

# Field Service Cloud

The all-in-one platform connecting your landscape office, crews, and profits.

## Streamline Daily Operations

### Scheduling & Dispatching:

Replace whiteboards with a visual, drag-and-drop schedule that syncs instantly to your crews' mobile devices.

### Task Management:

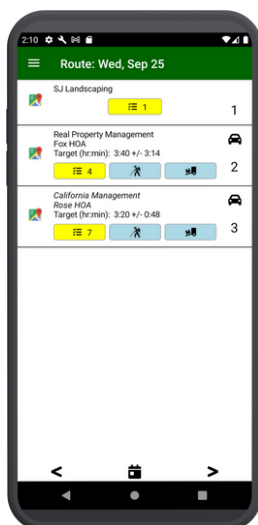

Track every client request and field issue in one central hub so nothing ever slips through the cracks.

### GPS Crew Tracking:

Gain live visibility of your crews to verify service, improve route compliance, and ensure accountability.

### Field Assistant Mobile App:

Empower crews with a simple app (iOS & Android) that automatically switches to Spanish for easy adoption.

Empower Crews with Live Schedules

## Increase Profitability & Get Paid Faster

### Estimates & Invoicing:

Combine on-site material tracking with powerful estimating tools to create accurate, professional invoices for all billable work.

### Automated Timesheets:

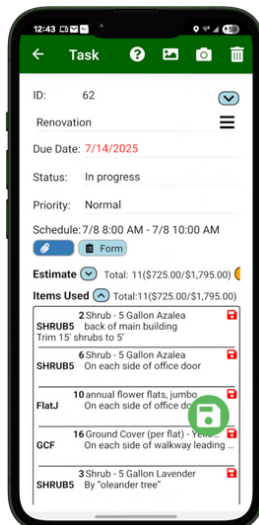

Eliminate time theft and hours of manual data entry. Use GPS-verified time for perfect job costing and simplified payroll.

### Jobsite Mapping:

Bid with precision by calculating accurate turf and material square footage from satellite maps, protecting your margins on every job.

### QuickBooks Integration:

Seamlessly sync customers, items, estimates, and invoices with QuickBooks Online to eliminate double-entry and accelerate your cash flow.

Track Materials Used for Invoicing

## Manage Specialized Work & Compliance

### Irrigation Management:

Centralize all irrigation data—timer settings, asset maps, water readings—to prevent knowledge loss.

### Pesticide Tracking & Reporting:

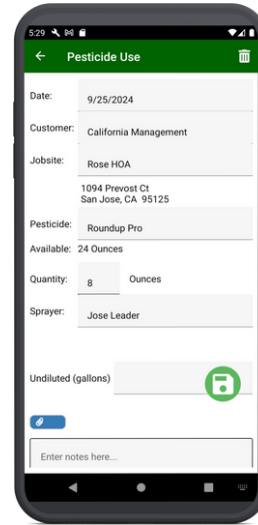

Automate compliance by capturing pesticide use logs on-site and generating regulatory reports (including direct submission for California PURs) in minutes.

### Custom Digital Forms:

Replace paper forms for inspections and safety audits with powerful custom mobile forms.

### Management Reporting:

Move beyond guesswork with clear dashboards and reports that give you actionable insights into job profitability, service levels, and crew performance.

Simplify Pesticide Reporting

*"I can't believe how much more organized our crews and managers are with this program. The crews and managers were reluctant at first, but now we find it much easier and efficient in tracking our crews and we love the ability to add tasks. We love the geofence task reminders and timesheet reports. This is a great program!"*

— Jason Smith, Del Conte's Landscaping
