

■ INTEGRATED
RECTIFIER TECHNOLOGIES INC.

Quality Policy Statement

IRT is committed to achieving a high level of customer satisfaction and leadership in the market by providing effective and timely support to our customers throughout all facets of the business, products that are designed & manufactured with reliability & longevity in mind, reasonable prices, minimum manufacturing times, and on time product supply.

Quality Objectives

In order to achieve the highest possible quality standards, IRT has the following objectives that advocate key principals of our Quality Management System:

- Complete Understanding and Verification of Customer Requirements
- Excellent Supplier Partnerships
- Well Trained and Engaged Personnel
- Defect Free Products; No Returned Materials or Products
- On-time Delivery
- Product and Process Repeatability
- Continuous Improvement
