When you switch between plan options or renew a monthly plan, features or credits associated with your prior plan option will no longer be available, and you are not able to switch back to some plan options. Some plan options will not allow early renewal or permit use of features after included amounts are depleted. If you transfer your number to another carrier, account will be deactivated and no service will be available. No cash redemption value. Non-refundable. T-Mobile ONE Prepaid and T-Mobile Essentials Prepaid not available for hotspots and some other data-first devices. Video streams at up to 1.5Mbps with Data Maximizer. Mobile Internet provides data only; does not include voice, messaging, or Wi-Fi services. **Prepaid Data Pass:** Service available for time period and/or usage amount provided by Pass. Licensed music streaming from included services does not count towards 4G LTE data allotment on T-Mobile's network or in Canada/Mexico; music streamed using Smartphone Mobile HotSpot (tethering) service might. Song downloads, video content, and non-music audio content excluded. For included services, see <http://www.t-mobile.com/offer/free-music-streaming.html>. **Coverage** not available in some areas. **Network Management:** Service may be slowed, suspended, terminated, or restricted for misuse, abnormal use, interference with our network or ability to provide quality service to other users, or significant roaming. During congestion, Essentials customers may notice speeds lower than other customers; customers using >50GB/mo. on all plans may notice further reduced speeds. On-device usage is prioritized over tethering usage, which may result in higher speeds for data used on device.
