KCMBA DIVERSITY ACTION PLAN

In 2003, the Managing Partners Committee of the Kansas City Metropolitan Bar Association developed and implemented an action plan to promote diversity in the Kansas City legal community.

As a result of this first Action Plan, a number of efforts were launched including, the Heartland Diversity Legal Job Fair (HDLJF), numerous panel presentations to the Bar, clerkship programs, and general promotion of increased awareness of the value and importance of diversity in the legal profession.

In 2009, the Managing Partners Committee renewed its commitment to the original goal of promoting diversity in the Kansas City legal community and focused its efforts on retention, continued recruitment of diverse attorneys, and broader adoption and implementation of best practices as identified by the participating law firms. In addition, the Managing Partners Committee adopted a broader definition of diversity that included, without limitation: race, color, religion, gender, gender identity, sexual orientation, national origin, disability, marital status, age, and veteran status ("diverse attorneys").

These efforts have yielded significant progress. Across the board, from 2009-2015, there have been gains in the number of attorneys of color, women attorneys, openly gay and lesbian attorneys, disabled attorneys, and other diverse attorneys practicing at the participating firms. Additionally, the majority of the participating firms have created and implemented mechanisms for promoting diversity within their firms. These mechanisms include the creation of standing diversity committees, diversity hiring initiatives, and the creation of mentoring programs for diverse attorneys to encourage retention and promotion.

The Managing Partners Committee renews its commitment to the promotion of diversity in the legal community and will continue to focus its efforts on the retention and continued recruitment of diverse attorneys.
