

Week 11

- Using the thumbnail drawing you chose from week 10, make a fully rendered, full size drawing of the subject.
- Keep the drawing in grey scale
- Work with the principles in mind, focusing first on dark and light shapes, ensure that you are working with a full value range
- Ensure that your light source is easy to read and understand
- Use hard, soft and lost edges to focus the viewer's attention to the areas of your choice.

Be sure to take your time on this drawing as we will be building from it in our final assignment.
