Where Will Your Adventure Take You?

TIME TO ADVENTURE LET'S VISIT

There is a whole new world to be explored underneath Grenada's warm and pristine waters. Join us and explore thirty colorful reefs steaming with diverse and fascinating marine life. There are about twenty wrecks, including the world-famous Bianca C often referred to as "The Titanic of the Caribbean". Grenada is also home to the world's first underwater sculpture park, a collection of concrete sculptures created by international artist Jason Decaires Taylor. We will be guests at True Blue Bay Boutique Resort and diving with Aquanauts. You will experience uncompromised service and spectacular diving. With one of our experienced instructors on the trip you can also do some training in these beautiful waters.

Don't miss out on this incredible adventure!!
