

Little Cayman

Aug. 3-10, 2024

Join us as we travel to Little Cayman, the smallest of the Cayman Islands, located 150 miles southwest of Cuba, in the Caribbean Sea. Our Resort is situated on a private beach on the south shore and is bordered by the South Hole Sound, a gorgeous turquoise lagoon.

The rooms are beautifully appointed, look out on the pool and beach, and have island décor. You will immediately feel the aura of Little Cayman. And know that you have found paradise! The dining is delightful and all meals at the resort are included.

The scuba diving is almost indescribable! Those who visit the charming island of Little Cayman always yearn to return to her gin-clear waters. Bloody Bay Wall is one of the most pristine underwater sites in the world and is part of the unique reef system surrounding Little Cayman. Diving here is always rated as some of the best in the Caribbean.

With over 50 dive sites, there is a wealth of fish and marine life with shallow reefs, utterly astounding walls, and swim-throughs. Come and discover why Little Cayman's reefs have been called the holy grail of the scuba world! You'll think the fish have been trained to pose and entertain you!
