Version 1.0

QUICK START

To get started with your new weight scale, begin by removing the plastic strip under the battery cover. Next, select your preferred weight measurement unit (pounds, kilograms, or stones) by pressing the 'UNIT' button located on the back of the scale. Place the scale on a flat surface, step on and off to set it, then step on again for weight reading. Remain still as the display counts up to your weight, and once locked, your weight will be displayed. The scale will automatically turn off after use.

Battery included

HOW TO USE

Setup

- Remove the plastic strip under the battery cover. You may need to take off the battery compartment cover to avoid breaking the strip.
- The scale has been set to read weight in pounds, but you may select kilograms or stones (1 stone = 14 pounds). To switch between pounds, kilograms, or stone, press the 'UNIT' button located on the back of the scale.
- Place the scale on a flat surface and avoid using it on carpeted or uneven floors as that may affect the accuracy.
- Step on the scale (disregard the reading) and step off. This process ensures the scale is set and is now ready for use. Do this whenever the scale is moved. At all other times, step straight onto the scale.
- Step onto the scale platform and remain still. The display will count up to your weight. The display will flash when the weight is locked. Your weight is now displayed.
- The scale will turn off automatically.

Attention

- Don't place anything on the scale when not in use to avoid over-consumption of power and malfunctions.
- Try to stand still in the middle of the platform to avoid slipping.
- Stand on the scale with good balance to avoid inaccurate display reading.
- Avoid shocks or drops onto the scale.
- Keep the scale away from moisture and do not wash it under water.

PRODUCT FEATURES

- Clear and large digits on the display for easy to read weight.
- Maximum weight capacity of 400 lbs (or 180 kg).
- The lightweight platform is durable and designed with a slim profile of only 1.17 inches, making it easy to step on and off.
- The scale provides precise weight measurements with increments of 0.2 lb (or 0.1 kg), ensuring accurate readings for tracking your progress.
- Switch between lb, kg, or stone measurements.
- Includes a lithium battery.

PRODUCT SPECIFICATIONS

- Name: Weight Digital Scale
- Capacity: 180kg / 400 lb
- Graduation: 0.1kg/0.2lb
- Battery: 1 x CR2032
- Operating Temperature: 10-40 Centigrade / 50-104 Fahrenheit
- Unit: KG/LB/ST
- Auto Off: 8 Seconds
- Possible Low Tension: "LO"
- Maximum Capacity Reached: "---"
- Error: "ERR"

PRECAUTIONS

- Do not immerse the device in water to prevent the risk of a short circuit in the internal circuit.
- Do not disassemble or subject the device to impacts, as this may cause damage to the internal components and compromise functionality.
- Place the device away from flammable and explosive liquids, gases, or explosives to ensure the safety of the product and its surroundings.
- Do not place magnetic cards, magnetic stripe media, or precision machinery too close to the device.

WARRANTY

We focus on our product quality and our entire team is committed to providing products that satisfy our customers. That's why this product includes a one-year warranty from date of purchase. If you've got any questions, comments, or concerns about your purchase, feel free to email us at support@keyscaper.com or contact us at keyscaper.com.
