

Covenant Medical Center- Comprehensive Stroke Center

The Comprehensive Stroke Center certification indicates that a health care facility meets the highest level of stroke care and expertise.

Covenant Medical Center Comprehensive Stroke Center’s performance metrics:

Ischemic Stroke Treatment Rates*

	Covenant 2023	Covenant 2024	Texas 2024	National 2024
IV Thrombolytics	19.4%	13.4%	14.6%	15.5%
Endovascular Treatment	20.5%	19.1%	7.6%	8.5%
Combined IV Thrombolytics and Endovascular Treatment	32.7%	27.9%	20.5%	20.3%

*Rates are percentages of patients with ischemic stroke who qualified for and received treatment at Covenant Medical Center Comprehensive Stroke Center. Covenant treated higher rates of patients than both the state and national rates in all three categories.

Carotid Complication Rates**

	Covenant 2023	Covenant 2024	National Standard
Asymptomatic (Less than 3%)	0%	0%	Less than 3%
Symptomatic (Less than 6%)	2%	2.9%	Less than 4%

** Covenant experienced a lower carotid complication rate among its patients compared to national standards. Facilities must meet the national standard for complication rates of less than 3% for asymptomatic patients and less than 6% for symptomatic patients.
