DESCRIPTION

In 2017 the American Institute of Architects (AIA) updated its contract documents as part of its regular 10-year revisions. These well-regarded, industry standard agreements take into account recent developments in the design and construction industry. This program focuses on identifying and reviewing the most significant updates in the A201 (General Conditions of the Contract for Construction), B101/B103 (Standard Form of Agreement Between Owner and Architect) and C401 (Standard Form of Agreement Between Architect and Consultant). Attendees can expect to learn about the modifications made to the 2017 agreements and the implications to the industry.
