As God shaped each phase of creation He observed the work and confirmed that it was good. *And God saw the light, that it was good: and God divided the light from the darkness.* (Gen. 1:4) It wasn't just the fact that what He did was done properly, even more significantly it was good for its express purpose: a habitat for man. It was as if God was rejoicing with every step of creation that moved Him closer to the family He would create.

God wasn't just building a planet; He obviously had many planets. No! He was building a planet fit for mankind. In fact, every planet, every universe, and every galaxy in existence is there to support God's purpose for Planet Earth. Science tells us that all of creation plays a role in supporting life on Planet Earth. Were it not for everything else that exists Planet Earth would not maintain the perfect, delicate balance required to sustain human life!

Atheist scientists have often said it is foolish and egotistical to think that out of all the known planets we are the only life, and even more vain to think that Earth is more important than the other planets. After all, according to them we are simply a biological accident, a single-cell amoeba that crawled out of the swamp and evolved into a human - which means we are no more significant than any other animal.

The Atheist scientists are unaware that God Himself designed Planet Earth specifically as a habitat for mankind and as the eventual home of New Jerusalem. Planet Earth isn't just special; it is special to God, special for man, and special for God's eternal plan. The incredibly unique environment that it takes to sustain human life is one in an endless number of evidences that man is special to God: we were created in His likeness, He has given us stewardship of this planet, we are His family, He sent Jesus to die for us, and we will spend eternity here with Him in the new (renewed) earth. (Rev. 21:1-3)

Planet Earth was designed in a way that man could not exist without all of its unique features, nor could Earth

exist without man. Earth is an interactive planet that can only coexist with man inhabiting it! As the science of Quantum Physics evolves, it continually reveals from a scientific perspective things God's Word has said for thousands of years. We really do have dominion over Planet Earth. Mountains really do move in response to our faith. We live in an interactive world that is designed to respond to the beliefs of its inhabitants.

When we think of the word "faith" we tend to think of something that is being relegated to the realm of the religious. But when we say the word "belief" we immediately realize that everyone has beliefs. We tend to see one as religious and the other as generic to all mankind. However, what we fail to realize is that in the Greek language of the New Tes-

tament they are one and the same word! Faith is not something we operate only in relation to God and His Word. We are exercising faith in every belief and our faith is shaping and changing our world either by choice or by default.

So we realize that faith is not what occurs only when we take out our Bible, find a promise of God, and begin to quote it. No! Faith is what occurs every time our thoughts and deep feelings harmonize. And whether good or bad, whether life or death, those harmonized thoughts and feelings interact with the encoded world around us and begin to create after their own kind!

Proverbs 18:20-21 in the Amplified Bible says, *A man's [moral] self shall be filled with the fruit of his mouth; and with the consequence of his words he must be satisfied [whether good or evil]. Death and life are in the power of the tongue, and they who indulge in it shall eat the fruit of it [for death or life].* This verse says it as plain as it can be said: your life will be filled with the consequence of your words, good or bad, life or death, like it or not! In the New Testament Jesus explains that this happens because words come from the beliefs of the heart. The heart is the seat of our beliefs i.e., faith. Those

TESTIMONIES

FREE HEART PHYSICS!

My husband and I are so thrilled with the free Heart Physics *Wisdom for Healing* and will be faithfully watching and growing in the Lord. We are sharing it with our family so they can watch, too. Thank you so much! ~DR~

May God bless you, Dr. Jim Richards! I will be one of the grateful participants. I am not in a position to pay for it at the moment, and I *will* be watching it online. Thank you so much! ~AG~

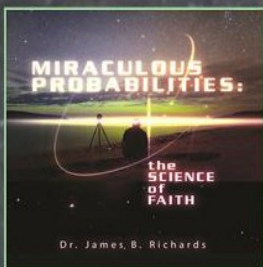

Thank you, Jim, from my permanent place in bed with MS and wanting to be healed for sure, very sure. I will be watching! ~AM~

Dr. Jim,

I was so happy when I got your email; I do not know how to thank you enough for this free opportunity to receive from Heart Physics! I heard about it and I wanted so much to have it but because of certain circumstances I could not get it.

I had a chance to watch your first message in this series tonight and there is an excitement in my heart about it. I am looking forward to hearing more.

I have been listening to your weekly series and have read some of your books which has helped me understand who I am in Christ and what I have in Him. Thank you for everything! ~CP~

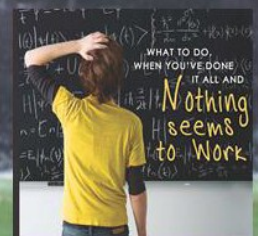

MIRACULOUS PROBABILITIES: The Science of Faith

I have so enjoyed the series *Miraculous Probabilities*. It is a huge paradigm shift for me and very exciting to learn. I've heard all of this for years from one of my sisters but never from a Jesus point of view. Now I have to take responsibility for even more of what happens in my life. Your teachings are always creating more work for me, but it's all good!

Thank You! ~DW~

My dad sent me the series, *What to Do When You've Done It All...* and I have started doing affirmations to change my heart. Listening to *It's a New Day* about The Gospel of Peace has been helpful, too. It provided supernatural peace in our lives through God working through it. I finally discovered faith righteousness through the free online teachings. It has helped me deal with my feelings that fluctuate between high and low, but allowed me to believe that I am righteous even if I don't act like it, and that I can't lose my salvation. Thanks a lot, Impact, for all the teachings and programs!

Blessings, ~RB~

Secretly Famous INTERNATIONALLY UNKNOWN

For the last 10 years I have been writing and recording music. It has been one of my many life long dreams and God has used my music to help us reach many people. This July 8, I am beginning a new chapter in my music and I want you to be part of it and help us with it.

I have for many years now written songs to two audiences at the same time, the church folks and the folks that don't go to church. In 2010 the Lord spoke to me to do a CD that would appeal to the folks that don't go to church. I am once again utilizing the help of the Grammy award winning producer and my friend Jim Gaines. Jim produced my Red CD and he and his wife Sandy have become good friends to Sherri and I.

I will also be enlisting the marketing services of other industry professionals to help us in making the music industry gatekeepers aware of this new project. This will include worldwide radio promotion and press publications.

So here is the deal I am committed to this project with my whole heart. It is my hope that it will open many opportunities to us to perform in hundreds of non-church venues around the world. Then from those performances we hope to build a bridge for thousands to Jesus. That is the reason I do this stuff.

It will cost us \$15,000.00 to create and market this project and I am looking for people who are willing to sow into this soul winning (out of the box) opportunity. So if you're willing to cover the entire budget or part, large or small it will all help and all make a difference. Consider making a monthly commitment of \$100.00 a month for the next year or \$1,000.00 per month. As soon as we have enough funds will to start we will begin recording. Most of the music for the CD is already written.

I know this stuff works. I can today take you to meet people who are in the kingdom today because we were in some club someplace and just helped them to take a step in the right direction. Think of the marriages that will be saved, the kids who will get their parents back just because they heard the Good News. Can you tell that I am excited and that I believe in this. So how about it. You got some crazy faith? We do. So how about sowing a big seed into this? Who knows, maybe I will no longer be Secretly Famous - Internationally Unknown.

For the harvest,
Jimmie

P.S. Secretly Famous - Internationally Unknown is the working title for the CD.

Everything is Energy

God organized the energies to transform that which is unseen into that which is seen. (Heb.11:3) Genesis 1:2 says, *And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters.* That word "moved" could be translated as "vibrated." The Spirit vibrating on the water seems to be connected to the fact that God spoke creative words; in fact, it could be that the vibrations were an exact frequency expression of the words God spoke.

Today we understand that all things – every animal, vegetable, and mineral – have their own unique frequency. Everything not only **has** its own frequency, everything **is** a frequency. Likewise, every human being has his or her own specific frequency that is more unique than our fingerprint. But it doesn't stop there. Every organ in our body has its own specific frequency. In energy medicine we know that disease begins when cells in an organ begin to vibrate at a frequency that is

not in harmony with the other cells of that organ. It seems that your organs singing out of key is an expression of sickness.

Scientists now tell us that each planet in our solar system maintains a particular frequency and that frequency affects Planet Earth which, in turn, affects our physical health. Anything that affects the frequency of our cells affects our health. Anything that supports or retunes our cells brings health and healing. Every herb or allopathic medicine actually works because of its frequencies.

X-rays are frequencies that are able to penetrate the outer layer of the body and make it possible for us to see what is happening within the body. For all the good they do, they also do much harm. If a person is exposed to x-rays for too long they become sick and can die! Why? Frequencies!

There is a Law of Physics called "Entrainment." This law says that

when different frequencies are exposed to one another, in time the weaker frequency will come into harmony with the stronger frequency. This was first discovered by a coo coo clock maker who realized that when he set his clocks the pendulums would all swing and tick at different intervals, but when he left the room and came back all the pendulums were swinging and ticking in identical patterns. This entrainment is exactly what happens to the cells of our body when constantly exposed to dissonant frequencies.

Lighting, music, television, electricity - everything in our world emits a frequency that is either supporting or destroying our health. The pesticides on our food, the allopathic drugs, the recreational drugs, and the food we eat all have unique frequencies. Initially this compels us to throw up our hands in hopelessness and scream, "I don' have a chance; everything is killing me!" But don't despair, we have a secret weapon.

Every word, emotion, thought, and belief also has a frequency. And we know that the deep feelings of the heart create a frequency that is strong enough to overcome all that would take our life. *No weapon formed against me shall prosper.* God never leaves us defenseless, hopeless, or powerless. The weapons of our warfare are not natural. By pulling down negative, destructive thoughts and imaginations that are contrary to the finished work of Jesus I can create my own 21st century deflector shield that keeps me impervious to those destructive influences.

After more than thirty-five years of studying health and medicine I know for a fact that nothing affects your health as much as your feelings and emotions. There have been many significant studies in longevity that agree we should be able to live several hundred years. In attempting to

study people who live long and healthy lives there is one common denominator: they are happy! Who would have believed that God actually knew what He was talking about when He inspired these words: *A happy heart is good medicine and a cheerful mind works healing, but a broken spirit dries up the bones?* (Proverbs 17:22, AMP)

The Bible has quite a lot to say about the link between health and emotions. When we think healthy, positive thoughts, inspire positive emotions, and maintain healthy beliefs we are taking medicine, but not just any medicine, God's medicine based on His prescription for health and healing! This is not just positive thinking; this is Bible, and it is science - cutting-edge science.

When God created the world, He first created an energetic field. Then He spoke into that field encoding it with creative information. But it didn't stop there. His words were filled with creative life i.e., power. This means that the world was filled with information impregnated with the power to bring it into being.

Science tells us that all the power is in the empty space. In one centimeter of empty space there is more power than in a million, million tons of uranium. If the matter of the human body (which there really isn't any) were compressed and all empty space was removed our body would be about the size of a golf ball. In all that empty space within our body is more energy than in all the known matter in the universe. Maybe when we're praying for power to come for our healing we should instead be praying for wisdom about how to access that power.

James says that when we enter into temptation we should seek God for

wisdom. *If any of you lack wisdom, let him ask of God, that gives to all men liberally, and upbraids not; and it shall be given him.* (James 1:5) Temptation is not merely the solicitation to evil. The word "tempt" means to go through a trial, to be tested, scrutinized, or anything that makes you have to strive. This could be sickness, a financial crisis, trouble in our family, or virtually any problem that causes stress! James says, by the Holy Spirit, when you face these kinds of problems you need wisdom.

When we read the Bible, pray, or listen to preaching there is one question we should constantly be asking ourselves and the Holy Spirit, "What would this look like if I were actually attempting to put it into practice in my life?"

The church James was addressing had developed the idea that hardship was God testing them. The entire book of James screams back, "No! God is not your problem!" He says you need wisdom. Wisdom is not about the depth of knowledge one can quote or some deep philosophical grasp of theory. Wisdom is when information is combined with practical application. When we are in trouble we need to know how to take God's truth and put it into practice in a way that actually solves the problem!

In the Amplified translation of the Bible in John 7:17, Jesus said, *If any man desires to do His will (God's pleasure), he will know (have the needed illumination to recognize, and can tell for himself) whether the teaching is from God...* James' and Jesus' words have strong similarity. Jesus is saying if you had any intention of putting My words into prac-

tice you would know whether they are from God or not. James is saying if you would accept that God is good and only good and start trying to apply God's Word you would be delivered from these trials.

When we read the Bible, pray, or listen to preaching there is one question we should constantly be asking ourselves and the Holy Spirit, "What would this look like if I were actually attempting to put it into practice in my life?" Your personal Mentor and Teacher, the Holy Spirit, would show you how to apply it so it would work in your specific situation. The Holy Spirit is here to lead us into all truth. I often hear people say, "The Holy Spirit showed me what this scripture really means." In other words, He is here teaching me about theology, and obviously what I believe is right... after all, the Holy Spirit told me it was. Then the most amazing aspect of this egotistical headlong dive into self-aggrandizement occurs. They still can't get their life to work. I don't think the Holy Spirit is trying to lead me into the definition of theology as much as the application of theology. He wants to lead and empower me in the application of truth! When I trust God's Word enough to actually apply it I experience the inherent power of that Word!

There are two kinds of power the Holy Spirit works with. One is only available to the believer and the other is available to anyone (although few believers or non-believers actually believe or utilize it knowingly). For personal strength and empowerment the Holy Spirit works with the grace of God. Grace is the power, the strength, the capacity to be all that God says I am. This is a power that works in my heart. This power is not available to the non-believer. This power makes me bold. It makes me confident, strong, and capable of functional righteousness. But there is

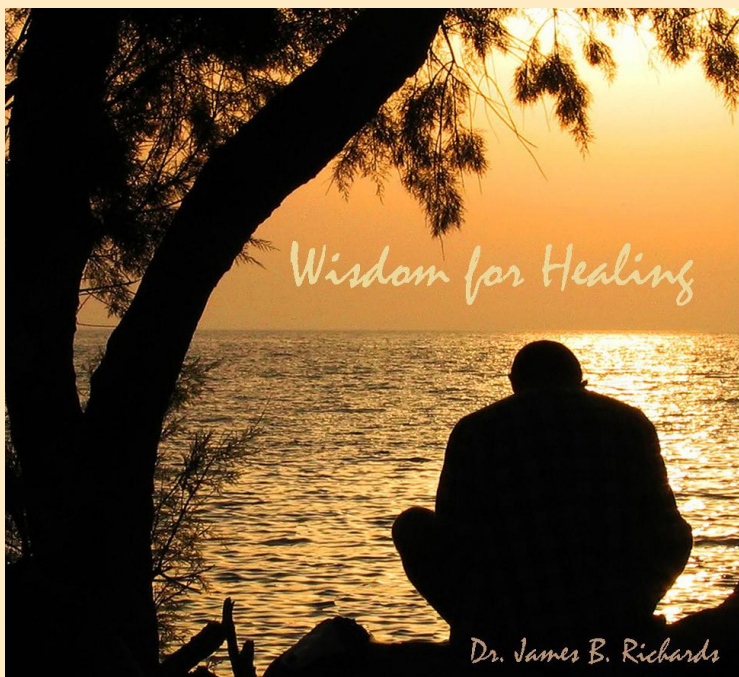

Negative experiences that occur from conception throughout our entire life are buried in our physical body, stored as frequencies, and imprinted onto our cells. These negative experiences are so powerful they actually influence the programming of our DNA, thereby shaping and programming our entire life.

Every cell and each organ of the body must vibrate at specific frequencies to maintain optimal health; therefore, exposure to any dissonant frequency can cause serious health problems. Every word, thought, emotion, and feeling has a frequency that either supports health or destroys it.

Unless destructive frequencies are transformed they *lie in wait for our blood!* These frequencies are stored as cellular memories that not only undermine the function of healthy cells, they reemerge in the form of feelings that become part of our belief system even though they were never chosen and may be completely irrational. As feelings they drive our behavior, dictate our health, and influence every aspect of our life. These buried beliefs are seldom remembered but never go away. They reemerge as feelings that affect the way we think, talk, or act and influence the way we make decisions. Since every seed bears after its own, these subtle feelings drive us in behavior that always produces after its own kind. Until we can change our feelings our life will be an ever-growing syndrome of more of the same just as Jesus warned in Mark 4:24-25.

Wisdom for Healing follows the scriptural admonition to seek wisdom when we are facing difficulties. Wisdom is the practical application of truth to solve the problem. You will learn firsthand how to recognize these subtle negative feelings before you act on them. You will discover how specific feelings influence specific dis-ease! And you will learn powerful tools to use to stop those feelings.

This is your chance to end life-long negative feelings and transform them into positive, healing, productive feelings. Many of your repeated physical problems will simply disappear as you transform the root feelings that feed them! This program is an absolute must for everyone who intends to live a healthy physical and emotional life!

Series Available Without Meditation Exercises for a Limited Time Only!

Series Available 11.16.11

Holidays can be a time of incredible joy or tormenting misery. For some, it is a time of bad memories and negative feelings. For others, there is a desire to make the season more spiritual and meaningful. Still others struggle to find ways to meet the needs of everyone in the family. And nearly everyone struggles with over spending. Regardless of which category you fit into, you can take absolute steps to create wonderful holidays.

This series of messages has become a real turning point for hundreds of people. Almost immediately people started taking steps to overcome the negative aspects of the holiday season. Join with those who have decided to Create Happy Holidays:

- Free yourself from holiday depression
- Create a holiday that the whole family enjoys
- Break out of the Christmas financial trap
- Bring more spiritual meaning to the season
- Make every gift meaningful
- Create your own family traditions
- Bring spiritual value to the season and still have Christmas fun

"For years the Christmas holidays were tormenting. Every year I struggled with depression, frustration, and anger. But with the help of my family and close friends and by making new decisions, now I have wonderful holidays and you can too. I cannot wait to share this life-changing series with you!" Jim Richards

The brain simply believes what you tell it most. And what you tell it about you, it will create. It has no choice. ~ Chandler Fuller

The Encoded Universe

(con't from page 3)

words that flow from our deep feelings are just as much an effort of faith as it would be if we were quoting Scripture. These faith-filled criticisms, complaints, and self-destructive remarks are shaping the world wherein we must live.

The world was created by the Word of God. In other words, God had an intention in His heart. He operated all the principles of deliberate faith. He saw the end that He desired. He gave birth to it in His own heart. When He spoke the frequencies of those words flowed from His mouth. (Remember, everything has a frequency which is why everything bears fruit after its own kind - its own frequency.) Those words encoded the universe with power and information. All the power and all the frequencies used to create all things is still encoded into all the universe which is why when we who are created in the likeness and image of God believe anything – yes, anything - our beliefs interact with this encoded universe and begin creating what we believe.

We all have faith; everyone believes something. Our faith always works and our life is the proof. Our life is a mirror image of what we have FELT all along. How many times have you heard someone say, "I tried to have faith, but I felt it would come out like this all along?" That person thinks their faith failed; but your faith never fails, and you'll see this once you get rid of your religious definition of faith. Nothing encourages me like the areas where my life is a mess. After I get over my negative emotions about my failures I am reminded that I created the mess with my own faith. If I created the mess with faith, I can create something else with faith!

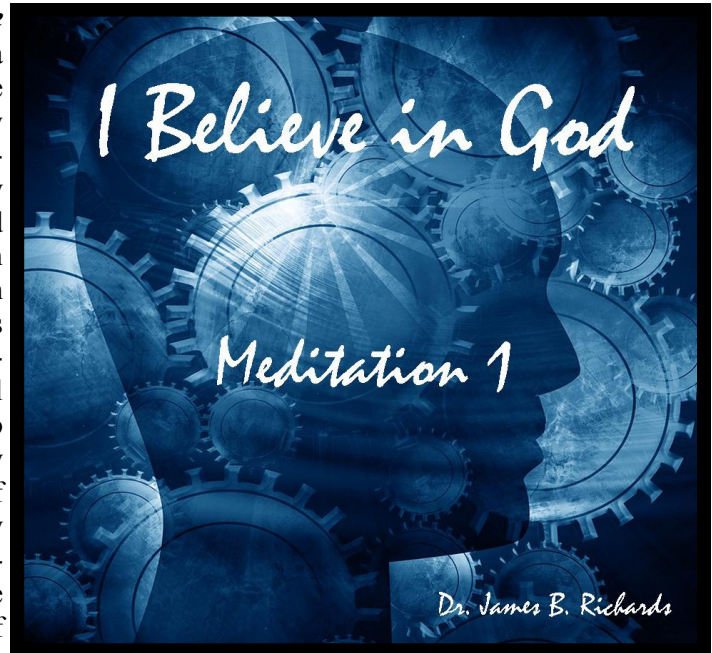

You are always in faith, always creating. The question is, "Are you creating by choice or default? Are you creating what you want or what you don't want?" God, our Creator, encoded the world with the basic programming to provide all we would ever need, but the

choice is ours whether we will make that work for us or against us. Take the reins of your life and take your royal position in the family of God! Create a

world that is in harmony with God's promises, with God's wisdom, and with God's quality of life!

The *I Believe* in God Meditation is a Heart Physics® exercise developed during my personal process of getting healed of a kidney disease in 1983. God revealed Himself through His name through which there is no separating His promises from His identity. Jesus came to reveal the identity of God to mankind. We can only know Christ as He is if we know who God really is. Through the inheritance of Jesus we share in all the promises of God. All of the promises

of God are revealed in His name. ***I Believe in God*** is one of the most powerful meditation exercises that can be used to experience physical health and healing; but it doesn't stop there, it can actually affect our faith for every area of the inheritance.

This exercise is designed to be used simultaneously with the current series, ***Wisdom for Healing***. This powerful series provides the truth of God's Word regarding how to deal with any hardship through the Put Off /Put On process. Very few people master this process largely because it becomes positive thinking rather than a faith-based exchange founded on the finished work of Jesus. ***I Believe in God*** is part one of a five CD series of Heart Physics® Meditations designed to transform your life at the deepest core of your beliefs. Few things you ever do will affect your faith like the ***I Believe in God Meditation***.

Through this special offer the teaching of the newest Heart Physics Program is currently available to you FREE every Friday night until Wednesday morning at **impactministries.com**. In addition, the ***I Believe in God Meditation*** is being made available for you to purchase without the expense of buying the entire program (a \$249 value.)

Start today and enjoy this incredible journey!

Blessings to You!

Everything is Energy

(con't from page 7)

another power that is available to everyone and it was made available to all men at creation. It is the power to interact with all created things in a way that is what most people would call "miraculous." This power was encoded in the universe. By the very nature of creation of the physical world and the creation of man in God's own likeness, man has authority in the Earth. By our thoughts, feelings, words, and emotions we interact with the encoded world around us. Our faith, deep beliefs, and feelings tap into the intelligence and power of the subatomic world, the world that Hebrews calls *the unseen*. (Heb. 11:3)

The greatest convergence of power in the world today should occur when a believer is born again, baptized in the Holy Spirit, experiencing our new identity in Christ, and believing in the inherent power available to us through creation. When we harmonize our beliefs with the information God encoded into creation we access all the limitless power of creation. In other words, that power in the emptiness in your cells that is greater than all the known power in all the matter in the universe is available to us. When our words harmonize with God's encoded truth we harness the inherent power of creation. This is how all things become possible. Jesus said, *But you shall receive power when the Holy Spirit has come upon you.* (Acts 1:8) The word "receive" is not a passive word, nor does it explicitly mean that the Holy Spirit is bringing this power to us. This word for receive comes from the Greek word "lambano," meaning to take hold of something. In the context of this verse it is saying that when the Holy Spirit comes upon us we will take hold of power. The word for power in the original is "dunimas" which, according to Thayer's Lexicon, means "the inherent

power residing in something by virtue of its nature."

There is every possibility that the Holy Spirit gives us the grace i.e., the ability and capacity to take hold of the power that God encoded in our being as well as the power encoded in all of creation combined with the power resident within the Holy Spirit to make us the most powerful beings to ever inhabit Planet Earth. We should have the power to accomplish any conceivable miracle. That's where wisdom comes in. When we believe and apply God's truth we experience the power of that truth.

Religion, philosophy, and culture have programmed us to think that we are not who we are in relation to our Creator, and we are not who we are

Your miracle is not far away. It will be in your willingness to choose God's way and believe it in your heart; then it is as close as your heart and your mouth.

in our new identity in Christ. Instead of allowing love and compassion mixed with absolute confidence in the perfect work of God to empower us into making godly choices and activating all these forms of power, we pray and wait and hope God will violate His Word and act in our behalf, doing those things He has entrusted us to do! Faith has been made hard. The formulas are endless and seldom work. The truth is, miracles should not be hard and faith should not be something embraced by few. Religion makes it hard, God made it easy!

Your miracle is not far away. It will be in your willingness to choose God's way and believe it in your heart; then it is as close as your heart

and your mouth. *For this commandment which I command you today is not too mysterious for you, nor is it far off. It is not in heaven, that you should say, 'Who will ascend into heaven for us and bring it to us, that we may hear it and do it?' Nor is it beyond the sea, that you should say, 'Who will go over the sea for us and bring it to us, that we may hear it and do it?' But the word is very near you, in your mouth and in your heart, that you may do it.* (Deut. 30:11-14)

The power of God is everywhere, faith is easy, and wisdom always works. When I believe and speak God's words, I amplify the same frequencies that created all things onto an interactive world that will entrain itself with the power of those words amplified by my beliefs. I will change the frequencies in my cells causing my entire body to sing on key like a beautiful symphony. I will shape the seen world around me by the energy imposed upon it. God's wisdom is always the same: hear the truth, believe the truth, apply the truth, and speak the truth.

This article is based on the new Heart Physics® teaching series entitled *Wisdom for Healing*. For details see the ad on page 8.
