property, plant, and equipment, certain changes in funded status of pension and other postretirement benefit plans, net changes in noncontrolling interests in combined joint ventures, and certain other activities.

(d) Operating and Nonoperating Activities

The Health System's primary mission is to meet the healthcare needs in its market areas through a broad range of general and specialized healthcare services, including inpatient acute care, outpatient services, physician services, long-term care, population health management, and other healthcare and health insurance services. Activities directly associated with the furtherance of this mission are considered to be operating activities. Other activities that result in gains or losses peripheral to the Health System's primary mission are considered to be nonoperating. Nonoperating activities include investment earnings, gains or losses from debt extinguishment, gains or losses from disaffiliation

activity, certain pension related costs, gains or losses on interest rate swaps, and certain other activities.

(e) Use of Estimates and Assumptions

The preparation of the combined financial statements in conformity with U.S. generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses during the reporting periods. Significant estimates and assumptions are used for, but not limited to: (1) patient revenue recognition; (2) fair value of acquired assets and assumed liabilities in business combinations; (3) fair value of investments; (4) reserves for self-insured healthcare plans; and (5) reserves for professional, workers' compensation, and general insurance liability risks.

The accounting estimates used in the preparation of the combined financial statements will change as new events occur, additional information is obtained, or the operating environment changes. Assumptions and the related estimates are updated on an ongoing basis, and external experts may be employed to assist in the evaluation, as considered necessary. Actual results could materially differ from those estimates.

(f) Restructuring and Other

Restructuring costs were recorded during the years ended December 31, 2025 and 2024. The amounts were comprised primarily of asset rationalization and employee reductions, and other items related to restructuring initiatives.

(g) Held for Sale and Discontinued Operations

In December 2025, the Health System approved a plan to sell assets within the Providence Health Group, LLC subsidiaries (the Disposal Group). The Disposal Group meets the criteria for classification as held for sale and discontinued operations. The Health System expects the sale to be completed in 2026, pending regulatory approval.

The Disposal Group was measured at the lower of carrying amount or fair value less costs to sell. No impairment was recognized. The following table summarizes the total carrying amount of the assets and liabilities of the subsidiaries held for sale as of December 31, 2025. The major assets consist of cash, receivables, investments, and property, plant, and equipment. The major liabilities are related to medical claims.

Current assets	$	363
Long-term assets		280
Total assets	$	643
Current liabilities	$	454
Long-term liabilities		1
Total liabilities	$	455

For the years ended December 31, 2025 and 2024, net cash used in operating activities was $109 and $73, respectively. Net cash provided by investing activities was $75 for both years ended December 31, 2025 and 2024.

The 2025 and 2024 operating results of the subsidiaries held for sale are shown within discontinued operations on the combined statements of operations. The combined statements of operations remove the results of operations of the Disposal Group from the individual line items and are presented as one line item under loss from operations of discontinued subsidiaries. The reconciliation of loss from operations of discontinued subsidiaries are as follows for the years ended December 31:

		2025	2024
Operating revenues:			
Premium revenues	$	2,594	2,484
Other revenues		92	145
Total operating revenues		2,686	2,629

Net nonoperating gains (losses):

Total net nonoperating gains		71	37
Loss from operations of discontinued subsidiaries	$	(102)	(61)

(h) Joint Venture

In October 2024, the Health System announced a new joint venture with Compassus for home health hospice, community-based palliative care and private duty caregiving services. The new entity is called Providence at Home with Compassus. In Lubbock, Texas, the Covenant Health hospice program that is part of the Providence family of organizations will be rebranded as Covenant Health at Home with Compassus. Under the agreement, Compassus will manage operations for the joint venture, which will include 24 home health locations in Alaska, California, Oregon and Washington, and 17 hospice and palliative care locations in Alaska, California, Oregon, Texas and Washington. The joint venture also includes private duty services in Southern California. In March 2025, the joint venture was finalized in Alaska, Texas and Washington. California ministries transferred to the joint venture in October 2025

and Oregon ministries are expected to be transferred in the first half of 2026. As a result of this joint venture, the Health System has recognized a gain of $317 in 2025, which is included in other revenues in the combined statement of operations.

(i) Sales of Subsidiaries

Effective December 30, 2025, the Health System completed the sale of its clinical engineering department to Trimedx Holdings, LLC. At closing, a net gain was reported within operating income, consistent with the treatment of similar disposals.

The Health System completed the sale of its Acclara and Advata subsidiaries to R1 RCM ("R1") effective January 17, 2024 for cash of $575 and a warrant valued at $55 to purchase up to 12.2 million shares of R1 stock at an exercise price of $10.52, subject to a three-year lock-up period. Upon closing of the transaction in January 2024, the Health System recorded a gain of approximately $371, which is included in other revenues in the combined statement of operations. The Health System entered into a 10-year agreement for comprehensive revenue cycle services from Acclara that remains in progress. In November 2024, R1 sold all outstanding common shares, and the Health System received $46 for its warrants.

(j) Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original or remaining maturity of three months or less when acquired. The Health System maintains cash balances above Federal Deposit Insurance Corporation limits.

(k) Supplies Inventory

Supplies inventory is stated at the lower of cost (first-in, first-out) or market.

(l) Investments Including Assets Whose Use Is Limited

The Health System has classified all of its investments as trading securities. These investments are reported on the combined balance sheets at fair value on a trade-date basis.

Assets whose use is limited primarily include assets held by trustees under indenture agreements and designated assets set aside by management of the Health System for future capital improvements and other purposes, over which management retains control. Assets whose use is limited also include funds held for self-insurance purposes, health plan medical claims payments and other statutory reserve requirements, as well as assets held by related foundations. Temporary cash held by fund managers is considered investing activity for cash flow purposes.

(m) Liquidity

Cash and cash equivalents and accounts receivable are the primary liquid resources used by the Health System to meet expected expenditure needs within the next year. The Health System has credit facility programs, as described in Note 7, available to meet unanticipated liquidity needs. Although intended to satisfy long-term obligations, management estimates that approximately 46% and 41% of noncurrent investments, as stated at December 31, 2025 and 2024, respectively, could be utilized within the next year, if needed.

(n) Derivative Instruments

The Health System allows certain investment managers to use derivative financial instruments (futures and forward currency contracts) to manage market risk related to the Health System's equity, fixed-income, and commodities holdings.

(o) Net Assets

Net assets without donor restrictions are those that are not subject to donor-imposed stipulations. Amounts related to the Health System's noncontrolling interests in certain joint ventures are included in net assets without donor restrictions.

Net assets with donor restrictions are those whose use by the Health System has been limited by donors to a specific time period, in perpetuity, and/or purpose.

Net assets with donor restrictions are available for the following purposes as of December 31:

		2025	2024
Program support	$	1,247	1,162
Capital acquisition		222	177
Low-income housing and other		97	88
Total net assets with donor restrictions	$	1,566	1,427

(p) Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the Health System are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the promise to give is no longer conditional. The gifts are reported as contributions with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When the terms of a donor restriction are met, net assets with donor restrictions are reclassified as net assets without donor restrictions and reported as other operating revenues in the combined statements of operations or as net assets released from restriction in the combined statements of changes in net assets.

(q) Charity Care and Community Benefit

The Health System provides community benefit activities that address significant health priorities within its geographic service areas. These activities include uncompensated Medicaid and Medicare shortfalls, community health services, education and research, and free and low-cost care (charity care).

Charity care is reported at estimated cost and is determined by multiplying the charges incurred at established rates for services rendered by the Health System's cost-to-charge ratio. The estimated cost of charity care and other community benefit provided by the Health System for the years ended December 31, 2025 and 2024 was $2,095 and $1,887, respectively, including uncompensated

Medicaid totaling $1,283 and $1,131, respectively. The Health System's estimated Medicare shortfalls were $913 and $860 for the years ended December 31, 2025 and 2024, respectively.

(r) Subsequent Events

The Health System has performed an evaluation of subsequent events through March 26, 2026, the date the accompanying combined financial statements were issued.

(s) Reclassifications

Certain reclassifications, which have no impact on net assets, results of operations, or changes in net assets, have been made to prior year amounts to conform to the current year presentation.

(2) Revenue Recognition

(a) Net Patient Service Revenues

The Health System has agreements with governmental and other third-party payors that provide for payments to the Health System at amounts different from established charges. Payment arrangements for major third-party payors may be based on prospectively determined rates, reimbursed cost, discounted charges, per diem payments, or other methods.

Net patient service revenues are recognized at the time services are provided to patients. Revenue is recorded in the amount that the Health System expects to collect, which may include variable components. Variable consideration is included in the transaction price to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved. Adjustments from finalization of prior years' cost reports and other third-party settlement estimates resulted in an increase in net patient service revenues of $8 and $33 for the years ended December 31, 2025 and 2024, respectively.

Various states in which the Health System operates have instituted a provider tax on certain patient service revenues at qualifying hospitals to increase funding from other sources and obtain additional federal funds to support increased payments to providers of Medicaid services. The taxes are included in purchased services, professional fees, and other expenses in the accompanying combined statements of operations and were $993 and $887 for the years ended December 31, 2025 and 2024, respectively. These programs resulted in enhanced payments from these states in the way of lump-sum payments and per claim increases. These enhanced payments are included in net patient service revenues in the accompanying combined statements of operations and were $1,419 and $1,315 for the years ended December 31, 2025 and 2024, respectively.

(b) Premium and Capitation Revenues

Premium and capitation revenues are received on a prepaid basis and are recognized as revenue ratably over the period for which the enrolled member is entitled to healthcare services. The timing of the Health System's performance may differ from the timing of the payment received, which may result in the recognition of a contract asset or a contract liability. The balance of contract liabilities was $27

and $32 as of December 31, 2025 and 2024, respectively, and is included in other current liabilities in the combined balance sheets. The Health System has no material contract assets.

(c) Disaggregation of Revenue

The Health System earns the majority of its revenues from contracts with customers. Revenues and adjustments not related to contracts with customers are included in other revenue.

Other revenues are comprised primarily of point of sale for retail pharmacy, cafeteria, grant revenue, and sale of subsidiaries and are recognized in accordance with contract terms.

Operating revenues from contracts with customers by state are as follows for the years ended December 31:

		2025	2024

(3) Fair Value Measurements

ASC Topic 820, *Fair Value Measurements*, requires a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs include quoted prices (unadjusted) in active markets for identical assets or liabilities that the Health System has the ability to access at the measurement date.
- Level 2 inputs include inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest-level input that is significant to the fair value measurement in its entirety.

(a) Assets Whose Use Is Limited

The fair value of assets whose use is limited, other than those investments measured using net asset value per share (NAV) as a practical expedient for fair value, is estimated using quoted market prices or other observable inputs when quoted market prices are unavailable.

The composition of assets whose use is limited is set forth in the following tables:

The Health System participates in various funds that are not actively marketed on an open exchange. These investments consist of shares or units in investment funds as opposed to direct interests in the funds' underlying holdings, which may be marketable. Due to the nature of these funds, the NAV per share, or its equivalent, reported by each fund manager is used as a practical expedient to estimate the fair value of the Health System's interest therein. Management believes that the carrying amounts of these financial instruments, provided by the fund managers, are reasonable estimates of fair value.

The following table presents information, including unfunded commitments for investments where the NAV was used to estimate the value of the investments as of December 31:

	2025	2024	Unfunded commitments	Redemption frequency	Redemption notice period
Hedge funds:	$ 364	466	2	Annually, semi-annually, monthly, quarterly, or not applicable	5–95 days
Private equity	788	962	210	Not applicable	Not applicable
Private debt	77	77	60	Not applicable	Not applicable
Private real estate	218	229	105	Not applicable	Not applicable

Commingled	26	22	—	Monthly, weekly, or not applicable	3–5 days
Total	$ 1,552	1,831	402		

The following is a summary of the nature of these investments and their associated risks:

Hedge funds are portfolios of investments that use advanced investment strategies, such as long/short equity, credit, relative value, global macro, and fund of hedge funds positions in both domestic and international markets, with the goal of diversifying portfolio risk and generating return. The Health System's investments in hedge funds include certain funds with provisions that limit the Health System's ability to access assets invested. These provisions include lock-up terms that range up to three years from the subscription date or are continuous and determined as a percent of total assets invested. The Health System is in various stages of the lock-up periods dependent on hedge fund and period of initial investments.

Private assets funds make opportunistic investments that are primarily private in nature. These investments cannot be redeemed by the Health System; rather the Health System has committed an amount to invest in the private funds over the respective commitment periods. After the commitment period has ended, the nature of the investments in this category is that the distributions are received through the liquidation of the underlying assets.

Commingled describes a type of fund structure. Commingled funds consist of assets from several accounts that are blended together. Investors in commingled fund investments benefit from economies of scale, which allow for lower trading costs per dollar of investment.

(b) Unsettled Transactions

Investment sales and purchases initiated prior to and settled subsequent to the combined balance sheet date result in amounts due from and to brokers. As of December 31, 2025, the Health System recorded a receivable of $18 for investments sold but not settled and a payable of $64 for investments purchased but not settled in other current assets and other current liabilities, respectively, in the accompanying combined balance sheets. As of December 31, 2024, the Health System recorded a payable of $19 for investments purchased but not settled in other current liabilities in the accompanying combined balance sheets.

(c) Derivative Instruments

The investment managers have executed master netting arrangements with the counterparties of the futures and forward currency purchase and sale contracts whereby the financial instruments held by the same counterparty are legally offset as the instruments are settled. The following table summarizes the gross notional value of derivative contracts outstanding as of December 31, 2025 and 2024. The gross notional values give an indication of the volume of the Health System's derivative activities and significantly exceed the fair value of the derivative instruments.

		2025	2024
Futures contracts	$	845	1,106
Foreign currency forwards and other contracts		453	526
Total gross notional value	$	1,298	1,632

The fair value of derivative contracts in an asset position was $6 for both years as of December 31, 2025 and 2024. The fair value of derivatives contracts in a liability position was $2 and $6 as of December 31, 2025 and 2024, respectively. These fair market value are included in assets whose use is limited in the combined balance sheets.

The Health System also uses short-term forward purchase and sale commitments of mortgage-backed and certain other assets. The total notional derivative amount of such contracts traded but not yet settled purchased and sold was $198 and $35, respectively, as of December 31, 2025. The total notional derivative amount of such contracts traded but not yet settled purchased and sold was $135 and $11, respectively, as of December 31, 2024. These meet the definition of a derivative instrument in cases where physical delivery of the assets is not taken at the earliest available delivery date.

(d) Investment Income, Net

		2025	2024
Interest and dividend income	$	136	158
Net realized gains on sale of trading securities		256	352
Change in net unrealized gains (losses) on trading securities		38	(59)
Investment income, net	$	430	451

(e) Assets Measured Using Significant Unobservable Inputs

Level 3 assets include charitable remainder trusts. The fair values of these trusts were estimated using an income approach.

(4) Property, Plant, and Equipment, Net

Property, plant, and equipment are stated at cost. Improvements and replacements of plant and equipment are capitalized, and maintenance and repairs are expensed. The provision for depreciation is determined by the straight-line method, which allocates the cost of tangible property equally over its estimated useful life or lease term. Impairment of property, plant, and equipment is assessed when there is evidence that events or changes in circumstances have made recovery of the net carrying value of assets unlikely.

Interest capitalized on amounts expended during construction is a component of the cost of additions to be allocated to future periods through the provision for depreciation. Capitalization of interest ceases when the addition is substantially complete and ready for its intended use.

Property, plant, and equipment and the total accumulated depreciation are as follows as of December 31:

	Approximate useful life (years)	2025	2024
Land	—	$ 1,077	1,096
Buildings and improvements	5–60	11,478	11,224
Equipment:			
Fixed	5–25	1,413	1,396
Major movable and minor	3–20	8,789	8,273
Construction in progress	—	1,511	1,288
		24,268	23,277
Less accumulated depreciation		(14,813)	(14,044)
Property, plant, and equipment, net		$ 9,455	9,233

Construction in progress primarily represents renewal and replacement of various facilities in the Health System's operating divisions, as well as costs capitalized for software development.

(5) Other Assets

Other assets are summarized as follows as of December 31:

		2025	2024
Investment in nonconsolidated joint ventures	$	1,209	935
457(b) deferred compensation		918	771
Goodwill, net of accumulated amortization		128	154
Intangible assets, net of accumulated amortization		103	108
Beneficial interest in noncontrolled foundations		199	199
Other		449	415
Total other assets	$	3,006	2,582

Goodwill is recorded as the excess of cost over fair value of the acquired net assets. Goodwill is amortized over a ten-year period. Goodwill is tested for impairment when a triggering event occurs that indicates that it is more likely than not that the fair value of the reporting unit is below its carrying value. The Health System recorded no goodwill impairment for the years ended December 31, 2025 and 2024.

Indefinite-lived intangible assets are recorded at fair value using various methods depending on the nature of the intangible asset and are tested annually for impairment. Definite-lived intangible assets are amortized using the straight-line method over the estimated useful lives of the assets.

(6) Leases

The Health System enters into operating and finance leases primarily for buildings and equipment. For leases with terms greater than 12 months, the Health System records the related right-of-use (ROU) asset and liability at the present value of the lease payments over the contract term using the Health System's incremental borrowing rate. Building lease agreements generally require the Health System to pay maintenance, repairs, and property taxes, which are variable based on actual costs incurred during each applicable period. Such costs are not included in the determination of the ROU asset or lease liability. Variable lease costs also include escalating rent payments that are not fixed at lease commencement but are based on an index that is determined in future periods over the lease term based on changes in the Consumer Price Index or other measure of cost inflation. Most leases include one or more options to renew the lease at the initial term, with renewal terms that generally extend the lease at the then market rate of rental payment. Certain leases also include an option to buy the underlying asset at or a short time prior to the termination of the lease. All such options are at the Health System's discretion and are evaluated at the lease commencement, with only those that are reasonably certain of exercise included in determining the appropriate lease term.

The components of lease cost are as follows for the years ended December 31:

		2025	2024
Operating lease cost:			
Fixed lease expense	$	230	236
Short-term lease expense		3	3
Variable lease expense		170	177

Finance lease cost:

Supplemental cash flow and other information related to leases as of and for the years ended December 31 are as follows:

		2025	2024

Operating cash flows from operating leases	$	230	236

(1) Variable rate debt and credit facilities carry floating interest rates attached to indexes, which are subject to change based on market conditions.

Short-term master trust debt includes debt issued with final maturity or mandatory redemption within one year of December 31, 2025 and 2024.

In February 2025, the Health System renewed a $200 PNC Bilateral Note for five years and increased its size to $275. The additional $75 in proceeds were used to reduce the Revolving Credit Facility balance at the close of the transaction.

In June 2025, the Health System issued $400 in taxable bonds, Series 2025A, the proceeds of which were used to reduce balances held on the Revolving Credit Facility. In July 2025, the Health System issued $346 in tax-exempt bonds, California Health Facilities Financing Authority ("CHFFA") Series 2025C, the proceeds of which refunded certain tax-exempt borrowings held on the Revolving Credit Facility and certain outstanding bonds and maturities, CHFFA 2013A, CHFFA 2016B3, and CHFFA 2019C.

In September 2025, the Health System modified its existing Revolving Credit Facility, extending the maturity from September 2026 to September 2030 and increasing the facility size from $1,250 to $1,500.

In October 2025, the Health System issued $375 in tax-exempt bonds, Series 2025B, which were priced at a premium. The proceeds were used primarily to reimburse the Health System for capital

expenditures that begun in 2023 related to Swedish First Hill hospital expansion as well as for some future project spend.

Borrowings and payments on the Revolving Credit Facility are presented within debt borrowings and debt payments, respectively, within the combined statements of cash flows.

The following table reflects classification of long-term debt obligations in the accompanying combined balance sheets as of December 31:

		2025	2024
Current portion of long-term debt	$	137	184
Master trust debt classified as short-term		621	494
Long-term debt, classified as a long-term liability		7,807	7,495
Total debt	$	8,565	8,173

(b) Other Long-Term Debt

Other long-term debt consists of the following as of December 31:

		2025	2024
Finance leases	$	526	613
Notes payable and other		28	1
Total other long-term debt	$	554	614

(c) Debt Service

Scheduled principal payments of long-term debt, considering all obligations under the master trust indenture as due according to their long-term amortization schedule, for the next five years and thereafter are as follows:

		Master trust	Other	Total
2026	$	681	78	759
2027		190	47	237
2028		169	40	209

Scheduled principal payments of long-term debt	$	7,907	554	8,461

(8) Retirement Plans

(a) Defined Benefit Plans

The Health System sponsors various frozen defined benefit retirement plans. The measurement dates for the defined benefit plans are December 31. A rollforward of the change in projected benefit obligation and change in the fair value of plan assets for the defined benefit plans is as follows:

		2025	2024
Change in projected benefit obligation:			
Projected benefit obligation at beginning of year	$	2,070	2,186
Service cost		8	9
Interest cost		115	110
Actuarial loss (gain)*		45	(60)
Benefits paid and other		(179)	(175)
Projected benefit obligation at end of year		2,059	2,070
Change in fair value of plan assets:			
Fair value of plan assets at beginning of year		1,585	1,558
Actual return on plan assets		214	120
Employer contributions		89	82
Benefits paid and other		(179)	(175)
Fair value of plan assets at end of year		1,709	1,585
Funded status		(350)	(485)
Unrecognized net actuarial loss		90	172
Unrecognized prior service cost		1	1
Net amount recognized	$	(259)	(312)
Amounts recognized in the combined balance sheets consist of:			
Noncurrent assets	$	3	35
Current liabilities		(1)	(1)
Noncurrent liabilities		(352)	(519)
Net assets without donor restrictions		91	173
Net amount recognized	$	(259)	(312)
Weighted average assumptions (projected benefit obligation):			
Discount rate		5.60 %	5.80 %
Rate of increase in compensation levels		4.00	4.00
Cash balance crediting rate		3.92	3.53

* For both years, significant gain/loss was due to the change in the discount rate.

Net periodic pension cost for the defined benefit plans includes the following components:

		2025	2024
Components of net periodic pension cost:			
Service cost	$	8	9
Interest cost		115	110
Expected return on plan assets		(94)	(91)
Recognized net actuarial loss		2	3
Net periodic pension cost	$	31	31
Special recognition – settlement expense	$	4	7
Weighted Average Assumptions (net periodic pension cost):			
Discount rate		5.80 %	5.30 %
Rate of increase in compensation levels		4.00	4.00
Long-term rate of return on assets		4.75 - 7.00	4.75 - 6.75
Cash balance crediting rate		3.53	3.25

Certain plans sponsored by the Health System allow participants to receive their benefit through a lump-sum distribution upon election. When lump-sum distributions exceed the combined total of service cost and interest cost during a reporting period, settlement expense is recognized. Settlement expense represents the proportional recognition of unrecognized actuarial loss and prior service cost. Settlement expense for the years ended December 31, 2025 and 2024 is included in net nonoperating gains (losses) in the accompanying combined statements of operations.

The accumulated benefit obligation was $2,030 and $2,040 at December 31, 2025 and 2024, respectively.

The following pension benefit payments reflect expected future service. Payments expected to be paid over the next 10 years are as follows:

2026	$	173
2027		173
2028		174
2029		172
2030		169
2031–2035		806
	$	1,667

The Health System expects to contribute approximately $105 to the defined benefit plans in 2026.

The expected long-term rate of return on plan assets is the expected average rate of return on the funds invested currently and on funds to be invested in the future in order to provide for the benefits included in the projected benefit obligation. The Health System used a range of 4.75% to 7.00% and 4.75% to 6.75% in calculating the 2025 and 2024 expense amounts, respectively. This assumption is based on capital market assumptions and the plan's target asset allocation.

The Health System continues to monitor the expected long-term rate of return. If changes in those parameters cause the expected rate of return to be outside of a reasonable range of expected returns, or if actual plan returns over an extended period of time, suggest that general market assumptions are not representative of expected plan results, the Health System may revise this estimate prospectively.

The target asset allocation and expected long-term rate of return on assets (ELTRA) were as follows at December 31:

	2025 Target	2025 ELTRA	2024 Target	2024 ELTRA
Cash and cash equivalents	0 %	3 %	0 %	3 %
Equity securities	45	7	46	7
Debt securities	37	5 – 6	34	5
Other securities	18	6 – 7	20	6 – 8
Total	100	4.75 – 7.00	100	4.75 – 6.75

The following table presents the Health System's defined benefit plan assets measured at fair value:

The Health System's defined benefit plans participate in various funds that are not actively marketed on an open exchange. These investments consist of shares or units in investment funds as opposed to direct interests in the funds' underlying holdings, which may be marketable. Due to the nature of these funds the NAV per share, or its equivalent, reported by each fund manager is used as a practical expedient to estimate the fair value of the Health System's interest therein. Management believes that the carrying amounts of these financial instruments provided by the fund managers are reasonable estimates of fair value.

The following table presents information for investments where either the NAV per share or its equivalent was used to value the investments as of December 31:

	2025	2024	Unfunded commitments	Redemption frequency	Redemption notice period
Hedge funds:	$ 199	203	—	Annually, semi-annually, quarterly, monthly, or not applicable	5–90 days
Private equity	9	4	19	Not applicable	Not applicable
Private debt	9	2	14	Not applicable	Not applicable
Total	$ 217	209	33		

The Health System's defined benefit plans also allow certain investment managers to use derivative financial instruments. These investment managers have executed master netting arrangements with the counterparties of the futures and forward currency purchase and sale contracts whereby the

financial instruments held by the same counterparty are legally offset as the instruments are settled. The following table summarizes the gross notional value of derivative contracts outstanding as of December 31, 2025 and 2024. The gross notional values give an indication of the volume of the Health System's derivative activities and significantly exceed the fair value of the derivative instruments.

		2025	2024
Futures contracts	$	563	204
Foreign currency forwards and other contracts		63	117
Total gross notional value	$	626	321

The fair value of derivatives contracts in an asset position was $3 and $4 as of December 31, 2025 and 2024, respectively. The fair value of derivatives contracts in a liability position was $0 and $3 as of December 31, 2025 and 2024, respectively. These fair market value are included in assets whose use is limited in the combined balance sheets.

(b) Defined Contribution Plans

The Health System sponsors various defined contribution retirement plans that cover substantially all employees. The plans provide for employer matching contributions in an amount equal to a percentage of employee pretax contributions, up to a maximum amount. In addition, the Health System makes contributions to eligible employees based on years of service. Retirement expense related to these plans was $372 and $709 in 2025 and 2024, respectively, and is reflected in salaries and benefit expense in the accompanying combined statements of operations.

(c) Other Plans

The Health System recorded amounts totaling $918 and $771 as of December 31, 2025 and 2024, respectively, based on the fair value of various 457 (b) plans' assets. These other plan assets are investments in mutual funds valued using Level 1 fair value measurements and are included in other assets in the accompanying combined balance sheets. The corresponding liability is included in other long term liabilities in the accompanying combined balance sheets.

(9) Self-Insurance Liabilities

The Health System has established self-insurance programs for professional and general liability and workers' compensation insurance coverage. These programs provide insurance coverage for healthcare institutions associated with the Health System. The Health System also operates insurance captives, Providence Assurance LLC, to self-insure or reinsure certain layers of professional and general liability risk.

The Health System accrues estimated self-insured professional and general liability and workers' compensation insurance claims based on management's estimate of the ultimate costs for both reported claims and actuarially determined estimates of claims incurred but not reported. Insurance coverage in excess of the per occurrence self-insured retention has been secured with insurers or reinsurers for specified amounts for professional, general, and workers' compensation liabilities. Decisions relating to the limit and scope of the self-insured layer and the amounts of excess insurance purchased are reviewed

each year, subject to management's analysis of actuarial loss projections and the price and availability of acceptable commercial insurance.

At December 31, 2025 and 2024, the estimated liability for future costs of professional and general liability claims was $897 and $860, respectively. At December 31, 2025 and 2024, the estimated workers' compensation obligation was $292 and $291, respectively. Both are recorded in other current liabilities and other liabilities in the accompanying combined balance sheets.

(10) Commitments and Contingencies

(a) Commitments

Purchase commitments at December 31, 2025, primarily related to construction and equipment and software acquisition, are approximately $723.

(b) Litigation

The healthcare industry is subject to numerous laws and regulations from federal, state, and local governments. Compliance with these laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time. Government monitoring and enforcement activity continues with respect to investigations and allegations concerning possible violations by healthcare providers of regulations, which could result in the imposition of significant fines and penalties, as well as significant repayments of patient services previously billed. Institutions within the Health System are subject to similar regulatory reviews.

Management is aware of certain asserted and unasserted legal claims and regulatory matters arising in the normal course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the Health System's combined financial statements.
